[Despatch Abstract.]

Madras Educational Service - Recruitment of experts from abroad for Engineering Colleges - Papers recorded.

5/2/72

Copy of Express letter No.149/RC., dated the 26th September 1945, from the Government of India, Department of Planning and Development, New Delhi, to all Provincial Governments.

...

Sub:- Obtaining services of experts from abroad.

...

Continuation of this Department's letter No.149/RC, dated the 14th July 1945, Intimation has been received from Washington that as American Forces now being rapidly demobilised there is reasonable chance of getting experts from America if necessary action is taken quickly. Any delay will result in best men being absorbed in American Industry now in progress of rapid reconversion. Requirements of Provincial Government may be sent as early as possible to the External Affairs Department for communication to Agent General in Washington.

Sub:- Obtaining services of experts from abroad.

...

In continuation of my letter No.149/RC, dated 28th May, 1945, I am directed to enclose the following extracts from letters from Mr. Iengar, for the information of the Provincial Government.

The following are extracts from letters from Mr. Iengar:--

1. Letter dated 19th June, 1945:--

" I was able to make a large number of contacts in the U.K. but within the time available I could only skim the surface of the various problems that we were dealing with; for instance on the problem of obtaining experts from the U.K. it became quite clear that the bulk of the work would in fact have to be done by the High Commissioner. This was because the position with regard to the recruitment of high level technical personnel in the United Kingdom is at the moment one of very great difficulty. Ministry after Ministry informed us that the manpower situation is very tight and will not get easier until from six to nine months from now by which time it is expected that a number of technical officers will be demobilized from the defence services. I have from time to time written or telegraphed to various departments and provincial Governments summarizing the results of my talks with the different Ministries in London, but I suggest that you now inform them that in no case was I able to complete the task in the sense, even when I was authorized to do so, of settling the terms and selecting the personnel, and that I have left the matter to be pursued by the High Commissioner. In order that there may be no lack of continuity I almost always used to take with me a member of the High Commissioner's staff who deals with establishments, and where I did not take him with me, I have informed him of the result of my discussions".

2. Letter dated 21st June, 1945:--

"When we arrived in the United States we were under the impression that it would not be difficult to get the small number of experts that we were looking for. I have discovered, however, I confess somewhat to my astonishment - that it is even more difficult to get anybody in this country than in England. The reasons are twofold:--

(1) that a very large number of high grade technicians

PTO

in all fields are serving either with the occupation forces in Europe or in the Pacific, and when they are demobilized they would like to come back home and spend their time here for a year or two rather than go out again to a new country;

(2) a constitutional difficulty. A person in Federal employment in this country cannot accept employment outside Latin America, China and the Phillippines. If he wants to accept employment outside these countries he has got to resign his job here. There has from time to time been talk of introducing a bill in Congress for widening the scope of the existing legislation and enabling Federal employees to accept employment in any country in the world, but legislation here is a very slow process and it is not known when it will be put through.

The Agency General have, I find, taken very energetic steps to pursue enquiries for all technical persons required by the Government of India, but they are up against difficulties which are wholly beyond their control. However, we are all doing our best.

2. To avoid delay in referring individual cases, where additional co-cessions may be asked for by recruits from the United Kingdom the Governor General-in-Council, has also decided that the High Commissioner may in his discretion include an outfit allowance, calculated at the following rates, the terms of an officer's contract.

Pay of the Officer as stipulated in the Contract.	Amount of outfit allowance
Less than Rs.500	£ 15
Rs.500-999	£ 25
Rs.1,000-2,499	£ 50
Rs.2,500 and above	£ 75

3. A further point which has been considered in this connection is whether the High Commissioner and the India Office should be given similar authority to accept on behalf of Government of India the liability to pay life insurance premia on behalf of any officer. It has been decided that this concession may also be granted without reference to the Government of India in the case of any officer in respect of whom the High Commissioner or the India Office is satisfied that the conditions of service in his previous employment provided for this benefit and that the scale of insurance is commensurate with the pay of the post and the nature and risk of the durites under Government.
