Board High School, Hoobathalai - Levelling of playground - Application for grant

Ref: Letter R.C.No.E.A./416/43 dated 1-9-44 from the President, District Board, the Nilgiris. ---

Submitted.

3.95 acres of land were alienated by the Collector to the Board High School, Hoobathalai in 1933 and a subsidy of Rs.1,840/- from Provincial funds was sanctioned towards the cost of laying out the playground - vide G.O.No.1603 Edn., dated 22-8-40. The President reports that the area of the land levelled with the Government grant is only 99 cents and that the present proposal is to level 35 cents of an adjacent land which has also been alienated to the Board High School by the Collector. The present strength of the school is 355 and it is reported that the area of playground levelled so far is not sufficient for the present needs. Levelling an additional portion of land to make it fit for use as a playground is therefore necessary.

3. I, therefore, recommend that a subsidy not exceeding Rs.2,625/- may be promised to the District Board for levelling the playground. The President may be advised to forward the detailed estimate for the work and a copy of the resolution of the District Board agreeing to meet one half of the cost from the Board's own funds, at an early date, as these have not been received.

4. I am including the scheme in Part II of the Budget Estimate for 1945-46 in anticipation of Government sanction.

Sir, Subsidy - Board High School, Hubbathalai - Playground -
Levelling of.
Ref:- Government Memorandum No. 47434-B/4-1 Edn.,
dated 13.10.1944.

I have the honour to state that the aggregate area of land acquired
is 3.98 acres of hilly ground of which 99 cents have been made fit for
being used as play ground from the half grant of Rs. 1840/- sanctioned for
the work turned out to the extent of Rs. 3680/- in 1940. But it is
reported by the Headmaster that this levelled area of 99 cents is not
enough for the present strength of 355 pupils. So it is now proposed to
cut the hill in the adjoining portion to the extent of 35 cents which
would give a further area of 100 cents of level ground for the boys to
play. The high cost of the estimate is due to cutting the hill to an
average depth of 20 feet in hard stiff soil with the out crop of rock in
the middle over an area of 116 x 132 Sqft. In 1940 for levelling the
playground to give an effective area of 99 cents the cost was Rs. 3680.
The present schedule of rates is 37 1/2% higher than the schedule of rates
of 1940 and thus cost works out to Rs. 5060 (3680 + plus 37 1/2%) A lump sum
provision of Rs. 500/- has been made in the estimate for the difference

10
in the classification of soil as hard and disintegrated rock are generally met with ~~very~~ frequently in the lands of this hilly district. From the above particulars it will be seen that the half grant of the estimated amount of Rs.5250/ applied for is reasonable.

A copy of the approved estimate and plan ~~is~~ ^{are} enclosed herewith for information. Half the cost of the work (i.e) Rs. 2625/ will be met from the funds of the District Board. A copy of the resolution of the Board sanctioning the estimate and allotment will be communicated after the next meeting of the Standing Committee for Works and Communications which will be held in November 1944.

Part II Scheme - Subsidy - Play grounds - Board High School, Hubballi - Improvements.

From the P.D.B. the Nilgiris, RE. no. EA/416/43 dt. 1.9.44.
 From the D.P.S., andt. RE. no. 1730 G/44 dated 28.9.44.

In G.O. no. 1607 Edn., dated 22.8.40, a subsidy of Rs. 1,840/- was granted towards the cost of laying out the playground of the Board High School, Hubballi, and the construction of a shed thereon.

The P.D.B., the Nilgiris, has reports that the area of land levelled with Govt. grant is only 99 cents (nearly an acre) which is not enough for the present needs of the school. He therefore proposes to level an additional 35 cents of land and requests for Govt. subsidy towards the cost of levelling. The P.D. recommends the proposal.

2. The normal standard for secondary schools is half an acre for 50 students. Judging from this standard, the Board High School, Hubballi, should have $3\frac{1}{2}$ acres for the 355 pupils it has on its rolls. Therefore the request of the P.D.B., Nilgiris, seems justifiable. If the request is agreed to, the school will have 99 + 35 cents or nearly $1\frac{1}{2}$ acres of ground, which still falls below the standard extent referred to above.

3. The approximate cost of the work is Rs. 5,250/- and if the scheme is approved, Govt. will meet half the cost viz. Rs. 2,625/-.

4. The President has not forwarded detailed estimates for the work and the copy of the resolution of the St. Board agreeing to meet one half of the cost from the Board's own funds. The P.D.B. may be asked to forward them at an early date. A draft is put up.

1942-3	4,000
1943-4	9,400
1944-5	1,600

2. The Director of Public Instruction has not put up proposals for providing new playgrounds next year for the reason that land acquisition work is laborious and takes considerable time and accordingly remains practically suspended for the duration of the war unless the acquisition is for works connected with the war or is otherwise specially urgent. The only proposal made by him is for levelling a portion of the existing playground attached to the Board High School, Hoobathalai. The playground is in a hilly tract, and an area of 99 cents was cut up and levelled with the aid of a Government subsidy provided in 1940. The playground space is still insufficient for the needs of the school. The board now proposes to cut up another 35 cents of hilly tract, which will give a further area of about an acre of level ground. The work is estimated to cost Rs. 5,250. The Director proposes to make a subsidy of one-half of the cost, or Rs. 2,600 in round figures. This department supports the proposal.
