The present School building i.e. the one built under the scheme approved by Government in G.O. quoted above consists of 4 laboratories 1 library and reading room, an assembly hall and 16 class rooms. This leaves 19 classes unprovided for. The school has to work in consequence, in shifts. The Inspection Report on the school for 1945-46 states:- "The school is growing greatly in numbers, in popularity and in efficiency. This necessitates much more class room and hostel accommodation, also additional furniture, etc. On account of lack of accommodation the school is working in shifts, 4 of the classes meeting at 8 A.M. to 11-30 and from 3-45 P.M. to 5-30 P.M. While the rest of the school works at the usual hours. Four sections are in thatched sheds which are used only as class room accommodation. 7 Sections are housed in the dining room shed." It is clear from the above that additional class room accommodation is very necessary.

4. HOSTELS: The three hostels mentioned in para 2 above and situated in the compound were built to accommodate 122 students. These also are over crowded, having now in them 148 pupils in residence. On hundred pupils besides these are crowded in two rented houses. These houses are reported to be quite unsatisfactory for hostel purposes since they were built for family units of a few members only. Further the buildings being at a distance from the school the responsibility of the Manager from the point of any check and control is very heavy, especially as the pupils are girls. Lastly, even with the provision of additional temporary sanitary conveniences the sanitary conditions in these are not adequate.

5. HOSPITAL: At present there is no provision for sick girls. Fever, colds, sore eyes and other such diseases are reported to sweep through the school as there is no possibility of segregation. The school employs a trained nurse but the service that she could render to the school is hindered by the lack of a small hospital which would be really only a sick room unit, and a suitable isolation ward.

6. The present application of the Correspondent is for aid towards the construction immediately of 2 hostel buildings though the need for a school block and a hospital is equally urgent. It is reported that the management will submit later a further application for grant towards the construction of a class room unit for 12 classes and a small sick room unit. Due to war time restrictions the management has not been able to do any building work. The Correspondent reports that she has a friend who has offered to pay the half cost of a hostel if she could secure the usual grant-in-aid from Government. The plans and specifications of these two hostels are to be identical with those of one already in the compound. The management draws financial aid largely from America. As the management was anxious to have the foundation stone laid while the deputation from America came to visit their work in India, I permitted the management to proceed with the foundation of the building of the hostel in question without prejudice to the grant.

7. The two hostels will be two storeyed buildings involving terraced floors, which are not permissible under Govt. Memo No.9637-B-42-3 Edn., dated 27-4-1942 and Memo. No.43270-B/45-3 dated 2-11-1945. But the management hopes that by the time the buildings are actually in progress the restrictions will have been removed and that they will be able to secure the required materials. I enclose herewith an extract from the letter of the Correspondent requesting to be allowed the use of controlled materials. As the necessity for two hostels is great, the management may be permitted to construct the two storeyed buildings involving the use of controlled materials for the sake of uniformity and appearance. On receipt of necessary permission from Government, the plans and estimates will be sent to the Consulting Architect for scrutiny and the scheme will then be placed on the approved list.

for Director of Public Instruction.

Extract of letter of the Correspondent, 5 5
Tallakulam, Madura.

With reference to para 2 of the Director's
Proceedings RC.No.1406-D/45, dated 22-12-1945 contained in
your letter referred to above, I wish to request the Director
to allow the use of controlled materials for the following reasons:-

- (1) It is quite possible now that the War is over that the materials may become available before the buildings are actually erected.
- (2) The buildings are not large so as to require steel or cement more than that being used in the building of private homes.
- (3) The space is very valuable in the light of the possible opening of a Women's College on this compound and therefore we do want two storied buildings.
- (4) The need is very urgent in the light of the fact that we have already had to wait 6 years for any kind of expansion and the school during this period has grown to practically four times its size.

My D.O. letter to the Director dated 16-12-1945 regarding this matter was a request for permission to lay the foundation of one Hostel only without prejudice to grant because a deputation from America has come to visit our work and we draw out support largely from America. We are most anxious for this permission as we wish to have the foundation stone properly laid.

B. 8. p. 1

Education Department.

From

Dr. S.R.U. Savor, M.A., D.Sc., I.E.S.,
Director of Public Instruction, Madras

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George, Madras,

R.C.No.687-D2/46 dated 2nd October 1946.

Grant--Building--O.C.P.M. High School, Madura--Construction
of school building and hostel.

With reference to Government Memorandum No.12564-B1/46-3 Edn., dated 2.9.1946, I have the honour to state that as it was necessary to know the actual quantity of teak required for the work before addressing the Chief Conservator of Forests regarding the availability of teak, the file was sent to the Consulting Architect to indicate the requirements of teak. The Consulting Architect did not furnish the necessary information but approved the plans and estimates for the construction of the hostel block at Rs. 45,000/-. Hence, the file has again been sent to the Consulting Architect for specifying the amount of teak necessary for the work. On receipt of this information the Chief Conservator of Forests will be addressed, regarding the availability.

2. Though the need for hostels and classrooms are equally urgent, the management wanted to proceed with the construction of the hostel block as the existing hostels were overcrowded. Hence the management was permitted by me to start the construction of the hostel block without prejudice to the question of grant. A provision of Rs.22,500/- for payment of grant for the scheme has been suggested in Part II of the Budget Estimate for 1947-48.

3. A copy of the letter from the Inspectress of Girls' Schools on the subject is herewith submitted for favour of information.

I have the honour to be,

Sir,

Your most obedient servant,

For Director of Public Instruction.

ks.3-x.
S.R.U. Savor

Copy of letter Rec.No.12(9)B/45 dated 23.9.1946 from the Inspectress of Schools, Seventh Circle, Madura to the Director of Public Instruction, Madras.

Subject:--Grant--Building--O.C.P.M. Girls' High School, Tallakulam--
Construction of a hostel and additional class rooms.

Refce.:--Director's Proceedings Rec.No.687-D2/46 dated 17.9.1946

I have the honour to state that the urgency and the special reasons for the recommendation to include the scheme in the list of approved works were furnished to the Director of Public Instruction, Madras in this office Rec.No.12(9)B/45 dated 9.1.1946 and 8.3.1946 and the work has been permitted to be started without prejudice to the grant for the building scheme - Vide Director's Proceedings No.1406-D/45 dated 30.5.1946 and 19.6.1946 on the subject.

2. In my letter quoted above with regard to class room accommodation, I have stated "On account of lack of accommodation the school is working in shifts four classes meeting from 8 A.M. to 11.30 A.M. and from 3.45 P.M. to 5.30 P.M. while the rest of the school works at the usual time.

P.T.O.

Four sections are in thatched sheds which are used only as class room accommodation; Seven sections are housed in the dining room shed which however will have to be demolished when the proposed new hostel is built on that site".

3. Regarding the hostel I have also explained the urgent need as "100 more boarders have to be provided for etc." There are 3 hostel buildings on the compound and 60 pupils and teachers live in houses outside which are rented for this purpose and which are not really suitable. Besides there is the continual insecurity as land-lords wish to have their houses back at any time. The numbers in the hostel have been limited this year for lack of accommodation.

4. The cost of the proposed scheme is given below:-
For the two hostels .. Rs. 1,05,848/- *Block Rs 45000*
For the Class rooms .. 1,22,235/-

5. In the above circumstances I am of opinion that the above schemes cannot at all be deferred.

/True copy/.

Order *Ms.* no 2084 *Edn* V.O.1 C.No 12564/46 - D, *30/10/46*

A
30/10/46

The Govt sanction the inclusion in the list of approved works of the scheme for the construction of a building for a hostel in the O.C.P.M High School, Madura, at an estimated cost of Rs 45000. while this approval does not convey any guarantee of grant, it will render the work eligible for a grant not exceeding Rs 22500 (Rupees twentytwo thousand five hundred only) under the provisions of the Grant-in-Aid

Code, if and when funds become available provided that all the conditions prescribed in the Code are duly complied with.

2 The D.P.I. is informed that the question of including the scheme for the construction of one more hostel block and additional class rooms in the school in the list of approved works cannot be considered before the plans and estimates for those works are submitted by the Consulting Architect. Orders are passed in regard to the adoption of cheap designs for secondary school buildings.

EDUCATION & P.H. (B1) DEPT.

Grant - Buildings - C.C.P.M. High School for girls,
Madura - Construction of buildings for two hostels.

From the D.P.I. R.C.No. 1408-D/45 dated 26--2--1946.

The Director of Public Instruction recommends the application of the Correspondent of the C.C.P.M. High School, Madura for a half grant towards the cost of construction of two additional hostel buildings, as the existing accommodation has become insufficient on account of the increase of the strength of the school. The necessity for the construction of additional hostel blocks is explained in para 4 of the Director's letters on p. 2 c.f.

2. According to the instructions issued in Memo.No. 9637.B/42-3.Edn. dated 27-4-1942, two storied construction involving a terraced floor should be avoided during the period of war. This restriction was imposed to avoid the necessity for the use of large sized timber beams and teak wood required for terraced construction. As the existing hostel blocks are storeyed buildings and as controlled materials are likely to be available by the time the hostel buildings are taken up for execution, the management has proposed to construct two storeyed buildings. As the necessity for the two hostels is great, the D.P.I. recommends that the management may be permitted to construct two storeyed buildings involving the use of controlled materials for the sake of uniformity.

The attention is, in this connection, solicited to Memo.No. 42851-B/45- 3 Edn., dated 13-12-45, wherein the management of the Providence Girls' High School, Calicut, has been asked to submit proposals for extension of the existing building as a storeyed block early next year. ~~involving the use of controlled materials. But in Malabar the building will not be a storeyed one.~~
The remarks of Dev. and P.W.D. may be invited u.o.
