Rc No. 643 D/45, dated 3-7-1946.

Sir,

Grant - Building - Mazharul Uloom High School,
Ambur - Construction of building.

SPARE COPIES _____

Ambur

The Mazharul Uloom High School is located in a building which is both inadequate and unsuitable. It was originally built by the management without any help from the Government and in view of the inadequacy and unsuitability of the building the management proposes to use it for the Elementary School which it is running and which is located in temporary sheds, and to build a building better suited to the needs of a modern High School.

2. As all building materials for the construction of the new building are reported to be in possession of the management it will not be put to the necessity of purchasing the controlled materials now in the market. Hence there is no difficulty in the construction of the storeyed building and the use of controlled materials. The management is not willing to construct a tiled roof building as it would be uneconomical to maintain it, bad esthetically and take up much space.

3. The Muslim Educational Society of Ambur is reported to have promised funds towards the construction of the school building on the understanding that the building will be constructed with the aid of Government grant. The management feels that aid from Government will infuse confidence in the minds of the donors and that unless Government grant is promised donations might not be forthcoming in full.

4. The promised donations from public are not enough to push through the above scheme without Government aid. Besides managing the high school and an Elementary school for boys, the Muhammadan Educational Society finances the Hasnath Jaria Girls' School which is an unaided school and gives scholarships and free books to boys and girls, studying in the above institution. The management also needs funds for improving the condition of the school and running it on satisfactory lines i.e. improvement of scales of pay to teachers provision of adequate equipment and a playground of sufficient size. Muzharul Uloom High School cat mostly to the educational needs of the Labbai

p.t.o

: 2 :

community which is very backward in Education.

5. The estimated cost of the building scheme is Rs.1,68,000/-.

6. Under the above circumstances, I request that Government may be pleased to permit me to place the above scheme, for the construction of a storeyed building involving the use of controlled building materials, on the approved list for purposes of grant after obtaining the remarks of the Consulting Architect on the plan and estimates.

Grant - Bldg. - Mazharul Uloom High School, Ambur - Construction of a bldg. - Inclusion in the approved list - Deferred.	
Read:- From the D.P.I., R.C.No.643-D/45, dated 3-7-46.	
F.D Memo	
No.36051 ^{8/46} Edn-2, dated 25/7/46	
The D.P.I. is informed that the Govt. have decided that the proposal to include in the list of approved works the scheme relating to the construction of a bldg. for the Mazharul Uloom High School, Ambur, should be deferred until the prices of materials go down appreciably. In the meanwhile, they propose to <i>consider the possibility of having</i> simpler and less costly type-designs for school-bldgs.

Sub: Grant for construction of a new building
for the Mazharul Uloom High School, Ambur.

Ref: My letter dated 14-5-1946, to the Director
of Public Instruction.

S2353

In continuation of my letter referred to above, I have the honour to bring to your kind notice the fact that the correspondence for the construction of a new building was begun a year and a half ago. During this period all queries were answered to the satisfaction of the department. The original plans of the new building were suitably modified carrying out all the alterations as per suggestions of the department reducing the cost of construction by Rs. 20,000. The new plans were re-submitted in May 1946 to the Government for favourable consideration.

On Friday, the 24th of August, 1946, Janab M. Ismail Sahib the Leader of the Muslim League party in the Assembly and Janab N. M. Anwar Saheb, the M. L. A., for North Arcot, had an interview with the Hon'ble the Minister for Education to represent the urgent need for an early sanction of the construction of the new building on grant-in-aid basis. The Hon'ble the Minister, then, promised to reconsider in his original orders and asked them to get the papers submitted again through the Director of Public Instruction. In pursuance of his suggestion to them, I submit this application requesting you to impress upon the Government the fact that the new building construction, postponed already by a year and a half, if delayed any longer, the promised donations will not be forthcoming and the whole scheme may not materialise in the near future and the long felt need of an institution will probably remain unrealised for ever.

The Mohamedan Education^{al} Society, Ambur, in its Executive Committee Meeting held on 1-9-46 has decided to proceed with building construction according to the plans submitted to the

6

Government. The members feel that the Management is entitled to full building grant according to the provisions laid down in the grant-in-aid code. The necessity for such a grant becomes greater when the school for which the building is to be constructed caters mostly to the educational needs of a backward community i.e., the Labbai Community, which must, in the normal course, receive special consideration at the hands of any Government.

However, if the Government feel that they cannot admit a costly scheme for building construction even in the interest of a backward community entitled to special consideration, the Executive Committee authorises me to find out from the Government, at an early date, the maximum lump sum grant they will be prepared to pay for a building whose cost of construction according to estimate already submitted is Rs.1,60,000.

As the construction has to begin very early in view of the fact that promised donations from the Muslim public may not otherwise be realised, I earnestly request that Government be pleased to give their considered decision as soon as possible with regard to the grant that will be paid to the Management for constructing the new building.

Order no. 2164 Edu. D. 12.11.46

The Govt sanction the inclusion in the list of approved works of the scheme for the construction of a storeyed building for the Mazharul Uloom High School, Ambur at an estimated cost of Rs. 1,68,000. (Rupees one lakh sixty eight thousand). While this approval does not convey any guarantee of grant it will render the work

Grant - Building - Mazharul Uloom High School
Ambur - Construction of a building

no 36051/46. From the DPJ. RC no 643 D/45
dated 3-7-46

The DPJ requests that he may be permitted to include in the list of approved works, of the scheme for the construction of a storaged building for the Mazharul Uloom High School, Ambur, at an estimated cost of Rs 168,000

2. The building in which the high school is now located is considered to be inadequate and unsuitable. It is proposed to utilize this building for the Elementary School under the same management and to construct an up-to-date building for the high school. As the management had already collected the required building materials, it is reported that there will be no difficulty in constructing a storaged building as proposed.

3. Under the restrictions imposed in no. 1915 Edn dated 9.12.41, no building grant should ordinarily be made in this case as it is a high school for boys. The DPJ reports that the management is not in a position to meet the entire cost from its funds and that the management share will be met from the promised donations from public. As the institution caters mostly to the educational needs of the muslim labbari community which is very backward in education the DPJ may be permitted to place the scheme on the approved list as a special case. He may be requested to instruct the consulting Architect to submit the plans & estimates with a view to reduce the cost of construction.

(E)

This does not commit Government to the making of a grant

A

13

eligible for a half grant not exceeding Rs 84,000 (Rupees eighty four thousand) as & when funds become available provided all the conditions prescribed in the Grant-in-Aid Code are duly complied with

2. The DPJ is requested to have the detailed plans & estimates for the work submitted by the consulting Architect with a view to reduce the cost as far as possible.

Fin (Exp. B)

Please see the notes on pp 1-2 above.

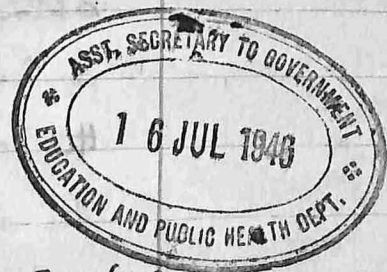

For the reasons given by the D.P.S., this Dept. may agree to the proposal to place the scheme for the construction of a building for the Magharul Uloom High School, Ambur, at an estimated cost of Rs 1,68,000/- in the approved list subject to the suggestion at A on p 1 above. H.P.M. may see.

2. The proposal does not commit the Govt. to the payment of a grant and the 'New Service' procedure need not be followed at this stage. In accordance with the usual practice, the prescribed financial procedure may be followed when the question of provision of funds and actual sanction of grant for the work comes up for consideration in due course.

H.N. (En)

I don't think we had spent H.P.M. as much 1,68,000/- on such a building for a high school. When I write this I know that the Govt. commitment is only half. The question matter may wait for some time, as price of materials are bound to come down in the near future. In the meantime I hope the simpler plans for school building which we have asked for from the A.M. P.H. will also come. The draft reply may be modified accordingly.

[Memo no. 36051-B/46-2 En dated 25/7/46. From the Correspondent, Magharul Uloom High School, Ambur, dated 6/7/46. From the Director of Public Instruction, no. 6178-De/46 dt. 14.10.46.]

Please see the letter from the correspondent Magharul Uloom High School Ambur on pp 5-7 of requesting the Govt. to reconsider the order passed in the memo on page 3 of.

2. Both the CE. O. & D. and the D.P.S. have expressed

the opinion that it is not desirable to adopt cheap designs for the construction of buildings for secondary schools. It is not therefore necessary to defer the present scheme on that account.

3. The management has decided to proceed with the construction of the building as otherwise the promised donations from the Muslim public may not be realized. If the Govt are not prepared to make a half grant based on the estimate for Rs 160000 already submitted, the management decides to know the maximum lumpsum the Govt will be prepared to pay towards the cost of construction of the buildings. It is for consideration whether in the circumstances stated by the Correspondents the Scheme may be included in the list of approved works rendering it eligible for a grant not exceeding one-half of the estimated cost or the actual cost of construction whichever is less or whether the grant payable may be limited to Rs 60,000 leaving the management to find the balance of Rs 1 lakh from donations & other resources. In the latter case the payment of the grant will have to be made on production of a certificate to the effect that a sum not less than twice the amount of the grant claimed has been spent on the work.

4. The file may be circulated to HM (2d) & NPM also - in case it is proposed to include the Scheme in the approved list
