R.O. No. 3847-F1/45.

Station Madras, Dated the 7th September 1946.

From (Name) Dr. S.R.U. Savor, M.A., D.Sc., I.E.S.,
(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
EDUCATION AND PUBLIC HEALTH Department.

Sir,

The Principal, College of Engineering, Guindy, has submitted proposals for granting permission to take round the final year Engineering and Licentiate in Civil Engineering class students to important Engineering works in and outside the Presidency. The full particulars showing the number of students to be taken on tour and the places to be visited are given below:--

Branches.	No. of students.	Details of tour.
Mechanical	20.	Jamshedpur, Calcutta and Back.
Electrical.	9	Mettur, Pykkara, Mysore and Bangalore and back.
Telecommunication.	12	Calcutta, Delhi and back.
Civil:		
Engineering Civil	48.	Bozwada, Hyderabad, Bangalore, Mettur
Engineering Highway.	10.	Trivandrum and back.

It is reported that under ~~T.A.~~ of the College Rules, students are to be taken to Engineering works so that they may obtain first-hand knowledge of the Engineering principles taught in the College. The students will bear their own expenditure in this regard. Since it is necessary that the College staff should accompany the students for explaining things seen and done at the places it is proposed to depute one member of the staff to accompany each party of the students. I recommend that they may be paid T.A. from Provincial funds with reference to Madras Travelling Allowance Rules for which an amount of roughly Rs.2,000/- will be required. I request that the Government may be pleased to sanction the expenditure. A similar permission was granted in G.O.No.MS.1995 Edn., dated 31-8-1937.

The expenditure if sanctioned will be debited to the Budget head "37-(d) Education-University-Government Professional Colleges-(d)B.Engineering College(a).B.4.Other charges - Allowances and Honorary-Authorised" and necessary additional funds if necessary, will be applied for in due course.

In view of the urgency and importance of the Tours, I have in anticipation of Government sanction, permitted the Principal to take the students on Instructional Tours subject to the condition that the question of payment of T.A. will depend on Government sanctioning the expenditure.

I have the honour to be,
Sir,
Your most obedient servant,

M. Ramaswami
for Director of Public Instruction.

It is stated that permission was given

granted in G.O.No. 1995 Edn. 31-8-37 for taking the Engg. College students on instructional tours. Pl. say whether the students have been taken subsequently on such tours since 1937 and if so kindly quote the no. & date of the G.O. in which such permission was given. If the sanction of 1937 is the last one, pl. say why the such tours were not undertaken up till now and also how justify the need for undertaking the tour in 1946-47.

In continuation of my letter R.C.No.3847 F1/46, dated 7-9-46 I have the honour to state that the Principal, College of Engineering, Guindy reports that as he did not receive permission from the firms at Jamshedpur and Calcutta to inspect their works, he has to drop the idea of sending the Mechanical Engineering students there and has to work an alternative programme of sending them to Mysore and Bombay. A copy of the Tour Programmes submitted by the Principal is herewith enclosed; I therefore request that Government may be pleased to approve this deviation from the original programme.

POST COPY OF TELEPHONIC MESSAGE DATED 14th October 1946. A

From the Deputy Director of Public Instruction, Madras. 45

To the Assistant Secretary to Government, Edn & P.H. Madras.

Sub: College of Engineering, Guindy - Instructional Tours for 1946-47 - Sanction of expenditure.

Ref: Your T.M., dated 21-9-1946. p2 ante

During the years 1938, 1940, 1941 except 1939 these tours were undertaken for students on their own initiative. During the years 1942-45 instructional tours were not undertaken for the following reasons:-

- (1) Most of the works to be inspected were not open for inspection due to Military control
- (2) Train journey had to be avoided as a measure of war effort.

Now that the war is over all works are open for inspection, I consider that these tours are very essential for Engineering students. Therefore I request sanction for the final year Engineering and the Licentiate in Civil Engineering students to go on a tour of inspection.

The covers received from Government will be opened by Additional Personal Assistant. After stamping them the tappal clerk will enter such of the references as are necessary in the Distribution Register, arrange all the references in a special pad and send them for rapid circulation to the officers. Immediately on the receipt of the pad back from the officers the tappal clerk will sort them out and send them to the sections concerned and obtain the signatures of the Superintendent in the Distribution Register if any of those have been entered in the abstract register by the Superintendent's separately and the initials of the concerned clerks obtained.

VII. Registering. *in this register the given references will be entered.*

25. On receipt of the papers, the clerk concerned will register them at once in his personal register unless they should not be registered (vide para 26 below). Any delay or neglect in this will be considered very serious dereliction of duty and will be punished with severity. If a paper is a new case the clerk dealing with it will enter it in column 4 of the personal register taking care to see that the entry under this column xxx is indented with the Index title. If the paper is to be indexed the letter I, should be marked boldly in column 4 below the title.
