the board.

(number over 700) members of the Legislature, Department of Education, and other interested parties. As it was not easy to prepare so many copies by 'Roneo', I got them printed locally in the most economical manner possible in anticipation of Board's permission. Paper was supplied from my office. I request that my action may kindly be approved.

3. I also request that a general permission may be accorded to get copies of orders printed locally when such copies are intended to be given to retailers. (whose number exceeds 700)

not put up
(Sent to E.P.M. 44
with Food U.O. No.
23349-A/46-1)
24/11/44

It has been brought to the notice of the Board that in some districts the retail price to be charged on the several rationed commodities sold by the ration shops are intimated to the retailers only by the wholesalers who note the prices on the cash memo, relating to the sale of the rationed articles and there is no means of verifying the accuracy of the prices. Instructions have, therefore, been issued to the Collectors that a copy of the orders fixing the retail price of paddy, rice and millets should be communicated to every retailer and that he should be required to maintain a file of such communications, so that the inspecting officers might be able to verify whether the prices noted on the price board are correct. As there

be many retailers for a district, a large number of copies will be required and it will be a waste of stationery and time if they are to be cyclostyled and distributed.

The Board in this connection invites the attention of the Government to the letter from the Collector of Chittoor submitted with its reference cited above. It requests that Collectors of all districts except Madras may be permitted to get the required number of copies of the orders fixing retail prices of paddy, rice and millets, printed locally subject to the rules in article 234 of the Printing Manual, the required quantity of paper required for printing being supplied from the Collector's allotment of stationery. This course is likely to be economical.
