CLOSING BALANCE.					

(a) Other Receipts include (1) Value of manufactured articles (2) Excess in stock-taking, (3) Gain by revaluation of the Closing Balance and (4) Variation.

(b) Other issues include (1) Value of stores issued for the manufactured articles (2) Loss by valuing the closing balance, (3) Deficiency in stock-taking and (4) Variation.

N O T E.

1. Statement A has been prepared as per orders issued in G.O. No. 835 Education dated 31-5-1941. The closing balance on 31-3-1946 has been valued at the issue rates fixed for 1945-46. Generally there has been a fall in the prices of almost all the articles of stationery including paper on account of control of prices during the current year. As the prices of paper are not firm but likely to vary from time to time the closing balance on 31-3-1946 (opening balance for 1946-47) will be valued at the rates finally settled and the result of such revaluation shown as either loss or gain by revaluation as the case may be.

2. Purchase of Jail-made articles is obligatory on the part of the consuming departments. The restrictions regarding prices and quality are not applied in the case of such articles.

3. As no imported article was offered at a lower rate than an article manufactured in India, the question of granting preference to the latter did not arise. This was due to War conditions.

4. In other cases where Indian made articles were purchased the rates happened to be the lowest and the quality also compared favourably with foreign articles.
