Education Department.

From

Dr. S. R. U. Saver, M.A., D.Sc., I.I.S.,
Director of Public Instruction, Madras.

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George, Madras.

C.No. 4784-B/43 dated 11th December 1945.

Sir,

Elementary Education--Compulsory--Introduction in
selected areas--Employment of peons and conductresses
in elementary schools under compulsory scheme.
Reference: G.O. No. 1714-Education and Public Health dated
27.10.1945.

With reference to para I(viii) of the G.O. referred to
above regarding the employment of peons and conductresses I
have the honour to submit as follows:

According to G.O. 1149 Education and Public Health dated
24.6.40 a peon may be employed without the sanction of
Government in a complete higher elementary school which has
a strength of over 200 pupils - the necessity for the continuance
of the peon being reviewed every year with reference to the
strength of the school. The Presidents of the Ceded Districts
in their Memorandum requested Government that the presidents
be permitted to employ peons in every elementary school in
compulsory areas having a strength of over 200 pupils
irrespective of its status whether higher or lower elementary.
I consider that it is essential to have a peon in such
elementary schools and recommend that presidents of District
Boards may be permitted to employ peons in elementary schools
in compulsory areas (whether higher or lower) having a strength
of over 200 pupils and claim subsidy from Government on
their behalf.

2. The Presidents of Ceded Districts stated in their
Memorandum that the presence of a conductress would be quite
essential in all schools where the strength of girls is above
30 and requested Government to permit the entertainment of
conductresses in such schools. As per Government Memorandum
No. 1667/32-3 Education dated 27.9.1932 a conductress may
be appointed in a boys' school where girls are admitted if it
contains not less than 30 girls. The Presidents may appoint

P.T.O.

conductresses in schools in compulsory areas with reference to G.O.No.598 Law & Education dated 23.4.1932 and Government Memorandum No.4667 A/31-3 dated 27.9.1932. They may be informed accordingly and permitted to claim subsidy on behalf of conductresses appointed in schools in compulsory areas.

For Director of Public Instruction.

KS. 11-12.

RE-OPENING OF COLLEGES**CHINGLEPUT ASSOCIATION'S PLEA**
(FROM OUR CORRESPONDENT.)

CHINGLEPUT, May 15.
 At a meeting of the Chingleput College Students' Association, held this morning, with Mr. P. N. Sampath, in the chair, the following resolutions were adopted:

"In view of the fact that the situation in Madras cannot be considered normal for the re-opening of the City Colleges and in view of the fact that education should suffer on no account, this meeting requests the University authorities to make arrangements to re-open all the City Colleges in interior places; to re-open the Madras Christian College, which is safely outside the Fortress area, making provision for the admission of a greater number of students to meet the needs of students residing in the City and suburbs and to take measures to convert, as far as possible, all the Second Grade colleges in the mofussil into First Grade Colleges with the co-operation of the Government."

"This meeting of the College Students' Association, Chingleput, requests the S. I. R. authorities to resume the Villupuram Passenger which was leaving Chingleput at 9-15 a.m. so as to enable college students from Chingleput to reach Tambaram in proper time."

RE-OPENING OF CITY SCHOOLS AFTER VACATION

Sir.—Half the summer vacation is now over and the High Schools of the City have not yet been able to announce whether they will re-open here or in the mofussil for next year. The transfer of a High School cannot be undertaken without several weeks of preparation, and Government may be asked to state definitely whether it is now safe for City Schools to resume work here, the loss in fee income if any being made up by special grants, so that the teachers may receive their normal salaries, or whether City High Schools will be permitted to be removed immediately to suitable places in the mofussil which may be approved of by the local District Educational Officers.

The matter has now become one of extreme urgency, as parents, teachers, and managements alike stand to lose very heavily if a decision is not made public within a few days. May I request the Government to be good enough to give the matter their immediate and favourable consideration?

P. T. Seshadri Iyengar.

EDUCATION OF CHILDREN OF GOVT. OFFICERS

Sir.—Many Government offices have shifted to mofussil towns and parents, who have left Madras on account of the transfer of their offices, cannot return to Madras unless Government order the return of the offices to Madras. Many of us may admit our children in mofussil schools. If, as is rumoured, our offices return to Madras say, in July or August, the education of the children would be disturbed. I would like to make the following suggestions to the authorities, to remove certain hardships that may consequently arise:

Government can prescribe uniform books for all classes—from 1st class to V form, or for High Schools alone from 1st form to V form—of all schools in the Madras Presidency, as for the S. S. L. C.

Suppose my boy reads for three months here and then, on account of the transfer of my office back to Madras, I admit him in a Madras School. I should not be asked to pay in full the long-term fee (six months) here at Salem, and again the Madras School should not ask me to pay for the first quarter also. The schools should be content with the fees for the actual period the boy studies in the respective schools. Government can issue instructions to the school authorities that they (Government) consider, for the duration of the war, all schools in the Presidency as one unit and that the School authorities should act accordingly.

Salem, May 9.

V. S. Kandasami.

EIGHTH STANDARD PUBLIC EXAMINATION

Sir.—According to the Government Report on Education in the Province (published in The Hindu of May 7), the aim of the authorities in instituting the VIII Standard Public Examination has been to mark the close of an independent elementary school course and also to serve as a minimum qualification for entering training schools and technical and industrial schools. Thus it becomes a course complete in itself. If the general poverty of the masses in the province were to be considered, the existing strength in the III Form of secondary schools and in the VIII standard of elementary schools must be in inverse ratio. The reason for a large attendance in secondary schools from Form I is attributable not to any far reaching ideas formed by parents but simply to a glamour for English education.

From a careful study of the curriculum of elementary schools up to VIII standard and up to III Form of secondary schools, there does not appear to be any very striking difference in the courses. In the teaching of non-language subjects in elementary schools there is no vital change except the omission of portions here and there. There could possibly be only one type of education up to the age of 13 or 14, known as the Middle School Education. Classes 1 to 5 may go by the name of 'Elementary Education'. Forms 1 to 3 or standards 6 to 8 may be styled 'The Middle School Education'. At the end of the middle school course there should be a common test with English as optional. A pupil getting 50 per cent in English and in some other subjects may be declared eligible for the pre-university course. A pupil getting 35 per cent in such subjects may be declared eligible for admission to the pre-vocational course. A pupil not taking English as optional but getting 35 per cent in all other subjects may be given a certificate in place of the one now going to be issued for a pass in the VIII standard Public Examination. By this arrangement the pupils will not have to fritter away their energy and wealth in pursuit of education at the lower stages. If the suggestion is approved all the existing higher elementary schools, with a decent strength, will be classed as Middle Schools. All Middle Schools must be given grant as calculated for elementary schools at present and not according to the 'half the net cost system'.

In the alternative the existing VIII Standard Public Examination can be popularised in these ways:

Science should be included as a compulsory subject for the examination.

History, Geography and Civics, each of them should be examined in a separate paper of 1½ hours duration.

English should be treated as an optional subject. A paper on General English, including composition and translation may be introduced for which there should be a prescribed syllabus. It should be declared that all who pass in English along with the other subjects at one and the same examination, will be eligible for admission to the IV Form. There cannot be any harm even should the minimum for a pass in each subject be made 40 per cent for eligibility for admission to the IV Form.

The Classification of general education as 'Elementary' and 'Secondary' from Class IV to VIII and making it impossible for the pupils to change from one to the other are really great handicaps. Few managements would like to run complete higher elementary schools, as a pass in the VIII standard leads a pupil nowhere. I hope the authorities and the public would give my suggestions their earnest consideration.

M. Nagasubrahmanya Aiyar.
 Papanasam, May 9.

Ⓟ
4/1/46
I have to state that G.O.No.23 Edu. dated 4-1-46 permits the em-
ployment of peons in area where Elementary Education has been made com-
pulsory even though the schools are not complete higher Elementary Schools
provided that the strength of the schools is over 200. In this connection
it is submitted that consequent on the introduction of Compulsory Elemen-
tary Education scheme in certain selected centres of this District Board
work in the Elementary Schools of the Centres has increased by leaps and
bounds and the employment of peons for Lower Elementary schools with a
strength of over 200 and for combined schools with a strength of over 200
is found essential to cope up with the outdoor work etc. The District
Educational Officer, Cuddapah who was addressed in the matter has desired
me to address Government for permission in this regard if necessary. P.T.

24057 Rec. No. 47 B1/46 dated 3-5-1946. 194

Sir,

Sub: Elementary Education - Compulsory - District Board, Cuddapah - appointment of peons in elementary schools in compulsory areas.

Ref: Government Memo No.18328 B2/46 - 1 Edn., dated 8-4-1946.

I have the honour to offer the following remarks on the letter of the President, District Board, Cuddapah Re.No.596 D.7/46 dated 25-3-1946.

- i. The President may be informed that peons may be appointed even in lower elementary schools for boys in compulsory areas provided the strength in each of those schools is over 200.
- ii. The District Board President also wants to employ a peon for 2 lower Elementary schools in one compulsory area ("combined lower elementary school as used in the President's letter") if the total strength of both the schools exceeds 200. This proposal is not supported as the schools taken separately do not have adequate strength to warrant the appointment of peons and as a common peon

p.t.o.

to two schools will lead to friction between the schools.

Sir,

Sub:- Establishment- Education- Elementary- Employment of
Conductresses- Girls Schools- Wages and allowances-
Increase- Sanction- Requested.

Ref:- G.O. No. M.S. 23.Edn Dated 4-1-46. — (Y)

The Government have in their order referred to above permitted the Presidents of District Boards to employ conductresses in school in Compulsory areas in accordance with the instructions issued in G.O.No. 598 Edn dated 25-4-1932 and to regulate their wages and allowances with reference to part-time or full-time duties assigned to them.

2. The scale of wages and allowances laid down to full-time conductresses is Rs. 4/- P.M. plus Dearness Allowance of Rs. 2/- P.M. and in addition Capitation allowance at 0-1-0 per girl on the average attendance. The conductresses employed in the Girls Schools in the Compulsory centre at Hadagalli have submitted a mahazar requesting sanction of increased wages and allowances, considering the abnormal rise in the cost of food stuffs and clothing.

3. The maximum amount that a full time conductress can get is Rs. 4/- wages plus Rs. 2/- Dearness Allowance and in addition a capitation allowance of Rs. 6/- on an average, in all Rs. 12/- which sum is hardly sufficient to maintain them in these hard days. Now owing to abnormal rise in the cost of food stuffs and clothing there is also corresponding rise in the cost of labour and a cooly or daily labour, earns Rs. 1/- or 1-4-0 per day. Such being the case, the wages and allowances now being paid to conductresses in Girls' Schools is far below the minimum wages of an ordinary cooly and as such there is no satisfaction among conductresses from the meagre wages and allowances they receive every month.

4. Considering the hard situation and dearness in the cost of living the Government have sanctioned the revised scales of pay to the establishment even the menials paid from contingencies of the various Provincial Departments and Local Boards and Municipal Councils in the Presidency.

5. I therefore request the Government to reconsider the cases of conductresses employed in Girls' School under this District Board sympathetically and sanction the increased scale of wages to at least to Rs. 8/- P.M. plus Dearness Allowance at Rs. 4/- P.M. and in addition sanction an increase in the rate of capitation allowance to 0-1-6 per girl on the average attendance.

Re: 491 B/47
D. Dis. No. 1156/47.C.E., dated 31st March 1947.

Sub:- Elementary Education-Employment of conductresses
in Girls Schools- Payment of Dearness allowance at Rs. 2/-
per mensem.
Ref:- Your R.C. No. 491-B1/47 dated 5-3-1947.

In Memorandum No. 39989-A.1 Edn., and P.H., dated 28-12-1943 the Government permitted the District Board, Bellary to utilise in the year 1943-44 a further sum not exceeding Rs. 4685/- out of the Special subsidy of Rs. 38,000/- granted to the District Board for the expansion Elementary Education, on the grant of increments of pay to Elementary School teachers which fell due on or after the 1st April 1943 and on the payment of dearness allowance to conductresses employed in Elementary Schools.

The payment of dearness allowance to full time conductresses employed in Girls schools at Rs. 2/- per mensem was sanctioned in District Board Resolution No. 13/9-2-1944 as recommended by the Inspectress of Girls Schools III Circle, Bellary in her endorsement R.C. No. 261-D/43 dated 17-7-1943.

The payment of Dearness at Rs. 2/- per mensem to full time conductresses employed in Girls School is being continued till now.

There are 82 full time conductresses employed in regular Board Elementary Girls Schools and 14 full time conductresses employed in the new Girls Schools opened in all the Six compulsory centres after introduction of Compulsion from 1-9-45. If these 96 conductresses are paid Dearness allowance at Rs. 16/- per mensem the expenditure would work out to Rs. 18,432/- per year (96 X 16 X 12), and the District Board is unable to meet this heavy expenditure from its resources.

I therefore request you to kindly recommend to Government to sanction a special subsidy of Rs. 18,432/- for payment of Dearness Allowance at Rs. 16/- per mensem each to full time conductresses employed in the Girls Schools in the area of this District Board as the entire deficit cost of payment of Dearness Allowance to other Elementary Education Establishment in the service of the District Board is being met from the subsidy sanctioned by Government.

When the Conductresses are paid Dearness Allowance at Rs. 16/- per mensem the question of increase in their salary does not arise as they are paid capitation allowance on the average attendance at 0-1-0 per Girl per mensem.

K.N. Anantharaman

allowed for similar classes
of materials.

- (1) From the subsidy granted for the scheme of expansion, ^{if it is in respect of} ~~to~~ conductresses employed under that scheme.
- (2) From the subsidy ^{payable} ~~granted~~ for the scheme

b) From the SLR Gov fund account - in to extent of all other concessions

No additional subsidy on this account will be granted to the MC BoF for this purpose.

② whether the series is a contraction, full time or part time

A. ^{on p. 2 anti} ~~above~~: Attention is solicited to G.O. 598 Edu
dy 25.4.32 under which conductresses
employed in Elementary ~~education~~ ^{schools} should be
at least ^{minimum} ~~minimum~~ ^{union} ~~union~~ ^{the} granted a pay of Rs 4/- p.m. excluding the Canteen
allowance at one anna per pupil every month.

13. Para 2 (a) i Conductresses are assigned the work of bringing young children particularly girls to schools both in the morning and evening sessions. They will also attend to the work of peons in girls schools and such other work as may be assigned to them by the executive authority. Generally the services of ~~the~~ conductresses are treated as full time if by virtue of their work in the schools they are not able to engage themselves in any other work elsewhere to eke out their livelihood. This is a point for consideration by the executive authority.

14. Para 2 (a) ii Hence it is conceded that a conductress is necessary for a school & that her services are full time. It may not be proper to deny her the dearness allowance. Please see para 5 (b) of G.O. 159 Fin. dt 28.8.42 under which menials paid from contingencies are eligible for dearness allowance if their services are whole time.

The additional expenditure is to be met as follows:

p2 (J)
 ① confessions
 are included
 in category

(a) In the case of conductresses employed ^{under} the scheme of compulsory elementary edn it is open for the dist board to include the additional expenditure on account of DP. in the subsidy payable for the scheme of compulsory education.

(iv) In the case of conductresses employed ^{under} ~~in~~ the scheme of expansion of Ele. Edn

EA/2

Bv

The additional expenditure on the grant of SA should be met from the surplus in the special subsidy after meeting the expenditure ^{under} for the expansion. ^{scheme} If there is no surplus in the subsidy, it is for the special officer to see that the scope of the scheme is reduced to the extent necessary.

(c) In other cases, the extra expenditure on account of the grant of dearness allowance to conductresses will get merged in the ordinary deficit in the Ele Edn fund account which will be met by govt by the payment of a subsidy. It may ~~however~~ be noted that govt have agreed to sanction a subsidy towards the deficit incurred on account of the grant of dearness allowance to teachers and other employees whose pay is debitable to the Ele Edn fund account.
