Dr. S.R.U. Savor, M.A., D.Sc., I.E.S.,
Director of Public Instruction, Madras.

To

The Secretary to Government,
Education and Public Health Department, Madras.

Sir,

Sub:- Buildings - Government Secondary and Training
School for women, Calicut - Construction of an
additional Block of 8 class rooms for the
Secondary section - Proposals.

57943

I have the honour to submit herewith a proposal for the
construction of an additional block of 8 class rooms for the secondary
section of the Government Training School for Women, Calicut, at an
estimated cost of Rs.90,000/- for consideration in connection with
Part II of the Budget Estimate for 1947-48.

2. In G.O.No.Ms.1766 Education, dated 1-11-1945 Government have
been pleased to approve the Director's proposal to convert standards
VI to VIII of the Model school attached to the above school into
Forms I to III, with a view to its gradual development into a High
School. Proposals for the opening of Form IV with effect from June
1947, in this school, have been submitted to Government separately as
a Part II scheme for 1947-48. Accommodation in the existing buildings
is barely sufficient, even for the existing classes. Provision of
additional accommodation is therefore absolutely necessary for the
opening of higher forms and developing the school into a complete
High School.

It is therefore proposed to construct a block of eight rooms -
3 class rooms, for Forms IV to VI, 2 laboratories, one library, one
Teacher's room and one room for Domestic Science. A plan showing the
existing school building and the proposed block, prepared by the
Public Works Department is herewith submitted. The Executive
Engineer's estimate for the work amounting to Rs.90,000/- is also
submitted.

I recommend that Government may be pleased to accord approval
to the above scheme and provide necessary fund for the same in Part II
of the Budget Estimate for 1947-48.

I have the honour to be,
Sir,
Your most obedient servant,

2. The Chief Engineer has been asked to report
on the question of adopting cheap type designs for the
construction of school buildings and he has offered his
remarks through the Director of Public Instruction. It
may take some-time for a decision to be reached on the
question. ~~of adopting cheap designs for the construction of~~
~~school buildings.~~ In the present case, the additional
block will have to be constructed so as to be in confor-
mity with the design already adopted and it seems there-
fore unnecessary to wait for a decision on the above
question. The proposal may be considered as a Part II

The proposal of the D.P.I. is to construct an additional block of 8 class rooms for the Secondary section of the Govt.

2. The D.P.I. states that proposals for the opening of Form IV with effect from June 1947, in this school, have been submitted to Government separately as a Part II scheme for

1947-8. The construction of additional buildings will be necessary only if new classes are opened next year. Part II

schemes for 1947-8 should be restricted to those that are contemplated in the five-year post-war development plan and ~~that~~

schemes outside the plan should be proposed only if they are required in connection with the Grow-More-Food Campaign or are

fully remunerative (e.g. Electricity Schemes) or are absolutely

essential for the proper running of departments. In view of the

~~necessity to restrict~~ ^{for 1947-8} Part II Schemes, and especially in view of the

abnormal price of building materials, Finance may advise that

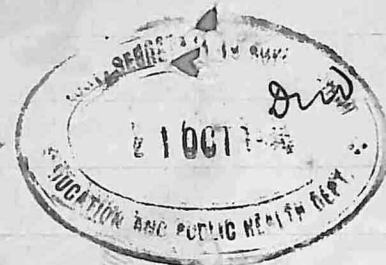

the proposal may be deferred. ~~It is suggested that the work should be opened only~~
