J. F. SAUNDERS ESQ., M.B.E., I.C.S.,
Secretary to the Commissioner of Civil Supplies.

Read:- (1) B.P.Rt. 1743/45 dated 6-12-1945

(2) From the Collector of Ramnad - No. P.3-124/46 d/10-1-46

In the Board's proceedings Rt. 1743/45 dated 6-12-1945 (copy submitted to Government) the Collectors of Vizagapatnam, Coimbatore, Ramnad, Tinnevely and South Kanara were instructed to issue standing permits valid for one year, to the producers not drawing rations, for getting their paddy hulled in the mills in rural areas instead of issuing a permit every time the producer wanted to get his paddy hulled. The Collector of Ramnad in his letter cited above (copy enclosed) has stated that it would be difficult for the Taluk Supply Officers to issue such permits in manuscripts and has requested that permission may be accorded for getting the permits printed locally. The Board agrees with the Collector and considers that the above permits should be printed on a thicker paper like the ration card as they have to serve for an year. The Superintendent, Government Press will not be able to print and supply the permits required by those districts quickly as the Press is at present engaged in printing electoral rolls. As the permits are required urgently for distribution to the producers, the Board requests that the Government may be pleased to accord sanction for their printing locally by the Collectors themselves, indenting on the Superintendent of Stationery for the supply of paper required for the purpose.

P.T.O.,

quantity allowed for family consumption. He has suggested that the ryot should take this note book to the mill every time he wants to mill paddy and get the quantity milled and the resultant rice entered in the note book.

3. The position in ~~many~~ other districts also is likely to be similar. The Board has examined the proposal of the Collector of Ramnad. The Board considers that it is not desirable to empower Field Supply Officers to issue permits. The Board accepts the alternative suggestion of the Collector and issues the following instructions:-

A standing permit valid for one year like the ration card should be issued to the producers, who do not draw rations. The Taluk Supply Officer should note in this card under his signature the quantity allowed for personal consumption. The ryot should take the permit to the mill whenever paddy is to be milled. The miller should note on the permit the quantity hulled on each occasion. The miller should also maintain a register in the following form:-

pp. 5 & 6. Board's Proceedings No. 1745/46, D/O-12-46

In its reference cited above, the Board accepted my
alternative suggestion of issuing standing permits to the
producers who do not draw rations for milling their paddy
in mills in rural areas. I have received indents for such
standing permits from the Taluk Supply Officers. It will be
difficult for the Taluk Supply Officers to issue permits on
manuscripts. I request that sanction may be accorded to print
such standing permits locally and Supdt. of Stationery may
be asked to supply the paper required.

A.F.W. DIXON ESQ., C.I.D., I.C.S.,
Commissioner of Civil Supplies.

B.P.Rt. 1743/45 dated 6th December, 1945.

Sub:-PROCUREMENT PADDY--Local stocks--Hulling,
in mills in rural areas--System of issue
of permits--Modification--Instructions
issued.

Read again: Board's Ref. 1270-UL/45-4 dated 27-5-45.

Ref:-From the Collector of Ramnad Re.P.5 9634/45
dated 31-10-1945.

With a view to prevent rice mills situated in the rural areas outside the statutorily rationed areas in the districts, where intensive procurement and informal rationing is in force, becoming centres of black marketing the Collector of Coimbatore with the approval of the Board issued a notification under the Defence of India Rules, directing that no such mill shall mill paddy brought to it, except on production of the ration card by the ration card holders, or on production of a permit issued by a competent authority in the case of producers and others who are not card holders. The Collectors of Vizagapatam Ramnad, Tinnevely and South Kanara were also permitted to issue similar notifications in their districts. The Board considered that it was not desirable to empower the Firca Supply Officers to issue permits. It directs that only officers of and above the rank of Deputy Tahsildars should be empowered to issue permits.

2. In his letter cited above the Collector of Ramnad has brought to notice, that he has received a number of petitions from the various parts of the district complaining about the hardships caused to ryots by insisting on their obtaining a permit from the Tahsildars and Taluk Supply Officers. He states that both these officers are ~~turning~~ ^{turning} Officers, and that some of the ryots live at a distance of 20 to 25 miles from the taluk headquarters, and that it will be too much to ask a ryot to go all the way to the taluk office to get a permit. He has therefore suggested that the Firca Supply Officers and the Revenue Inspectors may be authorised to issue permits, or in the alternative he suggests that each producer or receiver of rent who does not get a ration card may be asked to maintain a note book in which the quantity allowed for family consumption may be noted by the Taluk Supply Officer under his signature. He has suggested that the ryot should take this note book to the mill every time he wants to mill paddy and get the quantity milled and the resultant rice entered in the note book.

3. The position in ~~many~~ other districts also is likely to be similar. The Board has examined the proposal of the Collector of Ramnad. The Board considers that it is not desirable to empower Firca Supply Officers to issue permits. The Board accepts the alternative suggestion of the Collector and issues the following instructions:-

A standing permit valid for one year like the ration card should be issued to the producers, who do not draw rations. The Taluk Supply Officer should note in this card under his signature the quantity allowed for personal consumption. The ryot should take the permit to the mill whenever paddy is to be milled. The miller should note on the permit the quantity milled on each occasion. The miller should also maintain a register in the following form:-

P.T.D.

1. Date of hulling
2. Name of the permit holder
3. Number and date of the permit
4. Quantity of paddy hulled
5. Resultant Rice
- and 6. Remarks (initials of the miller)

In order to prevent any omission, or wrong entries in the standing permit by the miller the checking officers should check periodically the accounts of the mill and verify the accounts with the entries made in a number of standing permits in that area. The Collectors are requested to issue instructions to their checking officers, that this will be one of the items they are required to check during the tour.

The Collectors are also requested to amend the notifications issued by them suitably in accordance with these instructions.

P. Krishna Ayyar,
Assistant Secretary

To The Collectors of Vizagapatam, Ramnad, Tinnevely,
Coimbatore and South Kanara.
