Sir,

Sub: Elementary Education- Schools - General - Appointment of teachers - Minimum age limit - Prescription of

I have the honour to state that while in rule 5 C of the Rules for Aid relating to elementary schools a maximum age limit for teachers has been prescribed to earn grant, no mention is made about the minimum age limit for teachers. It is very undesirable to have youngsters of 14 or 15 straight from the III Form or the 8th standard as teachers of young children. They are generally sons or nephews of the managers and they act as little tyrants in the school. They have particular delight in using the cane on the little children. I therefore suggest that provision may be made in the rules to prohibit appointments of this kind.

2. For purposes of training the minimum age is 15 so that a teacher is 17 before he takes up work as a trained teacher. Service as an untrained teacher is also unnecessary for purposes of training. I therefore submit that no one under 17 years should be permitted to be employed as a teacher in any school.

3. I request early orders of Government in the matter.

I have the honour to state that the amendment, approved by the Government in the G.O. referred above, in the absence of anything to the contrary, takes effect from the date of the publication of the Notification in the Fort St. George Gazette. I consider that it will be unfair to the managements concerned if untrained teachers below the age of 17 are not assessed grant from the date of publication of the gazette notification as managements have to give 3 months notice to teachers before discharging them from service.

2. In the circumstances, I recommend that the Government may be pleased to bring the above amendment into force with effect from 1st June 1946 when the schools will be reopened after
