R.C.No. 595-A/45 dated 21st September 1945.

Sir, Sub:-Opening of a Govt. Middle school for girls at Palni-Sanctin

In connection with Part of II of the Budget Estimate for 1946-47 I have the honour to submit for the sanction of the Government the following proposal for the opening of a Government Middle School for girls, at Palni.

The Inspectress of Girls' Schools, VII Circle reports that she was convinced of the need for a girls' High School at palni last year itself, when she had an occasion to examine the question of the opening a girls' secondary school by the management of the local Little Flower Higher Elementary School for girls. She now points out that the need has become more urgent since the local Municipal Girls' Elementary school, the only school under non-mission management, had closed down the higher elementary standards in the school and that the people in the locality are anxious to have a secondary school under non-mission management. I submit that there is every prospect of a girls' secondary school flourishing in the locality in view of the following reasons:

- (a) the number of girls reading in different elementary schools for girls in the locality is 691.
- (b) the number of girls reading in the elementary schools for boys in and around Palni is 207.
- (c) the number of girls reading in the local Municipal school for boys is 50 in classes 4 and 5 and forms I to III.
- (d) the probable number of girls that may from the proposed school is 105. (Class, 5 - (35) Forms I to III (90).
- and (e) the nearest high school for girls from Palni is the St. Joseph's Girls' High school, Dindigul which is at a distance of 37 miles.

Hence there is a real need for the opening of a Government Middle school at Palni with class (5) and Forms I to III to start with.

Accommodation:-

It is proposed to khouse the school in a rented building on a monthly rent of Rs. 50/-.

Staff:-

The staff that will be required for the middle school is 1 L.T. Assistant, 3 secondary grade assistants, one Tamil Pandit, One Physical Training Instructress, one combined drawing and sewing mistress and one Music mistress. One clerk and one peon will also be necessary.

The financial effect of the proposal is summarised below:-

Income from fees:-
The probable fee income is Rs. 800/-.

Cost in 1946-47:-

Non-Recurring:

Re.No.200 A/45 dated 21-9-1945.

Sir,

Sub: Opening of a Secondary School for Mappilla Girls at Tellicherry.

I have the honour to submit for the favourable consideration of the Government the following proposal for the opening of a Government Secondary School for Mappilla girls at Tellicherry as a Part II scheme for 1946-47.

2. The Malabar Muslim Educational Association made a representation regarding the need for opening secondary schools for Muslim girls in important centres like Tellicherry and Cannanore. I examined the question in respect of both the centres and I consider that there is a need for separate Secondary schools for Muslim girls in these centres. As there are no suitable buildings at Cannanore, it is not practicable to open a school at Cannanore next year. The proposal to open a school at Tellicherry is feasible next year as explained below.

3. The Muslim population of Tellicherry Municipality is 16,536 and the number of Muslim girls of school-age is 751. It is reported that 159 girls are reading in the Elementary Schools and that 17 are reading in the three secondary schools for girls (including the Government Secondary and Training School for Women, Tellicherry). There are 7 Mappilla girls in the Government Secondary and Training School for Women at Tellicherry. The higher standards in the above school were converted into Forms I-III and Form IV also was opened this year. But this has not resulted in the increased enrolment of Mappilla girls. The Inspectress reports that Muslim girls are not being sent in large numbers to the existing secondary schools for girls on account of certain sentimental objections and that the Muslims there are feeling that the absence of separate facilities for Mappilla girls is standing in the way of the Secondary education of their girls. The Inspectress states that the management of the Aided Almadrasathul Mubarak Higher Elementary School for girls in Tellicherry is willing to offer their school-building, equipment and playground if a secondary school for Muslim girls will be opened by Government. The Government will have to pay rent for the building. This school building has 290 school places. The school has standards I-VI and there are 120 girls in the school. The Inspectress proposes to open classes I-V and Form I to start with and she expects the following strength for the school.

	Girls	Boys
Class I.	24	16
" 2	25	30
" 3	20 69	15
" 4	19	13
" 5	13 32	6
Form I	6	3
Total.	107 plus	83

p.t.o.

The Inspectress reports that the standard of class V can be improved by enrolling pupils who have passed out Standard V in the Local Mappilla Elementary Schools. The local Muslim Association is evincing interest in the matter. They have a proposal to provide residential quarters for the girls. The opening of a secondary school for Muslim girls at Tellicherry is necessary and practicable. I recommend sanction for opening a Government Secondary school for Muslim girls at Tellicherry with classes I-V and Form I in 1946-47.

4. The following staff will be necessary -
 1 L.T. Assistant who will be the headmistress of the school,
 6 Secondary grade Assistants for the six classes, one Physical Training Instructor, one combined Drawing and Sewing Mistress, one Arabic Munshi, 1 Clerk and 1 Peon. The Arabic Munshi will also be the Religious Instructor.

5. The financial effect of the proposal is worked out below:--

Sir,
 Opening of a Government Middle school for girls at Kumbakonam by taking over the management of the Municipal Elementary School--Sanction--Requested.
 Reference:-Government Memorandum No.12675-2-B Education and Public Health dated 24.7.1945.

In connection with Part II of the Budget Estimate for 1946-47 I have the honour to submit the following proposal for the opening of a Government Middle School for girls at Kumbakonam by taking over the management of the local Municipal Elementary School, in East Ayyan Street. The need for the opening a Government Secondary School for girls was explained in this office letter Roc.No.154-A/45 dated 14.7.1945 read in the Government Memorandum quoted above.

2. The Inspectress of Girls' Schools, IV Circle, reports that the Kumbakonam Municipality cannot undertake to run a secondary school for girls in view of its slender financial resources. She recommends that the management of the Municipal Elementary school may be taken over by the Government. As the Municipality has resolved to transfer the management of the school to the Government, I support the recommendation of the Inspectress for the starting of a Government Middle School for girls at Kumbakonam with classes 1 to 5 and Forms I to III to start with and to open Form IV in 1947 after the middle school is established in 1946. The strength of the Elementary school is reported to be 200 pupils. The probable strength of the proposed secondary school is reported to be 260 distributed among classes 1 to 5 and Forms I to III. There is therefore every prospect of a girls secondary school flourishing in the locality.

3. The Inspectress further reports that the question of transfer of the building and equipment of the Municipal Elementary school, proposed to be taken over by the Government, and the absorption of the teachers under the Municipality in the other schools of the Municipality is under correspondence with the Commissioner, Municipal Council, Kumbakonam. I shall submit a report to the Government on receipt of particulars from the Inspectress. I request that the Government may be pleased to sanction the opening of a Government Middle school for girls at Kumbakonam with classes 1 to 5 and Forms I to III from the beginning of the school year 1946-47.

4. The financial effect of the proposal is as shown below:

R.C.No. 9-A/45 dated 28th September 1945.

Opening of a Government High school for girls at
Angalore in Kistna District.

In connection with Part II of the Budget Estimate for 1946-47 I have the honour to submit for the favourable consideration of Government the following proposal for opening a Government High School for girls at Angalore.

2. The Inspectress of Girls' Schools, I Circle, proposed the opening of a Government High School for girls at Angalore even from the current school year. She has explained in detail the urgent need for the provision of secondary education facilities for girls there. The public are very enthusiastic in this matter and a special committee formed for the purpose has promised to endow the school with buildings, site, furniture, and also a sum of Rs. 5,000/-.

3. Angalore, with a population of about 4,100, is reported to be the centre for about 22 villages, including Budivada Municipality (population 23,600) and a few villages with a population of more than 4000 each within a radius of 5 miles. There is a Board Higher Elementary school for girls at Angalore with a strength of 231 and within a radius of 5 miles 905 girls are reading in the Higher Elementary schools. The nearest High school to Angalore is the Board High School for Boys at Gudivada, 5 miles away, where 93 girls are reading. The nearest High school for girls is the Lady Amthill Secondary and Training school for women at Masulipatam 16 miles away and the next nearest High School for girls is at Bezvada, 31 miles away. There is a growing demand for secondary education for girls and parents, too, are reported to be very enthusiastic. But in the absence of proper facilities for their secondary education, a very large number of girls at Angalore and its neighbourhood are discontinuing studies after the VIII standard. The District Board, too, is quite willing to co-operate in the opening of a Government Secondary school for girls at Angalore. The Board has decided to close standards IV - VIII of the Higher Elementary School for girls and transfer the furniture to the Government school. The Board has also agreed to hand over a building site and also to transfer 3 women secondary Grade Assistants. The Inspectress proposes the opening of a Government High school with classes IV and V and Forms I-IV in 1946-47. Forms V and VI will be opened in the succeeding years. She expects the following strength when the school is opened:-

Form IV	30	V Class	25
Form III	30	IV Class	25
Form II	30		
Form I	30	Total	170

4. As regards accommodation, it is reported that the school can be accommodated in a Library building belonging to the Committee of Sree Balasaraswathi Library, which is at present used by the Board Elementary school for girls. The Inspectress states that the library building in which it is proposed to locate the new school is insufficient for all the classes and that the school committee is prepared to build more rooms as soon as the Government approve the proposal. The school may be located

in the library building as a temporary measure. The Committee have promised also to put up a first floor on the library building and also to construct a building on the site proposed to be given to Government by the District Board.

5. In view of the circumstances explained above I recommend the opening of a Government girls school at Angalore from June 1946 with classes IV, V and Forms I to IV to begin with.

6. I propose to ask the Committee formed for this purpose to deposit into the Treasury Rs. 5000 promised by them and to put up the structures promised by them as soon as the proposal is approved by the Government and transfer the property to Government. If the Government can pass early orders on the proposal, it may be expected that the Committee may take early action in the matter before the school year begins. I request the favour of orders on this point.

7. The financial effect of the proposal is worked out below:-

Cost in 1946-47.

Recurring:-

Pay of Headmistress in the cadre of School Assistants	70 x 9	Rs. 630/-
Pay of 1 L.T. Assistant (For Form IV) in the cadre of school Assistants	70 x 9	630/-

Sir,

Sub: Government Middle School for Muslim Girls -
Abiraman - Opening of classes 1 to 4 - Sanction
requested.

Ref: Govt. Memo. No.35742-B/45-1 Edn., dated 28-8-45.

In connection with Part II of the Budget Estimate for
1946-47 I have the honour to submit the proposal for the
opening of classes 1 to 4 in the Government Middle School for
Muslim Girls, Abiraman and to state as follows:-

2. The Inspectress of Girls Schools, VII circle reports
that the number of girl pupils that are likely to be enrolled
in each of classes 1 to 4 is as shown in the margin. This
is a very encouraging and it indicates that there
is a definite need for the opening of these classes.

Class 1	...	32
Class 2	...	26
Class 3	...	27
Class 4	...	36

The strength of class 5 and Form I opened in the
current school year is 23 and 6 respectively. The
Inspectress anticipates a strength of 15 pupils
in Form II next year over and above the number
that will be promoted from Form I. She further

points out that all the girl pupils in the locality desirous
of having secondary education will join these classes even
from the very beginning of their school course. The opening
of classes 1 to 4 will also prevent the non-muslim girls
pupils from joining the local high school for boys, as they
are at present doing, and will thus serve as a feeder to the
Government Middle School.

3. Gift of the school building:

The particulars called for in the Government
Memo. referred to above re: the gift of the school building to
the Government have not been received from the Inspectress
and I shall submit the same as soon as they are received.
Pending a decision on the acceptance of the gift of the
building I request that the Government may be pleased to
sanction the opening of classes 1 to 4 in the Government
Middle School for Muslim Girls, Abiraman, from the beginning
of the next school year.

4. The financial effect of the proposal is as follows:-

P.T.O.

Income from fees:

The fee income may be estimated at Rs.400/- per annum.

Cost in 1946-47:

Non-recurring:

Furniture	...	Rs. 800
Books	...	Rs. 200

		1000

Recurring:

Pay of four Secondary Grade teachers for nine months (Rs.30-55) 1080 or
4 x 9 x 30 Rs.1,100 in round figures.

Total cost in 1946-47 ... Rs.2,100

Ultimate cost:

Average pay of four Secondary grade teachers for 12 months $42 \frac{2}{9} \times 12 \times 4 =$ Rs. 2,028 or
Rs. 2,000 in round figures.

Sir,

Sub: Opening of a Government Middle School for Girls at Chicacole - sanction - requested.

In connection with Part II of the Budget Estimate for 1946-47 I have the honour to submit for the sanction of Government as a SPECIAL CASE, though late, the following proposal for the opening of a Government Middle School for Girls at Chicacole.

2. The Inspectress of Girls' Schools, I Circle reports that Chicacole is a Municipal Town with one high school for boys and one higher elementary school for girls. It has a population of about 30,000 and a population of 1154 girls of school-going age. The Municipal Council, Chicacole have actually forwarded a resolution requesting Government to open a middle school for girls or to give them a grant for opening a middle school. The Inspectress points out that the Chicacole Municipality is not in a position to start and maintain a secondary school of its own on account of its slender finances. She therefore recommends that a Government Middle School for girls with classes 4 and 5 and Forms I to III may be opened as there is a definite need for such a school in the locality.

3. I submit there are prospects of a Girls' Secondary School flourishing in the locality in view of the following circumstances:

- the number of girls reading in the local high school for boys is reported to be 94 in classes 4 and 5 and forms I to III.
- the probable number of girls likely to join the proposed school is reported to be 222 (i.e.) 100 in classes 4 and 5 and 122 in Forms I to III.
- the number of pupils in the higher standards of the Municipal Elementary School for Girls is reported to be 88, and
- the Commissioner has reported that the Municipality will run the lower standards if the Government open a middle school with class 4 upwards.

4. ACCOMMODATION:- It is proposed to accommodate the school in a rented building on a monthly rent of Rs.40/- per mensem.

5. STAFF:- The staff that will be required for the Middle School is one L.T. Assistant (Headmistress) 4 Secondary Grade teachers, one Physical Training Instructress, One combined Drawing and Sewing Mistress, One Pandit & One Music Mistress. One Clerk and One Peon will also be employed.

6. The financial effect of the proposal is as shown below:-

Angalore has a population of 4,100 only.

There is a high school for boys at Guddivada
which has a population of 23600. The girls at
Angalore & surrounding villages can go to the high
school at Guddivada. If a separate high school
for girls is considered necessary ^{for that area} it has been
suggested that ~~it~~ ^{it} should be opened at
Guddivada and not at Angalore. The DPJ

Sir,

SUB:- Opening of a Government High School for girls at Angalore;

REF:- Government Memorandum No.43609-B/45-2
Education, dated 27th October 1945.

With reference to the above Government Memorandum, I have the honour to state as follows:-

It has been suggested by the Government that the high school for girls proposed in my letter RC.No. 9-A/45 dated 28th September 1945 should be opened at Gudivada and not at Angalore. It is true that Gudivada has a population of 23600 as against 4100 of Angalore and that there is a Board High School for Boys at Gudivada. But Gudivada is not a central place for the rural area for which a high school for girls at Angalore has been proposed. For school purposes, Gudivada is too far for a large number of villages in question. In spite of a large population, the number of girls reading in the Board High School for boys at Gudivada is only 93 of which some presumably come from the villages nearby. Further no representation has been received so far for a separate high school for girls at Gudivada. In view of the large population, the need for a girls High School at Gudivada

(P.T.O)

21

- 2 -

also may arise in future. But the opening of the high school at Gudivada instead of at Angalore will not solve the demand for a separate high school for girls in the rural area in question which is essential and urgent. To open a High School at Gudivada, the Department has yet to secure buildings, playgrounds, etc.,

Angalore is the central place for about 20 villages lying within a radius of 2-5 miles. It is connected with these villages by rail or road. The Inspectress who inspected the rural area in question, accepted Angalore as the suitable centre. The proposal for a high school at Angalore has the substantial support of the public as well as the District Board. The opening of a high school at Angalore was urged even in the current year. In view of the urgent need, the proposal cannot be postponed.

In the circumstances stated above, I request that my proposal for opening a high school for girls at Angalore may be approved. The need for a separate high school for girls at Gudivada will be watched in future.

Dear Sir,

Sub: Opening of Government Girls'
High School at ANGALUR, Kistna Dt.

We had collected the required amount and we are ready to start the construction of the buildings required as stated in our application dated 12th September, 1945. Unless these constructions are started immediately they may not be ready by June, 1946 for opening from Class IV to Form IV. The site in which one of the buildings is proposed belongs to the District Board, Kistna, which passed a resolution in August, 1945 to hand over the same if the Government is going to open a Government Girls' High School. So we request you to direct the District Board, Kistna to hand over the site to ~~you~~ us at an early date for the construction of the above.

Thanking you,

Yours faithfully,
For Sir Statham's Girls' High
School Committee,

SECRETARY.

The policy of the Government is to encourage the education of girls by provid-
ing secondary schools for them at Government cost although they rely on private
agencies and local bodies for the expansion of facilities for secondary education of
boys. On 30th June 1944 there were 33 Government secondary schools for girls.
In the current year the Government opened 7 new middle schools and 4 high
schools and added high school forms to 6 existing middle schools. The total
number of secondary schools for girls are now 44 of which 20 are high schools and
15 are middle schools.

ORDER MS.NO. 694 EDUCATION, dated 4/4/1946.

The Government approve the proposals of the Director of Public Instruction for the opening of additional secondary schools for girls with effect from the school year 1946-47 as detailed below:-

(i) that a Government Middle School for girls be opened at Palni with class 5 and Forms I to III

(ii) that a Government Middle School for girls with classes 4 and 5 and Forms I to III be opened at Chicacole,

(iii) that the Municipal Elementary School in East Iyan Street, Kumbakonam, be taken over by Government and converted into a Middle School for girls with classes 1 to 5 and Forms I to III,

(iv) that a Middle School for Muslim girls be opened at Tellicherry with classes 1 to 5 and Form I

(v) that a new High School for girls be opened at Angalore in Kistna District with classes 4 and 5 and Forms I to IV in 1946-47, Forms V and VI to be added in 1947-48 and 1948-49 respectively.

2. The Government sanction the following establishment for the schools mentioned in para one above on the usual scales of pay and allowances. The staff employed in 1946-47 will be on a temporary basis for a period of three years ending with the school year

1948-49.

P.T.O.

2. For 1946-7, the Director of Public Instruction has made the following proposals for girls' secondary schools:-

(1) Opening of classes 1 to 4 in the Government Middle School for Muslim Girls at Abiramam in Ramnad district.

(2) Opening of four new Government middle schools at Chicacole, Kumbakonam, Palni and Tellicherry; the last mentioned is for Muslim girls.

(3) Opening of a new high school at Angalore in Kistna district.

3. A Government middle school for Muslim girls was newly opened at Abiramam in the current year with class V and Form I and Forms II and III will be added in the next two years. The school is now located in a portion of the private Ismail Girls' Elementary School on payment of rent. The management has offered to make a free gift of the school building estimated to cost more than Rs. 15,000 to Government subject to certain conditions, one of which is that the elementary school should be taken over by Government and maintained as classes I to IV of the middle school. If this is done, the question of accommodation for the middle school will be solved and the elementary school will serve as a feeder to the middle school. Further this would also enable non-Muslim girl pupils desirous of having secondary education to join the school from the very beginning of the school course.

4. There is a definite and urgent need for secondary schools for girls at Chicacole, Kumbakonam and Palni but the municipal councils concerned are not in a position to provide for the secondary education of girls. There is a Government Secondary and Training School for Women at Tellicherry but on account of sentimental objections Muslim girls are not sent to the existing school in large numbers. As the number of Muslim girls of school-going age in the town is large (751) it is urged that a separate secondary school should be opened for Muslim girls. The middle school at Kumbakonam will be located in the building of the municipal elementary school proposed to be taken over under Government management and the other schools will be located in rented buildings for the present.

5. Angalore in Kistna district is a central place for about twenty villages and a high school for girls in the rural area is considered essential and urgent. The Kistna District Board has agreed to hand over a building site and some furniture and a local committee has promised to construct a building on the site and to provide a temporary building for housing the school now.

6. This department recommends the Director's proposals in their entirety and suggest that provision may be made in the budget estimate for 1946-7 as indicated in the summary at the top.

M. V. SUBRAMANIAN-23-11-45.

The staff authorised for 1947-48 and 48-49 will be in addition to the staff authorised for 1946-47 and will also be on a temporary basis for a period of 2 years or one year as the case may be.

Sir,

In commending resolution No. 18 Dated 15-4-46 passed by the Municipal Council, Chicacole requesting the Educational Authorities to convert the Municipal No. 2 Higher Elementary Girls' School into a Government Middle School for girls from 1946-47 I have the honour to state as follows:-

The Municipal Council, Chicacole in its resolution No. 77 Dated 16-5-45 resolved to request the Government to open a middle school for girls at Chicacole or to give a liberal grant to it for converting the present No. II Girls' School to a middle school. With my covering letter R.C.No. 1670-B1-45 D to the Director of Public Instruction I forwarded the said resolution and requested that speedy arrangements for the starting of a Government Middle School for girls at Chicacole may be made. After the some correspondence, copy of proceedings of the Director of Public Instruction R.C.No. 426-A-45 Dated 8-8-45 was received by the Commissioner of the Chicacole Municipality. In it the Commissioner was asked to furnish information on certain points and the same was furnished by the Commissioner in his letter dated 12-9-45. A copy of the same was sent to the Director of Public Instruction, Madras in reply to his proceedings R.C.No. 426-A-45 Dated 14-9-45.

Then a copy of the proceedings of the Director of Public Instruction Dated 22-9-45 was received by the Commissioner asking him to intimate whether the owner of the building in which the No. 2 Municipal Higher Elementary Girls' School is located is prepared to put up extensions before the opening of the Middle School in June 1946 and what will be the probable rent for the building after the extensions are made. As the reply for the same was directed to be sent immediately, the Commissioner in his letter Dated 28-9-45 gave the information to the Inspectress of Girls' Schools, 1st Circle, Rajahmundry and sent a copy of the same to the Director of Public Instruction. The Commissioner in his letter D/30-11-45 requested the Director of Public Instruction to intimate to him the stage at which the matter stood. The said letter of the Commissioner was retransmitted to him as N.R.O.C. No. 426-A-45 Dated 18-12-45 with a statement that the proposal has been submitted to Government as a Part II Scheme for 1946-47 and that their orders may be awaited. I am sorry to state that the Chicacole Municipal Council has not received any final orders on the subject ~~monti~~ until now.

I think that in view of what I have already written in my R.C.No. 1670-B1-45 D it is unnecessary for me to state herein the reasons for the early establishment of a Government middle School for girls at Chicacole. As the Government has been pleased to take up improvement of female education as a post war measure and as there is a real need for a Government middle school for girls at Chicacole, I request the Government to give a very favourable consideration for the resolution passed by the Municipal Council

Sub:- Schools - Secondary opening of Govt. Middle School
for Muslim Girls', Tellicherry.

Government sanctioned in their order No. 694 Edn., dated 1-4-46 the opening of a middle school for muslim girls' at Tellicherry in the building of the Aided Almodrasathul Mubrasia Higher Elementary School for Girls' Government also granted permission in their order No. 1116 Edn., dated 4th June 1946 to the management for holding quran classes in the premises of the school even after it was handed over to Govt. subject to the condition that classes should be held outside school hours and without any extra cost to Government. This order was duly communicated to the secretary of the Muslim Educational Association. The Secretary of the Association now reports that he is not in a position to give a definite idea as to whether and when the school Association will resolve to make the building available for opening the school this year, as the school Association is awaiting a reply from me in regard to certain conditions specified in the letter of the Manager of the school dated 30-5-46 to the Inspectress of Girls' Schools VI Circle, copy submitted for favour of information. In regard to the 2nd condition stipulated by the Manager that "it will not be permissible to admit non-muslim pupils into this school under any circumstance". I have the honour to state that in my opinion this is a very unreasonable attitude which the manager is taking. Government should not be a party to shutting out pupils of any community from a school as long as they could profit by the instruction imparted there. Further it will be a bad precedent. The rent demanded for the building too is high in the locality. Since efforts made to secure other buildings in the locality for the school have not proved successful. I am to state that there is no prospect of opening the school this year.

Madam

I understand that orders have been issued sanctioning the opening of a middle school for Muslim Girls in the Madrasathul Mubarakha H.E. School while I have received no assurance that the management will have the right to continue imparting religious instruction to pupils in the same building from 8 a.m. to 10-30 a.m. This assurance was demanded by the management as a condition precedent for letting the building to the department for the purpose of the middle school. I am bound by the resolution passed by the managing committee on 5-5-45 in this behalf. I have the honour to inform ~~xxxxxx~~ you that I shall not be able to place to place the Madrasa Building at your disposal until I receive such an assurance.

Further I am to inform you that having regard to the aims and objects for which funds were raised for the building it will not be permissible to admit non Muslim pupils into this school under any circumstance.

May I further state that I have not so far been told the rent that is to be paid for the building on furniture. I am to state that the minimum rent demanded by the management is Rs. 150/- per month. They will not accept any less amount.

The proposals of the Director of Public Instruction for the opening of new secondary schools for girls or for the opening of additional classes in the existing institutions in 1946-47 are as follows:-

(1) Opening of classes 1 to 4 in the Government Middle School for Muslim Girls at Abiraman in Ramnad District.

(2) Opening of 4 new Government Middle Schools for girls at Palni, Tellicherry, Kumbakonam and Chicacole.

(3) Opening of a Government High School for girls at Angalore in Kistna District.

Number 1. A Government Middle School for Muslim Girls has been newly opened at Abiraman in the current year with Class V and Form I and Forms II and III will be added in 1946-47 and 1947-48 respectively. The School is housed in a portion of the building occupied by the Ismail Girls' Elementary School for Muslim Girls on payment of a rent of Rs. 35/- p.m. The Manager and Correspondent of the Elementary School has offered to make a free gift of the school building estimated to cost more than Rs.15,000/- to Government subject to certain conditions.

tions, one of which is that the management of the existing elementary school run by him in the same building should be taken over by Government and maintained as Classes I to IV of the Middle School. The Director has accordingly submitted proposals for the opening of Classes I to IV in the school as the question of transfer of the building can be finally decided only after this is settled. The net ultimate extra recurring cost to Government on account of the proposal will be Rs. 1900/- per annum (ultimate cost ^{Rs. 2900} minus ^{Rs. 1000} income from fees Rs. 400 plus Rs. 600 rent). In the circumstances stated at 'X' on p.11cf, the proposal may be supported.

2. New Middle Schools for girls:

Palni: There are two elementary schools for girls - one mission and one municipal. The municipality has closed down the higher elementary standards in ~~its~~ school. It is reported that there is a real need for the opening of a Government Middle School with class 5 and Forms I to III to begin with and that there is every prospect of a secondary school flourishing in the locality.

Kumbakonam: The proposal is to take over the management of the Municipal Elementary School in East Ayyan Street and to convert it into a middle school with classes I to 5 and Forms I to III in the next year. The necessity for a Girls Secondary School in a big town like Kumbakonam may be admitted. It is reported that the Council is not in a position to maintain a Secondary School for girls.

Chicacole: The proposal is to open a Middle School with Classes IV and V and Forms I to III. The Municipal Council has agreed to maintain an elementary school with lower standards.

The Council is said to be not in a position to open and

maintain a Secondary School for girls for which there is a definite need.

Tellicherry: The proposal is to open a Secondary School for Mappilla Girls with classes 1 5 and Forms I to start with. There is already a Government Secondary and Training School for women in the town. Form IV was opened in that School in the current year and Forms V and VI will be opened in the year 1946-47 and 1947-48 respectively. It is reported that on account of sentimental objections, muslim girls are not being sent in large numbers to the existing girls school and that the opening of a separate school for Muslims has been urged by the Malabar Muslim Educational Association. The management of an aided elementary school has ^{also} offered to give ~~a~~ school building, equipment and playground for the proposed school and that only rent will have to be paid for the building.

3. Opening of a High School for Girls at Angalore.:

The proposal is to open a High School with classes 4 and 5 and Forms I to IV in 1946-47 and Forms V and VI to be added in the succeeding years. There is a Board Higher Elementary School for girls at the place. It is ~~reported~~ that the District Board has agreed to close standards IV to VIII in its Higher Elementary School and to transfer to Government ^{a site for the construction of a building for the} ~~the~~ ^{proposed high school, the furniture} ~~the~~ of the standards to be closed ^{in the Board's School} and three Secondary grade teachers. It is also stated that a local committee has agreed to construct a building on the site proposed to be given by the District Board and

to endow the school. As the place is said to be a centre for 22 villages and in view of the proposal to endow the school with site, buildings and furniture, ^{perhaps} a Middle School may be opened in 1946-47 and the opening of higher forms may be considered later after the necessary buildings are put up and handed over to Government, especially as the Inspectress has stated that the library building in which the school is proposed to be located ~~in~~ will be insufficient for all the classes.

4. The policy of the Government is to encourage the education of girls by providing Secondary Schools for girls at the cost of provincial funds. In the current year the Government sanctioned the opening of 7 new Middle Schools and 4 new High Schools ^{and additional} forms in six existing Middle Schools. The proposals for 1946-47 are very moderate and may be supported. A statement showing the recurring and non-recurring expenditure involved

in the proposal is put up. The Director has not furnished an estimate of the income from fees in respect of the schools to be opened at ~~Tellicherry and Angalore.~~ Tellicherry and Angalore. - A draft T.M. calling for this information is submitted below for approval. After issue the file may be sent to Finance for remarks.

The E.&P.H. department recommend the proposal of the D.P.I.

to open

- Classes 1 to 4 in the Government Middle School for Muslim girls at Abiraman in Ramnad district,
- Four new Government Middle schools for girls at Palni, Tellicherry, Kumbakonam and Chicacole and
- One Government High School for girls at Angalore.

The proposal involves:-

(1) The employment ultimately of an additional staff of 8 L.T. Assistants, 29 Secondary Grade Assistants, 5 Pandits and 1 ~~Arabic~~ ^{Arabic} Munshi, 5 Physical Training Instructors, 5 ^{revises} Combined Drawing and Sewing Mistresses, 4 Music Mistresses, 5 Clerks and 6 Peons; and

(2) An ultimate extra cost of Rs.60,900/- per annum recurring and Rs.14,700/- non-recurring as shown on page 1 of the statement at (Z) (as modified in pencil). Against this an income of about Rs.9,900/- (roughly) is anticipated by way of fees. (The scheme will touch on Prov. Revenue to the extent of Rs.51,000/-)

2. The facts of the case have been set out in the E.&P.H. note in the foregoing pages, and may agreed to in this department in view of the policy of Government to encourage the education of girls by running schools for girls at Government cost. The E.&P.H. may be requested to prepare the necessary note on the Part II scheme.

All the proposals are agreed to in Fin. with the exception of the girls' High School at Angalore.

From page 7 of it is seen that Angalore (Kistna) is a village with a population of 4100 only and that there is a Boys' High School at Gudivada only 5 miles away. Girls can go to this High School, and in any case even if a separate High School for girls is necessary ^{for this area} it should be opened at Gudivada & not Angalore. This village is said to be the centre of 22 villages, but so is every village in the district for the 22 villages surrounding it. Perhaps it is the home of some influential person. It seems to be no case for sanctioning a High School at Angalore.

hs 24.10.45 E.P.H.

Please see the Finance Dept's note on pp 4-5 ante. They agree to the proposals of the DPJ for the opening of new secondary schools for girls except the one relating to the opening of a girls high school at Angalore. They suggest that if a girls' high school is to be opened it should be at Gudivada and not Angalore.

The remarks of the DPJ may be obtained on this suggestion.

Please see previous Fin. note overhead and the notes following. The DPJ has pressed for the opening of a girls' High School at Angalore (Kistia or) for the following reasons:-

1) Although it has got a population of only 4100,

Angalore is more centrally situated in the rural areas whereas, Gudivada is far away;

(2) In spite of its larger population, the number of girls studying in the Board Boys' School at Gudivada is only 93 of whom some are coming from nearby villages; and

(3) No representation has been received from the residents of Gudiyattam for a girls' High School. It should have agreed with the views of the DPJ. These arguments seem to have no force. The opening of a girls' High School has to be decided mainly with ref. to the school going population and it cannot be made contingent upon the views of interested persons. From point of view of importance and scope of for expansion of the educational institutions, towns with a larger population have a better claim than villages. However, centrally they are in fact there are several such villages in the Bellary district which may be situated. In fact, the DPJ has admitted

that eventually it might be found necessary to start a girls' High School at Gudivada also. It seems doubtful if Govt can run two girls' High Schools in that area at any time. In the Circs, the case for opening a High School at Angalore does not seem strong and Fin may agree to the view already expressed on p 5 above.

18

As I have already said every village in Dist is "the central place for about 20 villages lying within a radius of 2-5 miles". It seems to be somewhat extravagant to open a girls' High School at Angalore.

13.11.45

The case relates to the opening of new secondary schools for girls and additional classes in the existing schools from the school year 1946-47. The proposals of the D.P.I. are to open

(a) Classes 1 to 4 in the Govt. Middle School for Muslim girls at Abiramam in Ramnad district, — pp 11-12 g

(b) Four new Govt. Middle schools for girls at Palni, Tellicherry, Kumbakonam and Chicacole, and, — pp 1-6 g 4
pp 13-14 g

(c) One Govt. High School for girls at Angalore in Kistna Dt. — p. 7-8 g

The policy of the Govt. is to encourage the education of girls by providing secondary schools for them at Govt. cost. This Deptt., therefore, supports the Director's proposal. Finance have agreed to proposals (a) and (b) above. In regard to proposal

(c), Finance consider that there is no case for the opening of a girls' school at Angalore in Kistna Dt. and if a school is necessary for that area, it should be opened at Gudivada. The D.P.I. who was consulted does not agree to this suggestion. He re-

quests that his proposal for the opening a girls' High School at Angalore may be approved. Please see his letter on p. 20-21 c.f.

In the circumstances stated by the D.P.I. this Deptt., may press the proposal.
