REF:- G.O.No.MS. 1788, Education,
dated ~~1st~~ 2nd November 1945.
24 ***

In connection with the opening of the B.Sc. Degree course in the Government Muhammadan College, Madras, I have the honour to request that the Government may be pleased to sanction the following additional staff and equipment in the college.

STAFF REQUIRED FOR THE FIRST YEAR 1946-47.

	Physics:	Chemistry:	Natural Science:	Scale of Pay.
Mathematics:				In the M.E.S.
Lecturer: 1	Lecturer (1)	Lecturer (1)	...	Rs. 40--65
	Demonstrator (1)	Demonstrator (1)	Demonstrator (1)	Rs. 19--30
	Attender (1)	Attender (1)	Attender (1)	Rs. 19--24
		Gasman (1)		Rs. 30--55
		storekeeper (1)		

---: 8:---
ADDITIONAL STAFF FOR THE SECOND YEAR 1947--48.

<u>Mathematics:</u>	<u>Physics:</u>	<u>Chemistry:</u>	<u>Natural Science:</u>	<u>Scale of pay.</u>
Assistant Lecturer (1)	Assistant Lecturer (1)	Assistant Lecturer (1)	Assistant Lecturer (1)	Rs. 100-200
	Demonstrator (1)	Demonstrator (1)		Rs. 40--65
	Attender (1)	Attender (1)		Rs. 19--30

Establishment:

1 Sergeant: ... Rs. 28--3/2--37

The appointment of additional sweepers and gardeners will be sanctioned by me.

APPARATUS AND CHEMICALS.

Apparatus and Chemicals:	...	Rs. 49,800
Gas Plant:	...	Rs. 15,000
Library Books:	...	Rs. 2,500
Furniture:	...	Rs. 1,24,000 (Approximately)

2. In the event of the proposed new buildings not becoming available by June 1946, the Principal proposes (vide copy of his letter dated 25th November 1945 submitted) that the Intermediate Physics classes may be transferred to the school buildings and to utilise the existing Intermediate Laboratories for the B.Sc., Classes. The school laboratories may be fitted with additional work benches for the Intermediate Classes and the Physics Laboratory may be fitted with Light and Electricity rooms for the B.Sc. Classes. The Principal also proposes to equip one hall with a Gallery and Demonstration table for the Intermediate Chemistry Lecture halls. He requests that a sum of Rs. 7,000 may be sanctioned for the purpose by reappropriation in the current year so that the proposed B.Sc. Courses may be started next academic year. I support the Principal's request.

3. As regards the new buildings, I have addressed the Chief Engineer, separately to expedite the construction of the buildings. As it may not be possible for the Public Works Department to complete the work before June 1946, I have instructed the Principal to consult the Vice-Chancellor of the University of Madras on the suitability of the temporary arrangements proposed by him. I shall submit my further report in the matter on hearing from the Principal.

I have the honour to be,

Sir,

Your most obedient servant,

M. Muhammad

for Director of Public Instruction.

Copy of letter RC.No. 463/45 dated 25th November 1945 from the Principal, Government Muhammadan College, Madras to the Director of Public Instruction, Madras.

Opening of B.Sc. Courses - Government Muhammadan College, Madras.

In continuation of my letter RC.No. 463/45 dated the 24th November 1945, submitting the required estimates for equipments and furniture of the laboratories, I have the honour to submit, that in case the proposed new buildings are not available by June 1946, we have to resort to the temporary arrangements proposed originally of transferring the Intermediate Physics Classes to the school building, using the existing Intermediate Laboratories for B.Sc. Classes, Fitting up school laboratories with additional work benches required for accommodating Intermediate classes and for fitting up 'light' and 'electricity' rooms in the Physics Laboratory for B.Sc. course, a small sum of Rs. 5000/- may be required. Further for equipping, one hall 40' x 20' with a gallery and demonstration table for Intermediate Chemistry lecture halls a sum of Rs. 2,000/- may be required. Hence I submit that a sum of Rs. 7,000/- by reappropriation may be sanctioned for the above purpose so that the B.Sc. courses may be started in June 1946 even if the proposed building is not available for use by that time.

I have the honour to invite the attention of the Government to para.(3) of my letter R.C.No.1060 A/45, dated 4-12-45 on the subject mentioned above and to state that the Principal, Govt. Muhammadan College, Madras has since consulted the Vice-Chancellor of the University of Madras in regard to the temporary arrangements referred to in para.(2) of the above letter in regard to Laboratory accommodation. It is reported that the Vice-chancellor had visited the proposed laboratories and found them satisfactory and gave his assent.

In the circumstances stated I request that the Government may be pleased to approve the temporary arrangements as proposed by the Principal and sanction the sum of Rs.7,000/- required for the purpose at an early date.

I, have the honour to be,
Sir,

TELEPHONIC MESSAGE BY POST DATED 24--12--1945

From the Director of Public Instruction, Madras

To the Secretary to Government, Edn & P.H. Dep

Ref: T M. dated 17-12--1945 regarding the opening of the B.Sc
course in the Govt. Muhammadan College, Madras.

The required details are furnished below:-

Amount required

Item	Current year	1946-47	1947-48
Apparatus and Chemicals	5000	38500	
Gas Plant	-	15000	6300
Books	-	2500	-
Furniture	7000 ✓	124000	-

2. As regards provision of Rs 7000 for furniture during the current year, please see para 2 of my letter R.C.No. 1060 A/45, dated 4-12-45 and letter dated 6-12-45.

Regarding the provision of Rs 124000/- for furniture during 1946-47 the Principal states that the proposed new buildings will be so large in size as the existing college buildings and that provision is required for equipping 7 halls of different sizes with galleries for lecture works and the main assembly hall intended to accommodate 450 students at a time. Further the library has to be improved keeping in view the large increase in strength due to the opening of the B.Sc classes and fit up completely Physics and Chemistry main and subsidiary laboratories with work benches gas and water fittings and sub-equip with fittings the balance room, the preparation rooms, store room etc. The provision under furniture includes the needs of all the above requirements calculated at the present high cost of

10

materials and labour.

3. The Principal requests early sanction as orders have to be placed for apparatus, Chemicals and Books in January 1946 and the work of fitting up the gas plant has also be started in January.

Education and Public Health Department.

Sir,

Ref: Government Memorandum No. 55374-C/45-2 Edin
dated 7-1-1946.

I have the honour to furnish in the annexure details of the staff sanctioned for the Government Arts College, Rajahmundry, the Ceded Districts College, Anantapur and the Government College, Kumbakonam where the B.Sc. pass courses already exist. The details show the existing staff in the science departments of those colleges, inclusive of the staff sanctioned in connection with the opening of the B.Sc. courses. I have also furnished therein the details of the staff that will work in the science department of the Government Mohammadan College, Madras when the B.Sc. courses are also opened including the staff for which sanction has been requested in my letter RG.No.1060-A/45, dated 4-12-1945. The comparative statement will show the reasonableness of the requirements of the Government Moham-
madan College, Madras.

2. The case of Government Victoria College, Palghat is not included in this statement as it stands apart on account of its large strength. The slight variation in the

strength

: 2 :

strength of the staff in the colleges is due to the variation in strength of the classes. I have addressed Government already for the employment of a Lecturer in Chemistry in the Madras Educational Service in Government College, Kumbakonam.

3. The Principal, Government Mohammanadan College, has requested that the lecturer in chemistry and in Physics may be appointed from 1-4-1946 so that they may look to the necessary arrangements during the vacation for fitting up and equipping the Laboratories and start regular course of instruction as soon as the College reopens. I support the request of the Principal and recommend that Government may be pleased to sanction two posts of Lecturers in the Madras Educational Service (1 for chemistry and 1 for Physics) from 1st April 1946. I request the favour of early orders.

I have the honour to be,
Sir,
Your most obedient servant,

Fort St. George, Madras.

7757

Reference: -My reply telephonic message dated 24.12.1945 regarding opening of the B.Sc. course in the Government Muhammadan College, Madras.

Please see para 3 of my telephonic message referred to above. Early sanction for the purchase of equipment may be accorded as the work of fitting up the gas plant has to be started and orders have to be placed for furniture, books and apparatus and materials immediately.

N. S. S. S.

ks. 6-2.

For Director of Public Instruction. 6.2.46

22
Office of the Director of Public
Instruction, Madras, dated 12-2-46.

Dear Mr. Balakrishna Menon,

Sub: Govt. Muhammadan College, Madras - B.Sc.
Course - sanction for equipment and staff.

In para. 3 of this office letter No. 1060 A/45, dated 30-1-46 the Director has requested the sanction of Government for the employment of 2 Lecturers in the Madras Educational Service (1 for Chemistry and 1 for Physics from 1-4-46). Request has also been made in the Telephonic Message dated 6-2-46 for the sanction of Government for the purchase of the equipment for the new course immediately.

I am sending herewith a copy of the Principal's letter R.C.No. 463/45, dated 11-2-46 on the subject which explains fully the urgent need for the appointment of the Lecturers and for the immediate purchase of the equipment. I request therefore that the sanction of Government may be obtained urgently for the employment of the 2 Lecturers from 1-4-46 and for placing orders for the purchase of the apparatus and chemicals immediately at a cost not exceeding Rs. 50,000/-

Permission may also be obtained for proceeding with the building of the gas plant.

Yours sincerely

Sri I. Balakrishna Menon,
Assistant Secretary to Government,
Education & Public Health Department,
Madras.

12.2.46

10. Bond. All selected students will be required to enter into a bond, in the form given, undertaking to serve the Govt. of India on their return after the completion of their course of instruction for a period of five years. It is required to do so in a gazetted post or to take up a similar post or other comparable employment, if so directed by the Government of India.

11. In the case of a student who, on account of illness or other reasonable cause, is unable to complete the approved course of study and is obliged to return to India, the Govt. of India will pay the cost of the return journey and may at their discretion forego the refund of the amount referred to in (a).

12. In the case of a student who, on account of illness or other reasonable cause, is unable to complete the approved course of study and is obliged to return to India, the Govt. of India will pay the cost of the return journey and may at their discretion forego the refund of the amount referred to in (a).

13. Conditions of the grant of stipend, etc. (a) The grant of the stipend and allowances will be subject to periodic reports of satisfactory progress. In case of continued adverse reports the right of cancel the stipend immediately, and the student will be required to return to the Govt. of India the total amount spent on him up to date together with interest calculated at fixed Govt. rates, in accordance with the terms of the bond referred to below.

"Ref: Opening of B.Se. Courses - Sanction for the
purchase of apparatus and chemical for
laboratories - appointment - Lecturers in
Physics and Chemistry from 1-4-46.

Q20

I have the honour to submit that in my letter R.C.463/45 dated 24-11-45 embodying all the requirements for the B.Se., courses, I requested a very early sanction for the purchase of apparatus and chemicals to enable us to place orders sufficiently in advance so that the apparatus and chemicals would become available by July 1946 for the laboratory work. It is already the middle of February and no sanction has so far been received. The University Commission is expected to visit in March to inspect the laboratories and the apparatus for the B.Se. Courses. Therefore I request that, in case there is delay in getting the sanction in respect of all the items asked for, the Government may be addressed TO PERMIT US TO PLACE ORDERS FOR THE PURCHASE OF APPARATUS AND CHEMICALS IN ANTICIPATION OF THE FINAL SANCTION.

Further I submitted that the APPOINTMENT OF LECTURERS IN PHYSICS AND CHEMISTRY SHOULD BE MADE FROM 1ST APRIL 1946 for making the necessary arrangements, which are given below in detail, so that the regular work of the B.Se., classes may start in July 1946 without much inconvenience.

1. PLANNING AND EQUIPPING THE LABORATORIES:

The different sections of the Physics Laboratory (Electricity and Magnetism, Heat and Properties of Matter, Light) and the Chemistry Laboratory required for the B.Se., courses must be planned, the work benches and other furniture made to satisfy the needs of the practical work, and water, gas and electricity fittings done so that the laboratories may be in working order by July 1946.

2. PURCHASE OF LABORATORY APPARATUS AND CHEMICALS:

All the necessary apparatus and chemicals of approximate cost of Rs.50,000/- must be purchased and made available by July 1946. For this, indents have to be prepared, quotations called for, selection of apparatus made after personal inspection and approved after putting it to use. It involves a big amount and hence a great responsibility.

3. FITTING UP THE GAS PLANT:

The Gas Plant proposed to be built up for the use of the B.Se. laboratories is to be ready by July 1946. This should be constructed under the immediate supervision of the lecturers in Physics and Chemistry, who would be using it for the B.Se., Classes so that all the requirements might be satisfied.

For carrying out everything mentioned above satisfactorily, and building up the B.Se., laboratories there will be full work for the lecturers in Physics and Chemistry from April to the re-opening of the College after the Summer vacation. I am strongly of opinion that the responsible work of laboratory fitting and equipping might not be done satisfactorily without the appointment of the concerned lecturers. Therefore I request that early steps are taken to get the sanction to appoint the lecturers in Physics and Chemistry from 1st April 1946."

(True copy)

for DIRECTOR OF PUBLIC INSTRUCTION.
12.2.46

Memorandum.

16

[Government Muhammadan College, Madras - Opening of B.Sc.(Pass) course.]

The Government Muhammadan College, Madras, provides instruction at present in the following subjects:-

Intermediate:

- | | |
|----------|---|
| Part I | - English. |
| Part II | - Arabic, Persian, Urdu, Tamil and Malayalam. |
| Part III | - Mathematics, Physics, Chemistry, Logic, Urdu and History. |

B.A.:

- | | |
|----------|---|
| Part I | - English. |
| Part II | - Arabic, Persian, Urdu, Malayalam & Tamil |
| Part III | - Economics and History and Arabic, Persian, Urdu, and Islamic History and Culture. |

With opening of Natural Science group for the Intermediate in 1944, the number of seats for Science subjects in the college has increased to 120. The first batch of science students from this college will pass the Intermediate Examination in March 1946. A considerable proportion of these students will not be able to secure admission into the B.Sc. courses in view of the competition from candidates belonging to other communities. Consequently, they will have to take subjects other than science for their B.A. and they will not^{be} able to pursue higher scientific or technological studies which ^{may} ~~they~~ prove a handicap in their careers during the post-war period when ~~a~~ large industrial expansion is ~~expected~~ ^{envisaged}. The Board of Visitors of the college has recorded the following resolution on the subject:-

p2, p3 EFA (k)

K/1-2 EF

par a6, p3 EF
of k

"Resolved that Government be requested to open B.Sc. classes in the Government Muhammadan College to meet the increasing demand from the Muslim students for higher scientific studies and that the present college building be converted into Arts Block and that immediate steps be taken to construct a new Science Block."

The Muslim public of Madras has also represented to Government the desirability of opening B.Sc. classes in the College so that the students may continue their studies in the same college.

The strength of the B.Sc. classes in the Presidency College, the only Government Arts College in the city, can be increased only if the Intermediate classes are abolished. This is not, however, considered practicable, at present. In the circum-

stances, the Government have decided that B.Sc. classes in Mathematics, Physics, Chemistry and Natural Science ^{shd.} ~~may~~ be opened in the College in July 1946.

2. The construction of the new buildings required can be taken in hand only after March 1946 and finished by June 1947. The Government have, therefore, sanctioned an expenditure of Rs. 7,000 on temporary arrangements to enable the new course to be started in July 1946.

3. The proposal involves an expenditure of Rs. 8,24,000 non-recurring and Rs. 45,000 recurring as shown below; the non-recurring expenditure being spread over three years (1945-46 to 1947-8):

Non-recurring.

- 1. Buildings. Rs. 6,25,000
- 2. Equipment to be sanctioned. 1,91,300.
- 3. Expenditure on temporary arrangements already sanctioned. 7,000.
- 4. Affiliation fee already 600.

Total.- 8,23,900.

Recurring.

- Staff. 40,100.
- Contingencies - Recurring
- Laboratory charges etc. 4,800.

44,900. ^{Rs} or 45,000 in round figures.

para 3, p 12 NF

p 11 NF

The building programme will provide work for labour deprived of war works

4. Orders for chemicals and apparatus and gas plant have to be placed urgently so that they ^{may} become available by July 1946. The University Commission will be visiting the college in March 1946 by which time all arrangements have to be put in train.

5. With reference to para 8(b) of the Memorandum of Financial arrangements during the Section 93 situation, the sanction of H.E. the Governor-General may be obtained for the new item of expenditure.

EDUCATION DEPARTMENT.

FROM

DR. S. R. U. SAVOOR, M.A., D.Sc., I.E.S.,
DIRECTOR OF PUBLIC INSTRUCTION, MADRAS

TO

THE SECRETARY TO THE GOVERNMENT OF MADRAS
EDUCATION AND PUBLIC HEALTH DEPARTMENT,
FORT ST. GEORGE, M A D R A S.

R.C.No. 1060-A.K/45 dated 26th March 1946.

Sir,

MUHAMMADAN COLLEGE - OPENING OF B.Sc. Course -
Additional staff.

Reference: -Memorandum No. 55374 A/45-9 Edn., dated 12.3.46

A copy of letter R.C.No. 644/45 dated 23.2.1946 of the
Principal, Muhammadan College, Madras is herewith enclosed. In
view of the Principal's letter, I recommend the sanction of
the additional staff required.

For Director of Public Instruction.

ks.27-3.

Copy of letter R.C.No. 644/45 dated 23rd February 1946 from
the Principal, Government Muhammadan College, Madras to the
Director of Public Instruction, Madras.

Reference: -Your Proceedings R.C.No. 1060-A.K/45, dated 21st
March 1946 regarding Opening of B.Sc. Course - Government
Muhammadan College, Madras--Additional staff--Particulars
called for.

The five demonstrators who are at present employed in
this college are for all the Science subjects (2 for Physics
2 for Chemistry and 1 for the Natural Science).

In Physics and Chemistry groups there are 126 students
in the Junior Intermediate class and about 100 in the Senior
Intermediate Class. As the Lecture hall cannot accommodate
more than 60 students at a time each class is divided into
two batches for lectures. For practical work each class is
divided into three batches of about 40 each and each batch
has practical work of two hours per week. As there are Muslim
Gosha lady students in both the classes arrangements are made
for them to do the practical work in a separate room. With two
batches in each class for lectures and three batches in each
class for practical work there are eight hours of lecturing work
and 12 hours of practical work per week. The Assistant Lecturer
takes 8 hours of lectures, supervises the practical work of
all the batches, is in charge of the practical work done by
the lady students who do in a separate room and corrects
about 50 laboratory record-note books per week. Each of the
two demonstrators has twelve hours of practical supervision
work and correction of about 100 laboratory record note-books
per week. As there are about 40 students at work in the main
laboratory the presence of both the demonstrators is necessary
according to the regulations of the University.

During the first year after the introduction of the B.Sc.
courses there will be lecture work for 7 hours (5 hours for main
and 2 hours for subsidiary) and practical work for 10 hours
(6 hours for main and 4 hours for subsidiary) and the services
of one more Demonstrator are required to look after 10 hours
of the practical work. As there would be simultaneous working
services of two demonstrators in charge for practical work the
classes cannot be used for the B.Sc., work.

P.T.O.

: 2 :

During the second year of the B.Sc., courses there will be similar addition of work with two more hours of practical work, and this justifies the employment of one more demonstrator during that year.

In Natural Science there are about 72 students in each of the Intermediate classes and each class is divided into three batches of 24 for practical work. The Assistant Lecturer has 5 hours of lecture work and 12 hours for practical work and the demonstrator has 12 hours of practical work in addition to the correction of laboratory record - note books.

After the introduction of the B.Sc., Junior and senior classes there will be 5 hours of lecture and 12 hours of practical work in Botany, and the appointment of an additional demonstrator for looking after the B.Sc., practical work and relieving the Assistant Lecturer of the supervision of some of the Intermediate Practical work becomes absolutely necessary. As no Assistant Lecturer is appointed during the first year of the B.Sc., course the appointment of the demonstrator is to be made during the first year itself.

There is one attender for each of the Physics, Chemistry and Natural Science for the present. With the introduction of the B.Sc., courses there will be separate laboratories for B.Sc. Main Subsidiary and Intermediate classes in Physics and Chemistry. At least one attender must be in charge of one laboratory and to attend to the needs of the practical work of each class. During the first year as there will be only junior B.Sc. class we have asked for one attender and with the Senior B.Sc. class coming during the next year an additional attender is required.

For Natural Science Section we have asked for only one additional attender to attend to the needs of the B.Sc. practical work.

As shown in detail above the 5 demonstrators, the 5 attenders asked for, are for all the B.Sc. courses in Physics, Chemistry and Natural Science (2 demonstrators and 2 attenders for Physics, 2 demonstrators and 2 attenders for Chemistry and 1 demonstrator and 1 attender for Natural Science).

COLLEGE - Govt. Muhammadan - B.Sc. (Pass) Course
Opening - Sanctioned.

Read:- From the D.P.I., R.C.No.1060-A/45, dated
4-12-45 & dated 26-3-46.

G.O. (MS.) No. 708 Edn., dated 1.4.46

The Govt. sanction the opening of the
B.Sc. (Pass) course in the Govt. Madn. College, Madras,
with effect from the academic year 1946-7. The Govt.
also sanction the employment of the follg. staff for
the purpose:-

1946-47.

*Three Lecturers in the M.E.S. on Rs.200-700 (1 Math-
matics, 1 Physics and 1 Chemistry)
Three Demonstrators in the M.E.S.S. on Rs.40-65 (1
Physics, 1 Chemistry and 1 Nat. Science)
Three Attenders on Rs.19-30 (1 Physics, 1 Chemistry
and 1 Nat. Science)
One Gasman on Rs.19-24
One Store-keeper on Rs.30-55

1947-48.

Four Asst. Lecturers in the M.E.S.S. on Rs.100-200
(1 Math., 1 Physics, 1 Chemistry and 1
Nat. Science)
Two Demonstrators in the M.E.S.S. on Rs.40-65 (1
Physics and 1 Chemistry)
Two Attenders on Rs.19-30 (1 Physics and 1 Chemistry)
One Sergeant on Rs.28-37.

The staff sanctioned will be for a
period of two years from the date of employment.

2. Sanction is also accorded to the

pp1-2 and 37-38 CF

in Mathematics,
Physics and
Chemistry and
Natural Science
(subsidiary)

C.F.18

*Note:- The D.P.I. is
permitted to employ
1 Lecturer in Physics
and 1 Lecturer in
Chemistry with effect
from 1-4-1946.

para 1 p2 CF

College. Muhammadan, Madras. Opening of B.Sc. (Pass) Courses.

From the D.P.O. Rs. 1000. 11/45 & 4.12.45.
- do - - do - 6.12.45.

(K) 230/

In the D.P.O. No. 1788-En. & 2.11.45, Govt. decided that arrangements should be made for the opening of B.Sc. (Pass) course in the Coll.

Muhammadan College, Madras, with effect from the academic year 1946-47 and that permanent buildings should be provided for the accommodation of the new classes. The D.P.O. has now reported

that he has addressed the C.E. to expedite the construction of the new buildings and that since the buildings may not be ready by June 1946, he has proposed certain temporary arrangements for the accommodation of the B.Sc. classes in the Intermediate Physics classes, at a cost of Rs. 5000 approximately.

The V.C. Madras University, is reported to have assented to the proposed temporary arrangements. Another sum of Rs. 2000 is required for equipping a hall with a gallery and demonstration table, for Intermediate Chemistry lectures. In Sep. last, the Principal suggested certain temporary arrangements for the opening of the B.Sc. course, at a cost of Rs. 5000, which were not recommended by the D.P.O. The temporary arrangements now proposed may be accepted, and Fin. requested to allot a sum of Rs. 7000 required for the purpose during the current year.

2. The following subjects are proposed to be taught:-
- | | |
|----------------|---------------------|
| 1) Mathematics | 3) Chemistry |
| 2) Physics | 4) Natural Science. |

This may be accepted.

The staff required for the first and second years is as shown below:-

	First year	Second year
1) Mathematics	1 Lecturer	1 Asst. Lecturer
2) Physics	1 Lecturer 1 Demonstrator 1 Attender	1 Asst. Lecturer 1 Demonstrator 1 Attender

incurring of the follg. expre. in connection with the opening of the course:-

Recurring.		
Contingencies and Labry. charges	Rs. 4,800 p.a.	
Non-recurring.		
1946-47.		
Apparatus and chemicals	43,500	✓
Gas-plant	15,000	✓
Books	2,500	✓
Furniture	1,24,000	✓
1947-48.		
Apparatus and chemicals	6,300	✓

3. The A.C. is requested to admit the expre. in audit pending provision of funds.

The expre will be debited to the head "37.6.-Education-University - Govt. Arts Colleges - A. Arts colleges for Men".

4/2/46 S W
5/2/46

b.no: 7757C. T.M. from the D.P.S. of 6.2.46.

p 21 cf

Please see the t.m from the D.P.S on page 21cf. The D.P.S requests that early sanction may be accorded for the purchase of equipment as the work of fitting up the gas plant has to be started and orders have to be placed for furniture, books and apparatus and materials immediately.

The rough estimate of the cost of the addl buildings called for from the b.e has not yet been recd. After getting this estimate the total cost of the scheme, non-recurring and recurring, will have to be worked out and then the sanction of the Governor General obtained. It does not seem that sanction can be given for incurring a portion of the non-recurring expenditure in advance.

p 14 cf LF

The b.e may be requested to send the rough estimate ^{called for} immediately. A draft t.m is subd in the linked file.

11/2/46. Pending the construction of the new building, the Govt. have sanctioned an expro: not exceeding Rs 7,000 for making temporary arrangements for opening the classes in July 1946. What the D.P.S. now wants is that permission may be given to place orders for the apparatus and chemicals,

p 8 of 11

p 2 of 11

11/2/46

gas plant and books now so that they may become available by July '46. It is understood that this is necessary to satisfy the university commission that will be visiting the college shortly. It is not likely that any expro: will be incurred on these items in the current year. In the circumstances the Director may be permitted to place orders for the ^{above} items on condition that no expro: is actually incurred before the scheme as a whole is approved.

The file may be sent to Secy for remarks.

12/2/46 S W
1/2/46

p.23 of 4 (K) Finance (Exp.A.)

In G.O. No. 1788, Edn., dated 2-11-1945, the Government have decided that arrangements should be made for the opening of B.Sc. (Pass) course ^(in the Govt. Mohammedan College, Madras) with effect from the next academic year and asked the D.P.I. to take immediate steps for the preparation of plans and estimates for the additional buildings and submit them to the Government with proposals for additional staff, and for purchase of furniture, equipment etc., required for the new course. In that connection, this Department noted that when detailed proposals showing the cost (both recurring and non-recurring) are received from the D.P.I., the financial procedure to be followed would be indicated. This has since been indicated in para 2 of 27.2.46. The Chief Engineer has stated that it would be possible to commence the construction of the additional buildings early in the next official year and that all the buildings could be completed by ~~October~~ ^{June, 1947}. Pending construction of the new buildings, the Government have

sanctioned an expenditure of about Rs. 7,000 for making certain temporary arrangements for utilising the Intermediate class laboratories and other consequential adjustments, with a view to ensuring that the B.Sc. class is opened in July 1946 itself.

3. On the above analogy, E & P.H. propose to permit the D.P.I. to place orders immediately for the purchase of apparatus, chemicals and books and for the fitting up of the gas plant subject to the condition that no expenditure is actually incurred before the scheme, as a whole, is approved. *(The cost of buildings is estimated roughly at 5.80 lakhs; the G.G. has been asked to submit plans & estimates)* It is stated that this course is necessary to satisfy the University Commission that will be visiting the College shortly. The cost of the above items is estimated at about Rs. 1.80 lakhs. The necessity for this large expenditure is explained in paragraph 2 of the D.P.I.'s T.M. on pp. 9-10. C.F.

It is submitted that the estimates proposed are lump sum figures and call for no special remarks. Even though the actual expenditure may be incurred *(payment made) entire* after the scheme has been sanctioned, the placing of orders for the purchase of apparatus, chemicals etc., will practically commit the Government to such a large expenditure of Rs. 1.80 lakhs. The case mentioned in paragraph 2 above will not be a precedent as the amount involved therein is comparatively much smaller. *(The present proposal by itself involves a large expenditure.)* It seems therefore necessary

that before the D.P.I. is permitted to place orders for the purchase of materials, the New Service procedure should be followed. The Governor-General's prior sanction under the Section 93 situation has also to be obtained as the expenditure is estimated to exceed Rs. 1 lakh non-recurring. In view of the urgency of the matter, it may be *suggested* that the Governor-General's sanction may be communicated by telegram.

As is likely, it will take some time to get the plans & estimates for the building portion of the scheme ready. The proposal for the purchase of apparatus, chemicals books etc. may be sanctioned in advance after following the procedure indicated at A above.

13.2.46

13.2.46

E.P.H.

File No. 84734-13.2.46

Please see the note of the Finance Dept. on pp. 7-8 ante. That Dept. consider that the "New service" procedure should be followed and the previous sanction of the G.G. should be obtained for according sanction for the purchase of the apparatus and chemicals and for starting work on the gas plant. From the latest letter of the Principal on p. 24 c.f. it will be seen that it is enough if permission is accorded now for placing orders for chemicals and apparatus for Rs. 50,000/- and for commencing work on the gas plant (Rs. 15,000/-).

2. The acceptance of the suggestion of Fin. will virtually amount to splitting up the scheme into two and following the "New Service" procedure and applying for the Governor-General's sanction for each part of the scheme. As the proposal is very urgent it is for consideration whether the estimate for the buildings furnished by the Consulting Architect viz. Rs. 5,88,000 (he has raised it from 5,80,000/- to Rs. 5,88,000) may be accepted for purposes of obtaining the G.G.'s sanction, any increase which may result after scrutiny of the plans and estimates by the C.E. being reported to the G.G. in due course. P.W.D. have agreed that the Consulting Architect's estimate may be accepted in view of the urgency of the work.

3. In the note on p. 3 ante the Fin. Dept. wanted that the scale of staff proposed by the D.P.I. for the B.Sc. classes should be examined w.r.t. the scale of staff in other first grade colleges. Please see the Memo. to the D.P.I. on p. 11 c.f. and his reply on pp. 17-19 c.f. From the comparative statement given by the D.P.I. on p. 19 c.f. it will be seen that the staff of 3 Lecturers and four Asst. Lecturers proposed for the new classes are reasonable and may be accepted. There are already five Demonstrators and three attenders in the college. It is proposed to employ 5 addl. Demonstrators and five attenders - Demonstrator and one attender for each of the subjects Physics, Chemistry, Natural Science for the 1st year class and one for each of the subjects of Physics and Chemistry for the 2nd year class. A Demonstrator and an Attender for Natural Science 2nd year class are not proposed as it is only

p. 124 dF A

p. 124 dF A

p. 124 dF A

p. 124 dF A

p. 124 dF A

10
a subsidiary subject. The number of Demonstrators and Attenders asked for is not excessive and may be agreed to. The Director has also proposed the employment of a sergeant. A sergeant is now employed in the Presidency College, Q.M.C. L.W.T. and the Teachers' Colleges, Saidapet. A sergeant may be sanctioned for the Government Muhammadan College also as it has an extensive compound and as its strength has been increasing year by year.

4. The Director has also requested that 2 lecturers, one for Chemistry and one for Physics, may be sanctioned with effect from 1-4-46. This can be done after the G.G.'s sanction is obtained.

5. The cost of the scheme will be as follows:

Non-Recurring:	
1. Buildings.	Rs. 5,88,000
2. Equipment to be sanctioned.	1,91,300
3. Expenditure on temporary arrangements already sanctioned.	7,000
4. Affiliation fee already sanctioned.	600/-
Total.	7,86,900
Recurring:	
Staff.	40,100*
Contingencies - recurring	
laboratory charges etc.	4,800*
Total.	44,900

For purposes of Governor-General's sanction the expenditure may be taken as Rs.7,87,000 (non-recurring) and Rs.45,000 (recurring).

6. The file may be sent to the Finance Department for remarks with reference to "A" on the previous page before circulation.

A.C.M. 16/2/46 S

Finance (ExpA) 9396 sept
With reference to para 6 of E&A note above, it is submitted that there seems to be no objection to the sanction of the Governor General being applied for under the Section 93 situation, on the basis

14/18/22 of

of the estimate indicated in para 5 of E&A note on page 10 above, after taking orders in full circulation as the proposal is a New Service.

Administrative approval of the Govt may however be accorded to the Buildings Scheme after the Chief Engineer has scrutinised the Consulting Architects approximate and furnishes a revised estimate, if necessary. Proposals regarding Staff will also require further examination in Finance & E&A will no doubt send the case again to this Dept for that purpose. The other items of cost mentioned in para 5 on p. 10 above do not seem to call for any special remarks.

16.2.46. 17.2.46

Edw and P.H. Dept (c)
The b.e. has since reported that the approximate estimate for the new buildings may be taken as Rs 6,25,000/- please see his letter on pages 21-24 of in the linked file. The cost of the scheme will be as follows: -

Non Recurring	
1. Buildings	Rs 6,25,000
2. Equipment to be sanctioned	1,91,300
3. Expenditure on temporary arrangements already sanctioned	7,000 ✓
4. Affiliation fee already sanctioned	600

18/2/46
 18/2/46
 18/2/46
 18/2/46
 18/2/46

This is another scheme proposed to be introduced this year itself - & hence not included in Part II Schemes for next year. The proposal to introduce B.Sc. (Pass) course in the Madras College in 1946 was approved in G.O. 1788 d. 2.11.45. The G.E. says that work on the new buildings can be started only after 31.3.46 & will be finished by June 1947. An expenditure of Rs 7000/- on temporary arrangements to enable the new course to be started in 1946 has been sanctioned already. The D.P. also wants sanction for expenditure on equipment. The work can be justified also on the ground that the expansion of the building programme will provide work for labour deprived of war works.

- The expenditure is Rs 8.24 lakhs recurring & Rs 45,000/- recurring. The non-recurring expenditure will be spread over three years - 1945-46 & the two succeeding years.
- The G.G.'s sanction may be obtained & the demand in (B) implemented.

Will E.P.H. plan 19/2/46
 send a memorandum in duplicate for obtaining Secy's sanction 19.2.46
 18240

MADRAS GOVERNMENT
 22 FEB 1946
 1188

The Secretary to the Governor General (Public)
 was addressed on 23rd February 1946.

G.S. V. Subramanian
 1094/46
 23-2-46

25 FEB 1946
 GOVERNMENT OF MADRAS

SECRETARY TO GOVERNMENT
 27 FEB 1946
 FINANCE DEPARTMENT

11823
 27/2/46
 55374C-8
 27.2.46

The Governor General's
 sanction is required. The file may be
 sent to the Finance Dept. for further
 consideration. The file has been submitted.

to this Department with reference to the scale of staff proposed for the opening of the B.S.C.(Pass) course in the Government Muhammadan College, Madras.

2. The D.P.I. has asked for the following additional staff:-

I. For 1946-7:-

- (1) 3 Lecturers, one for Mathematics, one for Physics and one for Chemistry.
- (2) 3 Demonstrators, one for Physics, one for Chemistry and one for Natural Science.

(3) 3 Attenders.

(4) 1 Gasman and

(5) 1 Storekeeper and

II. For 1947-8:-

(6) 4 Assistant Lecturers, one for each subject.

(7) 2 Demonstrators, one for Physics and one for Chemistry.

(8) 2 Attenders, one for Physics and one for Chemistry.
(9) one Sergeant.

3. I. Staff for 1946-7:- Items (1), (4), (5) and (9):- May be agreed to.

Items (2) and (3) - 3 Demonstrators and 3 Attenders:-

The statement on page 19 C.F. ^{amongst other staff} shows the number of Demonstrators and Attenders sanctioned in the Rajamundry, Anantapur and Kumbakonam Colleges where B.Sc. pass course already exist. It will be seen therefrom that in the Government Muhammadan College, it is proposed to have 8 Demonstrators in 1946-7 (when there will be only the first year B.Sc. Course) as against 6 and

5 in the colleges at Anantapur and Kumbakonam respectively. In fact, in 1946-7, the number of Demonstrators required for the Muhammadan College should be less than that of the other two colleges where students are coached both for the Junior and Senior B.Sc. classes. The D.P.I. states that the slight

variation in the strength of the staff in the various colleges is due to the variation in ^{the} strength of the classes. But he has not given the existing strength in each of the classes in the various colleges and ^{states} how it compares with the proposed strength in the Muhammadan College. In the circumstances, it is for orders whether Finance may suggest that the total strength of Demonstrators existing and proposed (for 1946-7) may for the present ^{be} fixed at 6 as in the case of Anantapur College and be increased later on ⁱⁿ the light of experience gained during the first year of working. If this suggestion is accepted, only one additional Demonstrator need be sanctioned during 1946-7. Similarly one more Attender may be sanctioned during 1946-7

to help the additional Demonstrator.

II Staff for 1947-8 - Item (6) ^{and (9)} _h:- May be accepted.

Items (7) and (8):- 2 Demonstrators and ^{two} Attenders:- Please

see the remarks against items (2) and (3) above. It has been suggested therein that against the demand of 3 Demonstrators and 3 Attenders proposed for 1946-7, it would be sufficient to sanction one additional Demonstrator and one Attender. The demand for 2 more Demonstrators and 2 more Attenders in 1947-8 seems to be rather excessive as compared with the existing number of Demonstrators and Attenders in other colleges detailed on page 19 C.F. The D.P.I. may be asked to come up to Govt. next year with full justification for the additional Demonstrators and Attenders that will be proposed together with information on the hours of work allotted to each Demonstrator and Attender.
