Special

The Examiner, Local Fund Accounts has separately report that a contribution of Rs. 99,530/- is payable to the District Board, Tinnevely, in respect of education tax realised by the Board in 1944-45. The President, District Board, has reported in another connection (in his letter No. 18091/45 dated 24-7-45) that only a sum of Rs. 98,007/- was adjusted to the District Board in 1944-5 as proceeds of education cess at the rate of 5 pies in the rupee of land revenue. This is exclusive of the tax of Rs. 1,523 realised in the Malapalayam Panchayat. A contribution is payable for the entire tax realised in the Malapalayam Panchayat and in respect of the education cess at $3\frac{3}{4}$ pies. The amount due, works out to Rs. 75,000/- and this has been paid to the District Board already. It is not clear how the Examiner has recommended the payment of a contribution for the entire sum of Rs. 99,530/- while the contribution is due only for a portion of the proceeds. The Examiner may be requested u.o. to

to report, in consultation with the President, District Board, if necessary, the correct amount which should be paid as contribution to the District Board for 1944-5. If any further payment should be made orders should issue before the 15th March. The Examiner may be requested to send his reply before the 13th evening, in case any amount should be paid to the Board this year.

The correct amount of education tax on which equivalent Government contribution due is Rs. 75,028/4/- as shown below. As a contribution of Rs. 75,000/- was already paid to the District Board in 1945-46 the balance still due to the District Board is only Rs. 28/4/-.

2. The figure of Rs. 99530/4/- reported in this department letter No. L.F. 9642 dated 1st March 1946 is an error due to wrong calculation.

Administration Report of Educational Dept.

The Andhrapatrika observes as follows:-

Three points in the Govt. review on the Administration Report of Educational Dept. cause great anxiety to the people of this province. The first is the Govt.'s attitude towards the Wardha system of education. The object of the scheme is to give the students some training in some handicraft along with literary education. The training school opened at Coimbatore with a view to training the teachers in the Wardha system of education, is closed during the year under review. Instructions have been sent by the authorities to local bodies not to make any fresh attempts to introduce Wardha system of education in the schools under their control. x x Wardha system of education was introduced by the Congress Ministry to solve unemployment problem among the educated youth. It is not known why the authorities should try to undo what their predecessors have done. This is contrary to the promise made by H.E. the Governor at the time of the abolition of legislatures that he would not go against the policy followed by the popular Govt. x x In the light of all these facts what is the meaning of the present policy of the authorities in abolishing the educational reforms introduced by the popular Govt.?

The second thing that is causing anxiety to the public is the closure of the so-called incomplete schools on ground of inefficiency. In the review it is stated that the number of school-going children fell by 10.5 per cent in the total population of the province. The reason for this fall is due to the abolition of the small schools. The Govt. should therefore modify their present policy and see that there is at least one school for every village. x x It is not good that schools should be closed on the plea that a school does not contain sufficient strength and thereby deprive educational facilities to others, though their number may be small.

Changes that have been recently introduced with regard to
