Education Department.

From Dr. B. B. Dey, D.Sc.(London).. F.R.I.C.,
Offg. Director of Public Instruction, Madras.

To The Secretary to Government,
Education & Public Health Department.

R.C.No.4130 D/44 dated 27th Sept. 1945.

Sub: Elementary Education - Prevocational Instruction - Special training course for Deputy Inspectors of schools at the Teachers' College, Saidapet - Scheme - Proposals.

I have the honour to submit herewith a copy of the letter No.R.C.289/44-45 dated 28-10-44 from the Adviser to Government on Manual Training, Madras, together with the remarks of the Principal, Teachers' College, Saidapet and to state as follows:-

At present most of the Dist. Educational Officers and Deputy Inspectors know very little about Manual training and prevocational instruction. As the Adviser to Government on Manual Training has got to cover the whole Presidency and his visits to schools are therefore few and far between. It is, therefore, desirable that, at least, some of the departmental inspecting officers should have some knowledge of the subject to ensure effective supervision of the work done in the schools. The expenditure involved on this account will be well worth the training.

In this connection I suggest that in addition to this training, the officers under training could also undergo simultaneously a short Refresher course in "Physical Education" also at the Y.M.C.A. College of Physical Education, Saidapet. The four Regional Physical Directors in charge of the whole Presidency at present find it impossible to cover even the secondary schools in a year. The Deputy Inspectors would be of great help in the development of Physical Education provided they were given a systematic and short refresher course at the Y.M.C.A. college. During the four months' course suggested by the Adviser, the selected candidates can complete a successful training in Physical Education at the Y.M.C.A. by attending classes in the mornings and evenings. Thus there will be no extra cost to government for this additional training given.

I therefore submit the above proposal for consideration as a part II scheme for 1946-47 and request that it may be approved and necessary funds provided for in the budget. The cost involved in the proposal is Rs.17,000 only per annum. The Deputy Inspectors are not eligible for halting allowance under Rule 98(a) of the Madras Travelling Allowance Rules. Hence a sum of Rs.4,000/- has to be deducted from the estimate furnished by the Principal, Teachers' College, Saidapet. The scheme will have to be continued at least for a period of 10 years to train the entire number of Deputy Inspectors and the ultimate cost of the proposal will be Rs.1,70,000 - (Rs.17,000 x 10).

I am including necessary provision in Part II of the Budget Estimate for 1946-47.

for Director of Public Instruction.

R.C.29/9

Copy of letter R.C.No.289/44-45 dated 28-10-44 from the Adviser to Govt. on Manual Training to the Director of Public Instruction, thro' the Principal, Teachers' College, Saidapet.

Sub: Special training for Dy. Inspectors of schools in prevocational subjects at the Teachers' College, Saidapet.

As per details received for the annual report for 1943-44 on Manual Training etc., in institutions under the department of Public Instruction in this Presidency, there are 2,071 Prevocational training classes in higher ele. schools. From a talk with a Divisional Inspector of schools, it would appear that many of these classes need technical advice and to provide the Deputy Inspectors of schools with more practical knowledge of the working of these classes, I propose the following scheme:-

That a short course of practical training for selected Dy. Inspectors of schools be opened in this section of the Teachers' College, Saidapet from July 1945.

That there be two courses in the official year, the first course to extend from approximately the beginning of July to the end of the first week of November, the second from the beginning of the third week of November to the end of March.

That sanction be for four courses, two during 1945-46 and two during 1946-47.

That 20 Dy. Inspectors of schools be deputed to attend each course, these to be selected by the Divl. Inspectors of schools.

That as the majority of these prevocational classes are in spinning, weaving and woodwork of various kinds, the course will include some practical training in spinning and weaving including tape weaving and in woodwork, with detailed instructions regarding equipment, materials etc., required for the various prevocational classes. Courses with adjustments of subjects, allotment of contingencies, etc., may if required be held during 1947-48 etc.

Cwing to the attraction of the military and other departments, the number of students in the college art masters' and the Manual training instructors' classes has fallen considerably, and therefore, no extra allotment for staff and contingencies will be required by the college for these courses during 1945-46 and if present conditions continue during 1946-47.

All the present classes, i.e., handicrafts for the I.T. and secondary grade training section, manual training for the model high school and the art masters' and manual training instructors' classes will continue as usual, except that instruction in weaving for pupils below form III of the model high school will be temporarily suspended.

Copy of endt. R.C.No.377 D/44 dated 2-11-44 of the Principal, Teachers' College, Saidapet.

Submitted to the D.P.I., Madras.

The number of Deputy Inspectors in the Presidency is 222 and Junior Deputy Inspectors 175 - total 397 or 400 (want men's branch only).

The Adviser proposes four months training for a batch of 20. In one school year 40 could be trained. To have all these 400 people trained it would take 10 years. In the meantime retirement vacancies and new appointments transfers from school assistants to the Deputy Inspectors' branch and vice-versa will occur. Thus to have a successful working of the scheme the training of deputy inspectors in manual training work should be a permanent feature for a period which cannot be limited.

The Adviser states that there will be no extra expenditure so far as this college is concerned, but the financial implication of the course will be as follows:-

20 extra Dy. Inspectors to take the place of these under training for 4 months have to be appointed. This would mean
20 x Rs.70 x 4 .. Rs. 5,600

Travelling allowance to these 20 officers to and fro. Rs.150 each .. " 3,000

Halting allowance for these under training for 4 months - minimum of Rs.25/-
20 x Rs.25 x 4 .. " 2,000

Total .. Rs.10,600

thus for two batches in a year the expenditure would be about Rs.21,200/-. Unless the department could find funds to meet this annual recurring expenditure of Rs.21,000/- as a minimum, the scheme is not workable.

Memorandum No. 435769/45-2 Edn., dated 6-11-45

SPECIAL training course for Deputy Inspectors of Schools at the Teachers' College, Saidapet.

Ref: From the D.P.I., Rc.No.4130.B/44 d/27-9-45.

~~It is doubtful~~ whether a Deputy Inspector of Schools

who is given four months training in spinning, weaving

and woodwork of various kinds will be satisfactory

for the purpose of giving technical advice in these

subjects. ^{it has} been suggested that a Manual Training

Instructor on the pay of a Junior Deputy Inspector

of Schools may be attached to each district and

since there are on the average only 80 classes in

each district he may be able to do the work satisfactorily.

The Director is requested to offer his

remarks on this suggestion. If the suggestion is not

feasible of adoption he is requested to state whether

the substitutes to be posted in place of the

men selected for training may not all be in the

junior grade and in calculating the total number to be

trained, the ranges in which ^{there} are few or no

classes giving pre-vocational training may not be left

out.

P.t.o.

Part of Manual Training
Instructor - Rs 30-55
Junior Deputy
Inspector - Rs 50-5 1/2 -
70

6

It has also been suggested that in order to ensure that there is a continuous flow of Deputy Inspectors, duly qualified ⁱⁿ the subject in future (without resorting to special training at Government cost) it would be more economical to prescribe the subject as a part of the training of teachers in the Teachers' College and to recruit only qualified candidates as Deputy Inspectors; ^{necessity for the} this will obviate the periodical training of Deputy Inspectors at Government cost. The Director is required to offer his remarks on ^{this} ~~these~~ suggestion~~s~~ also.

R.C.No.4130 B/44 dated 13th Dec. 1945.

Sir,

Sub: Special Training course for Deputy
Inspectors of Schools at the Teachers'
College, Saidapet - Remarks submitted.

With reference to the Government Memo. No.43576-8/45-2
Edn., dated 6th November 1945 on the subject mentioned above,
I have the honour to state as follows:-

2. A Deputy Inspector of Schools who is given 4 months training in Manual Training subjects will not be qualified to teach the subjects. But the idea is to give him sufficient knowledge in the organization and control of the work so as to enable him to detect bad work and to give general instructions for remedying defects in the teaching of subjects. It is not possible to have Deputy Inspectors or other controlling agents who will have detailed knowledge in each of the Manual Training subjects to see to the detailed work in each of those subjects. But an Inspecting Officer should obviously have some idea of the training given and the kind of work to be done and the kind of equipment required etc., and this can certainly be achieved in the course of the 4 months Refresher Course proposed by the Adviser for Manual Training.

3. The Government's suggestion of having a Manual Training Inspector in the pay of a Junior Deputy Inspector of Schools for each district will involve an increase in the Inspectorate. Lower elementary schools have only handicrafts. The higher elementary schools are expected to do vocational work but very large numbers of them have been exempted for one reason or other. For the present, it does not seem necessary to have separate Vocational or Manual Training Inspectors for each district. Any Deputy Inspector with sufficient common sense and intelligence who has been given a short course at the Saidapet Manual Training centre should be able to gauge the quantity and quality of the work done in each school and to give general advice in regard to the organization of Vocational work in a higher elementary school. Further, one Manual Training Inspector for a district will mean that his visits to these schools will be as few and far between as those of Muhammadan Deputy Inspectors who are also in charge of one district or more. No real good can come out of such rare visits by an Inspector. Deputy Inspectors are expected to visit and inspect the schools at least three times in the year and a man who is trained to keep an eye on the vocational side of education in the school will be far better than a single Inspector for a whole district.

4. Government enquire whether Junior grade Deputy Inspectors may not be selected as substitutes in the place of men to be selected for the proposed training. It is not desirable to place subordinates in the junior grade scale in place of Senior Deputy Inspectors who are in charge of whole taluks. After all the saving will not be very much. The Junior Deputy Inspectors who have put in some years of service and who are qualified to be Senior Deputy Inspectors can act as substitutes while new men in the junior grade will take the place of the Junior Deputy Inspectors who act as Senior Deputy Inspectors. Thus the actual extra cost will not be very much.

5. In selecting men for the proposed training, the number of Prevocational classes in each district will be taken into account.

Part II Scheme 1946-7.

(Subject:- Special training course for Deputy Inspectors of Schools at the Teachers' College, Saidapet.)

Summary.

Head of account.	Item of expenditure.	Ultimate cost.		Cost in 1946-7.	
		Recur- ring.	Non-re- curring.	Recur- ring.	Non-re- curring.
27.p.Education - General - Inspection - B.Non-European - Men's Branch - I.Ordinary areas.		R.	R.		
2. Pay of establishments.	Training of 20 Deputy Inspectors and appointment of substitutes in their places (270-2000)	19,100	-	11,200	
3. Allowances.	Dearness allowance	3,400	-	2,380	
	Travelling allowance	6,000	-	6,000	
		<u>28,500</u>		<u>20,080</u>	

With a view to ensure effective supervision of the work done in schools in manual training and prevocational instruction, the D.P.I. has submitted a proposal for giving special training to Deputy Inspectors of schools in prevocational subjects. He stated that the Deputy Inspectors ^{might} be given ^{would} training in batches of 20 for a period of four months and that the scheme will have to be continued at least for a period of 10 years to train the entire number of Deputy Inspectors. The Director also stated that the Deputy Inspectors in addition to this training could also undergo simultaneously a refresher course in Physical Education at the Y.M.C.A. College of Physical Education without extra cost to Govt.

On a consideration ^{that} it was suggested to the Director whether in order to ensure that there is a continuous flow of Deputy Inspectors, duly qualified in the subject in future (without resorting to special training at Govt. cost) it would be more economical to prescribe the subject as a part of the training

6. As regards the final suggestion of the Government that it would be more economical to prescribe Manual Training as one of the subjects of training of teachers who are to be recruited as Deputy Inspectors, I consider that the suggestion is sound. Whether that training is to be taken along with the teachers' training or whether it is to be an additional qualification to be acquired in the separate course of training in the Manual Training class, is a matter which needs further consideration. I shall discuss this matter with the Principal of the Teachers' College, Saidapet and the Manual Training Adviser and address Government separately. If the proposed qualification is prescribed for candidates for the Deputy Inspectors' cadre, we shall no doubt have in the future new Deputy Inspectors who will be qualified to pay satisfactory attention to the Manual and Vocational work in the higher elementary schools and secondary schools. But the present Deputy Inspectors will be only gradually replaced by the new Deputy Inspectors and it will be many years before the process is completed. It is not desirable to allow the present state of affairs to go on and that is why it is proposed to train a batch of the existing Deputy Inspectors in the Refresher Course proposed by the Adviser on Manual Training. It is not necessary that this Course should be continued for ten years as suggested in my previous letter. If after consultation with the Adviser and with the Principal, Teachers' College, I find that the Manual Training qualifications may be prescribed for candidates for the Deputy Inspectors' cadre, it will be possible to stop the Refresher Course proposed after a year or two.

7. I, therefore, recommend that the proposal may be accepted for 1946-47 and that I shall address Government again in the matter as early as possible. The extra cost for 1946-47 is comparatively small but the advantages to be gained by training a batch of Deputy Inspectors who will, as proposed already undergo not only the Manual Training Course but also the Physical Training Course at the Y.M.C.A. College, Saidapet, be very great and the elementary schools in particular will derive much advantage from it.

in the Teachers' College, Saidapet

14
of teachers in the Teachers' College and to recruit only
qualified candidates as Deputy Inspectors as this ~~will~~ ^{could}
obviate the necessity for ^{their} the periodical training of
Deputy Inspectors at Govt. cost.

The Director has agreed to the suggestion and has
stated that he will examine the question further and in
the meanwhile he has proposed that 40 Deputy Inspectors
may be given training in manual training in two batches
in 1946-7. ~~It~~

This department supports the proposal and recommends
the inclusion of the ~~Rm~~ provision in the B.E. for 1946-7
as shown in the summary above.

Finance (Accounts E-1).

For the reasons stated in para 3 on page 1 C.F., it is proposed to give a special course of Manual and Pre-vocational training for Deputy Inspectors in the Education Department. There are ^{about} 400 Deputy Inspectors ^{in the Education Dept.} and a batch of 20 Deputy Inspectors can be trained ^{at} a time. The course will last 4 months and two such courses can be held each year. At this rate, it will take about 10 years to train all the 400 Deputy Inspectors, and the extra cost will be Rs. 28,432/- per annum.

or about 2,84,320 for 10 years. If the number of Deputy Inspectors is increased in connection with Post-War requirements, the cost will be correspondingly increase.

2. The points for consideration are whether the special training is necessary and if so whether it is necessary to give the training to all the Deputy Inspectors in the department.

In the circumstances stated in para 2 on page 1 C.F. and A & B on page 2 C.F., the special training proposed seems desirable, but the ~~case~~ ^{of} for training all the Deputy Inspectors in the Education Department at Government cost does not seem absolutely essential and ~~is rather wasteful~~. The object of the training is to secure proper technical advice and guidance for the pre-vocational training classes in the Higher Elementary schools in the District, which the Adviser to Government on Manual Training is unable to do (and inspect) regularly single-handed. For this purpose it does not seem necessary that all the Deputies in each District should be trained.

There is a P.A. (Deputy Inspector) to the D.E.O. in each district sanctioned on account of war and a proposal to continue it for normal increase of work is separately under consideration. ^{if this is accepted, it} It should be sufficient if the ^{personal} Assistant to the D.E.O. at Headquarters and one or two more Deputy Inspectors ^{in each or} are trained in each district and their services utilized for the inspection and guidance of pre-vocational training in the Higher Elementary schools. It is also for consideration whether the selected officers may not be required to undergo the special training for 4 months at their cost, leave being granted for this purpose to the extent admissible, the balance being treated as extraordinary leave. If this is accepted, there will be no extra cost to Government.

If, however, it is considered necessary to give the special training at Government cost, the total number of Deputy Inspectors

to be trained on the basis of the suggestion at M above is 75 (at the rate of 3 Deputy Inspectors for each district). At the rate of training 40 Deputy Inspectors in two batches in a year, it will take about 2 years, and the extra cost will be Rs. 28,432/- in the first year and Rs. 24,878/- in the second year.

4 In order to ensure that there is a continuous flow of Deputy Inspectors, duly qualified on the subject, in the future (without resorting to special training at Government cost) it seems more economical to prescribe the subject as part of the training of teachers in the 'Teachers' College and to recruit only qualified candidates as Deputy Inspectors. This will obviate the periodical training of Deputy Inspectors at Government cost. E.&P.H. may be requested to consider the suggestion in consultation with the D.P.I.

It is doubtful whether a Deputy Inspector of Schools who is given 4 months' training in his early 30s, 40s or 50s, in "spinning, weaving and woodwork of various kinds" will be satisfactory for the purpose of giving technical advice in these subjects. A Manual Training Instructor - on the pay of a Junior Deputy Insp. of Schools - may be attached to each district and since there are on the average only 80 classes in each district he may be able to do the work satisfactorily. If however this suggestion is not accepted, the D.P.I.'s proposal to train 40 Deputy Inspectors each year may be approved. The substitutes to be posted in place of the men selected for training may all be in the junior grade and in calculating the total no. to be trained, the range in which there are few or no classes giving pre-vocational manual training may be left out. The suggestion at 'A' above is also for consideration.
