Enclosures : R.C. No. 956-A/45 dated 28th December 1945

Sir,

Government Secondary and Training School for women, Erode
Continuance of Part-time Matron.

ppb-hcy of C

The sanction accorded in G.O.No.1185-Edn., dated 27-6-40 for the continuance of the Part-time Matron in the Government Secondary and Training School for women, Erode, expired on 30-6-43. The Inspectress reports that during the school years 1943-44 and 1944-45 only one building was used for the hostel, and so there was no need for a part-time matron, in addition to the full-time matron, and that with the occupation of a second building for the hostel from 1-7-45, it has become necessary to employ a Part-time matron. The strength of the hostel is 96. 43 students are living in one building and the ~~remain~~ remaining live in another building. The distance between the two building is a little more than two furlongs.

I request that Government may be pleased to sanction the employment of a Part-time matron for the hostel on a pay of

Rs.15/-

Rs. 15/- a month for a period of three years from 1-7-45.

The expenditure can be met from the Budget Estimate for 1945-46. In anticipation of sanction the Inspectress has appointed a member of the school staff as a part-time matron from 1-7-45. I request that the action of the Inspectress may be approved.

for Director of Public Instruction.

7. The Tuberculosis committee of the King George V (Thanksgiving)

Anti Tuberculosis Fund was engaged in an Anti-Tuberculosis campaign and with this object in view, a considerable amount of prop ganda work was done for the last 8 years. In September 1935, the sub-committee of this Fund decided to run a Tuberculosis clinic with two paid medical officers (one male doctor with M.B.B.S. qualifications, the female doctor an L.M.P.) and a clerk to run this clinic. The main function of this clinic was to examine contacts of open cases of Tuberculosis that are diagnosed at the Tuberculosis Institute at Egmore.

This contact examination is being conducted both at the Tuberculosis Institute and in homes of these patients. The Director of Public Health who is also the President of this Committee applied to the Surgeon-General in September 1935 for permission to run this clinic at the Tuberculosis Institute at Egmore under the supervision of the Director.

In G.O.No. 2002 P.H. dated 29th October 1935, the Surgeon-General was pleased to accord his tentative approval for a period of one year. This approval was extended year after year and is in force till December 1939 after which time a fresh sanction of the Surgeon-General is necessary for the continuance of the clinic.

8. The clinic has been doing good work as can be seen from the statement furnished below:-

Year.	No. of con-	No. of homes	Percentage of cases diagnosed to be suffering from
1935-36	2630	966	23.02
1936-37	3595	893	22.23
1937-38	3224	820	14.90

This shows that a large number of cases are being detected which would otherwise have been missed if this
