Dr. S.R.U. Savor, M.A., D.Sc., I.E.S.
Director of Public Instruction, Madras.

To

The Secretary to Government,
Education & Public Health Department, Madras.

Sir,

Sub: Elementary Education - General - Schools under Public management - Admission of scheduled class pupils.

Ref: G.O.No.329, Home (Edn.), dated 17-3-1919

I have the honour to submit herewith my report for 1944-45 on the admission of the pupils belonging to the scheduled classes in the elementary schools under public management not specially intended for them. The statistical particulars received from the District Educational Officers and Inspectresses of Girls' Schools are submitted in the enclosed statement.

SCHOOLS. - The total number of elementary schools under Public Management not specially intended for the scheduled classes was 16,516 during the year under report as against 16,898 during 1943-44. The decrease was mainly due to the steep fall in the number of schools in the Cuddapah, North Arcot and South Arcot and Malabar districts. The fall in some of these districts is due to the amalgamation of several schools and closure of some uneconomic schools.

The tabular statement below furnishes figures for the admission of scheduled class pupils in elementary schools under Public management not specially intended for them in 1943-44 and in 1944-45.

	Plains.		Agency.	
	1943-44.	1944-45.	1943-44.	1944-45.
(a) Total number of schools under Public Management not specially intended for scheduled class pupils	16,782	16,401	116	115
(b) Number of schools accessible to scheduled class pupils	16,774	16,337	116	115
(c) Number of schools in which scheduled class pupils were freely admitted	12,411	12,133	81	83
(d) Number of schools held in inaccessible buildings	8	4	-	-
(e) Number of scheduled class pupils admitted into schools not specially intended for them	82,998	88,489	511	439

There is a decrease in the number of schools held in inaccessible buildings, from 8 to 4 during 1944-45. Of the four schools one was in Tanjore District, and three in Cuddapah District. The inaccessible school at Siddhanalli in the Tanjore District was under the management of the district board, and it is reported that the President, District Board has been requested to investigate into the matter and take suitable action. The three inaccessible schools in the Cuddapah District were in the Royachetti Range and the subordinate Inspecting Officers have been requested to take action for the withdrawal of recognition after giving due notice to the management.

P.T.O.

The percentage of schools in the plans accessible to pupils of scheduled classes during the year under report was 99.9 the same as in the previous year.

The percentage of the number of schools in which scheduled class pupils were admitted freely to the number of schools accessible to them increased from 74.0 in 1943-44 to 74.3 in 1944-45.

There is a large disparity in the number of schools accessible to scheduled class pupils and the number of schools in which they were admitted freely in many districts. The disparity is great particularly in East Godavari, West Godavari, Kistna, Guntur, Kurnool, Bellary, Chingleput, North Arcot, South Arcot, Tanjore, Madras, Ramnad, Tinnevely, Coimbatore, Malabar and South Kanara Districts. The number of schools in which scheduled class pupils were freely admitted increased in Vizagapatnam, Salem, Chingleput, Kistna, Bellary, Chittoor, Ramnad and Nilgiris Districts and in the remaining districts there was a decrease in the number. The disparity between the number of school accessible to scheduled class pupils and the number of schools in which they were freely admitted was in most cases due to the following reasons:- (1) Proximity of schools intended for scheduled castes, (2) non-existence of scheduled class pupils in the school zone, (3) some schools specially intended for Muslim where Urdu is the medium of instruction.

PUPILS.— The number of pupils belonging to scheduled class admitted into schools not specially intended for them was 80,329 in the plains and 435 in the agency areas during the year under report as against 82,958 in the plains and 511 in the agency areas in the year 1943-44. Thus there has been a considerable increase in the total number of scheduled class children admitted freely into schools which are not intended for them. There was an increase in 18 districts, and a decrease in a few districts viz., Kistna, Guntur, Kurnool, Madras, Tanjore, Nilgiris, Malabar and South Kanara. The poverty, famine and war conditions which made pupils go to work in preference to education, conversion of a number of the adi-andhras to Christianity in the Bezwada municipality, prevalence of a virulent form of small pox in the Tanjore District, acute poverty, indifference towards education and migration to Ghats along with their parents in search of labour in the South Kanara district are some of the causes which hampered the free admission and attendance of the scheduled class pupils in schools.

TEACHERS.— The number of scheduled class teachers employed in schools not specially intended for scheduled class pupils decreased from 1,401 in 1943-44 to 1,337 in 1944-45. The decrease is due to many of the teachers leaving the teaching profession presumably in view of the lucrative jobs provided by war efforts.
