Exhibition of 1851 - London - Science
Research Scholarship for 1946.

Sir,

I am directed to refer to the correspondence ending with the late Education, Health and Lands Department letter No.F.87-2(a)/39-E dated the 29th December, 1939 on the subject mentioned above and to say that the Royal Commissioners for the Exhibition of 1851 have now proposed to resume the scheme and to invite recommendation for two scholarships to be awarded to Indian Students in 1946. I am to request that nominations of candidates for the scholarships to be awarded in 1946 may be invited from Universities and such other institutions as the Provincial Government/you may consider suitable. 1(F)

2. Candidates must be British Subjects or British protected persons being subjects of Indian States. No candidate whose age exceeds 26 years on 1st May, 1946 should be recommended except under very special circumstances. In considering the eligibility of a candidate over 26 years of age, a period of 'war service' may be regarded as 'special circumstances'. The applications of candidates should be in the form prescribed by the Commissioners for this purpose (copy attached) and copies of published papers or thesis written by the candidates should be forwarded with their applications. The statements made by the candidates in the application should be certified as correct by the University or the Institution concerned. This Department should also be furnished with the necessary information to enable the preliminary Selection Committee to certify that the conditions laid down on page 1 of the application form are fulfilled by the candidates.

3. The applications together with the necessary papers should reach this office before the 31st March 1946. No application received after that date will be taken into consideration by the Preliminary Selection Committee.

4. A copy of the revised General Regulations relating to the Science Research Scholarship is enclosed herewith for information. A copy of a Press Communique on the subject will be forwarded later.

5. In view of the fact that selections have to be made within a very short time, a copy of this letter is being forwarded to the Vice-Chancellors of all the Indian Universities, Indian Institute of Science, Imperial Agricultural Research Institute, Imperial Veterinary Research Institute and Imperial Dairy Research Institute and if the Provincial Government/you sees/see no objection the Universities and other institutions who may be addressed in the matter, it is suggested that they may be asked to submit their recommendations direct to this Department endorsing a copy to the Provincial Government/you.

I have the honour to be,
Sir,
Your most obedient servant,

for Secretary.

T..D."S-99-C/D
4.2.46.

ROYAL COMMISSION FOR THE EXHIBITION OF 1851

SCIENCE RESEARCH SCHOLARSHIPS OFFERED TO OVERSEAS UNIVERSITIES.

N

GENERAL REGULATIONS.

(I) - The Scholarships are "post-graduate," and are intended to enable selected students of Overseas Universities who have already completed a full University course and given evidence of capacity for scientific investigation to devote themselves for two years to research work under conditions most likely to equip them for practical service in the scientific life of the Empire.

(2) - The Scholarships are of the value of £350 per annum, but additional allowances may be granted in accordance with the terms of paragraphs (16), (17) and (18).

(3) - The Scholarships will be tenable ordinarily for two years, but they may, in exceptional cases, be renewed for a third year (vide paragraph 15).

(4) - Until further notice the Commissioners will offer annually ten Scholarships, which will, as a rule, be allotted on the following principle: Three to Canada; two each to Australia and India; and one each to South Africa, New Zealand and Eire. The Commissioners, however, may vary this allotment in any year if in their view circumstances make it desirable to do so.

(5) - The Governing Bodies of the Institutions named in paragraph (20) will be invited annually to recommend one or more candidates for the Scholarships allotted to their respective countries. In the case of India the recommendations will be subjected to a preliminary examination in that country by a special committee set up at the request of the Commissioners by the Government of India, and a selection of not more than six will be forwarded to the Commissioners, who will make the awards. In other cases all the recommendations will be considered by the Commissioners, and the awards will be made by selection from among the candidates recommended.

(6) - If an Institution recommends more than one candidate in any year, the names of the candidates recommended should be arranged in order of merit.

(7) - Recommendations made on the prescribed forms must be received at the office of the Commissioners on or before the undermentioned dates:-

From Canada	June 1
" Australia	June 1
" New Zealand	June 1
" South Africa	May 1
" Eire	May 1
" India	May 1

(8) - A candidate must be a British subject, or a British protected person being the subject of an Indian State.

(9) - A candidate whose age is twenty-six years or more on May 1st of the year in which his application is received will be accepted only in very special circumstances.

(10) - A candidate must have been a student of science in a University or University Institution for a period of not less than three years, and must have spent one full academic year ending not more than twelve months prior to the date of recommendation at the Institution by which he is recommended.

(11).....

(11) - The record of a candidate's work must indicate high promise of capacity for advancing science or its applications by original research. Evidence of this capacity, which is the main qualification for the Scholarship, is strictly required. The most suitable evidence is a satisfactory account by the candidate of research work already performed, and the Commissioners will decline to consider the claims of a candidate unless such an account is furnished, or unless there is other equally distinct evidence that he possesses this qualification.

(12) - A Scholar will be required to devote himself to research in some branch of pure or applied science, the particular nature of the work proposed to be approved by the Commissioners.

(13) - A Scholarship may be held at any Institution approved by the Commissioners in the United Kingdom or abroad, but a Scholar will not be permitted, except in very special circumstances, to conduct his investigations in the country in which he has received his scientific education.

(14) - A Scholar wull be required to devote his whole time to the objects of the Scholarship, and will not be permitted to hold any position of emolument likely to conflict with this requirement. A Scholar must in any case obtain the consent of the Commissioners before accepting any additional emoluments.

(15) - A Scholar will be required to furnish a report of his work at the end of each year's tenure of the Scholarship. The continuation of the Scholarship for a second year will depend upon the satisfactory nature of the Scholar's first year's work. Renewal for a third year will be granted only where it appears that such renewal is likely to result in work of scientific importance.

(16) - A Scholar may receive an extra grant of £25 on presenting, within three months of the expiration of his Scholarship, a complete and satisfactory account of his work.

(17) - A Scholar may receive an additional annual allowance, not exceeding £50, towards the cost of University fees, research expenses, etc., if, in the opinion of the Commissioners, he is in need of such allowance.

(18) - A Scholar who is not in a position to travel at his own expense, or for whom it is not possible to obtain a free passage, may make application for aid towards the payment of his fare from his home to his place of study, but an application of this kind can only be entertained in the most exceptional circumstances.

(19) - The Scholarship stipend will be payable quarterly in advance.

(20) - Until furhter notice the following Institutions are invited to recommend candidates for the Scholarships:-

Canada

University of Alberta
University of British Columbia.

Dalhousie University, Halifax, Nova Scotia.
McGill University, Montreal.

University of Manitoba.
Queen's University, Kingston, Ontario.
University of Saskatchewan.

University of Tornonto

Australia

18

Copy of letter No.S&G.8188/46, dated the 5th March,1946, from India Office,London to the Secretary to the Government of India, Department of Education.

p 3 ante

In continuation of my letter of the 2nd January 1946, No.S&G. 7683/45, regarding the Science Research Scholarships to be awarded by the Roayl Commission for the exhibition of 1851, I am directed to forward herewith a copy of a further letter which has been received from the Organisation in question on the subject of the operation of para. 10 of the General Regulations.

1,Lowther Gardens,
Exhibition Road,
London,S.W.7.

1st March, 1946.

Your Reference:
S & G.7683/45.

The Under Secretary of State for India,
India Office,
Whitehall, S.W.1.

I am directed to refer to my letter of 1st January, 1946, announcing the Commissioners' intention to resume the award of Overseas Scholarships for Scientific Research in 1946 and to Mr. Iddon's reply dated 2nd January, 1946.

p 3 ante

I am to say that enquiries have reached this Office regarding the operation of Paragraph 10 of the General Regulations,

P.T.O.

43

copies of which accompanied my letter and a further copy of which is now enclosed, and to explain that, inasmuch as the Commissioners will, as stated in my letter, be regarding time spent in national service during the war as "special circumstances" in regard to the operation of the age limit clause, they will similarly recognised that the dislocation caused by the war must at present prevent the rigid interpretation of Paragraph 10.

p 3 ante

Recommending institutions should not, therefore, feel debarred from putting forward an otherwise suitable candidate if, owing to force of circumstances, he is technically ineligible under Paragraph 10.

Abstract

Scholarship - Exhibition of 1851 - London - Science Research scholarship for 1946 - Papers recorded

INDIA

(This Recommendation must reach the office of the Commissioners, 1 Lowther Gardens, Exhibition Road, London, S.W. 7, before 1st May next.)

Candidate's Surname

ROYAL COMMISSION FOR THE EXHIBITION OF 1851

24

SCIENCE RESEARCH SCHOLARSHIPS OFFERED TO OVERSEAS UNIVERSITIES

The scholarships are "post-graduate" and are intended to enable selected students of Overseas Universities, who have already completed a ful university course and given evidence of capacity for scientific investigation, to devote themselves for two years to research work under conditions most likely to equip them for practical service in the scientific life of the Empire.

RECOMMENDATION TO SCIENCE RESEARCH SCHOLARSHIP 19 .

We, the undersigned, being members of the Preliminary Selection Committee appointed by the Government of India for the selection of Candidates for the Science Research Scholarship offered to India by the Royal Commission for the Exhibition of 1851, hereby recommend the person named overleaf as a Candidate for a Science Research Scholarship to be offered by the Commissioners in 19 ; and we certify :—

(a) that such person is a British Subject or a British protected person being the subject of an Indian State ;

(b) that he has been, or will, at the end of the present session of studies, have been, a student of science in a University Institution for a period of not less than three years ;

* Insert name of Institution.

(c) that he has spent one full academic year ending not more than 12 months prior to the date of recommendation at *

(d) that he indicates high promise of capacity for advancing science or its applications by original research ;

(e) that the particulars stated in this form of recommendation are correct to the best of our belief.

Dated this day of 19 .

Signature and description of members of the Preliminary Selection Committee.

M(H)120 EHL These sheets can be detached and typewritten.

Candidate's Surname

(1) Candidate's Surname
Christian Names :

(2) Age and Date of Brith :

(3) Permanent Address :

(4) Degrees and Diplomas :

(5) Branch of Science to which Candidate is devoting himself :

(6) Present Occupation :

(7) Institutions in which Candidate's period of study has been passed :

(8) Academic Record (Candidate is requested to give full particulars of University course, scholarships, degrees, honours and other distinctions *with dates in chronological order*) :

When possible the above information should be typed.

Candidate's Surname

(9) Brief particulars of Candidate's experience of research work.

(In addition to this the Commissioners require the Candidate to submit an account of his research which must accompany this recommendation.)

2b

(10) Army special considerations which have led to the Candidate's recommendation.

When possible the above information should be typed.

Candidate's Surname

(11) Certified statements as to Candidate's ability for original research by Professors under whom he has been working.

27

(12) Certified statement by collaborator (if any) as to his share in the Candidate's research work.

When possible the above information should be typed.

Candidate's Surname

(13) Nature of investigation Candidate proposes to undertake.

28

(14) Institution at which Candidate would wish to carry out his work.

(15) State whether Candidate is applying for any other Scholarships, and if so specify the source of the awards.

DECLARATION BY CANDIDATE

I, the undersigned, hereby declare that, in the event of a Science Research Scholarship being awarded to me, I will hold it subject to the conditions laid down by the Commissioners, that I will devote my whole time to the objects of the Scholarship and that I will not accept any additional emolument without the previous consent of the Commissioners.

Dated this day of 19 .

(To be signed by the Candidate)

M(H)130EHL—400—29-9-38—GIPS

Copy of letter F.13.1/46-O.D.III dated 5th February 1946 from the Government of India, Department of Education, New Delhi.

Exhibition of 1851 - London - Science Research Scholarship for 1946.

I am directed to refer to the correspondence ending with the late Education, Health and Lands Department letter No.F.87-2(a)/39-E dated the 29th December, 1939 on the subject mentioned above and to say that the Royal Commissioners for the Exhibition of 1851 have now proposed to resume the scheme and to invite recommendation for two scholarships to be awarded to Indian Students in 1946. I am to request that nomination of candidates for the scholarships to be awarded in 1946 may be invited from Universities and such other institutions as the Provincial Government/you may consider suitable.

2. Candidates must be British Subjects or British protected persons being subjects of Indian States. No candidate whose age exceeds 26 years on 1st May, 1946 should be recommended except under very special circumstances. In considering the eligibility of a candidate over 26 years of age, a period of "War Service" may be regarded as "special circumstances". The applications of candidates should be in the form prescribed by the Commissioners for this purpose (copy attached) and copies of published papers or thesis written by the candidates should be forwarded with their applications. The statements made by the candidates in the application should be certified as correct by the University or the Institution concerned. This Department should also be furnished with the necessary information to enable the preliminary Selection Committee to certify that the conditions laid down on page 1 of the application form are fulfilled by the candidates.

3. The applications together with the necessary papers should reach this office before the 31st March 1946. No application received after that date will be taken into consideration by the preliminary Selection Committee.

4. A copy of the revised General Regulations relating to the Science Research Scholarship is enclosed herewith for information. A copy of a Press Communique on the subject will be forwarded later.

5. In view of the fact that selections have to be made within a very short time, a copy of this letter is being forwarded to the Vice-Chancellors of all the Indian Universities, Indian Institute of Science Imperial Agricultural Research Institute, Imperial Veterinary Research Institute and Imperial Dairy Research Institute and if the Provincial Government/you sees/see no objection the Universities and other institutions who may be addressed in the matter it is suggested that they may be asked to submit their recommendations direct to this Department endorsing a copy to the Provincial Government/you.

...oOo...

ROYAL COMMISSION FOR THE EXHIBITION OF 1851.

SCIENCE RESEARCH SCHOLARSHIPS OFFERED TO OVERSEAS UNIVERSITIES.

...

GENERAL REGULATIONS.

...

(I) The Scholarships are "post-graduate", and are intended to enable selected students of Overseas Universities who have already completed a full University course and given evidence of capacity for scientific investigation to devote themselves for two years to research work under conditions most likely to equip them for practical service in the scientific life of the Empire.

(2) The Scholarships are of the value of £350 per annum, but additional allowances may be granted in accordance with the terms of paragraphs (16), (17), and (18).

(3) The Scholarships will be tenable ordinarily for two years, but they may, in exceptional cases, be renewed for a third year (vide paragraph 15).

(4) Until further notice the Commissioners will ofer annually ten scholarships, which will, as a rule, be allotted on the following principle; Three to Canada; two each to Australia and India; and one

each to South Africa, New Zealand and Eire. The Commissioners, however, may vary this allotment in any year if in their view circumstances make it desirable to do so.

(5) The Governing Bodies of the Institutions named in paragraph (20) will be invited annually/recommend one or more candidates for the Scholarships allotted to their respective countries. In the case of India the recommendations will be subjected to a preliminary examination in that country by a special committee set up at the request of the Commissioners by the Government of India, and a selection of not more than six will be forwarded to the Commissioners, who will make the awards. In other cases all the recommendations will be considered by the Commissioners, and the awards will be made by selection from among the candidates recommended.

/to

(6) If an Institution recommends more than one candidate in any year, the names of the candidates recommended should be arranged in order of merit.

(7) Recommendations made on the prescribed forms must be received at the office of the Commissioners on or before the undermentioned dates.

From Canada	June 1
From Australia	June 1
From New Zealand	June 1
From South Africa	May 1
From Eire	May 1
From India	May 1

(8) A candidate must be British Subject, or a British protected person being the subject of an Indian State.

(9) A candidate whose age is twenty-six years or more on May 1st of the year in which his application is received will be accepted only in very special circumstances.

(10) A candidate must have been a student of science in a University or University Institution for a period of not less than three years, and must have spent one full academic year ending not more than twelve months prior to the date of recommendation at the Institution by which he is recommended.

(11) The record of a candidate's work must indicate high promise of capacity for advancing science or its applications by original research. Evidence of this capacity, which is the main qualification for the Scholarship, is strictly required. The most suitable evidence is a satisfactory account by the candidate of research work already performed, and the Commissioners will decline to consider the claims of a candidate unless such an account is furnished, or unless there is other equally distinct evidence that he possesses this qualification.

(12) A Scholar will be required to devote himself to research in some branch of pure or applied science, the particular nature of the work proposed to be approved by the Commissioners.

(13) A Scholarship may be held at any Institution approved by the Commissioners in the United Kingdom or abroad, but a Scholar will not be permitted, except in very special circumstances, to conduct his investigations in the country in which he has received his scientific education.

(14) A scholar will be required to devote his whole time to the objects of the Scholarship, and will not be permitted to hold any position of emolument likely to conflict with this requirement. A Scholar must in any case obtain the consent of the Commissioners before accepting any additional emoluments.

(15) A Scholar will be required to furnish a report of his work at the end of each year's tenure of the Scholarship. The Continuation of the Scholarship for a second year will depend upon the satisfactory nature of the Scholar's first year's work. Renewal for a third year will be granted only where it appear that such renewal is likely to result in work of scientific importance.

(16) A Scholar may receive an extra grant of £25 on presenting within three months of the expiration of his Scholarships, a complete and satisfactory account of his work.

(17) A Scholar may receive an additional annual allowance, not exceeding £50, towards the cost of University fees, research expenses

---

etc., if, in the opinion of the Commissioners, he is in need of such all[illegible]

(18) A Scholar who is not in a position to travel at his own expense, or for whom it is not possible to obtain a free passage, may make application for aid towards the payment of his fare from his home to his place of study, but an application of this kind can only be entertained in the most exceptional circumstances.

(19) The Scholarship stipend will be payable quarterly in advance.

(20) Until further notice the following Institutions are invited to recommend candidates for the Scholarships:-

Canada:

University of Alberta
University of British Columbia.
Dalhousie University, Halifax
Nova Scotia.
McGill University, Montreal.
University of Manitoba.
Queen's University, Kingston, Ontario.
