Sir,

Sub: Scholarships - Government - Institution of additional scholarships and increase in rate - proposals - submitted.

I have the honour to submit for favourable consideration of Government the following proposals for increasing the number of scholarships tenable in non-European institutions as well as the rate in respect of certain scholarships. Though the strength in every kind of institution - Colleges, Secondary Schools and Primary Schools -- was increasing rapidly in recent years and though there was justification for correspondingly increasing the number of Govt.Scholarships granted to poor and deserving pupils, proposals could not be made on account of the retrenchment in 1931-32 and the period of financial stringency that followed.

2. COLLEGIATE SCHOLARSHIPS: The number of scholarships existing now are (a) 43 General Scholarships commencing in the Junior Intermediate Class and continuing upto the end of the Honours Course (b) 5 general scholarships beginning from the Third year University class and lasting till the end of the honours course (c) Four scholarships, specially intended for Muhammadan students, commencing in the Junior Intermediate class and tenable for four years and (d) four scholarships tenable for the post graduate course, excluding the scholarships specially intended for the Queen Mary's College, Madras. Some of the above scholarships were last revised as far back as in 1921--Vide G.O.No.1631, L.E., dated 15-11-21. The number of students (Boys and Girls) reading in the Junior Intermediate Class between 1926 and now is given below:-

YEAR.	NUMBER OF STUDENTS
1926	3,990.
1931	4,030
1936	4,466
1941	6,135
1944	8,347.

The above figures clearly indicate that in 1944 there has been more than double the number that read in 1926. I therefore recommend that the scholarships indicated under items (a), (b) and (c) above may be doubled (i.e.) 43 general scholarships commencing in the Junior Intermediate class, ~~Sxxxxxx~~ 5 general scholarships commencing in the Third year university class and 4 scholarships specially intended for Muhammadan students, commencing in the Junior Intermediate class and tenable for four years--all these may be sanctioned IN ADDITION TO THE EXISTING SCHOLARSHIPS WITH EFFECT FROM 1946-'47. The scholarships will be commended in the classes mentioned against each in 1946-47 and will be continued in the next higher classes in successive years.

3. The present rate of Government scholarships tenable in the Intermediate Classes is Rs.9 per mensem for nine months, and Rs.14/- per mensem for nine months in the B.A., or B.Sc. (pass or Hons.) and post graduate classes. This rate has been in existence for a very long time even before

P.T.O

before 1921 when the last revision~~s~~ in the number of scholarships took effect. The academic year for fee purposes is divided into three terms, and the minimum rate of fees levied by many of the aided colleges for the Intermediate in Arts Course is Rs.32/- per term (when paid in two instalments). Government Colleges, other than the Presidency, Ceded Districts College and Muhammadan College, levy a fee of Rs.38/- per term which is the same as that charged by the Loyola College, Madras. In the Presidency College, a sum of Rs.42/- per term is collected. The above fees, exclude all kinds of special fees. It will be seen from the above particulars that the amount of Government Scholarship paid to a student reading in the Intermediate classes (which comes to Rs.81--Rs.9x9 months) is hardly sufficient even to meet the tuition fees alone levied at the minimum rate in some of the aided colleges, not to speak of higher rates in some colleges, nor the special fees collected every year. It is very necessary, therefore that the present rates be raised and I am of opinion that it should be raised from Rs.9/- per mensem to Rs.12/- per mensem. This will enable a student to meet at least nearly the college fees including special fees, in colleges charging the minimum rate.

Again, the rate of fees per term charged for the B.A., or B.Sc.(Pass) Course is Rs.54/- in the Presidency College, Madras, Rs.49/- in other Government Colleges (excepting the Ceded Districts College and Muhammadan Colleges) and the Loyola College, and Rs.42/- in many other Private colleges. For the Honours courses, the amount per term collected by the Presidency College is Rs.64/- by the Loyola College Rs.60/- and by the Muhammadan College Rs.55/-. Here also, the Government Scholarships of Rs.14/- per mensem for nine months either in the B.A., or B.Sc., pass or Honours Course is too low and I recommend that the rate may be raised from Rs.14/- per mensem to Rs.16/- per mensem. These revised rates, if approved by Government, will be given effect to in all the classes from 1946-'47.

4. SECONDARY SCHOOLS:-

(i) Boys: The number of general scholarships tenable in secondary schools for boys (a) commencing in Form I is 234 and (b) commencing in Form IV is 55. These were also last revised in G.O.No.1631, L.E. dated 15-11-31 and continue unchanged till now. The number of pupils reading in Forms I and IV in the Boys' Secondary Schools is given below for purposes of comparison:-

YEAR.		STRENGTH IN	
		Form I.	Form IV.
1926	..	22,796	16,569
1931	..	27,178	20,926
1936	..	27,086	23,231
1941	..	30,615	29,281
1944	..	43,032	36,200

It is seen from the above figures that the number in Form I has nearly doubled, and the number in Form IV has more than doubled. The District Educational Officers who are awarding these scholarships always find it a difficult task to decide about the awards, in view of the large number of applicants as compared with the number of scholarships available for award. Having regard to the increase in strength in the schools,

P.T.O.

schools, I consider that the present number of scholarships is very inadequate and recommend that the number commencing in Form I be increased from 234 to 450 and the number commencing in Form IV Form 55 to 110.

(ii) Girls: The Government General Scholarships awarded for girls and commencing in Form I are 36, and commencing in Form IV are 19 only for all the schools in the Presidency. These numbers were last fixed in 1930 in G.O.No.853 Ms., Law (Education), dated 9-5-30. As in the previous para, the number of pupils reading in Forms I and IV then and now in the girls' secondary schools are given below:

YEAR.		STRENGTH IN	
		Form I.	Form IV.
1926	..	1,208	543
1931	..	1,815	816
1936	..	2,491	1,337
1941	..	3,774	2,413
1944	..	5,046	3,202.

Here also, the figures conclusively indicate the need for increasing the number of existing scholarships; and I propose that the number of scholarships commencing in Form I be increased from 36 to 80 and that commencing in Form IV from 19 to 40. As stated at the end of para.2 supra, the additional scholarships for boys and girls will be commenced in the forms mentioned against each in 1946-47 and will be continued in the next higher classes in successive years.

pp 20-21 of, the M.E.R. R.151

5. The Government scholarships awarded in Forms I to III are of the value of Rs.3/- per mensem and in Form IV to VI are of the value of Rs.6/- per mensem. All the scholarships are tenable for nine months in a year. The amount payable for a pupil in Forms I to III works out to Rs.27/-, and in Forms IV to VI to Rs.54/- per annum. Though the standard rate of fees under the Madras Educational Rules - Rule 89 - works out to Rs.22/- in Forms I to III and Rs.42/- in Forms IV to VI, per annum, most of the aided secondary schools under private management levy fees for nine instalments (some levy for ten instalments even) in a year and at a rate which is generally not less than Rs.3/- per mensem in Forms I to III and Rs.6/- per mensem in Forms IV to VI. Again, the rate of scholarships awarded to pupils in European and Anglo-Indian Schools (i) for three years in the middle school standards is not less than Rs.6/- per mensem and not more than Rs.8/- PER mensem, and (ii) for two years in the high school standards is not less than Rs.10/- per mensem and not greater than Rs.12/- per mensem. Also, the non-residential scholarships awarded by the Commissioner of Labour, Madras, are better than those awarded by the Educational Department, as they specifically include a certain sum which is intended for books, note-books, etc. Having regard to the above, there is a clear case for enhancing the present rate of scholarships in secondary schools, and I strongly recommend that sanction of Government may be obtained for enhancing the rates from Rs.3/- per mensem to Rs.4/- per mensem in Forms I to III and from Rs.6/- per mensem to Rs.8/- per mensem in Forms IV to VI with effect from 1946-'47.

Post War Development

The D.P.I. has submitted proposals for increasing the number of scholarships tenable in Govt. Educational institutions and for enhancing their value. The statement in the appendix shows in one view the existing number of scholarships, the proposed number, the increase in rate and the additional cost.

The Director represents that the Scholarships have to be increased in number in view of the very considerable ~~abnormal increase~~ increase in the number of students in the respective classes ~~of these institutions~~ and that the value of the scholarships has to be enhanced as their present value is hardly sufficient even to meet the tuition fees, leaving alone, the special fees, the ~~provision for~~ cost of books, note-books, etc. This Department supports the Director's proposals.

The Director ~~of Public Instruction~~ has not proposed an increase in the number of the special scholarships for Muhammadans and Mappilas. In fairness to these communities it is considered that there should be an increase in the number of special scholarships allotted for them on the same scale as ~~of the increase in the general scholarships proposed~~. ~~No doubt the Government have made it clear that In the matter of awarding~~ According to the rules ~~for the~~ relating to the general scholarships, preference should be ~~should be~~ given to Adi-Dravidas, Adi-Andhras, Muhammadans Oriyas and members of other backward classes in the award of the scholarships, but as ~~they~~ Muhammadans & Mappilas are lumped up with other ~~classes~~ classes, ~~and~~ the result is not likely to be the same as if the ear-marked scholarships are increased. As a set off against this increase, it is, however, proposed that the number in the ~~corres~~

corresponding sets of general scholarships may be reduced so that the total numbers proposed will remain the same. Necessary alterations have been made in the Appendix.

According to the G.O. the number of special sch for Muhammadans and Mappillas has also been increased after making a corresponding reduction in the number general scholarships. The additional number of 32 scholarships now sanctioned by Government may be appo prorata with reference to the existing numbers under " General " and " Special " scholarships respectivel (i.e.) as 21 and 11 respectively. This is possib because the rates of both kind of scholarships are th

Therefore the full number of 60 scholarships now sanctioned by Government may be used as " General " scholarships. I may also state in this connection that there has not been so far any general complaint from the Inspectress of Girls schools of Malabar, regarding the inadequacy of the special scholarships intended for Moppilla girls in elementary schools.

The DPI recommends the increase in the number of Scholarships tenable in the ~~Collegiate~~, Secondary and Elementary Schools for the reason that the total number of students in the respective classes of [illegible] institutions has considerably increased. In fact the strength of the students in 1944 has practically doubled when compared to the strength in 1926. The ~~DPI~~ Directorate also recommends

the increase in the rate of these scholarships for the reason that the present rates of Scholarships are hardly sufficient ~~to~~ even to meet the tuition fees, leaving alone the ~~[illegible]~~ provision ~~as~~ for books, note-books etc.

The proposals of the DPI may be supported in this Dept. The file may be sent to Finance for remarks.

May be supported. I would, however, suggest one modification:- The DPI has not proposed an increase in the number of the special scholarships for Muhammadans & Mapillas. I think in fairness there should be an increase in the same scale of these scholarships. No doubt 'B' at G/45-2 gives preferential treatment for them; but they are lumped up with other classes & the benefit is not likely to be the same as if the ear-marked scholarships are increased. As a set off against this increase, however, the number in the corresponding sets of general scholarships may be ~~[illegible]~~ reduced so that the total numbers proposed will remain the same.

Under Post-war schemes an increase in scholarship facilities is contemplated — particular emphasis being laid on facilities for backward classes. The modifications at B at G/45-2 will secure this emphasis.

Please see E & P.H. notes on pp.1-4 C.F.

The D.P.I. has stated that ~~his~~ his proposal is justified by the large increase in the strength in every kind of institution and by the fact that the existing rates are not sufficient even to cover the tuition fees, not to speak of other special fees, books etc.

p.4 above

2. E & P.H. Secretary, in accepting the D.P.I's proposals points out that under Postwar schemes the increase in scholarship facilities is contemplated - particular emphasis being laid on facilities for backward classes. He also suggests that in fairness there should be an increase in the number of special scholarships for Muhammadans and Mapillas and that the number in the corresponding sets of general ~~xxxx~~ scholarships may be reduced so that the total number proposed will remain the same.

3. The following provision was made in the Budget of previous years for 'Scholarships' under '37.q. Education - Scholarships - Non-Europeans - Ordinary areas":--

Year.		Rs.	Year.		Rs.
1937-8	..	1,73,000	1942-3.	..	1,85,300
1938-9	..	1,75,700	1943-4	..	1,80,700
1939-40	..	1,75,700	1944-5	..	1,89,000
1940-1	..	1,77,500	1945-6	..	1,99,500
1941-2	..	1 71 400			

Schools
37-38 : 1.76
38-39 : 1.78
39-40 : 1.80
40-41 : 1.88
1941-2 : 1.80
1942-3 : 1.80
1943-4 : 1.78

The present proposal, if accepted, would almost double the commitments of Government in respect of the award of scholarships for future years. In view of the remarks of Secretary, E & P.H., on p.4 above, Finance may perhaps agree to the proposal going forward as a Part II scheme for 1946-7. E & P.H. may be requested to prepare the necessary note and circulate the case to A.1. also.

G.P.
31.X.45.

The Govt. are at present concentrating their attentio on the expansion of compulsory elementary education and technical education. It does not appear that there is sufficient justification for increasing the commitments by an increase i the number of Govt. scholarships as proposed by the D.P.I. T backward classes (Eligible Communities) are given scholarships by the Labour dept. Further, large sums are also being spent by way of educati concessions to the children and dependents of soldiers studying in non-Govt. institutions while those studying in Govt. institutions get these concessions automatically. It is for orders whether in the circumstances Finance may advise against the proposal to increase the number of scholarships.

As regards the increase in the value of scholarships, the D.P.I.'s proposal will result in an extra cost of about Rs 35,000 p.a. In view of the general increase in the cost of education, it is for consideration whether Finance may agree to this proposal going forward as a Part II scheme for next year.

O.S. 8/11

NRV 1.11.45 The Govt are giving free education of all grades to a large number of dependents of service men, and are also proposing to give free higher education to a large number of ex-service men. In view of this Finance would suggest that the present proposals for increasing the number & value of ordinary Govt. scholarships may be deferred for the present & not proceeded with as a Part II scheme for 1946-7.
