Presumably the M.L.A. refers to the Education fund. It is true that the fund is working with ~~under~~ ^{at} a large deficit in many cases. This is due to the orders of government directing local bodies to grant dearness allowance to teachers ⁱⁿ elementary schools at Govt rates. The Govt have undertaken to meet the deficit caused by the grant of dearness allowance by the ~~payment~~ ^{grant} of a subsidy from Provincial funds. The subsidy due to ~~each~~ ^{each} Local Body is ~~being~~ ^{being} determined with reference to the actual deficit ^{arising} each year. The Government have at the same time taken steps to improve the resources of the local bodies particularly Dist Boards by ~~sanctioning~~ ^{directing} increases in the rate of education tax (on certain well defined principles adopted) ^{provision} & ^{work} ~~work~~ ^{standards}).

2. The purpose of the question is not clear. Presumably the M.L.A. wants to convey to Govt that many local bodies will not be able to introduce the revised scales ^{of pay} sanctioned by Government for teachers. This is partially true. The question whether the rate of Edu. tax may not be raised further to meet a portion of the cost of revision of salaries ^{of teachers in elementary schools} is under consideration. To begin with Government propose to sanction advances to local bodies towards the expenditure involved on account of revision of salaries ^{and to} recover ^{from} as far as possible later. It is proposed to ask ~~the~~ Special officers, Dist Boards, and Executive officers of Municipal Councils to formulate proposals for meeting the extra cost.

3. As regards secondary schools under local bodies the decision of the Govt is to ~~alter~~ ^{fix} the system of ~~subsidy~~ ^{fixed lumpsum}. It is to be decided whether to continue the system of subsidy or to fix lumpsum.

to local bodies for secondary education are fixed lumpsums. With the introduction of revised scales of pay, grants for secondary school under local bodies will also be assessed on the basis ^{of the grant-in-aid case} i.e. the management will be paid half the approved net cost of the institution in the preceding financial year. The Govt. propose to insist on local bodies setting apart from its general funds for recurring expenditure on secondary schools during the next ten years a sum not less than the average of the amount that have been spent ^{during} only the last three years, 1944-45 to 1946-47. If even after these measures are adopted, there is still a gap between the receipts and charges in the secondary education account, the local bodies will be asked to fill in the gap by raising the fee income or by devising other means.

A draft answer is submitted for approval.
