The first part of the paper
 is devoted to the study of the
 properties of the function $f(x)$
 and its derivatives. In the second
 part, we shall consider the
 problem of the existence of
 solutions of the system of
 equations (1) and (2).

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and interesting in the history of science.
