Note for the Cabinet.

CONSTITUTION of Advisory Committees for Government Colleges, High Schools and Training Schools.

...

From 1922 to 1938 there were selection committees for admission of students into all Government Colleges for men except the Government Muslim College, Madras. ~~the Law College, Madras, the Engineering College, Guindy, the Teachers' College, Saidapet and the Government Training College, Rajahmundry.~~ The Committees were abolished by the last Congress Ministry in 1938 as they led to canvassing and favouritism and as they cost a great deal of money to Government by way of travelling allowance which could be saved if they were abolished. In 1938 the Government, however, issued a communique laying down the principles on which admissions were to be made to Colleges. The Communiqué ran as follows:-

G.O. No. 308 Edn 5.2.38 (V)

p. 43 g (V)

p. 59 g (V)

> "The Principals of Government Colleges are requested, while making selections for admission to all classes in their Colleges, to exercise the greatest care in seeing that due representation is given to non-Brahmins, to all minority communities, to Muhammadans, to scheduled classes and to women. The fact that candidates from backward communities do not possess equally high marks as candidates from forward communities should not stand in the way of deserving applicants from such communities being given due consideration. In the case, for example, of the scheduled classes and of Muslim women, very few of whom ever reach the collegiate standard, special consideration should be shown. In cases of doubt, the Principals of Colleges may, if they consider it necessary refer the cases to the Director of Public Instruction for decision".

G.O. No. 1435 Edn 1.8.40 (A)

2. In 1940 representations were received that the abolition of selection committees had been followed by a noticeable increase in the admission of Brahmin candidates and a reduction in that of non-brahmin candidates and that therefore it was necessary not only to re-constitute such selection committees but also to fix a definite proportion of seats in the colleges for each community on the basis of the rules for communal representation in Government services. The Government called for statistics of admission of the various communities in

~~2~~ 60

Government Arts and Professional colleges for the years 1937, 1938 and 1939 and, on an examination of the figures, were satisfied that there was no foundation for the allegation that undue preference had been shown to the Brahmin community. They ~~Government~~, therefore, declined to reconsider the question of the revival of selection committees. They, however, drew the attention of all Principals of Government colleges to the instructions issued in the Press Communique of 1938.

(A)

3. The instructions referred to above are still in force. In regard to Engineering Colleges the following further instructions were issued in 1943:-

G.O. No: 997 Edn 22.7.43
p 37 (j)

"The total number of seats available for admission of students every year (i.e.) the total number of seats in the Engineering class minus seats actually required for the admission of students coming from outside the Province including Indian States for whom seats have been reserved shall be allotted as indicated below:--

Group I: 50.8 per cent of the seats will be allotted for candidates from the group of districts which is predominently Tamil, viz., Madras, Chingleput, North Arcot Salem, Coimbatore, South Arcot, Tanjore, Trichinopoly, Madura, Ramnad, Tinnevelly and the Nilgiris.

Group 2:-38.1 per cent of the seats will be allotted for candidates from the group of districts which is predominently Telugu, viz. Vizagapatam, East Godavari, West Godavari, Kistna, Guntur, Nellore, Cuddapah Kurnool, Anantapur, Chittoor and Bellary.

Group 3:-11.1 per cent of the seats will be allotted for candidates from the West Coast districts, viz. South Kanara and Malabar.

Admissions to the Engineering Colleges for the academic year 1946-47 were made also observing the rule laid down by Government that 20 per cent of the total number of seats should be filled by students selected on merit irrespective of the existing orders fixing linguistic and other considerations. The question whether the 20 per cent rule should be applied ~~to~~ for future years is to be discussed ~~in~~ at a meeting of the Cabinet.

4. H.M.(Edn.) has raised the question of constituting Advisory Committees for all Govt. Colleges, High Schools and Training Schools. In this connection he has minuted as follows:

pp 1-2 nf

3 (7) 7 11 ~~3~~

pp 1-2 nf

"I have been throughout the Province a I had occasions to visit many of our colleges. It is unfortunate that many of our colleges are out of touch with the local people. In many cases I have found that the Government colleges are not efficient and in touch with the local people as other privately managed institutions. The Principals and the staff of the Government colleges lead a sort of separate existence from the community within which they live and that has largely resulted in apathy and disinterestedness. We must change this sort of affairs. We must so arrange that the community should feel that the institution belongs to them and the services of the enlightened men and women in the community should be utilized for the progress of our colleges. In fact for little things our Principals have to be writing to the Government, which can easily be done locally. This writing to Government in turn cause so much delay that Principals and the public have no interest in carrying through schemes of amenities to the students.

All these things can be obviated if we can have good non-official committees attached to the colleges ~~to which the Principal~~ can be the convener. Leading men and women interested in collegiate education can be made members of the committee. The number need not normally exceed 7 and no T.A. or D.A. need be given to the members of the committee and so financially this proposal will cost nothing. This association of leading non-officials in the running of our institutions will, I think, go a long way in making things better in all our colleges. These committees in the first instance can be had for our colleges and training schools. In places where Government has colleges, training schools and high schools, a separate committee can be had for the college and another committee for the training schools and high schools. While the committee will generally advise the Principal and the Government over matters connected with the institutions, they will not have any executive powers. The Principal will continue to be the executive agent of the Government with all his powers in tact as at present. The Committee will also advise on admissions but will strictly adhere to the principles laid down in the G.Os. on the matter.

Every committee should also have one or two ladies at least in the committee so that they may know the conditions of lady students in the various institutions.

The D.P.I. may be asked to suggest names for the various Government Colleges and other institutions.

T.S.A(vinashilingam),
2-9-1946."

pp 2-3 nf

5. The Director of Public Instruction was consulted and he has offered the following remarks:-

"If Government agree, I propose to have three sets of Advisory Committees (1) for colleges (2) high and training schools for boys and (3) high and training Schools for girls. At present there are Advisor Committees for all Government secondary schools for girl I consider that the present Advisory Committees for secondary schools for girls are adequate for training schools for girls also in the locality. In places where there are no girls secondary schools, separate committees may be constituted for the training schools.

In regard to colleges, there are already Advisory Councils for the Government Muslim College,

~~IV~~ 1/2

4

Mary's College and Law College, Madras. I am enclosing herewith a list of suitable persons* for 14 colleges. With regard to the Engineering College, Cocanada, I would suggest that the question of constituting Advisory Committee may be taken up after the college is permanently located in Vizagapatam".

*~~shown in the appendix~~

6. There were no Advisory Committees as such in the past except for the colleges ~~in the cases~~ mentioned by the Director of Public Instruction above. The Education and Public Health Department have noted that the Director's proposals for the constitution of Advisory Committees may be accepted but have ~~considered~~ suggested that the Committees should not have anything to do with admissions for the following reasons:-

pp 4-6 n.f. & pp 5-6

[illegible] 28.5.46.

(1) The considerations with reference to which the Selection Committees were abolished by [illegible] ~~Selection Committees would lead~~ led to canvassing and favouritism, still remain valid;

(2) Now that definite principles have been laid down in regard to admissions the observance of which can be watched by Government, it would be rather superfluous to attach committees merely to follow the same principles;

(3) If while observing these principles, selection within groups and within communities is to be made - as it ought to be - only on considerations of academic merit, the Principals are the best persons to do this; the association of committees with them would handicap rather than help them in that respect and as indicated above there would be room for the play of considerations other than academic suitability and merit; and

(4) In fixing ~~the~~ numbers for committees as well as in selecting personnel for them there would be the difficulty of working ~~is the question how far we can~~ make the committees "representative" of various interests on the one hand, while at the same time keeping the committees workmanlike as to numbers, on the other.

H.M.(Edn.) ~~has~~ agreed with the views of the Department. H.M.(I.L.)(Mr.V.V.Giri) for H.P.M. minuted that the matter ~~may~~ might be placed before the Cabinet for decision. H.M.(Law & Edn.)(Mr.Bashyam) agreed with

p 6 n.f.

5

8/13/5

(8)

this. H.E. has also agreed.

The points for orders are -

(1) whether Advisory Committees should be constituted for Government Colleges, High Schools and Training Schools as suggested by the D.P.I., and

(2) whether they should have any voice in the admissions of candidates to the institutions.

Sir,

SUBJECT: Constitution of Advisory Committees for Government Educational Institutions.

= =

page 2-3

In continuation of U.O. reply No.6388-K2/46, dated 11-12-1946, I have the honour to submit herewith proposals for the constitution of advisory committees for (a) Government High and Training Schools for men and (b) Government Training Schools for women. The list excludes Government Secondary Schools for girls and Government Secondary and Training Schools for women as already there are advisory committees for them.

2. In Madras, there are 3 institutions, viz., Government Training School for Masters, Government Training School for Muslim teachers and a Government High School for boys. I recommend that as a special case there may be separate committees for each of these institutions as proposed in the list. The Government Islamiah High School, Trichinopoly, has a separate Committee constituted under G.O. No. 1037 Education dated 11-7-44 and the term of the present Committee will expire on 7-7-1947. The Divisional Inspector has now proposed a single Committee for both the Islamiah High School and the Training School in the locality. This may be accepted.

P.T.O.

3. I request that in case Government decide to constitute Advisory Committees for these institutions, I may be permitted to constitute the committees in future as in the case of Government Secondary Schools for girls.

4. I request the favour of early orders.

for DIRECTOR OF PUBLIC INSTRUCTION.

DIRECTOR OF PUBLIC INSTRUCTION
7 SEP 1946
C 6388/46
MADRAS

To the Secretary, E.&.P.H.

I have been throughout the Province and I had occasions to visit many of our colleges. It is unfortunate that many of our colleges are out of touch with the local people. In many case I have found that the Government Colleges are not ~~as~~ efficient and in touch with the local people as other privately managed institutions. The Principals and the staff of the Govt. Colleges lead a sort of separate existence from the community within which they live and that has largely resulted in apathy and disinterestedness. We must change this sort of affairs. We must so arrange that the community should feel that the institution belongs to them and the services of the enlightened men and women in the community should be utilized for the progress of our colleges. In fact for little things ~~either of annual expenditure or otherwise~~ our Principals have to be writing to the Government, which can easily be done locally. ~~as every Government normally does, puts~~ This writing to Govt. in turn causes so much delay that ~~so many questions and asks for so many details that the~~ Principals & the public have no interest in carrying through schemes of amenities to the students. ~~in their various institutions.~~

All these things can be obviated if we can have good non-official committees attached to the colleges to which the Principal can be the convener. Leading men and women interested in collegiate education can be made members of the committee. The number need not normally exceed 7 and no T.A. or D.A. need be given to the members of the committee and so financially this proposal will cost nothing. This association of leading non-officials in the running of our institutions will, I think, go a long way in making things better in all our colleges. These committes in the first instance can be had for our colleges and training schools. In places where ~~there are~~ Govt has colleges, training schools and high schools, a separate committee can be had for the college and another committee for the training schools and the high schools. While the committee will generally advise the Principal and the Government over [illegible]ters connected with the institutions, the not have any executive powers. The principal will continue to be the executive agent of the Government with all his powers in tact as at present. The Committee will also advise on admissions but will strintly adhere to the principles laid down in the G.Os. on the matter.

Every committee should also have one or two ladies at least in the committee so that they may ~~work and~~ know the conditions of lady students in the various institutions.

The D.P.I. may be asked to suggest names for the various Government colleges and other institutions.

SECRETARY, EDN. AND P.H. DEPT.

U.O.Reply No.6388 K/46.

Office of the D.P.I.,
Madras, 11th Decr. 1946.

Resubmitted.

If Government agree, I propose to have three sets of Advisory Committees (1) for colleges, (2) High and training schools for boys and (3) High and training schools for girls. At present, there are Advisory Committees for all Government Secondary schools for girls. I consider that the present Advisory Committees for Secondary schools for girls are adequate for training schools for girls also in the locality. In places where there are no girls' secondary schools, separate committees may be constituted for the training schools.

In regard to colleges, there are already Advisory Councils for the Government Muslim College, Queen Mary's College and Law College, Madras. I am

✗ Engg College, Vizag (Cocanada)
Engg. College, Anantapur ([illegible])

4. Committees for High/and Training schools for boys:- (schools)

The D.P.I., has not offered any remarks on the point. Advisory Committees may be constituted for the boys' schools on the lines suggested by the Director in respect of girls' schools. Fresh Committees will have to be set up for boys' high schools as there are none ~~existing~~ now.

Subject to a decision on the question whether there [illegible] any [illegible] advisory ones.

5. Advisory Committees for Secondary and Training Schools for Girls:-

The Director's proposal may be accepted. Advisory Committees constituted for Government Secondary Schools for girls were officially recognized by Government in G.O.No.1845, Education, dated 3-9-1929.

Subject to a decision on the point referred to above.

GOVERNMENT OF MADRAS
31 MAY 1947
EDUCATION AND PUBLIC HEALTH DEPT.

Please see the orders in circulation above. The D.P.I. may be informed that the Govt have decided that Advisory Committees should be constituted for Govt Colleges, High Schools and Training Schools as suggested by him. It is presumed that the intention is that all these committees and not committees for colleges alone should be ~~advised~~ asked to advise the Heads of the institutions with regard to the admission of students. The Director may be asked to get the consent of the persons concerned. The list sent by the Director may also require revision; Sri A.B. Shetty proposed as a member of the advisory Committee for the Govt college ~~Coimbatore~~ Mangalore has since been appointed as a Minister.

Please see H.M.'s note on the previous page

Please see Secy's orders in the margin on p 5 ante

p 1 c.f.

The Director may also be asked to forward a draft of the detailed instructions to be laid down for the guidance of the Committees in the matter of selection of candidates for admission. In fact it would seem better to settle the terms of the

Please see Secy's orders at the bottom of p 5 ante

12

instructions before the persons proposed to be appointed as members are consulted. It is possible that some of these persons may like to know beforehand what they are expected to do before agreeing to serve on the committees.

Another point is as to who should appoint these committees. In the case of Schools (High Schools and Trg Schools) the D.P.I may perhaps be the appointing authority, as otherwise every change ~~of~~ will have to be approved by Govt and as this will mean delay. The Director requests that he may be permitted to constitute Advisory Committees for Secondary and Training Schools - page 16 cf. In the case of colleges the power to appoint members of the Committee may perhaps remain with Govt.

Schools and Colleges will re-open by the end of ~~this~~ June. It is not likely that the consent of the members can be obtained before the end of this month and final orders issued in the matter in time. The committees may be constituted as quickly as possible, but ~~this~~ admissions may be made by the Heads of institutions this year ~~[illegible]~~ as usual.

A draft memo will be put up after orders are passed on the points raised in the note above.

2/6/47

2-6-47

S

2.6.47

With regard to A above, the D.P.I. may be asked to forward a draft of the detailed instructions to be laid down for the guidance of the Committee and also the scope of their work in schools and training schools. These Committees need not be charged with the work of selection of students. The power of giving advice to selection of students

---

25 24 13

may be confined to Advisory Committees attached to Colleges.

B. With regard to Government schools and training schools the D.P.I. may be the appointing authority. With regard to the colleges, the matter may be put to Government.

C. Yes. As the selection has to be made immediately this year, the ~~members~~ Principals of the various colleges may be asked to make the selections themselves. But with regard to the Engineering Colleges, usually a committee consisting of the three Principals of the Engineering Colleges makes the selection. This year, x in addition to these three, Mr. N.Somasundaram, Advocate, Gengu Reddi Road, Egmore, Madras and Mr. S.B.P.Pattabhiramarao, Zamindar of Kapileswarpuram, Luz Church Road, Mylapore, Madras, may be appointed members of the Committee along with the Principals. Orders may be issued immediately over this matter. Their consent need not be taken but it may be presumed that they have consented.

Papers put up in another file (20% merit)

M

TSA
4-6-47

GOVERNMENT OF MADRAS
