No. F.7-8/46.O.D.II.
Government of India.
Department of Education.
New Delhi 3, the 10th August 1946.

ASST. SECRETARY TO GOVERNMENT
16 AUG 1946
EDUCATION AND PUBLIC HEALTH DEPT.

46045

From
Dr. D.M.Sen, O.B.E., M.A., Ph.D.,
Secretary to the Government of India.

To
The Secretary to the Government of Madras,
Education and Public Health Department,
MADRAS.

Subject:- Scholarships for Advanced Studies Overseas 1946-47-

Sir,

With reference to this Department endorsement of even number dated the 13th July 1946 regarding the admission of Mangalore Mohan Kini in Imperial College of Science London for Electrical Engineering, I am directed to state that the following communication has since been received from the High Commissioner for India, London:-

The other day I sent to you the following telegram:-

"Following for Rozario from Kirpal. Following seven Government Scholars selected by Imperial College of Science London. Department of Electrical Engineering for ordinary Part II course F/7/8/46/ODII. Mangalore Mohan Kini F/7/10/46/ODII. Amarandra Kesari Banerji, F/16/1/46/ODII. Mohsin Tyebali Bengali. Department of Geology for three years Ph.D. course/ Iyengar and M.S.Sadashivaish F.16/1/46/ODII B.V. Iyengar. Department of Chemical Engineering for research in Refractory materials with Fuel Technology F-16-1(c)/46/ODII Satya Pal Luthra."

(F/16/1(a)/46/ODII S. V. Parthasarathy

I think I had better explain further the courses for which these seven students have been accepted.

M In the case of the acceptance in the Engineering Department the admission would be to the ordinary part II course, the details of which are easily available in the London University Calendar."

X Please intimate telegraphically whether the admission of Mangalore Mohan Kini for Electrical Engineering, Ordinary Part II course, is acceptable to you. If not, please inform Travel Agents to cancel his passage, under advice to this Department.

A In this connection, it is, however, suggested, that in view of the difficulty in securing admission this year, his admission may be accepted.

I have the honour to be,
Sir,
Your most obedient servant,

A. N. D'Souza
10/8
for Secretary.

ELECTRICAL ENGINEERING.

Third-year Students have the option of taking one or other of two alternative groups of subjects; namely in Electrical Engineering (Power) or Electrical Engineering (Communications). These alternatives, set out in tabular form, are as follows:-

	Electrical Engineering. (Power).	Electrical Engineering. (Communications).
1.	Mathematics.	Mathematics.
2.	Electrical Theory and Electrical Measurements.	Electrical Theory and Electrical Measurements.
3.	Principles of Electrical Machines.	Electrical Power "A".
4.	Design of Electrical Machines.	Wireless Telegraphy and Telephony.
5.	Applications of Electrical Power.	Principles of Line Telegraphy and Telephony.
6.	Strength of Materials.	Elasticity (including the theory of vibrations).
7.	Development of Power in Prime Movers.	

The courses in these subjects consist of lectures and tutorial work, together with about an equal length of time devoted to experimental work in the laboratories and graphical work in the drawing offices.

The days and hours given in the following paragraphs are subject to alteration during the Session.

SECOND YEAR (under old regulations).

E.E.1. Applied Electricity.

Prof. Fortescue, or Dr. D'Ombrain.
On Mondays, from 10-11, and Fridays, from 3-4, throughout the Session; a Course of lectures on the principles of Electricity and Magnetism as applied to Electrical Engineering. (Including Wireless and Radio Communications).

E.E.2. Exercises in Applied Electricity.

Prof. Fortescue or Dr. d'Ombrain and others.
On Mondays from 11-1 and Fridays from 4-5, throughout the Session; a tutorial class in working out problems illustrating the lecture course E.E.1.

E.E.3. Electrical Machines and Electrical Measurements Laboratories.

Mr. Sims, Mr. Urwin and others.
On Wednesdays from 10-12.
A laboratory course for students taking the lecture course E.E.1.

E.E.4. Electrical Engineering. For 2nd Year Civil and Mechanical Engineering Students, and 3rd year Chemical Engineering Students.

Mr. Hopkin.
On Wednesdays 2-3, and Fridays, 11-12. A course of lectures in Electrical Engineering extending throughout the Session.

E.E.5. Exercises in Electrical Engineering. For 2nd year Civil and Mechanical Engineering Students, and 3rd year Chemical Engineering Students.

Mr. Hopkin and others.
[illegible] Wednesdays from 3-5 and Fridays from 12-
A tutorial class for students tak

the lecture course E.E.4.

E.E.6. Electrical Machines and Electrical Measurements Laboratories. For 2nd year Civil and Mechanical Engineering Students, and 3rd year Chemical Engineering Students.

Mr. Urwin, Mr. Sims, Mr. Hopkins, and others.

On alternate Wednesdays, from 3-5, throughout the Session. A laboratory course for students taking the lecture course E.E.4.

E.E.7. Applied Electricity. For R.S.M. Students.

Mr. Park.

On Tuesdays from 12-1, throughout the Session; a course of lectures on the applications of Electricity.

E.E.8. Telecommunications (with Radio). For 2nd year Physics and Mathematics Students.

(Not being given during the current Session).

E.E.9. Communications and Measurements Laboratories. For 2nd year Physics and Mathematics Students.

(Not being given during the current Session).

E.E.10. Electrical Machines and Electrical Measurements Laboratories. For R.S.M. Students.

Mr. Urwin, Mr. Sims and others.

On Mondays from 2-5; throughout the Session. A laboratory course for students taking the lecture course E.E.7.

THIRD YEAR (under old regulations).

(ELECTRICAL ENGINEERING , POWER)

E.E.11. Electrical Theory and Measurements.

Prof. Fortescue and Mr. Urwin.

On Mondays from 12-1 throughout the session. A course of lectures on Electrical Theory and on Electrical Measurements and Measuring Instruments.

E.E.12. Measurements Exercises.

Prof. Fortescue, Mr. Urwin and others.

On alternate Thursdays from 10-12 throughout the Session. An exercise class in the work covered by the lecture course E.E.11.

E.E.13. Design of Electrical Measuring Instruments.

Mr. Urwin and Mr. Hopkin.

On Mondays from 2-5 in the second term, a course of instruction by lectures and laboratory work on the design of Electrical Measuring Instruments.

E.E.14. Principles of Electrical Machines.

Asst. Prof. Rushton.

A course of lectures on the Principles of Electrical Machines on Mondays from 2-3 during the first term, and on [illegible] and third terms.

E.E.16. Exercises in Electrical Machines.

Asst. Prof. Rushton and Mr. Hopkin.

On Mondays from 3-5 in the first term, and Tuesdays from 11-1 in the second and third terms. An exercise class on the work of the lecture course E.E.14.

E.E.17. Design of Electrical Machinery.

Asst. Prof. Rushton and Mr. Hopkin.

A course of lectures and drawing office work in the fundamental principles underlying the design of Electrical Machines, with examples from modern practice. On Wednesdays from 12-1 and Tuesdays from 2-5 throughout the Session.

E.E.18. Electrical Power.

Asst. Prof. Rushton.

On Tuesdays from 10-11 and Fridays from 10-11 during the first term, and on Wednesdays from 2-3 and Thursdays from 12-1 during the second and third terms. A course of lectures on the Generation, Transmission, and Applications of Electrical Power.

E.E.19. Exercises in Electrical Power.

Asst. Prof. Rushton.

On Tuesdays from 11-1 and on Fridays from 11-12 during the first term, and on Wednesdays from 3-5 during the second and third terms; an exercise class on the work of the lecture course E.E.21.

THIRD YEAR (under old regulations).

(ELECTRICAL ENGINEERING, COMMUNICATIONS)

E.E.11. Electrical Theory and Measurements.

Prof. Fortescue and Mr. Urwin.

On Mondays from 12-1 throughout the session. A course of lectures on Electrical Theory and on Electrical Measurements and Measuring Instruments.

E.E.12. Measurements Exercises.

Prof. Fortescue, Mr. Urwin and others.

On alternate Thursdays from 10-12 throughout the Session. An exercise class in the work covered by the lecture course E.E.11.

E.E.13. Design of Electrical Measuring Instruments.

Mr. Urwin and Mr. Hopkin.

On Tuesdays from 10-12 in the second term. A course of instruction by lectures and laboratory work on the design of Electrical Measuring Instruments.

E.E.15. Electrical Power "A".

Dr. d'Ombrain.

On Fridays from 10-11 for part of Session.

E.E.20. Principles of Line Telegraphy and Telephony.

Mr. Urwin.

On Tuesdays from 10-11 and Wednesdays from 12-1 during the first term, and on Wednesdays and Thursdays from 12-1 during the second and third terms. A course of lectures on the principles of Electrical Communication by Means of Telegraphy and Telephony.

E.E.21. Wireless Communications. For 3rd year students in Electrical Engineering (Communications) throughout the Session and for 3rd year Physics and Mathematics Students for part of the Session.

Prof. Fortescue, Mr. Urwin and Mr. Tombs.

On Mondays and Wednesdays from 2-3 throughout the Session. A course of lectures on the principles and practice of Wireless Communications.

E.E. 23. Exercises in Electrical Communications.

Mr. Urwin and Mr. Tombs.

On Mondays and Wednesdays from 3-5 during the whole Session. An exercise class on thw work of the lecture courses E.E.20,21.

E.E.24. Communications Drawing Office.

Mr. Urwin and Mr. Tombs.

On Tuesdays from 10-12 and 2-5 for the first half Session.

E.E.25. Machine Telegraphy and Telephone Switching.

Mr. Urwin.

On Fridays from 10-11 for part of Session. A course of about 12 lectures on the uses of Machines in Telegraphy and the methods of Telephone Switching.

THIRD YEAR (under old regulations).

Laboratory Course.

E.E.26. Measurements Laboratory.

Mr. Urwin and others.

On alternate Thursdays from 10-11 and Thursdays and Fridays from 2-5 throughout the session.

E.E.27. Communications, Laboratory.

Mr. Urwin, Mr. Tombs and others.

Times as for E.E.26.

E.E.28. Machines and Power Laboratory.

Mr. Sims, Mr. Park and others.

Times as for E.E.26.

THIRD YEAR (under old regulations).

Courses for Students of other Departments.

E.E.29. Electrical Engineering. For Mechanical Engineering Students.

Mr. Hopkin.

On Tuesdays from 10-1 during the Winter Term; a course of lectures, exercise classes and laboratory work.

E.E.30. Electrical Engineering. For R.S.M. Students.

Asst. Prof. Rushton.

A course of lectures, exercise classes and laboratory work in Electrical Engineering for Third Year students of the Royal School of Mines, throughout the second half-session. Lectures on Wednesdays from 10-11. Exercise Class, Wednesdays from 11-1, and laboratory on Mondays from 10-1.

E.E.31. Communications Laboratories. For 3rd year Physics and Mathematics Students.

Mr. Urwin, Mr. Tombs and others.

At times to be arranged.

POST-GRADUATE COURSES.

These courses are intended for post-graduate and other duly qualified students, and facilities for advanced study and research are available.

Applications for post-graduate places are normally considered in the first week in May; candidates are therefore advised to apply by 1st May.

Ref: Govt. Memo No.3015 M/46-1 dated 16-11-46.

2919/(E)

I assume that Messrs. V. Ganesan and T.L.N. Prasad possess high academic distinction specified in my letter No.4944 E/45-6 dated 27-12-45 for the candidates to be selected.

2. I am not sorry that the Imperial College of Technology, London do not agree to the substitution of Sri V. Ganesan for Sri M.M. Kini as in my opinion a postgraduate course for these candidates is entirely unnecessary. I reiterate the recommendation in my letter No.4944 E/45-9 dated 6/7-2-46 that training in large manufacturing works is as essentially educational as any postgraduate course in an university and suggest that arrangements may be made for the training of the candidates for a period of three years as indicated below and as recommended in my letters No.4944 E/45-9 dated 6/7-2-46 and No.6382-E/46-1 dated 15-10-46:-

A Training for a period of two years in manufacturing of electrical machinery of all kinds and in associated research work in International General Electric Co., or

From the Govt. of India, Edn. Deptt. Memorandum No. F. 7.8/46 OD IV dated 10-12-46.

....

A copy of the Government of India Memorandum read above is forwarded to the C.E(E). As the Govt. of India are not agreeable to the arrangements proposed by this Government for the training of Messrs. V.Ganesan and T.L.N. Prasad, the C.E. is requested to suggest other suitable arrangements for the candidates.

2. The attention of the C.E. is invited to his letter No. 6382 E/46-4 dated 30-10-46 and he is informed that practical training in commercial processes for the two candidates to be sponsored in 1947-48 for the subjects under "Electrical Engineering" will not be available under the Government of India, Education Deptt. scheme. He is therefore requested to suggest suitable alternative arrangements for the two candidates to be sponsored in 1947-48 for "Electrical Engineering".

Sir,

Overseas Scholarships 1946-47.

Enclosures P.47 ante

Ref.- Govt. Memo. No.3466 M/46-1 d/6-1-47.

Spare Copies

P.7 ante

With reference to para 1 of the Government Memo. cited above, I invite reference to Government's post copy of telephonic message No.1877 M/46-3 dated 17-9-46 in which Government confirmed that the two candidates in question had been selected with a view to their being absorbed in the Department after ~~xx~~ training. Presumably the intention of the Education Department of the Government of India is that these candidates should be deputed for further studies in Universities abroad. These candidates have had basic engineering qualifications and only require practical training of the kind recommended for them to make them useful members when they are later absorbed in the Department and a further academic course is quite unnecessary. As stated in my letter No.4944 E/45-9 dated 6/7-2-46 such training as has been recommended for these candidates should be deemed educational in essence and I therefore request that the Government of India may be persuaded to accept the recommendations and arrange for training accordingly. I feel unable to suggest a better course for the purpose we have in view and if the Government of India would not sponsor these students I suggest they be sent by the Madras Government at their expense.

A

P.161 of (E)

P.47 ante

2. It has been stated in para 2 of the Govt. Memo. that practical training in commercial processes for the two candidates to be sponsored in 1947-48 for the subjects under "Electrical Engineering" will not be available under the Government of India, Education Department Scheme. I invite reference to my letter No.6382 E/46-2 dated 26-10-46 in which I recommended that the candidate to be selected for training should hold a degree in Electrical Engineering or equivalent and that preference should be given to candidates with practical experience in the subject for which they are selected. As in the cases of candidates to be absorbed in the Department after training, a further University course is entirely unnecessary and wasteful for these candidates as well. The training I recommended for them would fit them for the work of manufacture of electric switches etc. and for electric traction and no academic training or postgraduate course could serve that purpose. The limiting of the scope of the Government of India, Education Department Scheme as is sought to be done will, I fear, fail to serve the purpose for which the scheme has been prepared and the Government of India may therefore be requested to

Pp 37-38 of (J)

53

arrange for the training of these candidates also as already recommended.

3 If the Government of India are still not agreeable, I can only suggest that the subjects I recommended be dropped and the local Education Department be asked to put up proposals for training lecturers and research workers for later absorption in that Department.

G Sundaram

Chief Engineer (Electricity).

A copy of a letter No. E.A.8641 dated 3rd December,1946 from the Office of the High Commissioner for India, Education Department, London to DR. A.M.D'Rozario, Education Departmnet, Government of India, New Delhi.

Would you kindly refer to your cable of the 17th October,1946, No. F.7-8/46-O.D.IV. about Mr. T.L.N.Prasad. His application form and other documents have now been received in this office.

Unfortunately, as stated in Mr. Kirpal's letter dated the 5th November,1946, the substitution of this scholar is not acceptable to the Imperial College of Science and Technology.

I should like to know whether his application is to be reconsidered for admission in October,1947.

Yours sincerely,

MEMO No. 478-17/47-1 dated 11.2.47

Sub: Overseas Scholarship 1946-47.

Ref: From the C.E(E)No.4944 E/45-18 dated 17-1-47.

M on P 10 cf

The C.E(E) is informed that it is not worthwhile addressing the Government of India, Education Deptt. as their scheme is separate from the Labour Deptt. scheme of sending abroad technicians already employed in Industries to the United Kingdom and United States of America for further training or for enlarging their industrial or professional experience. The Govt. of India, Education Deptt. Scheme is an educational one though practical training in varying proportion will form an integral part of the scheme; for certain courses of technology or applied science it may even form the bulk of the course of instruction of a candidate. If a course of post-graduate study for 6 months followed by 1½ years practical training, is suggested, the Government of India ~~xx~~ ~~will~~ may possibly be prevailed upon to sponsor Messrs. V. Ganesan and T.L.N. Prasad and also the two candidates to be selected in 1947-48.

P. 55 ante

In the circumstances stated in the Govt. memo cited above, I agree that Messrs. Ganesan and Prasad may be deputed for the diploma course at the Imperial College of Science, London which, I believe, is for about a year, begining in October and ending with June. After the completion of this course the students should undergo practical training for two years in a large public utility and in manufacture of electrical machinery of all kinds and in associated research work.

No. 4944 E/45-20 dated 28-4-1947.

Sir,

Sub: Overseas scholarships -- 1946-47 and 1947-48.

Ref: Government Memo No. 478 M/47-4 P.W.D. dated 9-4-47.

p 59 ante

The practical training for one year after the completion of an year's post graduate course, proposed by Government in the above memo, in respect of the two candidates for 1946-47 viz. Messrs. V.Ganesan and T.L.N.Prasad may be arranged at the works of Messrs. Metropolitan Vickers, B.T.H. or English Electric Company England.

Recorded in MB

2. In respect of the candidates to be selected for 1947-48 only practical training of two years is desirable and that a further university course is unnecessary. I invite reference to my letter No. 6382 E/46-4 dated 30-10-1946 furnishing suggestions for training for two years for the candidate to be selected for Electric Traction and also to my letter No. 6382 E/86-2 dated 26-10-1946 stating that upto date information of the places where training can be had is not available and that the India supply Mission or the Agent General in United States of America may be requested to ascertain competent technical opinion on the best places for training and to arrange for it. I am unable to suggest a suitable post graduate course coupled with works Training within the two years' period stipulated by the Education Department, Government of India, and would therefore suggest that the India Supply Mission in United States of America may be consulted on the matter.

1. Please see the notes from the bottom of page 3 ante and the memo from the Govt. of India on p 45 cf which has since been received. The draft letter below need not issue.

A' pp 37-38 CF

2. The Govt of India do not agree to the arrangements suggested by this Govt in respect of the studies of Messrs. V. Ganesan and T.L.N. Prasad.

P.45 CF

3. One of the reasons advanced by the Govt. of India for their not agreeing to the course suggested for the two candidates is that such a course falls outside the scope of their scheme. As already mentioned at 'Y' on page 5 ante, the Govt. of India, Education Department, Scheme of overseas scholarships is essentially "educational", though practical training in varying proportion forms part of the Scheme. The C.E. (Electricity) suggested

p45 CF

---

training for the two candidates in manufacturing works only. This suggestion was passed on to the Govt. of India as the C.E. took the view that "such training was as essentially educational as any post graduate course in an University".

Even previously in respect of the G of I's scheme it was clear; we have to accept their ruling.

3. The G. of India's other reason is that the training recommended for the students extends over a period of 3 years, whereas according to the Scholarships scheme, the normal period of trg. is two years. This reason, by itself, cannot be held valid, as there are already instances where, on the recommendation of the Govt. of India themselves, the ~~2 year courses~~ period of training has been extended to 2½ years and 3½ years.

p45 CF

× para 1 of

B

4. Now that the Central Govt. are not agreeable to the courses suggested for Messrs. V. Ganesan and T.L.N. Prasad, P.W.D. may be requested to suggest other suitable arrangements for the students. It may be noted here that admissions for them may be tried for October 1947 sessions at the Imperial College of Science Technology, London, vide page 43 cf.

A

It is better not to defer sending them until then, we have to let our [illegible] [illegible] as early as possible.

5. In connection with the 1947-48 Scholarships the C.E. (E.) has proposed only practical training (in commercial techniques) for the two candidates to be sponsored for subjects under "Electrical Engg.", although it was made clear to the C.E. that training in commercial processes like manufacture of articles will not be available under the G. of India, Edn. Dept. Scheme. In view of the G. of India's ~~letter on pp~~ memo. on p 45 CF, the P.W.D. may be requested to suggest, in consultation with CE(E) alternative arrangements for the 2 candidates to be sponsored in 1947-48 for

To A.S.

Please see the memo to the C.E(E) at p. 47 c.f. and his reply at p. 49 c.f.

'A' on Pp37-38 cf

The C.E. considers that, as the two candidates have been selected with a view to their being absorbed in the department after training and as they have had basic engineering qualifications, they require only practical training recommended by him to make them useful members when they are later absorbed in the department. He also considers that a further academic course is quite unnecessary. He therefore suggests that the Government of India may be requested again to accept his recommendations and to arrange for their training accordingly. In the letter at p. 45 c.f. the Govt. of India have stated that they are not agreeable to the arrangements proposed by this Government for the training of the two candidates as they did not come under the scope of their scheme. It is however for consideration whether in the circumstances stated by the C.E. the Government of India will be addressed in the matter. In addressing them mention may be made of 'A' on p. 49 c.f. As regards the duration of the course referred to by the Govt. of India it may be noted that in specific instances, the period of training has been extended from 2½ to 3½ years. This may also be pointed out to the Govt. of India.

As regards 1947-48 scholarships, the C.E. considers that, as the candidates to be selected should hold a degree in Electrical Engineering or equivalent qualification a further university course is entirely unnecessary and wasteful. He requests that the Govt. of India may be requested to arrange for their training as recommended by him. If however the Govt. of India are still unable to agree, the C.E. suggests that, the two scholarships recommended by him may be dropped and that proposals for training lecturers and research workers for later absorption in the Education Deptt. may be put up. The scholarships cannot, it seems, be dropped now as they have been advertised. ~~E & P.H. may be requested to advise.~~

E & P.H. (C2)

T.N.S.
27/1

Please see the notes from the middle of page 6 ante. The P.W. Dept. suggest that the Govt. of India may be addressed again requesting them to arrange for practical training alone, as suggested by the C.E. (Electricity), for Messrs. V. Ganesan and T.L.N. Prasad, who were selected in 1946-47, and also for the two more candidates to be selected in 1947-48. I doubt whether it is worth while

2. ~~There seems to be no point in~~ addressing the Govt. of India again as desired by P.W.D. That Govt. have already made it clear that their Edn. Dept's Scheme is primarily educational and is separate from the Labour Dept Scheme of sending abroad technicians already employed in Industries to the United Kingdom and the U.S.A. for further training or for enlarging their industrial or professional experience. As ~~[illegible]~~ observed by the Secy. on page 7 ante, we have to accept the Central Govt's ruling: It is not likely that the G. of I. will reconsider their view point. But the Govt. of India have stated that the Education Dept. Scheme remains essentially an educational one though practical training in varying proportion will form an integral part of the Scheme; and that for certain courses of technology or applied science it may even form the bulk of the course of instruction of a candidate. Therefore if the Chief Engineer can suggest for the candidates at least about a six months course of postgraduate study to be followed by 1½ years practical training, it seems that the Govt. of India can be prevailed upon to sponsor ~~the~~ Messrs. V. Ganesan and T.L.N. Prasad and also the 2 candidates to be selected in 1947-48 ~~Candidates for a~~ under their Edn. Dept Scheme, with refce. to 'B' above. P.W.D. may be requested to ask the Chief Engineer to suggest suitable courses, if there is no objection. An addl foreign degree secured by the Post Graduate study which will be will be an asset to the candidate in his official career and will be the means to secure that practical training (so much needed) which otherwise will not be available under the G. of I. Edn Dept Scheme

P 57 cf

2 The C.E. agrees to the admission of Messrs. V. Ganesan and T.L.N. Prasad for the diploma course at the Imperial College of Science, London for a year followed by practical training for two years in a large public utility and in manufacture of electric machinery of all kinds and in associated research work. The period of training suggested by the C.E. runs to three years whereas the period of training under the Government of India, Education Department Scheme is only two years. Attention is, in this connection, invited to the Govt. of India letter at p. 45 c.f. The C.E. has not also stated whether the course suggested by him may ~~also~~ be adopted for the two candidates to be selected ~~for~~ in 1947-48.

P 45 cf

A on p 49 cf

2. Originally the C.E. considered that only practical training was necessary and that no advanced academic studies were necessary for Messrs.V.Ganesan and T.L.N.Prasad. As the Government of India would not agree to sponsor the candidates for practical training alone, it was stated at "A" on page 10 ante that the C.E. might be asked to suggest a post-graduate course of studies for at least six months. In his letter on page 57 c.f. the C.E. has suggested one year diploma course of studies. This suggestion may be accepted and the Govt. need not ask the C.E. to restrict the period of studies to six months, as stated at para 3 on page 11 ante. In order that the total period of studies abroad does not exceed two years, this Department may suggest that the candidates may be given one year's practical training instead of two year's practical training as recommended by the C.E. He may perhaps be asked to suggest suitable practical training for all the four candidates in question within the one year period.

From the C. E (E) 494-E/45-20 dated 28.4.47 P 61 cf

To A.S.

Please see the E & P.H. Deptt. note at p. 12 ante, the memo to the C.E(E) at p. 59 c.f. and his reply thereto at p. 61 c.f.

The C.E(E) states that practical training for one year after the completion of one year's Post Graduate course for Messrs. V. Ganesan and T.L.N. Prasad may be arranged at the works of Messrs. Metropolitan Vickers, B.T.H. or English Electric Company, England.

para 1 on p 61 cf

As regards the candidates to be selected for 1947-48, the C.E. considers that only practical training for two years is desirable and a further university course is unnecessary. The C.E. further states that he is unable to suggest suitable Post Graduate course coupled with works training within the two year period. He therefore suggests that the Indian Supply Mission in the U.S.A. may be consulted in the matter. In the circumstances the C.E's view may be concurred in, in this Deptt. and the file remitted to E & P.H. for further action.
