Protest Against Admission Into Colleges on Merit

MADRAS, June 24.
A resolution condemning the direction of the Health Minister to restrict admissions to the Medical College on the basis of merit as an attempt to deny the Non-Brahmins their due share of seats in the professional colleges and urging the Government to drop the contemplated measure immediately and restore the communal G.O. was passed at a meeting held last evening under the auspices of the Dravidian Federation at the Triplicane Beach. Mr. T. S. Nataraja Pillai presided.

Dr. A. Krishnaswamy said public opinion should be so organised that the Ministry would be forced to abandon the contemplated measure.

Mr. E. V. Ramaswamy Naicker said that although he felt that the Ministry should be allowed a free hand, their recent actions had made it difficult for them to remain quiet.

OPH(A)

Submitted for perusal

Now that the selections are over, it seems desirable to call for details of admissions to the Engg. colleges so that the Govt may have the necessary information. The draft T.M. below is for approval.

GOVT. OF MADRAS.

Fort St. George,
22nd June 1946.

To
Shri.K.S. Sitarawan,
Principal,
Engineering College,
Guindy, Madras.

Dear Friend,

In pursuance of our discussions regarding the
Principles of selection, in addition to the order issued by
Government. I shall be glad if you will kindly have in view a
fairly proper distribution of the seats in the various districts.
I think about 8 will be a proper number per district in Tamil Nad.
For Nilgiris you may give one or tag it on to Coimbatore.

For Andhra also it may be worked out on similar
lines.

Yours sincerely,

(Sd.) T.S.A.

Sir,

I enclose a statement showing the number of qualified applicants from each community that applied for admission to Engineering Colleges in 1946-47. The statement contains ~~the~~ information regarding the linguistic areas of the applicants and also the marks of the last candidate from each community.)

2. The Principal, College of Engineering, reports that the marks relate to the group total of Mathematics, Physics and Chemistry at the Intermediate examination which was the basis for selection.

I have the honour to be,

Engineering Colleges - admissions in 1946-47.

From the DPI R.C. No. 1330-146 & 22-7-46.

The DPI has furnished a statement ^{containing} relating to the Statistics of Students from the various Communities who are admitted to the Engineering Colleges in 1946-47, by the application of the rule of 20% merit issued with Govt Memo. No. 33199 A/46-1 Edu & 21-6-46. He has also forwarded a copy of the letter of the Principal, College of Engineering, Crimidy, explaining the principle followed in allotting the selected Candidates to the different Engineering Colleges. A Consolidated Statement showing the number of Candidates that should have been admitted according to the rule of Communal proportion in the service rules and the linguistic ratio laid down by the Govt, as compared to the number of students actually admitted, is put up at flag (E). It will be seen from the statement that the rule of 20% merit has affected adversely certain Communities, such as Muslims, Indian Christians (including Anglo-Indians and Non-Asiatics) and Scheduled Castes. The full reasons for this are not known. Perhaps, there might not have been sufficient number of applicants from these Communities. The DPI may be requested to send a statement showing the number of qualified applicants belonging to each of the Communities. A draft T.M. is submitted.

As regards linguistic representation Tamils and Andhras have lost 2 and 1 seats respectively, which seats have been secured by the West Coast. The difference is negligible and no action

It is requested to be by so, without having any candidates appear for each community. J. S. V.

not only for the Engineering Profession but
also for the medical physical fitness is
absolutely essential and this view is to be
kept always in mind when selection is made.

The principle of 20 p.c on merit was
introduced solely with a view to securing the
best among the applicants for the two professions
on whom depends the prosperity of the nation,
more so in the case of doctors on whom the life
health of the people depend. I am sure when
a person is ill he will always like to choose
the best expert man available.

Hence it is not fair to club the merit
with non merit categories together & take the
proportion. Even so, it may be seen that
no particular community has unduly
benefited as only 13 p.c of shramin applicants
have been selected whereas all other
communities get more than 40 p.c

I agree with the office note at 'A'
