Government Press. Such work relates mostly to the Judicial Police and Public Health Departments and electoral rolls of the Legislature and of local bodies.

Charges in England.-- The expenditure incurred in England on leave salary of the officers employed in the Government Presses, Sterling Overseas pay of the Superintendent, Government Press, and on stores and machinery is debited to this head.

Government Press.-- The increase in the preliminary accounts for 1945-6 was mainly due to higher rates of dearness and war allowances and to the printing of electoral rolls for the elections to the Central and the Provincial Legislatures. The further increase in the budget estimate for 1946-7 is due to the payment of arrears of dearness and war allowances.

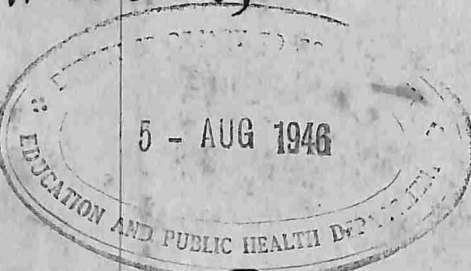

Printing at private presses.-- The increase in the preliminary accounts for 1945-6 was due to the printing of electoral rolls locally at private presses in the various districts.

Charges in England.-- The increase in the budget estimate for 1946-47 is mainly due to increased provision for payment for imported stores.
