Sir,

Sub:- College - Presidency-Madras - Employment of an additional
scavenger - sanction requested.

In G.O.No.89(Finance) dated 1st April 1939 the Government, fixed the number of scavengers for the presidency College, Madras as THREE and directed that the number should be reduced to two after the provision of flushout latrines. The construction of flush-out latrines in the College was completed in 1941-42, but the three scavengers were retained under the sanction accorded in G.O.No.376(Edn) dated 4th March'42. Of the three, one is a woman who is exclusively in charge of women students' bathrooms. The other two men scavengers are unable to cope with the ~~increased~~ increased work of washing the drains and cleaning the latrines. Due to a large number of experiments conducted in the laboratories and the existence of the college canteen, the drains have to be washed daily, while the latrines have also to be cleaned more often than before owing to the considerable increase in the strength of the college. The Principal has, therefore, asked for permission to employ an additional scavenger. A copy of his letter Roc.No.695/45 dated 13-11-46 is enclosed for information. In the circumstances explained therein, I request that the Government may be pleased to permit the employment of fourth scavenger in p.t.o.

Presidency College, Madras.
13th November, 1946.

Ref:-Proceedings Roc.5866 A/2-46 Dated 6-10-46.

Sir,

The flush out latrines were constructed in 1941-42 and the number of seats are mentioned below:--

	Latrine seats.	Urinals.
<u>For Staff</u>		
Ground Floor (Main Building)	4	4
1st Floor (Main Building)	3	3
Natural Science Block	1	3
<u>For Students (Men)</u>		
Near Chemistry Block	21	8
Natural Science Block	3	3
<u>For Women Students</u>		
In Main Building	5	-
In Natural Science Block.	1	3

The above are distributed in different places. Out of the 3 scavengers one is a Woman scavenger who is exclusively in charge of women students bath rooms. In 1941-42 the strength of the College was 959 and it is now nearly 1480 and next year it will be more than 1550. Not only this, the staff has also increased and so the existing latrines have to be constantly cleaned as more persons use the latrines. Moreover standard of sanitation expected to be kept up in an Educational institution such as this is higher than that in other offices as in the former there are a larger number of users. The 2 men sweepers are not therefore enough

Moreover due to large number of experiments conducted in the Laboratories and the existence of the College Canteen the drains have to be constantly cleaned.

The sanction of an additional scavenger is therefore highly necessary if we have to maintain the sanitation of the College in good condition.

College - Presidency, Madras. - employment
of an addl scavenger

C.N. 77667A/46, From the DPT, No 5866-A2/46 21-12-46

Pl. see the letter from the
DPT on pp 1-2 cf and its enclosures on p 3 cf.
In 1942, when the DPT asked for the
retention of the existing three scavengers
the then Fin. Dy. Secy noted that as follows:-

" Flushout latrines cannot altogether
dispense with the services of Scavengers and
three Scavengers for the whole of Presidency
College is not excessive and they may
therefore be retained "

The Govt. accordingly sanctioned the
retention of the three Scavengers. In the
circumstances now reported by the Director,
the present proposal to employ an addl
scavenger (male) may be accepted. ~~The~~
~~for the scavenger may perhaps be~~
~~employed with effect from the next academic~~
~~year (i.e. 1947-48)~~

~~Finance may issue for same~~
