ENGINEERING Colleges - Rules for the selection of candidates - further instructions issued.

Read again: G.O.No.1435 Edn. dated 1.8.40
G.O.No. 997 Edn. dated 22.7.43.

G.O. (MS) 1364 Edn dated 27.6.47

The following further instructions are issued in regard to the selection of students for admission into the Engineering Colleges:-

(1) As already ordered in paragraph 5 of G.O.No. 1167 Edn. dated 12.6.46, 10 per cent of the seats ~~excluding those reserved for the admission of students deputed by Indian States or other Provinces (23 in the aggregate)~~ will be reserved for ex-service personnel who are natives of this Province, ~~and~~ possess the requisite qualifications ^{and} are eligible for the benefits of the scheme for further education. 23 seats in the ~~that~~ reserved for candidates from outside the Province; ~~in~~ selecting candidates for the remaining seats,

the following proportion ^{may} be kept in view ~~and should~~ be observed as far as practicable:-
Non-Brahmin (Hindus) 5 out of 12 seats.
Brahmins 2 out of 12 seats.
Muslims 2 out of 12 seats.
Anglo Indians, Indian Christians or Non-Asiatics 2 out of 12 seats.
Harijans 1 out of 12 seats

Due regard should be paid to the admission of students from backward and unrepresented communities. A decent minimum qualification should be insisted upon.

(2) The linguistic proportions laid down in G.O.No.997 Edn. dated 22.7.43 should be adhered to, with a view to ensure adequate representation for every district, the number of seats for each district should also be fixed, to the extent possible, with reference to the ratio the population of the district bears to the total population of all the districts in the Province.

With regard to admissions in Engineering Colleges, the following two more suggestions may also be passed on to the D.P.I. to be considered as rules for selection.

(1) ~~Non-Brahmin~~ There may atleast be about 8 students selected ^{from each district} except Ooty for which ~~they~~ they select one or two; for the ~~comm~~ population of Ooty is only 2 lakhs.

(2) The Principals last time asked for a guidance as to what sufficient representation for the various communities should be in practice. Generally the communal representation may be taken as its meaning

~~of the population.~~

under the control of the Education Dept. (Engineering and Training Colleges) provide for preference being shown to Non-Brahmins; Scheduled castes, backward classes, Muslims etc.--G.O.Ms.1435 Edn. dated 1-8-40. There is no order providing for the observance of the communal ratio * in regard to admissions to these colleges. ~~except the recent G.O. reserving 10 percent of the seats for Harijans.~~ The rules relating to admissions to the Medical Colleges require the observance of the communal ratio as far as practicable. It would seem desirable to have uniformity as far as possible. De

as certain ready
direction was given
the Medical College
decision is at 2/1.

It proceeded on the above footing
(M. or A.) that the vigils commenced
proportion must be fixed. As the
present proposal would make the
proportion vigils & is at variance
with A.P. & submit it for
the consideration whether this is the action
should go or not; if he desires
that it should, I propose to do
that & the way also see.

(M. or A.)
Take it that was H.A.'s intention
that in the selection must be made
by first other examination & then
within must be taken by the
selecting authorities until then. If
H.A. agrees, the D.P. will be
apprised of the position.

To make things clear, the following
instructions may be given to the Committee for the selection
of students to the Engineering Colleges:

1. Subject to linguistic reservations, eight candidates
may be selected from each of the districts ~~with a population~~
~~not less than 20 lakhs~~ but this should not mean that people
with very low qualifications should be selected. A decent
minimum qualification may be borne in mind by the Committee in
the matter of selection.

2. Communal proportions may be observed as far as practicable.

With reference to 'P' above, may be
considered to H.A. & H.E. by (M. or A.)

It must be on
the population basis
to the D.P. wave

In the case of the Medical colleges, where
an allotment of seats according to population is
the basis of selection, was first proposed, it
has been decided on further consideration, to
give a weightage to Madras districts
having a larger population. Medical features, &
allow, for this year, 10% of the total number
of general seats to go to the Madras
district. Please see H.A. 27-28 M. in the
L.F. The same scheme will also go
for the Engineering colleges also, & in
order to have uniformity, the
proposed scheme of weightage may be
given here also for the Madras districts
for this year.

Not only strictly on population & subject to the D.P. wave

26-6-47

In view of H.A.'s minute & of H.A. (M. or A.)
being agreed, & given for the D.P. wave it is limited

Let it be understood that the selection of the candidates for admission to the Engineering College, Quindiy, is the responsibility of the Committee for the selection of pupils. It is expected to meet on the 29th instant.

A draft order is submitted. A copy may, perhaps, be sent direct to the Principal, Engineering College, Quindiy, as the Committee for the selection of pupils is expected to meet on the 29th instant.
