MEMORANDUM.

Advanced Studies Overseas in
respect of Mr. R.G.Narayana-
murthi, 1945 scholar.

The undersigned is directed to refer to this Department letter of even No. dated the 21st October, 1946 and to state that the High Commissioner for India, London has informed that Mr. Narayanamurthi has taken the post-graduate course in the Mechanical Engineering Department of the Imperial College of Science and Technology on 'High Speed Internal Combustion Engines and Gas Turbines' with special reference to Aero Prime Movers, Internal Combustion Engines and Gas Turbines, Engines Stressing and Engine Dynamics, Gas Dynamics and allied subjects. The course extends to the end of the present session June, 1947. He may be allowed to stay next year provided he can be accommodated for research work which will depend both on his work during 1946-47 session and on the accommodation available. It is not possible to give a definite answer at this stage. The authorities of the Imperial College of Science and Technology report that Mr. Narayanamurthi is making satisfactory progress.

There are two alternatives. First is to extend the period of scholarship beyond June 1947 to enable Mr. Narayanamurthi to complete his research for the Doctorate degree. The second is to arrange practical training for the scholar for a period ~~after~~ of about one year after June 1947. The Government of India are inclined to favour the second alternative which would not involve extension in the period of the scholarship and at the same time his services would be available to the Provincial Government at an earlier date. Finally practical training is considered more useful for a course in this subject. It is hoped that the Provincial Government will agree with the Government of India in this matter. If however the Provincial Government desire that the scholar should undergo a research course after June 1947 they may please communicate their decision to this Department.

Sir,

Sub: Educational Technical Training abroad Scholar-
Sri R. G. Narayanamurthy 1945 -
Scholar.

Ref: Govt. Mndt. No. 31598 D1/47-1 dated 9th April
1947.

I agree that practical training is more useful than
research work for doctorate degree for the course which Sri.
Narayanamurthy has taken up and therefore I request the
Government of Madras to kindly request the Government of India
to arrange for the practical training for the scholar in
gas turbines and rocket propulsion training for a period
of about one year after he completes the present course in
June 1947.
