Starred question.

Begam Sultan Mir Aniruddin, M.L.A.
Education and Public Health Department.

Draft Answer

*Q.No.907. Will the Hon'ble the Minister for Education be pleased to state:-

(a) whether it is a fact that a majority of students, take up science ^{courses} ~~courses~~ of studies resulting in congestion in Colleges;

(b) whether there is any rule prescribing that a certain ^{proportion} ~~proportion~~ of teachers in schools should be graduates in Arts; and

(c) if not whether it is proposed to prescribe such a rule?

"No"

"No"

h 5 of

(a) Admission to each group is strictly restricted to the number of seats fixed that group in each institution by the university and therefore the question of congestion in any group does not arise. However a fact that the demand for science courses is very much higher than the demand for Arts courses.

(b) and (c)

Rules 13 - 14

According to the Madras Education Rules all teachers of forms above should ordinarily hold collegiate trained teachers certificate as they be graduates and in addition have passed the AT or BT or BEd exam may then also be expected to teach ~~some~~ subjects allotted to them.

Draft Answer

*Q.No.907. Will the Hon'ble the Minister for

Education be pleased to state:-

(a) whether it is a fact that a majority of students, take up science courses of studies

resulting in congestion in Colleges;

(b) whether there is any rule prescribing that a certain proportion of teachers in schools

should be graduates in Arts; and

(c) if not whether it is proposed to prescribe such

a rule?

(a) Admission to each group is strictly restricted to the number of seats for that group in each institution for the University and therefore the question of proportion in any group does not arise. However a fact that the Government has a large number of students in the Government for Arts courses.

(b) and (c)

According to the Government rules all the students of Government Medical Institutions have to pass the Government Medical Examination. The Government has a large number of students in the Government for Arts courses.

STARRED QUESTION:

Begum Sultan Mir Amiruddin, M.L.A.,
Edn. and Public Health Deptt.

*Q.No. 907: Will the Hon'ble the Minister for
Education be pleased to state:

Edn. and P.H. Deptt.

Draft Answer:

(a) whether it is a fact that a majority
of students, take up science courses of
studies resulting in congestion in colleges;

(a) Admission to each group is
~~strictly~~ restricted to the number
of seats fixed for that group in
each institution by the University
~~and therefore the question of con-~~
~~gestion in any group does not arise.~~
It is however a fact that the demand
for science courses is very much
higher than the demand for Arts
courses.

(b) whether there is any rule pre-
scribing that a certain proportion of
teachers in schools should be graduates
in Arts: and

(b) The Hon'ble Member appears to
draw a distinction between graduates
in Arts and graduates in Science.
No such distinction is made between
these in regard to the grant of the
collegiate trained teachers certifi-
cate. The rules do not lay down
that a certain proportion of teachers
should be graduates in Arts and a
certain proportion, graduates in
Science. According to the Madras
Educational Rules all teachers of
forms above III should ordinarily
hold Collegiate Trained Teachers
Certificate.
(c) There is already provision in
the Madras Edl. Rules that recog-
nition of a school may be wither-
or withdrawn unless the individual
teachers fully satisfy the Deptt.
as to their capability to teach the

(c) if not whether it is proposed
to prescribe such a rule?

Legislative Assembly Question No. 907-Starred.

BEGUM SULTAN MIR AKIRUDDIN, M.L.A.,

Will the Hon'ble the Minister for Education be pleased to state:-

(a) whether it is a fact that a majority of students, take up science courses of studies resulting in congestion in colleges;

(b) whether there is any rule prescribing that a certain proportion of teachers in schools should be graduates in Arts; and

(c) if not whether it is proposed to prescribe such a rule?

Education and P.H. Department.

ANSWER.

(a) Admission to each group is restricted to the number of seats fixed for that group in each institution by the University. It is however a fact that the demand for science courses is very much higher than the demand for Arts courses.

(b) The rules do not lay down that certain proportion of the teachers should be graduates in Arts and a certain proportion, graduates in Science. The number of arts and science teachers employed in any particular school will depend upon the optionals that are provided in the school.

(c) Does not arise.

Secretary to Government.

To
The Secretary, Madras Legislature (Assembly Section)
The Public (Elections) Department.

The above answer has been approved by
The Hon'ble Mr. T.S. Avinashilingam Chettiar.

17 FEB 1941

TSA
17-2-47

THE HON. SRI K. BHASHYAM:—“ With a view to increase the accommodation facilities for science students, recently some orders were passed permitting the admission of a third batch. I do not know whether I am using the correct expression. What I mean is that in the same school where there were only two batches working, permission has been given to take a third batch. As regards the other part of the question, it has to be considered with reference to the emphasis placed by Government on the encouragement of secondary or elementary education.”

[5th March 1947]

BEGUM SULTAN MIR AMIRUDDIN:—" May I ask how Government intend to tackle the problem of congestion in the science courses in the colleges? "

THE HON. SRI K. BHASHYAM:—" It is a question of policy as to how far Government can provide facilities for science courses. That has to be determined after full consideration."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—" Will the Government consider the advisability of encouraging private enterprise in the matter of starting colleges for technical education? "

THE HON. SRI K. BHASHYAM:—" If private enterprise comes forward, the Government will certainly help it."

SRI N. S. VARADACHARI:—" Will the Government consider the question of having separate science colleges and increasing the number of colleges in the Presidency? "

THE HON. SRI K. BHASHYAM:—" The suggestion will be considered."

MR. W. J. FERNANDEZ:—" Are we to understand, Sir, from the answer to clause (a) that colleges providing science courses admit students in excess of the facilities they can provide and is it on that account that congestion arises? "

THE HON. SRI K. BHASHYAM:—" I know in certain cases that colleges have taken more students than they could accommodate. The University came down upon them and issued strict orders that they ought not to do so. The matter then became urgent and the Government passed orders asking colleges to take on a third batch of students."
