Copy of a letter NO.E.A.7614 dated 29th November, 1946, from the High Commissioner for India, Education Department, London, to the A.E.A.(Dr.Rozario), Deptt, of Education, Govt. of India, New Delhi.

......

In continuation of my letter dated 22nd November regarding Messrs. Gurdip Singh Toki, Mohd. Akram, S.Panchanathan, R.Thillainayagam and N.C.Bhargava, whose applications were forwarded to the Road Research Laboratory, I write to confirm the cable which I sent you today to the following effect:-

15

> 'REFERENCE MY LETTER DATED 22ND NOVEMBER? ROAD RESEARCH LABORATORY PREPARED ACCEPT MESSRS. GURDIP SINGH TOKI, MOHD. AKRAM, R.THILLAINAYAGAM, N.C.BHARGAVA AS VOLUNTARY WORKERS FOR PERIOD OF SIX MONTHS FROM BEGINNING OF 1947 SUBJECT TO SATISFACTORY INTERVIEW. PLEASE CABLE ACCEPTANCE. LETTER FOLLOWS.'

below 407

In order to elucidate the matter of admission further, I enclose herein a copy of a letter dated 27th November which has just been received in this office. I should be grateful if you would kindly arrange to send these Scholars here if the offers of admission made to them are acceptable.

I find that one of the students mentioned in my previous correspondence and in the cable quoted above, Mr.N.C.Bhargava, is already in this country and has been admitted to the D.I.C. course at the Imperial College of Science and Technology.

From the enclosed copy of the letter from the Road Research Laboratory, you will notice that Mr.S.Panchanathan has been accepted with a proviso. I should be grateful if you would kindly let me know whether the offer of admission made to him is acceptable under this condition.

......

Copy of letter dated 27th November Ref.V/F.8/1/6 from Department of Scientific & Industrial Research, Road Research Laboratory, Harmondsworth, West Drayton, Middlesex, to Education Dept. India House, W.C.2.

......

'We have received your letter of the 19th November and as far as we can see from the information submitted, the men you refer to would be suitable to accept as voluntary workers at this Laboratory for a period of zix months from the beginning of 1947. We are, however, a little doubtful about Mr.S.Panchanathan since we note that he wishes to work in an establishment where he can obtain experience of 'soil mechanics with special reference to foundations.' If by this Mr.Panchanathan means foundations of buildings and structure we doubt whether he would find sufficient to interest him at this Laboratory, since we are concerned with foundation problems only in the limited sense of road foundations, It would be well to ascertain whether in view of this Mr.Panchanathan would still wish to apply for entry to the Road Research Laboratory.

X

As we informed Mr.Kirpal we think it is important that we should interview the students before formally accepting them as voluntary workers. We should be obliged if you would make the necessary arrangements for this when they arrive in this country, and we assume that if it proves to be desirable that any of the students should engage in some occupation other than road research you will be in a position to make alternative arrangements.

When we have finally satisfied ourselves in respect of the suitability of the students we will apply to the Secretary of this Department for formal permission to enroll them as voluntary workers.

......

p.41 ante

I consider that the training in Road Research Labora(t)ory, U.K. will be suitable for the candidate (Sri S.Panchanathan). The nature of further training necessary and the institution in which the training has to be undertaken are indicated below:-

A

1) Six months in the Road Research Laboratory in Soil Mechanics and concrete testing laboratory sections

2) Six months in the soils laboratory of the Building Research Station, Garston Watford

3) After the above two courses, the candidate may be sent to one of the following institutions:-

    (a) Massachussets Institute of Technology, Cambridge, U.S.A. (College course in Soil Mechanics).

    (b) Harvard University, Cambridge U.S.A. (Post Graduate Course in Soil Mechanics).

    (c) University of California, Berkely San Francisco, California U.S.A. (College or Post Graduate Course in Soil Mechanics).

Will you kindly refer to my letter No.E.A.7551/7549/7604 7605/7614 dated 22nd November, 1946 regarding Mr.S.Panchanathan.

p21 ante

As this Students' subject was Soil Mechanics, with special reference to Foundations, his application was submitted to the Department of Scientific and Industrial Research, from whom the following reply has been received:

> 'With reference to your letter of 3rd instant, enclosing a copy of an application in respect of Mr.S.Panchanathan, a Government of India Scholar who has been selected for specialization in Soil Mechanics with special reference to foundations, in view of the urgent need of the Government of India for men with technical training, the Director is prepared to give Mr.Panchanathan facilities for training at the Station.
>
> There is some difficulty in regard to the date on which Mr.Panchanathan can commence his attendance at the Station owing to the fact that the Officer under whome he will be working will be absent during March and April. I am afraid, therefore, it will be necessary to postpone the commencement of his attendance until 1st May.'

I should be grateful if you would kindly let me know by cable, whether this offer is acceptable so that the Director of Building Research can be informed accordingly.

Ref: Secy's query at p. 1 ante.

It is submitted that the diversion of applications of candidates selected for advanced studies overseas from the U.K. to the U.S.A. would not result in the candidates being less useful after their course in the U.S.A. The applications have been diverted to the U.S.A. in view of the difficulties in securing admissions in any of the Universities in the U.K. It is understood from the E & P.H. Deptt. that the training in the U.S.A. is better than in the U.K. The Government of India will intimate in due course the names of the institutions in which admissions have been secured for the candidates. The Heads of Departments will then be consulted, if necessary. The same procedure was adopted in similar cases.

Papers in E&PH

Ascertained from E&PH

P. 7 of Ⓐ

Mr. Thillainayagam (item No. 44 in the annexure to G.O.No. 1451 Edn. dated 25-7-46) has been recommended for training in the United Kingdom. The Government of India now state that it is not possible to secure admission in any of the Universities in London and that the application of the above candidate is being diverted to the U.S.A. The C.E. will have to be consulted only if it is not possible to secure admission in the two other institutions in the U.S.A. recommended by him. Action may therefore be taken after hearing further from the Government of India about the institution in the U.S.A. in which the candidate has been recommended for training.

P.W.D.

To A.S.

Please see the telegram from the Govt. of India at p. 15 c.f. and the E & P.H. Deptt. note above. Sri. Thillainayagam is intended for absorption in the Highways Department after his training. His application and other documents have been diverted to the U.S.A. for securing admission in a suitable institution -- vide letter at p. 7 c.f. The Road Research Laboratory has accepted him as a voluntary worker for six months from the beginning of 1947 subject to satisfactory interview. It is presumed that the Laboratory is in the U.S.A. The

P 15 cf

C2

duration of training in the laboratory is only for six months. It is not known whether after the training in the laboratory he should undergo any further training in any of the institutions in the U.S.A. UK The duration of a course of study will normally be for two years. Apparently the training in the laboratory is ~~auxiliary~~ preliminary to his further training in any of the institutions in the U.S.A. UK. E & P.H. may be requested to ascertain from the Govt. of India whether the candidate will be required to undergo further training in continuation of the training in the Road Research Laboratory. The C.E. may perhaps be consulted after the complete programme is known. With these remarks, the file may be returned to the E & P.H. Deptt .

A'on P. 2 ante

Draft I

Item (2) above: The Road Research Labotabory, United Kingdom are prepared to accept Mr. S.Panchanathan also as a voluntary worker for six months from the beginning of 1947 subject to the conditions mentioned at 'X' on p. 27 c.f. The C.E(Gnl) has recommended the following three institutions in order of preference for the training in the subject "Soil Mechanics with special reference to foundations".

1. London University.
2. R.I.S.
3. Glassgow University.

It will be observed from 'X' on p. 27 c.f. that the training in the Laboratory will not be suitable for the candidate. He is intended for training in 'Soil Mechanics with special reference to foundations'. The Laboratory is concerned with road foundations. The C.E(Gnl) may be consulted in the matter. ~~The~~ A draft memo is submitted. After issue, the file may be returned to E & P.H.

To A.S.

Please see the memo to the C.E(Gnl) at p. 39 c.f. and his reply at p. 48 c.f. He considers that the training in the Road Research Laboratory in the United Kingdom is suitable for the candidate Sri. S.Panchanathan. He has also submitted proposals regarding the nature of further training necessary and institutions in which the training has to be undergone -- Vide 'A' on p. 48 c.f. The file may now be returned to E & P.H. for taking further action in the matter.

PWD No. 55-M/47-4
16/1.47

Please see P.W.D. note above and the memo. since received from the Govt. of India on pp 50-52 cF.

The High Commissioner seems to have originally ~~tried~~ to secure Sri S. Panchanathan's admission in the Road Research Laboratory West Drayton, U.K. The Road Research Laboratory is prepared to accept Panchanathan for six months as a voluntary worker. The C.E. (G.B. and D.) considers this arrangement as suitable for Panchanathan, and has proposed also ~~further~~ arrangements for further training.

P48 cF

After trying at the Road Research Laboratory, the High Commr. appears to have sent in an application to the Building Research Station, Garston Watford, U.K. on behalf of Panchanathan, as "he 'has to' specialise in 'foundations'". The Building Research Station is ready to accept him from May 1947. The High Commr. wants to know if this offer is acceptable. ~~In view of item (2) at 'A' on p 48 cf,~~ The C.E. has suggested training for six months at this Building Research Station also.

p52 cF

(2) at 'A' on P48 cf

The Govt. of India may be told that admissions at the Road Research Laby and the Building Research Station are suitable for Panchanathan. They may be ~~asked to~~ requested to ask the Travel Agents direct to arrange for the Candidate's passage and inform this Govt of having done so. They may also be requested to arrange for training ~~at~~ in one of the institutions in U.S.A for a period of one year after Panchanathan completes his six months each at the Road Research Laby and the Building Research Station — as suggested by the C.E.

A draft letter to the Govt. of India is put up for appl., ~~P.W.D. may see again~~.
