Clauses (a) to (c) of the question.

The following are the scales of pay for higher elementary and secondary grade teachers in elementary schools under Government and District Boards:-

|                          | Govt. Schools:       | Dt. Bd. Schools:     |
|--------------------------|----------------------|----------------------|
| Higher elementary grade. | Rs.23-2/2-45.        | Rs.20-1/2-24-2/2-30. |
| Secondary Grade.         | Rs.30-3/2-45-2/2-55. | Rs.25-2/2-45.        |

Municipal Councils have been permitted to adopt either Government scales or the scales prescribed for District Board Schools. The question of adopting uniform scales of pay for teachers of the same qualification irrespective of the management which employs them is under consideration separately:-  
 The following scales have been proposed in that connection:-

|                                  |               |
|----------------------------------|---------------|
| Higher elementary grade teachers | Rs.25-2/2-45. |
| Secondary Grade teachers:        |               |

- (1) in lower elementary schools ... Rs.30-50.
- (2) in higher elementary & secondary schools .. Rs.40-80.

A

2  
With the introduction of the uniform scales the difference will disappear.

Clause (d) of the question:

There is no difference in pay in the case of Government schools. So far as schools under District Boards are concerned, the scales of pay are as follows:-

|                                                 |     |           |
|-------------------------------------------------|-----|-----------|
| Secondary grade teachers in elementary schools. | ... | Rs.25-45. |
| Secondary grade teachers in secondary schools   | ... | Rs.30-50. |

The difference ~~is~~ exists even in the case of schools under Municipal Councils which have adopted the District Board scales for elementary school teachers. *for the different scales is* The reason ~~seems to be~~ *apparently that* the duties of secondary grade teachers in secondary schools are of a more responsible nature than those of teachers in elementary schools.

Clause (e) of the question:

Even under the proposed revision of salaries the difference in scales may continue. As indicated at A on the previous page the secondary grade teachers in higher elementary and secondary schools will get pay in the scale of Rs.40-80 while secondary grade teachers in lower elementary schools will be eligible for a scale of pay of Rs.30-50.

A draft ~~is~~ *is* submitted for approval.
