1

Fort St. George,
7th June 1946.

Dear Doctor,

I hope you would have received my previous letters which I wrote to you from the Vidyalaya and from here.

The Government propose to open two more Colleges of Engineering from July 1946, one at Anantapur and the other at Waltair (to be temporarily located at Cocanada). As permanent buildings for the location of the proposed Anantapur College are not available at present, they propose to construct new buildings at Anantapur as early as possible and in the meanwhile to open the College at Guindy making use of the buildings available there and those vacated by the military personnel with a strength of 100 students in the 4th year class of the B.E. Course. I request you to place the matter before the Syndicate and obtain the necessary sanction forthe affiliation of the College to the Madras University.

The further particulars if any, required on the subject will be furnished by the D.P.I.

Should, however, for any reason the Syndicate be not agreeable to grant the affiliation, the Govt. have under consideration an alternative proposal to increase the strength of the Guindy College by 100 more students per year for the first two years, within which time the permanent buildings are expected to be constructed at Anantapur. These students will ultimately be transferred to the Anantapur College when it actually comes into existence. I request you to consider this proposal ~~afxmina~~ also if necessary and obtain the views of the Syndicate on it and communicate them to Government.

7/5.

Yours sincerely,
TSA

Dr. Sir A. Lakshmanaswamy Mudaliar, K.C.I.E.,
Vice Chancellor, Madras University, Madras.

Edn. & P.H.(A) Dept.
D.O.No. 28893 A/46-1 Edn dated. 7-6-46

Dear Sir Ramalinga Reddi,

Opening of an Engineering College at Vizagapatam.

As you are already aware, the Government have under consideration a proposal to open an Engineering College at Vizagapatam. Pending the construction of buildings for the College at Vizagapatam, it is proposed to start it in the Combined Military Hospital buildings at Cocanada. The arrangements for starting the college are explained in the note of the Industrial Adviser to Government, of the 5th April,1946, copy of which was communicated to the Registrar of your University ~~in~~ with Mr. Subramanian's letter No.24095-A/46-1 dated 29-5-1946 As the first two years' courses are common in all branches of Engineering, and as specialisation begins only in the third and the fourth years, it is proposed that arrangements for the first two years may be made straight away. The advice of the Expert Committee is required mainly on the permanent arrangements and the specialised courses of study, of the college. The Committee will be constituted shortly and its advice obtained on these matters. Pending the appointment of the Committee, the Government intend to have the college started in July '46;

4

and to admit 100 students in each of the years 1946-47 and 1947-48. As there is hardly time to go through the formalities of making an application to the University for affiliation, etc., I am to request you to be so good as to ~~place~~ place the matter before the Syndicate and to obtain its approval for the affiliation of the college/and to communicate it. It will be a ~~great~~ necessary help if the communication is received ~~in~~ ~~[illegible]~~ early, so that orders could be issued by the Government ~~[illegible]~~ today, before the middle of this month.

Yours sincerely,

8.6.

My dear Avanasalingam,

p13 infra

The enclosed is a copy of the telegram I sent you this morning.

Not infra

In your letter to me there is the phrase 'in Vizagapatam itself', which, I think, is a mistake for 'Cocanada'. In all the official letters, it is Cocanada that is to be the temporary location.

p3 ante

I had already agreed to the location of the Andhra College of Higher Technology, as we prefer to have it styled, at Cocanada, and had assured them that all the necessary permissions would be given, and that meanwhile, in anticipation, they could proceed with the opening of the College.

I hope you will be able to have it opened by July.

Yours sincerely,
C. R. Reddy

Sir,

Sub: Andhra Engineering College - opening of.

I have the honour by direction to communicate to Government the following urgent resolution passed by the Syndicate at its meeting held on 12-6-46:-

RESOLVED to request Government to open the Andhra Engineering College at Cocanada as proposed by them as its temporary location for two years after which it will be shifted to Waltair at which centre in the meanwhile the necessary buildings and equipment should be set up. The Syndicate undertakes to give all the necessary facilities for the opening of this College and the recognitions and permissions necessary under its Statutes and Regulations, in anticipation of confirmation by the Senate and Academic Council as was done in the case of the Bapatla Agricultural College.

The Syndicate urges Government to open this College in July and make admissions with effect from this academic year.

The Syndicate hereby confirms the following telegram issued by the Vice-Chancellor this morning:

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St.George, Madras.

Sir,

pp. 47-48 CF.

I was surprised to peruse G.O.No.Ms.1163 Education dated the 12th June 1946, a copy of which has been sent to the Registrar of the University. I was under the impression that the procedure in regard to the opening of Colleges, whether by Government or by other managements, was familiar to Government and that Government were aware that there is no possibility of the University at this stage granting recognition to a College that is proposed to be opened. This matter was made plain to the Hon'ble Minister in my D.O. dated the 12th June.

p25 infra

I am placing your G.O. before the Syndicate, but I think I must take the earliest opportunity of informing you that it will not be within the competence of the Syndicate to ignore the Statutes and Regulations which define the manner in which the Syndicate can recognise or affiliate Colleges. I feel that the Director of Public Instruction would have placed this point of view before the Government before the actual order was passed. Chapter XXVI of Vol.I, Part I of the Calendar makes the position clear. I would therefore request you to defer all action connected with the appointment to the several posts for the proposed College till you hear further from the University. I am writing this immediately so that further complications may not arise.

pp. 333-342

I have the honour to be,
Sir,
Your most obedient servant,
A L Mudaliar
VICE-CHANCELLOR.

UNIVERSITY OF MADRAS.

GOVERNMENT OF MADRAS

15+

12th June 1946.

Dear Mr. Avanashilingam Chettiar,

I am in receipt of your letter of the 7th June and the previous letter on the same subject. I deferred replying to you as I was going to Coimbatore and wished to avail myself of that opportunity to see the exact position of the Engineering College that was opened last year. I shall place the proposals when they are received from the D.P.I. before the meeting of the Syndicate on the 26th instant. I would request you to see that the detailed proposals are sent by the D.P.I. before the 20th instant to enable them to be circulated to the members of the Syndicate.

In regard to the opening of a College of Engineering, I feel I must inform you that it is not possible at this stage for the Syndicate to consider an application for a fresh College from the beginning of the academic year. The Statutes governing the subject are very specific on this point; but in regard to any possible increase of the number to be admitted to the Engineering Colleges, I shall place the matter before the Syndicate, and suggest that full details in regard to additional staff, increased accommodation, availability of laboratory equipment and other materials, may be furnished either by the D.P.I. or by the respective Principals immediately.

Thanking you,

Yours sincerely,

A L Mudaliar

The Hon'ble Mr. T. S. Avanashilingam, B.A., M.L.,
Minister for Education, Fort St. George, Madras.

-do-

With reference to D.O.No.U.199, dated 14-6-1946 from Vice Chancellor of the Madras University, a copy of which has been sent to me, I have the honour to state that the Vice Chancellor appears to be under the misapprehension that the Government will be approaching the university for the affiliation of the new college now. This is not quite correct. What the Government actually propose to do is to increase the number of admissions by 100 in the Guindy college during each of the years 46-47 and 47-48 providing the necessary staff, equipment etc. The

228 21 39

ASST. SECRETARY TO GOVT. EDUCATION AND PUBLIC HEALTH DEPT. 1[illegible] JUL 1946

UNIVERSITY OF MADRAS

Arthur Hope College of Technology, Coimbatore

NOTE by the Vice-Chancellor:

A D.O. was received by the Vice-Chancellor from the Minister of Education stating that it was proposed to admit 15 more students to the College of Technology, in case a College of Engineering could not be opened at Anantapur this academic year, and requesting the approval of the University.

2. I availed myself of an opportunity to visit Coimbatore to meet the Principal, Dr. J.J. Rudra, to look into the present condition of the College and to ascertain exactly what steps had been taken so far to meet the requirements of the University and to enable permanent recognition being granted. Mr. G.D. Naidu in whose premises the College is now located and who has placed many of his appliances and the facilities of his workshop, hostels, etc., at the disposal of the College, was also present.

3. History - At the special request of Mr. G.D. Naidu, a prominent industrialist of Coimbatore, supported by Mill-owners' Association, who promised a contribution of two lakhs, the Government applied to the University for permission to start a College of Technology at Coimbatore in the academic year 1945-46. Mr. G.D. Naidu offered a donation of ₨ 2 lakhs through the Vice-Chancellor which has since been credited to Government and was generous enough to place at the disposal of the College, buildings and equipment for a period of three years, by which time the College should have its permanent buildings.

The Director of Public Instruction in the course of his letter ROC. No. 327/A/45, dated 30-7-1945, stated "The total area of the temporary buildings of the College is 24,696 sq.ft. * * The buildings are sufficient for lecture classes, drawing offices, laboratories, workshops, college office and staff rooms for a period of three years. It is however hoped that the permanent buildings of the College will be constructed before the College enters into the third year, and it is requested that the buildings for temporary location of the College may be approved."

In reply, the Director of Public Instruction was informed that

"It is regretted that no due intimation was given to the University and that the new College and courses therein had been started prior to negotiations with the University." The Syndicate however after careful consideration and with great reluctance decided "to recommend to the Senate that a special Statute be framed permitting the Syndicate to accept the application with retrospective effect and to recommend exemption from the certificate of attendance to the students involved, to the Standing Committee of the Academic Council." The viewpoint of the Syndicate was explained further in a statement by the Vice-Chancellor when the draft Statute was placed before the Senate at its meeting on November 9th, 1945. In the course of the statement, the Vice-Chancellor said: "The opening of a new College of Engineering and Technology at Coimbatore from the beginning of this academic year is a matter of some importance and significance in view of the great need for increased facilities for training in these important branches of Science. The Syndicate felt that it should come before this House as a special case to waive the conditions laid down and to permit of this College being affiliated to the University from the beginning of this year. At the same time, it has to be pointed out clearly that the starting of such Colleges without adequate steps being taken sufficiently in advance will lead to a certain amount of inefficiency and it is therefore not the policy of the Syndicate to encourage the starting of such Colleges without adequate preparation. As a special case, amendment to the Statutes has been suggested, and it is hoped that in future both Government and private managements will take note of this and see that arrangements are made sufficiently early for the starting of new Colleges with propper equipment and staff for the grant of affiliation." A statement to a similar effect was made earlier at the meeting of the Academic Council held on 14th September 1945.

The Syndicate on the 9th February 1946 decided that in the special circumstances of the case conditional affiliation be granted for the F.E. and B.E. in Electrical Engineering and Civil Engineering groups and that this affiliation be subject to such reports as may be made by an Inspection Commission to be appointed hereafter. Repeated reminders have been sent requesting the Director of Public Instruction to state what further action has been taken, and to furnish a report on the working of the Colleges (A.1499, dated 26th February 1946, A.1795 dated 14th March 1946, A. 2015, dated 1st April 1946, A.2199 dated 12th April 1946). As no reply was received, a letter was sent to the Secretary to Government, Education and Public Health Department, A. 2434 dated the 26th April 1946 requesting to be furnished with full information on the subject. Subsequent to this letter, the Secretary Ⓓ forwarded with his letter No. 22747.A.46-2 dated 2nd May 1946 a copy Ⓙ of G.O. No. 1031 Edn., dated 11-7-1945 and G.O. No. 649 Edn. dated 25-3-1946. G.O. No. 1031 dated 11-7-1945 states that the expenditure on buildings and equipment is estimated at ₨ 30 lakhs and proposals to provide these will be worked out and considered in due course. It is also stated that Mr. G.D. Naidu has generously offered to place at the disposal of the Government for a period of three years the buildings of the National Electric Works with such equipment as can be spared. The D.P.I., was also authorised to transfer to the new College such equipment as is necessary and can be released from the Engineering College, Guindy. G.O. No. 649 Edn. dated 25-3-1946 sanctioned the employment of additional staff on a temporary basis from 1-4-1946 to 30-6-1946. A report on the working of the College of Technology was received from the Principal, through the D.P.I. on 9th May 1946.

[illegible]

4. Present position - The present position with regard to this College is far from satisfactory. It may be noted that the D.P.I. in his letter of 30-7-1945 stated "It is hoped that the permanent buildings of the College will be constructed before the College enters into the 3 year", i.e., before July 1947 at the latest. It is however learnt that even the site for the location of the College has not yet been settled. It is understood that three sites were considered. The proposal to locate the College in the campus of the Agricultural and Forest Colleges did not meet with the approval of the Agricultural Department, while the alternative sites suggested have been subjected to criticism on various grounds. The Principal stated that the plans for buildings have been under consideration for some months in consultation with the Government Architect, but have not been finalised.

[illegible]

The Vice-Chancellor in the course of his inspection of the College on 10th June was not able to peruse any of the plans.

The position would appear to be even more serious. It will be recalled that Mr. G.D. Naidu had offered to loan the buildings for a maximum period of three years, i.e., that the College should shift to its permanent buildings in June 1948 at the latest and that all the laboratories, workshops, lecture halls, library, hostels should be ready and equipped by that time to locate and run classes for all the four years of the Engineering Course at least in Electrical and Mechanical Engineering Courses for which temporary affiliation has been granted. To add to this complicatedd position, Mr. G.D.Naidu told the Vice-Chancellor and the Principal that negotiations were now in progress for sale of the buildings and applicances,lock, stock and barrel, to a Bombay Firm and showed the Vice-Chancellor a draft copy of the agreement. The sale if completed would have effect from July 1946 and although Mr. G.D. Naidu stated hat he had stipulated in the terms of the sale deed that his agreement with the Government to loan the premises till June 1948 should be observed, it is obvious that a change of ownership will mean a material change in the relationship of the College and the owners. It is understood that it is likely that a Bombay Firm is taking over the premises and neither the Government nor the University would be justified in expecting the same consideration and generous hedp to be extended as Mr. G.D. Naidu has freely given.

An inspection of the present premises and the equipment available showed that though the Principal had done his very best, serious difficulties have still to be surmounted, the laboratories have yet to be located and much of the equipment is not available and the Principal has to build on hopes for the teaching of the subjects in the second and third years. It has to be stated that this is in spite of many facilities available at Mr. Naidu's workshop and inspite of the equipment etc., made available from the Engineering College, Guindy.

5. Briefly the following defects may be noted:-

Workshop:- For the first three years it is possible, so long as co-operation is available, for students to use the foundry and smithy and other workshop facilities of the National Electric Works.

In the fourth year, however, there will be no provision for the students to work on machine tools.

Electrical Engineering:- There is at present no laboratory fitted up. A number of second hand D.C. and A.C. motors of various sizes from 3 H.P. to 25 H.P. have been presented to the College. It is stated that transformers and other apparatus will be available. It would appear that things are in a state of flux and it is only because the Principal is such an authority on Electrical Engineering and takes such keen interest in equipping the College that there is some hope that students may be given a fair training despite these defects. It is to be noted however that unless the full equipment is available and the laboratory is in working order the senior students will be seriously handicapped.

Surveying:- The students of the first and second year have to do surveying, but instruments are not available and it is still not clear whether they will be available or not before the academic year advances. It was suggested that some surveying instruments can be obtained from the Engineering College, but this could mean curtailment of facilities needed for the students of that College seriously.

Strength of Materials laboratory:-There is no such laboratory at present. There does not seem to be any bright possibility of such a laboratory coming into existence in the near future.

Hydraulic laboratory:- There is no hydraulic laboratory at present and although work in this laboratory begins seriously in the third year, the equipment has to be obtained in time and fitted up.

Mechanical Engineering:- It was stated that a portion of the temporary buildings would be available to locate the Mechanical Engineering laboratory. As in the case of other laboratories, this laboratory has yet to take shape.

It is not necessary to refer to the requirements of the Automotive and Textile Engineering branches as regulations have not yet been passed and the College has not been affiliated in these branches.

Hostel:- There are two blocks of buildings intended to be used as hostels for students. They are well built with all conveniences.

Each suite of rooms was occupied by four students and the Principal proposes to put six students. As a temporary measure, this may have to be permitted.

This step is needed because the teaching staff cannot get accommodation and are now living in one block intended for students, the Principal sharing a remodelled garage and a couple of rooms. The accommodation problem in Coimbatore is even worse than in Madras.

Playgrounds:- In between the two hostel blocks, cement courts are available where courts have been laid for Badminton, Volley Ball and Tennikoit. Across the road a small plot is said to be available where students are stated to play Cricket, Hockey and Football. The plot has evidently to be considerably improved before it can be considered a proper playground.

It will be seen from the above statements that the College is working with severe handicaps and requires considerable improvements before it can come up to even a minimum of efficiency. That the College is located in temporary premises which premises should be vacated before June 1948 adds considerably to the grave anxiety that the University feels. In a professional course, like Engineering, where the most advanced instruction is given, it is very necessary to ensure that sufficient facilities are made available to the students.

The question of an adequately trained and well-qualified staff will be considered by the University and its decisions communicated to the Government later.

It may, however, be pointed that, in regard to existing Engineering Colleges, criticisms have been frequent and at the recent meeting of the Technological Education Committee convened by the Government of India, with Mr. N.R. Sircar as Chairman, a resolution was passed asking for a survey of existing Colleges and urging that these Colleges should be upgraded so as to make them really efficient institutions to teach up to the Degree standards.

The position therefore is anomalous and requires urgent consideration and the University will be well advised in addressing the Government on the subject forthwith. If the Government is not

P.T.O

24A 27 51

in a position to give effect to the promises made by them at the time they applied for recognition, the question will have to be further considered whether the conditional affiliation should be temporarily suspended.

R.C. No. 8822 A5, dated 16 - 5 - 1946.

2.0 until the question of opening the College in July '46 is settled.
31/5/46

Sir,

* Sub:--Education - College Engineering - opening of from July 1946 at Anantapur.
Ref:--Government Memorandum No. 58931-A./46-2, Edn., dated 12-4-46.

Enclosures (A) one only

(Or) pp 15-16 CF

Spare Copies ....

Government in their Memorandum quoted above have stated that the question of opening an Engineering College for Ceded Districts as a post war development scheme is under consideration.

(A) H

2. The proposal to open a Medical College at Anantapur has been ~~KMKM~~ thrown out on the ground that there is already a proposal to open Medical College at Guntur which will cater to the needs of the Ceded Districts. The proposal to open an Agricultural College at Anantapur has also been thrown out on the ground that one has been opened at Bapatla and that it will cater to the needs of the students of the Ceded Districts.

3. The people of the Ceded Districts feel that their representations to open Medical and Agricultural Colleges ~~of~~ have not received due recognition at the hands of Government and they are ~~XXX~~ looking forward to see if at least an Engineering College would be established from July 1946 at Anantapur.

4. The District Board in its resolution No. 237 dated 11-5-46 (copy enclosed) has resolved to request the Government to open the Engineering College at Anantapur from July 1946 in view of the best accommodation available either in Madras Teghnical Training Centre building or

p 3 infra

Dehydrated Factory building.

5. The Madras Teghnical Training Centre building may not be available for immediate occupation. A The Dehydrated Factory buildings constructed at an enormous cost of some lakhs are kept vacant due to the winding up of the Meat Factory and these buildings are readily available for immediate occupation. They are quiet suitable and sufficient for the location of an Engineering College. They are situated at a distance of more than 2 miles from the Centre of the Town.

6. I therefore request that the Government may be pleased to take immediate steps for opening the Engineering College at Anantapur from July 1946.

P. Lakshmayya
PRESIDENT.

Will you kindly enquire from the Organising Principal of the Anantapur College whether the facts stated in these telegrams are true and whether the College can be started at Anantapur?

T S Avinashilingam
16-5-48
Minister for Education.

There is no information about buildings being available at Anantapur. The organising principal has met me twice, and each time we have been talking only about opening the ATP college at Guindy. The persons who send these telegrams cannot possibly know the technical requirements for an Engineering college, and in their parochial enthusiasm they are inclined to make such impossible statements. If buildings are really available as stated, we can always shift the colleges quickly, at short notice. After the college opens at first, the special committee appointed can go to Anantapur and contact the local authorities. The deputationists can then meet the committee members and give him all the information about the availability of buildings.

From

B.Pocker M.L.A,
3/54 Bazar Road,
Royapettah,
Madras.

To
The Hon'ble Minister for Public Health,
Givernment Of Madras,
Fort St.Geaorge,

Sir,

I beg leave to bring the following grievances of the Moplah community as regards the admission to the Medical Colleges in the pr sidency, to the notice of the Government and request that immedaite steps be takento redress the grievances . I understand that under the Rules issued by the Government for admission of candidates to the Medical Colleges of the presidency, only four seats are alloted to the Muslims of the West Coast, one of which is resrved for a lady candidate which goes to a lday candidate of any other community in the absence of a Muslim candidate. Though the Moplahs form more than one-third of the Muslim population of the whole presidency, it is really surprising that out of the Thirty eight seats allotted to the Muslims of the whole presidency,only four seats i.e.1/10th. of the total number of seats allotted to Muslims are given to the Moplahs. This is a grave injustice done to Moplahs who have all along been recognised by the Government to be a backward community in the matter of higher education and many deserving Moplah candidates for admission to the Medical Colleges in recent years were refused admission on account of the operation of the above rule. I submit that the Moplahs(the Muslims of the West Coast,i.e.of Malabar and South Canara)are entitled to atleast one third of the total number of seats allotted to the Muslims of the whole presidency. I submit that this legitimate right of the Moplahs cannot be denied to them on any ground whatsoever, particularly in view of the fact that the Moplahs are not only very backward in the matter of higher education, but there are only very few Moplahs who have gone for medical education as is evident fro the fact that there are only four Moplahs in the Assistant Surgeo grade and there are no Moplah graduates engaged in private pract

I understand that out of the 240 seats in the Medical Colleges in the Presidency, only 28 seats are allotted to the West Coast i.e.Malabar and South Canara, even though on the basis of population the West Coast is entitled to much ~~more~~ larger number of seats. I understand that this reduction of number of seats in the West Coast by the rules framed by the Government is put on the ground that the West Coast is much more dvanced in education and particularly in medical education than other parts of the presidency. Though I do not wish to say anything about the correctness or otherwise of this reasoning, I beg to point out that by no stretch of imagination can this reasoning be extended to the case of the Moplahs of the West Coast who admitedly are extremely backward in the matter of higher education not only when compared to the other cummunities in Malabar or outside Malabar but also when compared to the Muslims of the other parts of the presidency. Thus it is clear that a great hardship is caused to the Moplahs by the said rules which are based on obviously fallacious reasoning.

I also understand that under the rules framed by the Government, if there are not sufficient number of Muslim candidates for the total number of seats allotted to the Muslims in any of the Andhra,Tamil,or West Coast areas, such seats are not availed of by Muslims in the particular linguistic area go to non-Muslim candidates in that particular area and not to the

Muslims of the other linguistic areas. The result is that, if it so happens that there are not sufficient number of Muslim applicants in the total number of Muslims in Andhra Desa, such seats as are not availed of by Muslims in Andhra Desa, go to non-Muslims in Andhra Desa, even though there may be large number Muslim applicants in the West coast or Tamil in excess of the number allotted to the Muslims of the West Coast or Tamil Nad. It is patent that this rule also works out grave injustice to the Muslims of this presidency and particularly to the Moplahs who extremely back-ward in the matter of higher education and who cannot hope to progress unless the Government is pleased to extend their helping hand to them. I may also mention that Moplahs form one-third of the population of Malabar.

Before concluding, I may be permitted to point out that even in the matter of the Madras Provincial Legislative Assembly, the Muslims of the West Coast have been allotted 10 seats out of the 28 seats for Mualims of the whole presidency which will show conclusively that Mopahs are entitled to 10 out of the 28 seats allotted to the Muslims of the Presidency.

In these circumstances, I request that the Government may be pleased to amend the rule so as to give effect to the legitimate rights of the Molahs as mentioned above, so that the Moplahs may get their rightful share in the admission to the Medical colleges in the Presidency for the year 1946-47.

I have the honour to be,
Sir,
Your most obedient servent

Memorandum submitted to the Government of Madras.

Admission to Professional Colleges--Selection by merit in preference to representation of communities--Prayed for.

In recent years the rule as to communal representation in services is applied to the admission of students to Professional Colleges of the Government (viz) Engineering and medical Colleges There does not seem to be any G.O. making the said rule directly applicable thereto but an old B.S.O. of the 1890's, in very general terms that major communities will be represented. In 1944 admission M to the Engg. Colleges M is directed to be on the linguistic basis:

Andhra ... 39%
Tamil ... 45%
Rest ... 16%

Taking the communal G.O. to this, the selection of about 389 boys this year is likely to be

Andhra Brahmans	2/12 of 39% of 389	...	25.
do Nonbramin Caste hindus	4/12 of do..		50
do Muslims ...	2/12 of do	...	25
do Schedule classes	do	...	25
do Indian christians & Anglo Indians ...	do	...	25.

The above ratio is unjust for the following reasons.

The majority of the about 1600 applicants are brahmans and a major portion of them the best qualified having come out in 1st class and in ranks in the ~~Akarm~~ Intermediate Examination. Most of these deserving boys will have to be rejected admission in preference to candidates of other communities with ~~xxxx~~ less - brilliant record who even came out in the 2nd class in the Examination.

The test to be applied ought to be the same for all and distinction as to community in the matter of opportunity for acquisition of knowledge--not absorption into services--is unhealthy.

The results in recent years show that about 45% only come out successful and this must necessarily have a bearing on the quality of the stuff selected. If experts like Engineers are the urgent need of the country--then the Pick of the Country's boys has to be chosen without regard to minor distinctions.

P.T.O.

The water-tight compartmenting is Prone to keep out several potential Visweswarayyas.

Justice requires that the first selection at least may be from the 1st class Intermediates without distinction of communities and the ~~residue~~ balance may be made up from other communities to safeguard the interests of Backward communities. Or, to make a real beginning of selection by merit, at least half of the aggregate boys may be from 1st classes without distinction and the other half as before. Pray be pleased to consider.

To,

The Education Minister,
Government of Madras.
Madras.

Sir,

Subject; Immediate location of the Engineering College Anantapur at Ananatapur- Public meeting-Deputation.

At a public meeting held on 29/6/46 at Anantapur it was resolved (copy of the resolution No 2 enclosed) that a deputation do wait on you and make personal representation about the need for the immediate location of the Anantapur Engineering College at Anantapur.

It is therefore requested that for the reasons stated in the resolution and submitted in person the request may be granted.

Madras Dated 3/7/1946.

A Rayappa. MLA
B. Gopalakrishna
Deputationists.

(2) to request the Government to start the Anantapur Engineering College intended for the Ceded Districts at Anantapur, as it would be economically most unhelpful to the poor students of the backward Ceded Districts to start it at Guindy ad as all the facilities needed for the location of the College are immediately available at Anantapur. The Police Recruit School may be got shifted to the Dehydration Factory from its present Buildings, and the latter utilised for the location of the College the workshops of the Madras Technical Training Centre and the Laboratories of the Ceded Districts College may be permitted to be temporarily availed of [illegible] the Engineering College, until permanent arrangements are made.

Moved by Sri K.S.Raghavachar: Seconded by Rao Saheb Sri S. Srinivasulu. Carried unanimously.

To
The Secretary to the Govt., of Madras,
Public Works Department,
Fort Saint George,
Madras.

L.Dis.C.No. 4526/46., dated 2nd July, 1946.

Sir,

The "Hindu" of the 8th instant announced that Government in pursuance of Postwar Development policy intended to open an Engineering College at Anantapur and that due to non-availability of buildings and other accessories at this place it was proposed to locate the College at Guindy. It is an undeniable fact that the intention of the Government at the outset was to give facilities to the rising generation of the Rayalaseema in the matter of Engineering studies. It is rather strange that the authorities concerned should pitch upon Guindy instead of exploring new places in Rayalaseema itself, with facilities for establishing the College. It is apparent that the need for such a survey to find a place did not strike the authorities and that they were carried away by their metropolitan tastes and ideas detriment to the interests of Rayalaseema and its children.

Bellary Town is in every way suitable for the purpose on hand and rightly serves the needs of the people for whom the college is intended. The town is resourceful in every direction and its climate is agreeable to one and all. There are many big buildings with spacious compounds, which accommodated the military units and which were disbanded very recently. Materials also which the military authorities have not yet disposed of are available adequately, Bellary is a centre in the Rayalaseema and a big commercial centre. Many of Government Offices have their head-quarters at Bellary. The industrial facilities consequent on the function of the Thungabhadra project will enhance the value of the Engineering College and will afford scope to raw Engineering Graduates to gain practical experience.

Under these circumstances it behoves Government to prefer Bellary to Guindy and to locate the College at Bellary. The building wherein the junior Certified School is now located is I understand is not fully occupied by it and there is ample space to locate the Engineering College. I hope and trust that Government will see the justice of the request made and come to the decision to open the College at Bellary. For a college at Madras admission of pupils from these districts has of late become very scarce. The little proportion of seats allotted to ~~these~~ this district will be carried away by some influential people who create an expedient to be called persons of this district. With an institution in our Centre it will facilitate the admission of the students of these Central Districts.

R Nagan Gowda
President, District Board,
Bellary.

Sir,

Sub: Increased admissions to the College of Engineering, Guindy, and the Arthur Hope Colege of Technology, Coimbatore for the Engineering College, Anantapur.

Main file submitted to HPM

I have the honour to invite your attention to my letter No.A.3296 dated the 28th June 1946, communicating the resolution of the Syndicate granting permission to admit 50 additional students as part of the Engineering College, Guindy and 15 additional students as part of the Arthur Hope College of Technology, Coimbatore subject to the condition that adequate arrangements have been made for the extra ~~numbers~~, and to request that a report on the arrangements proposed consequent on the admission of the extra numbers to the two colleges concerned may be forwarded to me at an early date.

REGISTRAR.

Copy to the Director of Public Instruction, Madras for information with reference to his Telephone Message dated the 26th July 1946. There is no need to send a formal application for the increased admissions pending the report from Government. Increased numbers are permitted as stated in the resolution, subject to the Syndicate being satisfied with the arrangements proposed consequent on this increase. A report on such arrangements regarding staff, accommodation, ~~equipment~~ equipment, hostels etc., may be sent early.

Sub. Increased admissions in the College of Engg, Guindy & A.H. College of Technology, CBE for the Engg. College, Anantapur

Sir,

Sub: Affiliation - College of Engineering at Cocanada - Appointment of Inspection Commission.

55789

Ref: Your R.O.C.No. 501 K2/46 dated 26-8-46.

I have the honour by direction to inform you that the Syndicate at its meeting held on the 7th September 1946, considered the letter No. 1/168/46 dated 20th August 1946 from the Principal of the Engineering College at Cocanada, requesting grant of affiliation to the above college and resolved as follows:

"RESOLVED that pending grant of formal affiliation the Management of the College be permitted to open the B.E. Degree courses of study for July 1946 and that the matter be reported to the Academic Council and Senate.

RESOLVED further that a local enquiry Commission consisting of the following persons be appointed to conduct a local enquiry at the College and to report on the application for affiliation of the College in the B.E. Degree courses of study:

1. Sir J.C.Ghosh, D.Sc., F.N.I. (Chairman)
   Director, Indian Institute of Science, Bangalore.
2. M. Sen Gupta Esq.,
   Principal, Benares Engineering College, Benares.
3. Fairburn Esq., Principal, Sibpur College, Sibpur.

   or

   Tarapore Esq., Principal, Poona Engineering College, Poona.

RESOLVED further that the Director of Public Instruction be requested to see that the services of the full complement of teaching staff sanctioned for the college for the first year are made available as early as possible without any further delay."

I am therefore to request you to be so good as to appoint the full complement of the teaching staff of the Engineering College, during this year, as sanctioned by the Government of Madras, under the Scheme and to inform the University of the progress made in the direction.

In this connection, I have the honour to request you kindly to make arrangements for payment to the University, a fee of Rs. 450/- for the three Commissioners, at the rate of Rs. 150/- each. A Bill for the T.A. at 1st Class rates to be paid to the Commissioners will be sent to you in due course for payment. The members of the Inspection Commission are being addressed and on the receipt of their acceptance of appointment, I will intimate to you the date of Inspection. First week of October has been suggested by me for the inspection. Meanwhile, I may request you to get the plans and proposals ready for the inspection by the Commissioners.

An early reply is requested.

******

pp 53-54 ante

I have the honour to report that the Engineering College, Anantapur was opened at Guindy with 50 students on 16-7-46 and that the new staff appointed assumed charge. Accommodation is reported to have been provided for those students partly in the A.M.T. Hostel and partly in the college hostel. The new Engineering College at Cocanada was opened on 16.7.1945. The Principal ~~in~~ has reported that all the students (excepting 11 who live with their parents in the town) are accommodated in the hostel and that the food, lighting and water supply arrangements are very satisfactory.

3.~~2~~ Engineering College, Anantapur (Guindy).

pp 53-54 ante

With reference to the Govt. Memo No. 28893A/46-3 Edn. dated 4-7-46, the Principal, College of Engineering, states that in addition to utilising the services of the members of the staff mentioned in para ~~3~~ 2 B of G.O.No. 1163 Edn. dated 12-6-46, the following staff is absolutely necessary for carrying on the work efficiently

A

Assistant Instructors.	3.
Assistant Lecturer in Mathematics.	1
Demonstrator in Physics.	1
Demonstrator in Chemistry.	1
Lower division clerk	1
Typist.	1
Peon.	1

The Principal reports that the Asst. Lecturer in Mathematics and the two demonstrators have already joined duty and that the Asst. Instructors will be joining duty shortly. I am permitting the Principal to employ a lower division clerk, a typist and a peon.

GOVERNMENT OF MADRAS

My dear Subramanian,

Engineering College, Anantapur - Employment of additional staff and sanction of equipment.

...

Please refer to your D.O.No. 28893 A/46-9, Edn., dated 20th March 1947 on the above subject. The matter was referred to the Principal of the College of Engineering, Guindy, for remarks. Although I received a reply from the then Professor-in-charge of the College on 9-12-1946, I thought it necessary to obtain the views of Dr. Rudra, who was then expected to take over charge of the College as permanent Principal, before a final reply was sent to Government. I have reminded Dr. Rudra several times and I am sending a special reminder to him to submit his remarks immediately. As soon as that is received, I shall submit my reply to Government.

Yours sincerely,
S R K Swamy

Education & P.H.Department

Memorandum No.57331 A/46-7 Edn. dated 10-1-47.

Sub:-Colleges - Engineering, Vizag at Cocanada and Anantapur at Guindy - Additional staff and equipment.
Ref:-From the D.P.I. No.501 K.2/46 dated 14-10-46.

* * *

The D.P.I. is informed that it is proposed to include in the Budget Estimate for 1947-48 a provision of Rs.18,200/- recurring and Rs.90,600 non-recurring for additional staff and equipment for the Engineering colle Vizagapatam at Cocanada. The other proposals in his lett cited call for the following remarks:-

(1)Engineering College, Anantapur at Guindy

(a) Staff

The attention of the Director is invited to Memo.No.28893 A/46-6 Edn. dated 28-10-'46 and he is requested to justify more fully the need for employing two Professors in the College.

Copy at pp. 99-100 ante

(b)Buildings

The Director has proposed the construction of new buildings for the college at an estimated cost of Rs.61,24,000 including the cost of site. In connection with the opening of the college, the Industrial Adviser to Government offered to release, the buildings in which the Technical Training Centre of the Govt. of India within 2 years when the college could be conveniently shifted to those buildings, Attention is also invited in this co connection to the Director's letter No.3976 K/46 dated 29-11-46. Besides, one of the terms of reference to the Expert committee constituted by G.O.No.1213 Edn., dated 18-6-46, is that it should advise the Govt. on the permanent arrangements to be made for the location of the new Engineering Colleges in Andhradesa. The Govt., therefore, consider that the question of constructing new buildings for the college may be taken up later after knowing whethe the offer of the I.A. still holds good and what the recommendations of the Expert committee in the matter are The Director is requested to offer his remarks on this suggestions and to send a complete and comprehensive repor in the matter.

116

Furniture, apparaturs and equipment.

It is considered that the question of providing funds for furniture and appraturs may be taken up when the buildings for the college are nearing completion. However, as equipment has to be purchased from abroad, the Director is requested to report what provision is required for this item of expenditure alone.

(2)Engineering College, Vizag at Cocanada

Staff

The Director has asked for the employment of 1 Instructor, 3 Asst. Instructors and 1 Junior Workshop Instructor in the college in addition to two Professors. It appears that only two Professors and one Asst. Instructor need be employed and that the rest of the staff is superfluous. He is requested to justify in detail the need for the additional staff.

Equipment

It is proposed to include provision in the Budget Estimate for 1947-48 for this item of expenditure. However, the D.P.I. is requested to report whether the equipment is necessary even if the college continues at Cocanada.

The D.P.I. is requested to treat this reference as specially urgent and send a reply as early as possible.

Sir,

Sub:- Engineering College, Anantapur - Staff.

Ref:- Government Memo. No.28893-A/46-6, Edn., dated 28-10-1946 and Memo. No.57331-A/46,7- Edn., dated 10-1-1947. p 115 ante

8 97b

pp 3 119-121 infra
p 97 ante
p 121 infra

I have the honour to enclose herewith a copy of letter Roc. No.13-1.A/46, dated 16-4-1947 from the Principal, College of Engineering, Guindy, explaining the need for the employment of the staff recommended in my letter Roc.No.501-K2/46, dated 3-9-1946 . In the circumstances stated therein and in view of the fact that the academic year 1946-47 is already over, I request that the employment of the staff may kindly be approved. // In para (16) of the letter, the Principal has not recommended the grant of charge allowance to the staff of the college of Engineering, Guindy for the extra work in the Anantapur College. It has been reported to me that charge allowance has been drawn by the staff up to the end of October 1946 and that payment from November 1946 has been kept pending till a final decision on the question is arrived at. As the Principal has not recommended the payment of charge allowance, I request that the action of the Principal in having drawn the allowance with reference to G.O.No.1163, Edn., dated 12-6-1945 up to the end of October 1946 may kindly be approved by Government. //

(4)

pp 123-142 infra

2) In regard to the additional staff and equipment required for the college in 1947-48, I enclose herewith a copy of letter Roc. 13-A.A/46, dated 25-4-1947 from the Principal, College of Engineering , Guindy, submitting revised proposals for (1) staff (ii) estimates for equipment (iii) acquisition of land for the construction of permanent buildings and (iv) temporary location of the college in the Dehydration Factory buildings, required for the Anantapur College. I request that the revised proposals may kindly be accepted. //

3) In this connection, I have to point out that the net cost of educating a student in the College of Engineering, Guindy in 1946-47 works out to nearly Rs.385. The additional expenditure incurred by Government by admitting 50 students of Anantapur College in Guindy is practically nothing as the expenditure was covered by fee income. If the Engineering College, Anantapur, is to be as efficient as the College at Guindy, it must obviously be expected to incur the same expenditure as that of the Guindy College. I therefore submit that the proposals of the Principal are only reasonable. The delay in submitting the reply was mainly due to the fact that I did not get necessary informations from the Principal earlier.

R. Narasimha
for Director of Public Instruction.

Rc.No.13-1-A/46.

College of Engineering, Guindy.
Dated: 16th April 1947.

To

The Director of Public Instruction,
MADRAS.

Sir,

Sub: Engineering College, Anantapur - Additional staff.

===

Ref: Your Proceedings Roc.No.501 K2/46 dated 19-11-1946
and 8-1-47.

===

I submit below my reasons why the additional staff sanctioned on account of the location of the Anantapur College at Guindy is not large but is on the other hand inadequate when considered together with the staff of the Guindy College.

RATIO OF STUDENTS TO STAFF AS YARD STICK FOR MEASURING THE ADEQUACY OF STAFF:

(2) One way of determining the adequacy of staff of an Institution is to take the ratio of students to staff. It would therefore be desirable to take the ratios of students to staff in some leading institutions and see how they compare with that at the Guindy College.

(3) Massachusetts Institute of Technology: In the Massachusetts Institute of Technology, which has been placed as a model before us by various high authorities in India, the ratio of students to staff is given as 5.6.

(4) Indian Institute of Science, Bangalore: The ratio of students to staff in the Engineering Departments (Electrical, Telecommunication and Aeronautical) of the Indian Institute of Science, Bangalore is about 9.

(5) Alagappa Chettiar College of Technology: The College of Engineering, Guindy is affiliated to the University of Madras. The University is therefore entitled to prescribe the staff that the College should have to retain its affiliation. The University has long been dissatisfied with the quality and number of staff in the College and is going to prescribe the number and qualifications of staff of the college. It would naturally expect the College to have a staff on the scale obtaining in its own College, the Alagappa Chettiar College of Technology. The ratio of students to staff in this College is 5.7.

(6) College of Engineering, Guindy. The number of students

in the Guindy College excluding the Anantapur students is 786 and number of staff excluding the Anantapur College staff is 49. This gives a ratio of students to staff as 16, which is very high.

(7) The strength of the Guindy College including the 50 Anantapur students is 786 + 50 or 836 and the strength of the staff including the six members of staff for the Anantapur College is 49 + 6 or 55. The ratio of students to staff works out to 15.2 which also is very high.

(8) The ratio given above with respect to the Guindy College is only theoretical. In practice, the ratio has been larger as the post of Instructor in Civil Engineering and the two posts of Laboratory Assistants in the Telecommunication Laboratory were vacant throughout the last session, and several other posts were vacant for various periods owing to the transfers or resignations

(9) It will be seen from the above that the ratio of students to staff in the Guindy College compares most unfavourably with that in other Institutions. What the ratio of students to staff should be in an Engineering College is ~~a matter~~ which should be decided by the University. Considering the ratio of students to staff obtaining in the Alagappa Chettiar College of Technology it is most unlikely that the University would agree to a ratio any larger than 10. All that the additional staff on account of the Anantapur College has done is slightly to reduce the ratio of students to staff in the Guindy College and the Anantapur College; but the ratio is still very large.

(10) The state ~~of affairs~~ position in the Guindy College is far worse than than indicated by the large ratio of students to staff. Of the 55 members of staff including those of the Anantapur College, 40 are Non-Gazetted Officers, who can get an appointment immediately after passing out of the College. When this fact is taken into consideration, things are far worse than indicated by the large ratio of students to staff.

(11) I have been considering the question of staff and shall bring forward proposals not only to increase the number of staff, but also to increase the staff in the higher cadre. But, I am withholding these proposals owing to the great paucity of

of qualified men.

CONSIDERATION OF STAFF OF THE ANANTAPUR COLLEGE WITH REFERENCE TO THAT COLLEGE ONLY:

(12) Apart from the consideration of the ratio of students to staff, there is additional justification for the appointment of the Anantapur College staff. The location of the Anantapur College at Guindy has necessitated working in two Sections and the staff of 3 Assistant Instructors, 1 Assistant Lecturer in Mathematics and two Demonstrators can by no means be considered excessive for this second Section, especially when the Guindy College itself is greatly under-staffed and has never had the full complement of staff owing to transfers and resignations.

(13) Of the 3 Assistant Instructors, two supervise Civil Engineering Drawing and Tutorial classes. Two Assistant Instructors are not sufficient for supervising the 50 students. The third Assistant Instructor supervises the Mechanical Engineering Drawing and Tutorial classes. One Assistant Instructor is quite inadequate for this and an additional Assistant Instructor is required.

(14) As regards the Assistant Lecturer in Mathematics, he is absolutely essential as there are 30 lectures to be handled and two members of the Mathematics staff of the Guindy College are not sufficient to handle these. As a matter of fact, the Mathematics staff of the Guindy College is very inadequate for tutorial work, as there are classes of over 100 and two members of staff cannot take tutorial classes for these large number of students.

(15) The supervision of practical work and correction of Laboratory records of Science classes of the Guindy College are shared by an Assistant Lecturer and a Demonstrator. An additional Demonstrator for each laboratory is not too much when the strength has increased by 50 students.

CHARGE ALLOWANCE:

(16) I am sorry I cannot see my way to recommending the grant of any charge allowance to any member of staff.

PRINCIPAL.

R.C.No.13-1-A/46.

College of Engineering, Guindy,
Dated 25th April '47.

To

Re501/K2/47

The Director of Public Instruction,

M A D R A S.

Sir,

Sub:- Engineering College - Anantapur - Additional Staff and Buildings.
Ref:- Your Proceedings R.O.C.No.501-K.2/46 dated 23/1/1947.

====

I submit below my remarks on the points raised in your above letter.

2. In July 1946 Sixty five students were admitted for the Anantapur College, 50 in the Guindy College and 15 in the Coimbatore College. As the Coimbatore College is pressed for accommodation, I have expressed to the Director my willingness to admit in the Guindy College, those students of the Anantapur College who are now at Coimbatore.

3. I presume that 65 students will be admitted for the Anantapur College in July 1947. I am prepared to take all these students in the Guindy College to relieve the pressure of accommodation in the Coimbatore college.

4. It will be necessary to obtain the permission of the University to transfer the Anantapur students at Coimbatore to Guindy and to admit 65 Anantapur students at Guindy this year.

I. STAFF.

5. The total staff requested for in this office letter No.13-1-A/46 dated 12th September 1946 for 1947-48 is:

Professors	... 3	(New)
Instructor	... 1	(")
Assistant Instructors	... 3	(Existing)
Assistant Lecturer in Mathematics	... 1	(")
Demonstrators.	... 2	(")
Upper Division Clerk	... 1	(New)
Lower Division Clerk	... 1	(Existing)
Typist	... 1	(")
Stenographer	... 1	(New)
Peons	... 4 5	(One existing).

It was proposed that one of the Professors may be appointed during 1946-47 session to prepare plans for the Anantapur College but the proposal was not sanctioned.

6. For reasons given below, I suggest the following staff for 1947 instead of the staff proposed in this office letter quoted above.

P.T.O.

Instructors.	...	3	(New)
Laboratory Assistants	...	3	(")
Assistant Instructors	...	4	(3 existing)
Junior Workshop Instructor	...	1	(New)
Assistant Lecturer in Mathematics.	...	1	(Existing).
Demonstrators.	...	2	(").
Upper Division Clerk.	...	1	(New)
Lower Division Clerk.	...	1	(Existing).
Typist	...	1	(-do-).
Stenographer.	...	1	(New)
Instrument Repairers.	...	2	(New).
Mechanics.	...	3	(").
Attenders.	...	3	(")
Foreman Fitter.	...	1	(")
Foreman Carpenter.	...	1	(")
Peons.	...	4	(One existing).

7. Before submitting detailed justification for appointment of the proposed additional staff, I would invite your attention to my letter R.C.13-1-A/46 dated 16--4--47 in which I have pointed out that the ratio of students to staff in the Guindy College is 16 as compared with 5.6 at the Massachusetts College of Technology, 5.7 at the Alagappa Chettiar College of Technology and 9 at the Indian Institute of Science showing thereby how greatly understaffed the college is. The staff of the Guindy College cannot, therefore, take up any work of the Anantapur College except in an advisory capacity which by itself will be very considerable.

Hp 119-121 ante

8. The expenditure on account of the proposed staff is far less than what it would have been had the Anantapur College been located at Anantapur, and it will be reduced further through inability to get all the staff and some leaving during the session as is usually the case. The staff of the Guindy College itself is not stable. Several posts were vacant for varying periods through transfers or resignations and ~~these~~ three posts were vacant throughout the session.

9. Students of the Anantapur College are treated in every way as if they were students of the Guindy College. Although this is good, it would be better if the students of the Anantapur College had personal contact with members of staff, particularly senior members, who would be with them when the College goes to Anantapur. The senior members of staff who would go to Anantapur must establish personal contact with the students that they would have to deal with at Anantapur. A lot has been said on paper and in speeches and Committees about personal contact between students and staff and one of my objects in suggesting the proposed staff of the Anantapur College is to translate these worthy views into action.

10. The Anantapur College when it goes to Anantapur must have senior staff who know the students. The staff must not only have personal knowledge of students, but they should have teaching experience and knowledge of equipment etc. Every detail of the Anantapur College has to be prepared during this session. As a matter of fact, I have prepared a large scale plan of the Dehydration Factory, and am taking steps to fix up the location of the various Laboratories, classes etc., in this building. The proposed staff have been spread over the various departments of the College and are only the nucleus of staff needed by these departments.

11. In view of the above, I most earnestly request the Government to sanction the staff proposed for the Anantapur College.

12. It is suggested that the additional instructional staff may be appointed from 1st July 1947 and the Ministerial staff from 1st June 1947. The latter shall have a lot of work to occupy ~~ikxxx~~ them in sending out enquiries.

13. Instructors: Had the college been started at Anantapur itself, I would have certainly suggested the appointment of three Professors for organising the College. From considerations of administrative difficulties I cannot recommend the appointment of Professors, and making one of them Professor-in-Charge of the Anantapur College, as long as the College is at Guindy. Moreover, it is difficult to get persons suitable for appointment as Professors. I am therefore recommending the appointment of three Instructors, who would work under the Professors of this College and carry out the planning of the Anantapur College and take up all the teaching work of the Anantapur College. They will also be utilised for work of the Guindy College as the college is greatly understaffed, and as it would be desirable for these Instructors to get experience.

14. The three instructors proposed are:-- (1) Instructor in Civil Engineering, (2) Instructor in Mechanical Engineering and (3) Instructor in Electrical Engineering. They will be responsible for planning of the Departments of Civil, Mechanical and Electrical Engineering respectively. These Instructors will have to make a list of the equipment, furniture etc. required for the Anantapur College, call for

quotations and make plans for partitioning of the proposed temporary building of the college and arranging of laboratories, Lecture halls etc.

15. Laboratory Assistants: The second year students of the Anantapur College will have to work in the Strength of Materials, Electrical and Mechanical Laboratories. The existing number of Laboratory Assistants are inadequate for even the students of the Guindy College and it would be necessary to have at least one Laboratory Assistant in these Laboratories for supervising the work of the Anantapur College students.

16. Another reason for appointment of Laboratory Assistants is that our Laboratory Assistants are very unstable and resignations from them have been too many. The appointment of Laboratory Assistants on account of the Anantapur College will thus be helpful to these Laboratories, when their Laboratory Assistants resign.

17. The appointment of Laboratory Assistants is also necessary as the Anantapur college must have some experienced men when it shifts to Anantapur. The Laboratory Assistants will assist the Instructors in the work of the planning and fitting of the Laboratories of the Anantapur College.

18. These Laboratory Assistants, as pointed out later, will also take part in instruction in Drawing and Tutorial Classes.

para 21 on p127

19. Junior Workshop Instructor: The College Workshop had a Senior Workshop Instructor, and a Junior Workshop Instructor when the number of admissions to the Engineer class was 45. The number of admissions to the Engineer class has increased to 124 and another College (the Anantapur College) has been located in the Guindy College but no addition has been made to the staff of the Workshop in any category. In my opinion, the workshop is very greatly understaffed and there should be one more Junior Workshop Instructor even without the Anantapur College being here. The least that can be done for efficient instruction of students in the workshop, and particularly of the I and II year students of the Anantapur College, is to appoint a Junior Workshop Instructor for the Anantapur College. The Junior Workshop Instructor besides doing instruction work, will ~~do~~ assist in the work connected with the planning and equipping of the workshops when the college goes to Anantapur.

---

20. Assistant Instructors: There are three Assistant Instructors for the Anantapur college at present. All the three of them are Civil Engineers borrowed from the P.W.D. Two of them supervise the Drawing and Tutorial work in Civil Engineering of the 50 students of the Anantapur College. The third is attached to the Mechanical Engineering Department and supervises the Drawing classes in ~~the~~ Mechanical Engineering. For proper supervision of the Drawing and Tutorial classes there should not be more than 20 students per member of staff. As a matter of fact 20 is too large a number considering that in the Technical Training Scheme, ~~we~~ the Govt. of India found it necessary to have one Instructor for not more than 12 students in the Draughtsmen's class. The staff of three Assistant Instructors is therefore inadequate for supervising the drawing and tutorial classes.

21. As all the 65 students of the Anantapur College are proposed to be admitted in the Guindy College in July 1947 the Assistant Instructors will have to handle two classes. For a class of 65, we must have three Assistant Instructors or equivalent in Civil Engineering and three Assistant Instructors or equivalent in Mechanical Engineering to supervise the Drawing classes in these subjects. I propose to utilise the Laboratory Assistant of the Strength of Materials Laboratory who will be a Civil Engineer, to supervise drawing and tutorial classes in Civil Engineering. He, along with two Assistant Instructors in Civil Engineering will constitute the three Assistant Instructors or equivalent necessary for supervising the Drawing classes in Civil Engineering.. The two Assistant Instructors required are available from the three appointed last year.

22. I propose to have one of the three existing Assistant Instructors, who are all Civil Engineers, replaced by a Mechanical Engineer as in my opinion, the person handling Mechanical Engineering Drawing classes must be a Mechanical Engineer.

23. I also propose to utilise the Mechanical Laboratory Assistant to supervise the drawing and tutorial classes in Mechanical Engineering. There must be one more member of staff for the Mechanical Engineering Department, and an Assistant Instuctor in Mechanical Engineering has therefore to be appointed. This Assistant Instructor should preferably belong to the Education Department, instead of being drawn from the P.W.D., so that he may be available to the College when it shifts to Anantapur.

24. Upper Division Clerk: There would be great deal of correspondence in connection with the planning of the Anantapur College and an Upper Division Clerk is necessary. It will be desirable to appoint one of the senior Lower Division Clerks of the Guindy College as Upper Division Clerk and to send him to Anantapur when the College shifts there, so that he may be familiar with the affairs of the College from its very inception.

25. Stenographer: The Professors of the College will have a lot of work in the planning of the Anantapur College. They are already overworked owing to the under-staffing of their departments, and they and the Instructors of the Anantapur College, must have a stenographer to take down their proposals and enquiries for equipment connected with the Anantapur College.

26. Instrument Repairers: A Survey Instrument Repairer and an Electrical Instrument Repairer are necessary as the work of repairs of the Survey and Electrical Laboratory which was already heavy has been gradually increased through ~~the~~ increase in the number of students in the college and the students of other colleges seeking ~~x~~ facilities in this college. For example, the Coimbatore College students in Electrical Laboratory and Surveying, ~~and~~ the Presidency College Geology (Honours) students ~~for~~ in Surveying, ~~xxxxx~~ Government Technical Examinations, Technological Board Examinations, University Examinations etc.

27. Another important reason for proposing the appointment of Instrument Repairers is that it is not possible to get suitably trained Instrument Repairers, and [illegible] have to be trained for this work. The proposed Instrument Repairers will work with the existing Instrument Repairers of this College and learn the work so that they may be useful when the college goes to Anantapur.

28. Mechanics: Three Mechanics proposed are, one each, for the Strength of Materials Laboratory, Electrical Laboratory and Mechanical Laboratory. They will not only attend to the work connected with the students of the Anantapur College, but will also help these understaffed laboratories and at the same time gain experience which will be useful to the college when it shifts to Anantapur. They will also be utilised for making scores of auxiliaries required for equipping the College at Anantapur.

29. Attenders: The three Attenders proposed are:-- one for the Strength of Materials Laboratory, one for the Electrical Laboratory and one for the Mechanical Laboratory. No technical qualifications are prescribed for Attenders, and Attenders have to trained from scrath. ch. Attenders are required to do very skilled jobs and the proposed Attenders besides shouldering the extra work consequent on the Anantapur College students being at Guindy, will get experience and training, without which they will not be of any considerable service to the College when it goes to Anantapur.

30. Foreman Fitter and Foreman Carpenter: The students of the first and second year classes do fitting and carpentry. The persons directly responsible for training are the foreman. A trained Fitter or Carpenter, although good in his trade, has to learn the art of instructing the students and has to have an idea of the exercises that the students have to go through. The proposed Foreman besides taking on the extra work on account of the Anantapur College, will gain experience which will be very helpful to the College when it goes to Anantapur.

31. The Foreman Carpenter will be in charge of the manufacture of about Rs.50000/- worth of furniture needed for the Anantapur College. The Foreman Fitter will make scores of fittings required for the College.

32. Peons: There is only one peon at present. He will continue to work in the office. Three more perons are required for the three Instructors who will have much more responsible duties than Instructors in general and each must have a peon. Besides these, a Cycle peon is necessary.

II- BUILDINGS.

33. The Anantapur College must be shifted to Anantapur in the summer vacation of 1948. The permanent buildings of the Anantapur College cannot be ready by April 1948. It is most desirable to give very careful consideration to the preparation of the plans of this College. Moreover, building materials are difficult to obtain, even for Government works, and their cost is very high. It is therefore desirable to defer the construction of the permanent buildings of the Anantapur College except those that may be absolutely essential. The Anantapur College must therefore have buildings for temporary location for a period of 5 years or so. I submit below my proposals for temporary location of the College.

(II.1) Buildings Suitable for Temporary Location of College.

34. Three buildings were considered for temporary location of the Anantapur College, viz., (1) Police Training School, (2) Dehydration Factory, (3) Technical Training Centre, all at Anantapur.

P.T.O.

35. Police Training School: The Inspector General of Police has stated that the building of the Police Training School will not be available as he has ~~ka~~ no intention to close the School.

36. Dehydration Factory: Principal Sitaraman who inspected all the three buildings at Anantapur is of the opinion that the Dehydration Factory is suitable for temporary location of the Anantapur College, particularly as the most suitable site for permanent location of the College is adjacent to it. Professor S. Paul and Professor K. Sukumaran who accompanied Mr. Sitaraman are also of the same opinion. I am also of the opinion that the Dehydration Factory will be suitable for temporary location of the Anantapur College in view of the fact that the most suitable site for the permanent location of the college is adjacent to the Factory and the Factory buildings meet most of the requirements of residential and other accommodation.

37. Technical Training Centre: The Government have started a number of Polytechnics on a regional basis such as Andhra Polytechnic at Cocanada, Dravida Polytechnic at Madura. So far, no Polytechnic has been started in the Ceded Districts and the Government may decide to have a Rayalseema Polytechnic in a town in the Ceded Districts. There are ~~xxx~~ two Technical Training Centres in the Ceded Districts, which are suitable for this, one at Anantapur and the other at Hindupur. With the Engineering College at Anantapur, it would be advantageous to locate the Polytechnic also at Anantapur so that the staff of the college may be available to the Polytechnic as visiting lecturers as is the case with the Government Polytechnic in Madras.

38. Moreover, no site near the Technical Training Centre has been recommended for permanent location of the college, and temporary location of the college in the Technical Training Centre does not offer those advantages for supervision of the construction of the permanent buildings as the temporary location at the Dehydration Factory would.

39. Building recommended: In view of the above, and the fact that the Dehydration Factory is no longer used as a factory, and the Technical Training Centre is ~~x~~ still being used for training technicians I am of opinion that the Dehydration Factory should be selected for temporary location of the college.

P.T.O.

40. The Government have requested the Secretary of the Expert Committee to obtain the views of the Committee with regard to the temporary location of the Anantapur College in the Dehydration Factory. Mr. Viswanathan, as Principal of the Cocanada College, was the Secretary of the Committee. It is not known whether ~~xhx~~ he still continues to be the Secretary of the Committee after his transfer as Principal of the Coimbatore College. It would be sometime before the matter would be brought up before the Expert Committee.

41. I suggest that in view of the opinions expressed by Principal Sitaraman, Professor Paul, Professor Sukumaran and myself, the Government may decide to locate the Anantapur College temporarily in the Dehydration Factory without waiting for the views of the Expert Committee. Extensive repairs and alterations have to be carried out in the Dehydration Factory before occupation and unless a decision is ~~arrived~~ made at an early date, the buildings may not be ~~suitable~~ ready for occupation in the summer vacation of 1948.

42. If the Government decide upon the Dehydration Factory for temporary location of the Anantapur College, the Chief Engineer, P.W.D., may be requested to take necessary action for getting repairs and alterations carried out.

(II.2) Utilization of Dehydration Factory.

43. A blue print of the plan of buildings of the Dehydration Factory is enclosed herewith. It is proposed to utilise these buildings as explained below.

44. Laboratories etc. Buildings marked (1) (2) and (3) in the blue print will be utilised for Engineering laboratories, Workshops, Drawing and Lecture classes, and Offices.

45. It would not be possible to fit up the Science Laboratories by July 1948 or to provide accommodation for these laboratories in buildings (1) (2) and (3). Students will have to make use of the Science Laboratories of the Arts College for a year or two.

46. A large number of doors and windows will have to be provided before the buildings would be suitable for College work.

47. Students Quarters. Sixty five students were admitted for the Anantapur College in July 1946. 65 students may be admitted in July '47 and July 1948. The strength of the College would therefore be about 195

P.T.O.

in July 1948, neglecting the failures or assuring that they will be admitted. These students will have to be accommodated in the group of buildings marked 10 in the blue print. Each block of buildings has 10 sets of rooms with a verandah 7' wide. Each set consists of two rooms 12' x 10' with a connecting door. Putting 2 students in a room, 5 blocks will be sufficient during 1948-49.

48. All the buildings in group 10 are of poor construction, and extensive repairs will have to be carried out to make them suitable for residence. The rooms should be electrified. The fittings can ~~be~~ later be utilised for electrification of the permanent hostel. If wires are not in ~~not~~ very good condition they can be utilised by the Electrical Laboratory which uses large quantity of cables.

49. Mess. Two dining rooms and kitchens, vegetarian and Non-vegetarian - will have to be provided. As suggested by Principal Sitaraman, two of the group of thatched buildings marked 11 in the blue print may be utilised for this purpose.

50. Staff Quarters. If the proposals regarding staff for 1947-48 are accepted, there would be 18 members of teaching and Ministerial staff. The strength of staff in 1948-49 would be about 30. It would be necessary to provide quarters for staff. I suggest that the following buildings in the attached blue print of the Dehydration Factory may be allotted for residence of the staff.

(1) Manager's quarters marked 9.
(2) Assistant Manager's quarters marked 9.
(3) Administrative Office marked 4.
(4) Blocks 1 and 2 in the group of buildings marked 10.

51. The Manager's quarters may be allotted to the Principal. The Assistant Manager's quarters may be allotted to one of the three Professors who will have to be appointed in the 1948-49 session.

52. The Administrative Office marked 4 has 10 rooms and I suggest that these may be converted into 5 family quarters by providing an enclosure on the side facing the Dehydration Factory, and kitchen, bathroom~~s~~ etc. within the enclosure.

53. Blocks 1 and 2 in the group of buildings marked 10 have each 10 sets of rooms with a 7' verandah. A set consists of 2 rooms with a connecting door. It is suggested that these blocks may be allotted for residence of junior members of staff without family.

54. Blocks 1 and 2 will have to be vacated by the staff before July 1949 when all the classes will function and the strength of the College would be 65 x 4 or 260, if not more, and these blocks will be required for the students.

55. Cost of repairs and alterations: It is requested that a sum of Rs.1,00,000 may be provided for repairs and alterations in the buildings mentioned.

(II.3) New Buildings to be constructed.

56. Blocks 1 and 2 proposed for ~~the~~ junior members of staff for the 1948-49 session will be required for students during 1949-50 session. Permanent quarters for junior members of staff should therefore be constructed before July 1949. It will also be desirable to construct quarters for the Principal and the Professors by July 1949.

57. The buildings of the Dehydration Factory may do for laboratories in 1948-49, but will be inadequate in 1949-50 when most of the equipment for the laboratories should be expected to be received. It would therefore be necessary to start on the construction of the laboratories in the 1948-49 session. If the Government approve of this, I shall prepare plans and estimates.

III. FURNITURE, APPARATUS AND APPLIANCES:

58. The estimate of Rs.14,23,600 for furniture, apparatus and appliances, is rather low. However, even if this amount is available, it cannot be spent during the financial year of 1947-48.

59. Furniture. A sum of Rs.4,000 was requested for the 1946-47 session, but was not sanctioned. Even if the amount had been sanctioned it would not have been possible to spend it. Owing to shortage of wagons, supply of timber from Pollachi ordered for furniture sanctioned for various departments of the College was greatly delayed. Request for furniture grant for Anantapur College was not therefore pressed. As furniture for students of the Anantapur college had to be made, part of the timber~~s~~ ordered for furniture for the Guindy College was utilised. This has to be made good from the furniture grant for Anantapur College this year.

60. The furniture required for the college this year and also when it moves to Anantapur in 1948, have to be made during the 1947-48

P.T.O.

session. In the furniture estimate for 1947-48 no provision has been made for desks and seats for lecture classes, dining hall furniture, officers tables etc., and provision for some items such as Rs.100/- for almirah is not sufficient. Provision of Rs.33,600 made for 1947-48 is therefore inadequate and may be increased to Rs.50,000. This amount is not excessive considering that it has to meet the cost of furniture for 3 years i.e., 1946-49.

61. Apparatus and Appliances: A sum of Rs.13,90,000 has been provided for Survey Stores and Laboratories, and is in my opinion an under-estimate. For example, levelling instrument for which an estimate of Rs.500 is made actually costs about Rs.1000; a theodilite for which provision of Rs.1000 has been made, actually cost~~s~~ about Rs.1700. However, the entire equipment cannot be purchased during this year, nor perhaps even in the ~~x~~ next year. The question of the cost of full equipment of laboratories and workshops is not, therefore, so important at present.

62. No equipment has been purchased for Anantapur College up-to now. All the equipment need for the Ist, II and III year classes has to be obtained this year so that their installation at Anantapur may commence in April 1948, if not earlier. ~~but~~ The expenditure this year will, however, be limited by the availability of ~~materials.~~ equipment.

63. We may hope to get equipment for workshop either from the Disposals ~~in~~ Directorate (although we have not got even a single thing so far inspite of several indents that have been sent by the Guindy College and the Coimbatore College), or from the Technical Training Centre at Anantapur. The latter source appears to be more promising, if vigorous action is taken. The cost of workshop equipment would be about Rs.3/- lakhs, and the highest priority should be given for this as the progress of the College will depend upon the workshop. A sum of Rs.5/- lakhs may be sanctioned for ~~the~~ equipment for ~~the~~ other departments, making a total of Rs.8/- lakhs.

64. Some of the equipment that may be ordered from the allotment for 1947-48 may only arrive in 1948-49. Moreover, additional equipment required for 1949-50 has to be ordered this year, and not after the budget for 1948-49 has been sanctioned, ~~xxxxxxx~~ as manufacturers want 18 months to 24 months for supplying goods. I therefore request that a sum of Rs.8/- lakhs for expenditure on

equipment in 1948-49 may be sanctioned now, so that orders can be placed this year, although expenditure will only be incurred in 1948-49.

IV. WATER-SUPPLY AND ELECTRIC SUPPLY.

65. The Dehydration Factory has one Electric Motor and two Petrol Engines for pumping water from the well. The College would need them and it would be necessary to purchase them. The petrol engines will be replaced by electric motors later on and utilised for purposes of instruction in the Mechanical Engineering Laboratory.

66. As stated by Mr. Sitaraman, the Electric Supply Company in Anantapur is too small to meet the demand of the college and it would be necessary for the college to have its own Power House. Plans for increasing the capacity of Power Stations all over India ~~xxxxx~~ have been under the consideration of the Government of India for sometime and it is not unlikely that the Anantapur Electric Supply Company is also included in this scheme and its capacity may be increased. However, this will take some time.

67. As a Power House for the College involves large capital and recurring expenditure, it would be desirable to avoid a full-fledged Power House and try to manage with the supply from the Electric Supply Company at Anantapur supplemented by a Generating Set, at the College as is being done in the Guindy College, which receives power from the Madras Electric Supply Corporation and supplements it with power from a Diesel Generating Set. The 65 H.P. ~~XXXX~~ Diesel Engine in the Dehydration Factory, would be sufficient for the College for some time. This should be purchased if it is suitable. Steps will be taken to obtain a Generator from the Directorate General of Disposals.

68. The cost of the Pumping Sets, 65 H.P. Diesel Engine, generator for the engine, switch-boards, wiring, overhead lines etc. would come to about 50,000. It is requested that a sum of Rs.50,000 may be provided during 1947-48 for Water Supply and Electric Supply.

V. Changes in previous Budget Estimates under different Heads.

69. In consequence of the proposals made above, and for other reasons, the budget estimates for 1947-48 submitted in this office letter dated 12--3--46 are revised as fallows under the various heads.

P.T.O.

Workshop Maintenance: The amount under apparatus and materials has been reduced from Rs.5000 to Rs.2000 in view of capital grant for equipment which includes apparatus.

Other Charges: The amount under T.A. Ordinary, has been increased from Rs.250 to Rs.2000 as members of staff will have to go to Anantapur quite often for arrangements in connection with the College, and some members of staff may have to go for inspection of surplus stores offered by the Disposals Directorate. The expenditure under Honoraria has been deleted as the grant of honoraria to members of Guindy College does not appear to be necessary in view of the separate staff proposed for the Anantapur College. Figures for War Dearness and House Allowances have been altered in view of the additional staff proposed. The amount under books has been increased from Rs.1000 to Rs.3000 as the amount provided is considered to be very inadequate.

The amount under Games, has been increased from Rs.600 to Rs.1000 as all the new students of the Anantapur College are proposed to be admitted at Guindy this year, and transfer to this College of Anantapur students at Coimbatore has been proposed.

The amount for Service Postage has been increased from Rs.100 to Rs.300 as a large amount of correspondence will have to be carried out, and a substantial portion of it will be by air mail in the case of foreign countries owing to urgency. The amount of Rs.6000 under Furniture has been deleted as ~~a~~ separate provision has been made for Furniture under capital Expenditure. A sum of Rs.300 has been proposed for purchase of cycle and cycle repairs as a peon will have go to town quite often for business connected with the Anantapur College. The Guindy College cycles are fully occupied. Other items of expenditure not included in the previous estimate but quite necessary have been included. These are freight charges, office expenses, belts and badges and advertisement charges.

VI. REVISED ESTIMATE.

The revised estimate of expenditure for Anantapur College for the year 1947-48 is given below.

---

74. **Capital Expenditure:** Besides the provision of capital expenditure on furniture apparatus and appliances, provision has also to be made for purchase of land and a bus for the College.

Site No.1 referred to in this office letter dated 11/11/46 which is adjacent to the Dehydration Factory appears to be the most suitable site from various considerations. It has been suggested by the Principal Sitaraman that 400 acres should be purchased for the college.

75. In recommending that an area of 1000 acres may be purchased, I would like to draw your attention to the fact that the Tungabhadra Scheme is bound to bring great prosperity to the Ceded Districts as the Pykara and Mettur Schemes have done to certain parts of the Tamilnad; perhaps much more, through the Ceded Districts being near Mysore and the possibility of the Mysore and Tungabhadra Electric schemes being linked up. When prosperity comes to the Ceded Districts, as it must, from the Tungabhadra scheme and the proximity of Ceded Districts to Mysore, the Ceded Districts would need a University. The College of Engineering will have to have strong Departments of Science and should be expected to develop into a College of Science and Technology. We shall soon realise, as they have done in America, that Humanities must be included in the curriculum of education of scientists and technologists. With Humanities introduced in the curriculum, it will be a small step for the college to develop into a College of Arts, Science and Technology, and just another step to develop into a University.

76. With these possibilities in view and the fact that the land in the proposed site may not cost more than Rs.100 per acre, it would be desirable to purchase 1000 acres. The Cost would be about Rs.1,00,000. This would not be much more than 1% of the total expenditure on a good College of Engineering, and much less than 1% of the total expenditure on the College of Arts, Science and Technology or the University.

77. In this connection, I would like to point out a lesson which should be learnt from the Guindy College. Had an area of 500 or 1000 acres been purchased for the Guindy College, at the begining, three great institutions which the Government of India are proposing to allot to the Madras Presidency, viz., the Higher Technological Institute, the Electro Chemical Research Institute and the Leather Research Institute might have been accomplished facts to-day. But they may now be ~~a~~ lost to the Presidency owing to the land required for these institutions in

P.T.O.

the neighbourhood of the College costing over 10/- lakhs.

78. I would therefore strongly urge the Government to keep in view the future developments, and sanction the purchase of an area of 1000 acres. I suggest that land on both sides of the road in the blueprint should be purchased and the Dehydration Factory should be within the College compound.

79. Students of the college will have to go to the Arts College for practical work in Science and to the Technical Training Centre for workshop practice. The college must therefore have a bus to convey students to these places. I have therefore provided a sum of Rs.12,000 for a bus in the revised estimate.

VI. REVISED ESTIMATE.

80. The revised estimate of expenditure for Anantapur College for the year 1947-48 is given ~~Below.~~ in Appendix A.

81. It is also requested that a provision of Rs.8/- lakhs may be made for 1948-49 to enable orders to be placed this year for equipment needed for 1949-50. This expenditure will only be incurred in 1948-49.

VII. CONCLUSIONS.

82. In conclusion, I would submit that the expenditure on furniture, apparatus etc., cannot, as suggested in Government Memo No. 57331-A/46-7 dated 10--1--47, be taken up when the buildings for the college are nearing completion. The College will have, I, II and III year classes when it goes to Anantapur in 1948. So far, the Government have not sanctioned any grant on account of furniture and equipment for this College. The College must have furniture and equipment for the first, second and third year classed by July 1948. It will be necessary to satisfy the University on all these points before the Anantapur College comes into being. So far as the University is concerned, the Anantapur College does not exist and it will not come into being unless most of the equipment necessary for instruction of the first, second and third year classes is obtained this year, and the rest is on its way before July 1948. I must therefore earnestly request the Government to sanction all the capital expenditure requested for the College on account of furniture and equipment for 1947-48 and 1948-49.

83. In making these proposals, I have constantly kept in view the creation of conditions that will enable the college to function smoothly and efficiently when it goes to Anantapur. To make this

possible, not only the staff requested for is necessary, but it is also necessary that the college should begin to function as a separate unit within the Guindy College with the least possible delay. It is also necessary that the junior clerical staff of the college, as well as the subordinate staff like Mechanics, Foremen etc., who may be appointed should be men from the Ceded Districts so that we may be assured of their going to Anantapur when the college goes there.

84. The functioning of the College ~~x~~ as a separate unit within the Guindy college would not be novel. The Principal of the Guindy College was the administrative head of the Technical Training Scheme in the College during the war and it worked as a separate unit in the college independent of the college office.

85. To create conditions necessary for smooth and efficient operation of the college when it moves to Anantapur, the office of this college must function as an independent unit at Guindy as did the office of the Technical Training Scheme. The office staff must learn the complex work of the administration of a college. The entire correspondence relating to the Anantapur College should be handled and filed in this office. The staff and students of the college must commence dealing with this office so that the transition from the college as a unit within the Guindy College to an independent unit, may not be too abrupt and cause confusion.

86. I would like to mention that the suggestion for the Anantapur College operating as a separate unit within the Guindy College has not been made because of unwillingness on the part of the college staff to associate themselves with the work of the college. There is a great deal of goodwill towards the Anantapur College from all sections of the staff of the Guindy College and they shall always render every possible assistance and coperation to make that College a success. It is only in the best interests of the Anantapur College that its functioning as a separate unit has been suggested. There will be no extra expenditure to the Government on this account.

PRINCIPAL.

pts.29/4/-

APPENDIX. 4.

REVISED ESTIMATE OF:

ANANTAPUR COLLEGE EXPENDITURE --- 1947-48.

STAFF.

3. Instructors (200-700) for 8 months from 1st July. 200 x 3 x 8.	Rs. 4800--0--0
3 Laboratory Assistants (180-10-250) 180 x 3 x 8.	4320--0--0
1 Junior Workshop Instructor. (180-10-250) 180 x 8	1440--0--0
4 Assistant Instructors, 3 existing for 12 months = 3 x 150 x 12 = 5400 and One for i months = 1 x 150 x 8. = 1200	6600--0--0
2 Demonstrators existing. 2 x 80 x 12 (80-5-120-10-140)	1920--0--0
Increments. 2 x 5 x 2	20--0--0
1 Upper Division Clerk (80-3-95-5-110) for 9 months . 80 x 9	720--0--0
1 Lower Division Clerk. (45-3-60-2-90) for 12 months. 45 x 12.	540--0--0
1 Steno Typist. 9 months (45+35)=80 x 9.	720--0--0
1 Typist. (45+10) x 12.	660--0--0
2 Instrument Repairers (35-2-55-1-60) for 8 months 2 x 35 x 8.	560--0--0
3 Mechanics (40-2-50-1-65) 3 x 40 x 8.	960--0--0
3 Attenders (24-1-32-½(A)-35) 3 x 24 x 8	576--0--0
1 Fitter Foreman. (45-3-60-2-70) 45 x 8.	360--0--0
1 Carpentry Foreman. (45-3-60-2-70) 45 x 8.	360--0--0
5 Peons (16-½(A)-25) One existing for 12 months = 1 x 16 x 12 = 192, 4 for 8 months = 4 x 16 x 8 = 512.	704--0--0
	25260--0--0

WORKSHOP MAINTENANCE:

Apparatus and Materials Workshop and Laboratory.	.. 2000/-	
Workshop Charges.	.. 2000/-	
Medical Stores.	.. 100/-	4100--0--0

OTHER CHARGES:

(a) Allowances etc.

T.A? Ordinary.	2000/-	
War and Dearness allowances.	6260/-	
House allowance.	1183/-	
Survey Camp.	100/-	
Books Etc.	3000/-	12543--0--0

(b) Petty Supplies and Services:

Hospital.	.. 100/-	
Printing Maps.	.. 100/-	
Games.	.. 1000/-	1200--0--0-

(c) Contingencies Miscellaneous.

Service Postage.	300	
Purchase of Cycles and Cycle Repairs.	300	
Freight Charges.	200	
Belts and Badges	80	
Office Expenses.	200	
Advertisement Charges.	100	
Militery Concession.	400	1580--0--0

GRAND TOTAL.	11,56,683--0--0

Edn ~~A H sept~~. (A).

Note for the Standing Finance Committee of the Cabinet.

Subject Employment of addl staff in the Govt Engg. colleges at Anantapur ((Guindy) and Vizagapatam (Coconada).

In 1946 the Govt sanctioned the opening of two Engg. Colleges - one at Vizag and another at Anantapur. The Vizagapatam college is located at Coconada in the bldgs of the Combined Military Hospital pending construction of permanent bldgs at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur college, the students admitted on account of this college were distributed between the Guindy Engg. College and the A.H College of Technology at ~~CBE~~ Coimbatore. (~~to~~ fifty in the Guindy College and fifteen in the ~~CBE~~ Coimbatore College). Necessary staff was also sanctioned for both those colleges. The 2nd year classes will be opened in those colleges in 1947-48 and the DPI has submitted proposals for the employment of addl staff reqd.

2 Anantapur College:

In 1946, Govt sanctioned the following staff for this college:—

A.

p 11 nf

1) One Instructor (MES).
2) Three Asst. Instructors
3) one Asst. Lecturer (Mathematics)
4) Two Demonstrators
5) one U. D. clerk.
6) one L. D. clerk.
7) one Steno Typist
8) four peons

(f1). ~~[illegible]~~ **B.**

1) Principal
2) Two Asst. Lecturers (Physics and Chemistry)
3) One Senior Wkshop Instructor
4) One Carpentry Instructor
5) One Physical Director
6) One Sub. Asst. Surgeon
7) One Compounder
8). One ward attendant

p 11 nf
or p 1-4 of

The Principal of the College of Engg, Guindy, was appointed to hold full addl charge of the duties of the post of Principal, College of Engg, Anantapur and was permitted to draw a charge allce equal to 1/5 of his substantive pay. Similarly ~~the~~ Asst. Lecturers etc in the Guindy College were, in addition to their duties, permitted to hold full addl charge of the posts mentioned under B above. and draw 1/5 of their substantive pay.

1163 Edn
12-6-46

3 Subsequently, as the no of addl students admitted in the Guindy College on account of the Anantapur College was only 50, the DPI was asked whether the addl staff and the other arrangements including the grant of charge allowance sanctioned already reqd revision. The DPI stated that in addition to utilising the services of the staff mentioned ~~at~~ at B in para 2 above, the following addl staff was necessary.

pages 53-5 of
p 97 f

3. Asst. Instructors
1 Asst. Lecturer in Maths
1 Demonstrator in Physics
1 " " Chemistry
1 L.D. clerk
1 Typist
1 Peon
Y

p 12 nf

The DPI also reported that the Asst. Lecturer in Maths and

2 demonstrators ~~have~~ had already joined duty and that the Asst. Instructors would be joining duty shortly and that he was permitting the principal to employ a L.D clerk, a typist and a peon.

p 97 f

4. Later on the DPI was asked to explain in detail the necessity for such a large staff of 3 Asst. Instructors, one Asst. Lecturer in Maths and 2 demonstrators, as no Engg College for Anantapur as such had been opened and as only 50 addl students had been admitted in ~~to~~ the Guindy College. The DPI was also asked whether there was any justification to grant any charge allce to the staff of the Guindy College. ~~The~~

pages 99-100 cf

In connection with the Part II estimates the DPI proposed an addl staff of 2 professors and 1 typist for the College. The DPI was then asked to justify more fully the need for employing 2 professors in the College. The DPI has submitted ~~a~~ a report on all the points on which information was called for.

p 5 of f.o No 1057 Edn
21-5-47
in L.F
pages 115-116 cf

1946-47.

In view of the reasons given by the DPI, E+PH propose to approve ~~the~~ this action ~~of the DPI~~ in having employed the ~~addl~~ staff mentioned ~~at~~ at Y in para 3 above. This staff falls short of the full complement of the staff sanctioned originally only by one Instructor (MES), one U.D clerk, and 3 peons. The Fin. Dept have agreed to this proposal.

p 18 nf
p 13 nf

The Principal of the College of Engg, Guindy considers that there is no need for the grant of a charge allowance for the staff in the Guindy College. The DPI agrees, but considers that allce drawn upto the end of Oct. 1946 may be ratified. ~~As~~ As the position was not quite clear in the

para 16, p 121 cf
para 1, p 117 cf

beginning, ~~E~~ P H support the DPI's recommendation. Fin. also agree. p13 nf p18 nf

1947-48

The Principal has proposed the following addl staff from 1947-48:— p13 nf or p124 cf

- (a) 3 Instructors.
- (b) 3 ~~Lab~~ Laboratory Assts.
- (c) 4 Asst. Instructors.
- (d) 1 Jr. Wk/shop Instructor
- (e) 1 Asst. Lecturer in ~~Maths~~ Mathematics.
- (f) 2 Demonstrators
- (g) 1 U.D. clerk
- (h) 1. L.D. clerk.
- (i) 1 Typist
- (j) 1 Stenographer
- (k) 2. Instrument Repairers
- (l) 3 Mechanics
- (m) 3 Attenders
- (n) 1 Foreman Fitter
- (o) 1 Foreman Carpenter
- (p) 4 peons

Most of these posts are included in Group ~~A~~ A mentioned in para 2 above.

— (a) above One Instructor has already been ~~was~~ sanctioned. ~~already. E & P.H recommend that 2 more Instructors may be sanctioned~~. The Finance dept suggest that as the Instructors are needed not so much for giving instruction to the students ~~but~~ as for other purposes connected with the planning of the depts of Civil, Mechanical and Electrical Engineering ~~at~~ of the Anantapur college, all the three posts need not be in the M.E.S cadre, but that Asst Instructors will be sufficient, that the D.P.I may be asked about the suggestion and that the demand may, for the present, be rested. Edn and P.H press for the acceptance of the D.P.I's proposal, as planning work is as important as instruction work and p16 nf p16 nf p18 nf

Orders have also been issued to transfer from Coimbatore to Guindy, the 15 students earmarked for the Anantapur college; besides, ~~the~~ all the students to be selected in 1947-48 for the Anantapur College, will receive their training only at Guindy.

as college work will suffer if the necessary equipment etc is not got ready soon. Further there are already complaints that the new colleges are not up to the standard. H. Ms (Edn) and Fin have ~~[illegible]~~ minuted that as the staff is considered necessary, they may be given.

(b) (d) ~~[illegible]~~, (k) (l) (m) (n) & (o) ~~[illegible]~~

~~[illegible] 1 (d)~~

Edn and P.H. recommend that these posts may be sanctioned. Finance agree. p13 d p17 nf

(c) above

Three Asst Instructors have already been sanctioned. Edn and P.H recommend that one more Asst Instructor may be sanctioned. Finance agree. p14 nf p17 nf (top)

(e) and (f) above

One post of Asst Lecturer in Mathematics and two posts of Demonstrators have already been sanctioned. It is proposed to approve the D.P.I's action in having utilised the sanction; ~~is being approved with~~ the consent of Finance has been obtained and hence the employment of the additional staff is unnecessary. p18 nf

(g) & (h) above ~~(g) and (h) above~~ An U.D clerk and a L.D clerk have already been sanctioned. There is therefore no need to sanction the appt. of additional clerks.

(i) & (j). One stenotypist has already been ~~sanctioned~~. The Director sanctioned the appointment of a typist in 1946-47. The Principal wants a stenographer for 1947-48. Edn and P.H recommend ~~[illegible]~~ that a typist's post may be sanctioned now and the D.P.I may be told that she may utilise the sanction already given for the stenographer. Finance consider that there is no need for a typist and that the demand may be negatived. p14 nf p97 cf p14 nf p17 nf

Edn and P.H press for the sanction of a typist and H. Ms (Edn) and Fin have agreed with Edn and P.H. p19 nf

(p) above

Four peons have already been sanctioned. Out of this, one peon has already been employed. It is proposed to authorise the D.P.I to appoint the other three peons also. Finance agree. p14 nf p18 nf

Vizagapatam Eng. College (Cocanada)

5 With the opening of the Eng. college, Vizagapatam (Cocanada), the Govt. have sanctioned the employment of the following teaching staff required for the college for the first two years. The staff sanctioned is as follows:—

p 3 n/f L.F

1 Principal
1 Professor
1 Instructor
1 Lecturer in Mathematics
2 Asst Instructors
1 Senior workshop Instructor
2 Workshop Instructors

p 10 2 of 3 (Y) (G.O. 1163 Edn 12/6/46)

6 The D.P.I proposed the employment of addl staff for the second year class of the college ~~and the equipment required for use in the college~~ in 1947-48. After an examination of the case, it was considered sufficient to accord sanction to the following staff as against the demand made by the D.P.I:—

pages 19-20 of G.O. No 105/Edn 21-5-47 (W) in L.F.

Directors' proposals	Staff sanctioned
3 Professors	2 Professors (one each for Mechanical and Electrical Eng.
1 Instructor	Nil
2 Asst Lecturers (one each for Mathematics and Science)	1 Asst. Lecturer (both for Mathematics and Science)
3 Asst Instructors	Nil
1 Junior workshop Instructor	Nil
2. Lab. Assts	2 Lab. Assts
1. Survey store attender	1 Survey store attender
1 Lab. attender	1 Lab. attender
1 Instrument Mechanic	1 Instrument Mechanic
1. Electric Mechanic	1 Electric Mechanic
1. Sergeant.	1. Sergeant
6 Peons	Nil

The D.P.I was asked to justify more fully the need for the addl post of Professor, 1 Instructor, 3 Asst. Instructors and 1 Junior workshop Instructor;

pages 15-16 of (W) in L.F

it was considered unnecessary to sanction any more peon as the college had already 9 peons. The D.P.I has now given reasons for asking the above addl staff (one addl Professor, one Instructor, three Asst Instructors and one Junior workshop Instructor). The Finance dept agree to all the posts being sanctioned except that of the Professor. They consider that there is no need for sanctioning a fourth Professor as he is required merely for doing preliminary work and not teaching work. Edn and P.H consider that even for preliminary work, a Professor is necessary as laboratories and workshops have to be provided with the necessary equipment in advance. H.Ms (Edn) and Finance have minuted that the staff proposed by the D.P.I may be sanctioned.

pages 1-2 of in L.F

p 4 n/f L.F

pp 2 & 4-5 n/f L.F.

Subject to approval. Vide p 19 n/f

7 The following statement shows at one view the addl staff now proposed for each of the colleges at Anantapur (Guindy) and at Vizagapatam (Cocanada), the views of Edn and P.H and Finance and the minutes of H.Ms (Edn) and Fin:—

Anantapur College (Guindy)	Addl Staff proposed by the D.P.I	Staff recommended by Edn & P.H	Staff agreed to by Finance	Minutes of H.Ms (Edn) and Fin
	2 Instructors 3. Lab. Assts 1 Junior workshop Instructor 2 Instrument repairers 3 Mechanics 3 Attenders 1 Foreman Fitter 1 Foreman Carpenter 1 Asst. Instructor 1. Typist	All proposed by the D.P.I.	All proposed by the D.P.I and recommended by Edn & P.H except 2 Instructors and 1 typist	All proposed by the D.P.I and recommended by Edn & P.H.
Vizagapatam college (Cocanada)	1 Professor 1 Instructor 3 Asst Instructors 1. Junior workshop Instructor	All proposed by the D.P.I	All proposed by the D.P.I and recommended by Edn & P.H except 1 Professor	All proposed by the D.P.I and recommended by [illegible]

8 150

As the colleges re-open by the begining of July, the addl staff has to be sanctioned immediately. The permission of the Committee may be obtained for issuing orders without reference to the Cabinet

8 An estimate of the addl cost involved is given in the appendix

14/6/47 16-6-47

Appendix

Item of expenditure	Average pay	Cost of living allowance	M.H.A	Cost per annum
	Rs	Rs	Rs	Rs
1 Professor	786.7	138	–	924.7

Education and Public Health Department.

NOTE FOR THE STANDING FINANCE COMMITTEE OF THE CABINET

Subject: Employment of additional staff in the Government Engineering Colleges at Anantapur (Guindy) and Vizagapatam (Cocanada).

* * *

In 1946 the Government sanctioned the opening of two Engineering Colleges - one at Vizagapatam and another at Anantapur. The Vizagapatam College is located at Cocandda in the buildings of the combined Military Hospital pending construction of permanent buildings at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur College, the students admitted on account of this college were distributed between the Guindy Engineering College and the A.H.College of Technology at Coimbatore (fifty in the Guindy College and fifteen in the Coimbatore College). Necessary staff was also sanctioned for both these Colleges. The 2nd year classes will be opened in these colleges in 1947-48 and the Director of Public Instruction has submitted proposals for the employment of additional staff required.

2. Anantapur College:

In 1946, Government sanctioned the following staff for this College:--

A.

1) One Instructor (Madras Educational Service)
2) Three Assistant Instructors
3) One Assistant Lecturer (Mathematics)
4) Two Demonstrators
5) One Upper Division Clerk
6) One Lower Division Clerk
7) One Steno Typist
8) Four peons

B.

1) Principal
2) Two Assistant Lecturers (Physics and Chemistry)
3) One Senior Work Shop Instructor
4) One Carpentry Instructor
5) One Physical Director
6) One Sub Assistant Surgeon
7) One compounder
8) One Ward attendant.

The Principal of the College of Engineering, Guindy, was appointed to hold full additional charge of the duties of the post of principal, College of Engineering, Anantapur and was permitted to draw a charge allowance equal to 1/5 of his substantive pay. Similarly the assistant Lecturers etc. in the Guindy College were, in addition to their duties, permitted to hold full additional charge of the posts mentioned under B above, and draw 1/5 of their Substantive pay.

3.Subsequently, as the number of additional students admitted in the Guindy College on account of the Anantapur College was only 50, the Director of Public Instruction was asked whether the additional staff and the other arrangements including the grant of charge allowance sanctioned already required revision. The Director of Public Instruction stated that in addition to utilising the services of the staff mentioned at B in para 2 above, the following additional staff was necessary.

P.T.O.

the Director of Public Instruction to appoint the other three peons also. Finance agree.

Vizagapatam Engineering College (Cocanada)

5.With the opening of the Engineering College, Vizagapatam (Cocanada), the Government have sanctioned the employment of the following teaching staff required for the college for the first two years. The staff sanctioned is as follows:-

- 1 Principal
- 1 Professor
- 1 Instructor
- 1 Lecturer in Mathematics
- 2 Assistant Instructors
- 1 Senior Workshop Instructor
- 2 Workshop Instructors

6.The Director of Public Instruction proposed the employment of additional staff for the second year class of the college in 1947-48. After an examination of the case, it was considered sufficient to accord sanction to the following staff as against the demand made by the Director of Public Instruction: --

Director's proposals	Staff sanctioned
3 Professors	2 Professors (one each for Mechanical and Electrical Engineering)
1 Instructor	Nil
2 Assistant Lecturers (one each for Mathematics and science)	1 Assistant Lecturer (both for Mathematics and Science)
3 Assistnat Instructors	Nil
1 Junior workshop Instructor	Nil
2 Laboratory Assistants	2 Laboratory Assistants
1 Survey Store attender	1 Survey store attender
1 Laboratory attender	1 Laboratory attender
1 Instrument Mechanic	1 Instrument Mechanic
1 Electric Mechanic	1 Electric Mechanic
1 Sergeant	1 Sergeant
6 peons	Nil.

The Director of Public Instruction was asked to justify more fully the need for the additional post of Professor, 1 Instructor 3 Assistant Instructors and 1 Junior workshop Instructor; it was considered unnecessary to sanction any more peon as the college had already 9 peons. The Director of Public Instruction has now given reasons for asking the above additional staff (one additional Professor, one Instructor, three Assistant Instructors and one Junior workshop Instructor). The Finance Department agree to all the posts being sanctioned except that of the Professor. They consider that there is no need for sanctioning a further Professor as he is required merely for doing preliminary work and not teaching work. Education and Public Health consider that even for preliminary work, a Professor is necessary as laboratories and workshops have to be provided with the necessary equipment in advance. H.Ms(Education) and Finance have minuted that the staff proposed by the Director of Public Instruction may be sanctioned.

7.The following statement shows at one view the additional staff now proposed for each of the colleges at Anantapur (Guindy) and at Vizagapatam (Cocanada), the views of Education and Public Health and Finance and the minutes of H.Ms.(Education) and Finance--

Anantapur College (Guindy)

Additional Staff proposed by the Director of Public Instruction.	Staff recommened by Education and Public Health.	Staff agreed to by Finance	Minutes of H.M(Education) and Finance
2 Instructors 3 Laboratory Assistants 1 Junior Workshop Instructor 2 Instrument repairers 3 Mechanics 3 Attenders 1 Foreman Fitter 1 Foreman Carpenter 1 Assistant Instructor 1 Typist	All proposed by the Director of Public Instruction.	All proposed by the Director of Public Instruction and recommended by Education and Public Health except 2 Instructors and 1 Typist	All proposed by the Director of Public Instruction and recommended by Education and Public Health

Vizagapatam College (Cocanada)

1 Professor 1 Instructor 3 Assistant Instructors 1 Junior Workshop Instructor	All proposed by the Director of Public Instruction.	All proposed by the Director of Public Instruction and recommended by Education and Public Health except 1 Professor	All proposed by the Director of Public Instruction and recomended by Education and Public Health

As the colleges re-open by the beginning of July, the additional staff has to be sanctioned immediately. The permission of the Committee may be obtained for issuing orders without reference to the Cabinet

8.An estimate of the additional cost involved is given in the appendix.

M.V.Subramanian,
Secretary to Government.

Education and Public Health Department.

NOTE FOR THE STANDING FINANCE COMMITTEE OF THE CABINET

Subject: Employment of additional staff in the Government Engineering Colleges at Anantapur (Guindy) and Vizagapatam (Cocanada).

* * *

In 1946 the Government sanctioned the opening of two Engineering Colleges - one at Vizagapatam and another at Anantapur. The Vizagapatam College is located at Cocandda in the buildings of the combined Military Hospital pending construction of permanent buildings at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur College, the students admitted on account of this college were distributed between the Guindy Engineering College and the A.H.College of Technology at Coimbatore (fifty in the Guindy College and fifteen in the Coimbatore College). Necessary staff was also sanctioned for both these Colleges. The 2nd year classes will be opened in these colleges in 1947-48 and the Director of Public Instruction has submitted proposals for the employment of additional staff required.

2. Anantapur College:

In 1946, Government sanctioned the following staff for this College:--

A.

1) One Instructor (Madras Educational Service)
2) Three Assistant Instructors
3) One Assistant Lecturer (Mathematics)
4) Two Demonstrators
5) One Upper Division Clerk
6) One Lower Division Clerk
7) One Steno Typist
8) Four peons

B.

1) Principal
2) Two Assistant Lecturers (Physics and Chemistry)
3) One Senior Work Shop Instructor
4) One Carpentry Instructor
5) One Physical Director
6) One Sub Assistant Surgeon
7) One compounder
8) One Ward attendant.

The Principal of the College of Engineering, Guindy, was appointed to hold full additional charge of the duties of the post of principal, College of Engineering, Anantapur and was permitted to draw a charge allowance equal to 1/5 of his substantive pay. Similarly the assistant Lecturers etc. in the Guindy College were, in addition to their duties, permitted to hold full additional charge of the posts mentioned under B above, and draw 1/5 of their Substantive pay.

3. Subsequently, as the number of additional students admitted in the Guindy College on account of the Anantapur College was only 50, the Director of Public Instruction was asked whether the additional staff and the other arrangements including the grant of charge allowance sanctioned already required revision. The Director of Public Instruction stated that in addition to utilising the services of the staff mentioned at B in para 2 above, the following additional staff was necessary.

P.T.O.

3 Assistant Instructors
1 Assistant Lecturer in Mathematics
1 Demonstrator in Physics
1 Demonstrator in Chemistry Y.
1 Lower Division Clerk
1 Typist
1 Peon.

The Director of Public Instruction also reported that the Assistant Lecturer in Mathematics and 2 demonstrators had already joined duty and that the Assistant Instructors would be joining duty shortly and that he was permitting the principal to emply a Lower Division Clerk, a typist and a peon.

4. Later on, the Director of Public Instruction was asked to explain in detail the necessity for such a large staff of 3 Assistant Instructors, one Assistant Lecturer in Mathematics and 2 demonstrators, as no Engineering College for Anantapur as such had been opened and as only 50 additional students had been admitted in the Guindy College. The Director of Public Instruction was also asked whether there was any justification to grant any charge allowance to the staff of the Guindy College.

In connection with the Part II estimates the Director of Public Instruction proposed an additional staff of 2 professors and 1 typist for the College. The Director of Public Instruction was then asked to justify more fully the need for employing 2 professors in the College. The Director of Public Instruction has submitted a report on all the points ~~o~~n which information was called for.

1946-47

In view of the reasons given by the Director of Public Instruction, Education and Public Health propose~~d~~ to approve his action in having employed the additional staff mentioned at Y in para 3 above. This staff falls short of the full compliment of the staff sanctioned originally only by one Instructor (Madras Educational Service), one Upper Division Clerk, and 3 peons. The Finance Department have agreed to this proposal.

The Principal of the College of Engineering, Guindy considers that there is no need for the grant of a charge allowance for the staff in the Guindy College. The Director of Public Instruction agrees, but considers that allowance drawn upto the end of October 1946 may be rattified. As the position was not quite clear in the beginning, Education and Public Health support the Director of Public Instruction's recommendation. Finance also agree.

1947-48

The Principal has proposed the following additional staff from 1947-48:-

(a) 3 Instructors
(b) 3 Laboratory Assistants.
(c) 4 Assistant Instructors.
(d) 1 Junior Work Shop Instructor
(e) 1 Assistant Lecturer in Mathematics
(f) ~~1 Upper Division Clerk~~ 2 Demonstrators
(g) 1 Upper Division Clerk
(h) 1 Lower Division Clerk
(i) 1 Typist
(j) 1 stenographer
(k) 2 Instrument Repairers
(l) 3 Mechanics
(m) 3 Attenders
(n) 1 Foreman Fitter
(o) 1 Foreman Carpenter
(p) 4 peons

Most of these posts are included in Group A mentioned in para 2 above.

(a) above: One Instructor has already been sanctioned. The Finance department suggest that as the Instructors are needed not so much for giving instruction to the students as for other purposes connected with the planning of the departments of Civil, Mechanical and Electrical Engineering of the Anantapur College, all the three posts need not be in the Madras Educational Service cadre, but that Assistant Instructors will be sufficient, that the Director of Public Instruction may be asked about the suggestion and that the demand may, for the present, be vetoed. Education and Public Health ~~p~~ press for the acceptance of the Director of Public Instruction's proposal, as planning work is as important as instruction work and as college work will suffer if the necessary equipment etc. is not got ready soon. Orders have also been issued to transfer from Coimbatore to Guindy, the 15 students earmarked for the Anantapur College; besides, all the students to be selected in 1947-48 for the Anantapur College, will receive their training only at Guindy. Further there are already complaints that the new colleges are not up to the standard. H.Ms(Education) and Finance have ~~xxxxxxxxx~~ minuted that as the staff is considered necessary, they may be given.

(b) (d) (k) (l) (m) (n) and (o)

Education and Public Health recommend that these posts may be sanctioned. Finance agree.

(c) above

Three Assistant Instructors have already been sanctioned. Education and Public Health recommend that one more Assistant Instructor may be sanctioned. Finance agree.

(e) and (f) above

One post of Assistant Lecturer in Mathematics and two posts of Demonstrators have already been sanctioned. It is proposed to approve the Director of Public Instruction's action in having utilised ~~xxx~~ the sanction; the consent of Finance has been obtained and hence the employment of the additional staff ~~xxx~~ is unnecessary.

(g) and (h) above

An Upper Division Clerk and a Lower Division clerk have already been sanctioned. There is threfore no need to sanction the ~~xxxx dexxxxxxxxx~~ appointment of additional clerks.

(i) and (j) above

One stenotypist has already been sanctioned. The Director sanctioned the appointment of a typist in 1946-47. The Principal wants a stenographer for 1947-48. Education and Public Health recommend that a typist's post may be sanctioned now and the Director of Public Instruction may be told that he may utilise the sanction already given for the stenographer. Finance consider that there is no need for a typist and that the demand may be negatived. Education~~s~~ and Public Health press for the sanction of a typist and H.Ms (Education) and Finance have agreed with Education and Public Health.

(p) above

Four peons have already been sanctioned. Out of this, one peon has already been employed. It is proposed to authorise

P.T.O.

the Director of Public Instruction to appoint the other three peons also. Finance agree.

Vizagapatam Engineering College (Cocanada)

5.With the opening of the Engineering College, Vizagapatam (Cocanada), the Government have sanctioned the employment of the following teaching staff required for the college for the first two years. The staff sanctioned is as follows:-

1 Principal
1 Professor
1 Instructor
1 Lecturer in Mathematics
2 Assistant Instructors
1 Senior Workshop Instructor
2 Workshop Instructors

6.The Director of Public Instruction proposed the employment of additional staff for the second year class of the college in 1947-48. After an examination of the ease, it was considered sufficient to accord sanction to the following staff as against the demand made by the Director of Public Instruction: --

Director's proposals	Staff sanctioned
% 3 Professors	2 Professors (one each for Mechanical and Electrical Engineering)
1 Instructor	Nil
2 Assistant Lecturers (one each for Mathematics and ~~Services~~ science)	1 Assistant Lecturer (both for Mathematics and Science)
3 Assistnat Instructors	Nil
1 Junior workshop Instructor	Nil
2 Laboratory Assistants	2 Laboratory Assistants
1 Survey Store attender	1 Survey store attender
1 Laboratory attender	1 Laboratory attender
1 Instrument Mechanic	1 Instrument Mechanic
1 Electric Mechanic	1 Electric Mechanic
1 Sergeant	1 Sergeant
6 peons	Nil

The Director of Public Instruction was asked to justify more fully the need for the additional post of Professor, 1 Instructor 3 Assistant Instructors and 1 Junior workshop Instructor; it was considered unnecessary to sanction any more peon as the college had already 9 peons. The Director of Public Instruction has now given reasons for asking the above additional staff (one additional Professor, one Instructor, three Assistant Instructors and one Junior workshop Instructor). The Finance Department agree to all the posts being sanctioned except that of the Professor. They consider that there is no need for sanctioning a further Professor as he is required merely for doing preliminary work and not teaching work. Education and Public Health consider that even for preliminary work, a Professor is necessary as laboratories and workshops have to be provided with the necessary equipment in advance. H.Ms(Education) and Finance have minuted that the staff proposed by the Director of Public Instruction may be sanctioned.

7.The following statement shows at one view the additional staff now proposed for each of the colleges at Anantapur (Guindy) and at Vizagapatam (Cocanada), the views of Education and Public Health and Finance and the minutes of H.Ms.(Education) and Finance--

Anantapur College (Guindy)

Additional Staff proposed by the Director of Public Instruction.	Staff recommened by Education and Public Health.	Staff agreed to by Finance	Minutes of H.M(Education) and Finance
2 Instructors 3 Laboratory Assistants 1 Junior Workshop Instructor 2 Instrument repairers 3 Mechanics 3 Attenders 1 Foreman Fitter 1 Foreman Carpenter 1 Assistant Instructor 1 Typist	All proposed by the Director of Public Instruction.	All proposed by the Director of Public Instruction and recommended by Education and Public Health except 2 Instructors and 1 Typist	All proposed by the Director of Public Instruction and recommended by Education and Public Health

Vizagapatam College (Cocanada)

1 Professor 1 Instructor 3 Assistant Instructors 1 Junior Workshop Instructor	All proposed by the Director of Public Instruction.	All proposed by the Director of Public Instruction and recommended by Education and Public Health except 1 Professor	All proposed by the Director of Public Instruction and recomended by Education and Public Health

As the colleges re-open by the beginning of July, the additional staff has to be sanctioned immediately. The permission of the Committee may be obtained for issuing orders without reference to the Cabinet

8.An estimate of the additional cost involved is given in the appendix.

M.V.Subramanian,
Secretary to Government.

Letter from the D.P.I No: 501/K2/46
dt 7.5.47

Order (Edu) 1528 dated 14-7-47
MS

The Govt. sanction the employment of the following addl. staff in the Eng. College, Anantapur (Guindy) for a period of two years from the date of employment:—

p 149 cf

One Asst Instructor -	Rs 180-10-280
Three Laboratory Assts -	Rs 180-10-250
One junior workshop instructor	Rs 180-10-250
Two Instrument Repairers	Rs 35-60
Three Mechanics -	Rs 40-65
One Foreman Fitter -	Rs 45-70
One Foreman Carpenter	Rs 45-~~40~~ 70
Three attenders	Rs 24-35

2 The following orders are passed on the other items of staff proposed by the Principal of the College:—

p 13 nf

(a) Three Instructors.

One Instructor was sanctioned in G.O. No: 1163 Edu dt 12-6-46. The two addl instructors proposed are presumably required to work under the Professors of the Eng. College, Guindy, and to carry out the ~~planning~~ of the Anantapur College; besides they are be utilised for work of the Guindy college. The instructors are thus needed not so much for giving instruction to the students as for other purposes connected with the planning of the depts of Civil, Mechanical and Electrical Eng: of the Anantapur College

(4)

p 16 nf

2 162

It has been suggested that for carrying out the object all the three posts need not be in the Madras Edl. Service cadre but that two more Asst Instructors in Madras Edl. Art Service will be sufficient. The D.P.I is requested to offer his remarks on the suggestion very urgently. p 16 nf

(b) Four Asst Instructors

Sanction is being accorded to the appointment [~~of one Asst~~ Instructor in para 1 above. Three Asst Instructors were sanctioned in GO No: 1163 Edn dt 12.6.46. The Director's action in having filled these three posts in 1946-47 is approved (4) pp 12, 13 & 17 nf

(c) One Asst Lecturer in Mathematics
Two Demonstrators (One for Physics and one for Chemistry)

These posts were sanctioned in GO No: 1163 Edn dt 12.6.46. The Director's action in having filled these posts in 1946-47 is approved (4) — do.

(d) One Upper Division clerk
One Lower Division clerk
One Typist X
One Stenographer ✓

One post of Upper Division clerk was sanctioned in GO No: 1163 Edn dt 12.6.46. (4) The Director is informed that this sanction may be utilised p 14 NF

One post of Stenotypist was sanctioned in the same GO. The Director sanctioned the appointment of a typist in 1946-47. His action is approved. The sanction given for the ~~Stenographer~~ Stenotypist may now be utilised. The Govt are not convinced of the need for an addl typist do

(e) Four Peons

Four Peons were sanctioned in GO No: 1163 Edn dt 12.6.46. The Director sanctioned the filling of one of the posts in 1946-47. His action is approved. (4) The sanction for the remaining three peons may now be utilised. do

3 In GO No: 1163 Edn dt 12.6.46. the Principal (4)

---

85 8 163 3

Eng College, Guindy and the Asst. Lecturers &c in the Guindy college were in addition to their duties permitted to hold full addl charge of the posts mentioned under B in para 2 of the GO and draw 1/5 of their substantive pay. The Govt agree with the D.P.I that the grant of this allowance is unnecessary. The allowance drawn by the Principal and Staff up to the end of Oct 1946 is ratified. pp 13 & 18 nf

4 The extra expenditure in the current year will be debited to the head "37-d Edn - University - Govt Professional Colleges - E - Post war Reconstruction (ii) Eng: Colleges - Vizagapatam and Anantapur". The A.G. is requested to admit the expenditure in audit pending provision of funds. p. 207 ?

Secy., E. & P.H.

Mr. Seetharaman, Principal of the Engineering College, Guindy says that even in case the matter of the Anantapur College of Engineering does not materialise, ~~that~~ he will be prepared to take a hundred more students and work on the shift system. I understand that he has sent a detailed list of what he wants for two years if he is to work on the shift system. I think that we can adopt this method and admit ~~100~~ more boys and if necessary tag on these boys with Anantapur College when it comes into existence. I suggest that this matter may be looked into independentl~~y of other matters~~ of the starting of the new colleges so that we can go ~~on with this~~ ahead, this year.

I will be glad if the necessary investigations are made and reported to me by the 5th inst.

T S Avinashilingam
30-5-46

of
31/5/46

Mr. Seetharaman's proposal to admit 100 more students in the College of Engineering, Guindy, and to impart instructions to them ~~following the~~ under a shift system is the same as that proposed by the Organizing Principal in his letter to the Director of Public Instruction for starting the Engg. College for Anantapur at Guindy, temporarily which is now under separate consideration. It is understood from the Principal that the entire staff suggested in the letter of the Organizing Principal is the absolute minimum required for working the shift system. He proposes to hold classes for the additional 100 students in the workshops during the periods when it is ~~left unworked~~ not used by the students of the Guindy College. The arrangements of the time table as between the students of the college and the additional 100 students would be such as not to impair the efficiency ~~of~~ in instruction given the Guindy College students. Class rooms when left vacant by the students of the Guindy College will be utilised for holding classes for the additional students. It is also proposed that the addl.

hostel accommodation required for the 100 students will be provided in the buildings vacated by the Military (War technicians). To provide these rooms with furniture, it is understood that the Industrial Adviser to Government has promised to supply the teak-wood required. The proposal of Mr. Seetharaman will avoid giving a separate name — i.e. "Anantapur College at Guindy"; in all other respects, the proposal of the Organising Principal does not differ from that of Mr. Sitaraman. In either case, the University should be consulted; if the ~~new~~ admissions should be for a new College, the University will have to be consulted for its affiliation; if it is for ~~strengthening~~ increasing the existing institution, the University should only be satisfied as to whether the staff, buildings, equipment etc., allotted for the purpose will be sufficient. It therefore seems that when the University is addressed on the main proposal for the affiliation of Anantapur Engg. College ~~the~~ an alternative suggestion may also be ~~given~~ made to the effect that if the affiliation proposed is not agreed to by the University, the strength of the Guindy College may be increased by 100 more students per year with the ultimate object of ~~tagging on~~ transferring these students to the Anantapur College when it actually come into existence.

For orders as to circulation.

3.6.46

4/6/46

The question of opening the Anantapur college is dealt with in the file below. There is no difficulty in starting the Anantapur college, except that the university will have to be consulted on the question of affiliation; but even in the case of the ~~present~~ 'shift' system proposed, the university will have to be consulted. We may ask the Vice-Chancellor of the university to meet the H.M (Edn) in this connection. A date and hour may kindly be fixed, and the H.M may ring up the Vice-Chancellor, or send him a D.O.

Secretary, E. & P.H.

Apart from the representation ~~to~~ from the Vice-Chancellor of the Andhra University, I have received representations from many others in this matter. I would like to know whether for certainty we can start the Anantapur and the Cocanada Engineering Colleges this year. As far as I see except permission of the University, other things can be done and I hope the University also will give the requisite permission in the meeting of their Syndicate on the 26th. In that case and if things are ready, I do not ~~know~~ see any reason why it should not be possible for us to start the Colleges this year and invite applications for this College also.

Has finance been provided for these Colleges is another matter to be examined and it may be urgently obtained and reported.

17-6-46

Orders have been issued in G.O.1163-Edn., dated 12-6-46, sanctioning the opening of two Engg. Colleges - (1) the Vizagapatam Engg. College at Cocanada, and (2) the Anantapur Engg. College at Guindy. Necessary note has been sent to Finance for making provision in the budget.

2. The Syndicate of the Andhra Unty. has given the necy. recognition for the Vizagapatam College and has undertaken to give all necy. facilities for its opening. There ~~is~~ may not therefore be any difficulty for starting this college in July 1946.

3. As regards the Anantapur College, pl. see the letters of the V.C., Madras Unty., on pp.23-25 C.F. He has pointed out that the procedure laid down in Chapt.XXVI of Vol.I of the Unty.Calendar (Part I) should have been followed before the Syndicate ~~can~~ could recognise or affiliate colleges; ~~that~~ under Statute 31 of that Chapt., recognition, affiliation or approval cannot be given with retrospective effect. The V.C. has also impressed upon Govt. that ~~no~~ action in regard to the

CF 15
CF 23
CF 13
CF 5
CF 23
pp.333-342

appt. of staff for the college should be deferred until a further communication is recd. from the Unty. The possibility of the Unty. not granting ~~an~~ affiliation to the college immediately was anticipated and, as an alternative, the University was asked to agree to an increase in the strength of the Guindy Engg. College by 100 more students in the next 2 yrs. From the V.C.'s letter addressed to the H.M. (Edn.), it would seem that the Unty. is agreeable to the alternative proposed. The D.P.I. may now be asked to communicate at once to the Unty. the information reqd. at "A", C.F.25 and be directed not to take steps for the starting of the college pending receipt of further orders.

Please see below
17.6.46

JRM
17/6/46

I suggest that the Vice-Chancellor may be contacted and the matter discussed with him informally: It seems a pity that we should go back on a proposal so desirable in itself merely because the university insists on rules being observed. I do not see the difficulty in affiliation being granted by the university. Rules are made to facilitate and not cramp educational progress. I shall try to meet the Vice-Chancellor myself tomorrow morning and shall report the result to the H.M. tomorrow afternoon.

c.17/6/46

I could not meet him this morning. I shall try to meet him tomorrow.

18.6.46

SECRETARY, EDN. AND P.H. DEPT.
18 JUN 1946
GOVERNMENT OF MADRAS

University Calendar to be sent to Secy.

I met Dr Lakshmanaswamy on 20.6.46 at his Bungalow.

He said that he had no objection to 65 candidates being admitted for the Anantapur college, 50 at Guindy and 15 at Coimbatore, and that all 65 of the candidates may be moved to Anantapur when the buildings there are ready.

He was anxious that the buildings should be put up at Anantapur as soon as possible, and that we should make permanent arrangements for the Coimbatore Engg. college as early as possible within the promised period.

I also understand that he met the H.M. (Edn) today at about 3 P.M. and expressed the same views. H.M. (Edn) has agreed to them, and told me over the phone that he has agreed to the V.C.'s proposals.

T.M.'s have been issued to the Principal of the Engineering College on the same lines. (at 1.30 P.M.)

The Principal has also been informed (at 12 noon) that 20% of the selections should be on pure merit, and the rest on communal basis in accordance with the instructions already issued and in force now.

21.6.46

H.M. (Edn) for perusal

A note since recd. from H.M. (Edn) is added to C.F. Under Statute 24 of the laws of the University, the applications to the University in this respect have to be made by the DPI in the case of all Govt. colleges. A draft memo to the Director is submitted for approval.

c. 10/7/46

p 97 CF

Y pp 101-102 CF

In G.O. No. 1163 Edn d 12-6-46 the Govt. sanctioned the opening from 1946-47, of two Engg. Colleges one ~~for~~ at Vizagapatam and the other at Anantapur. They also sanctioned the necy staff required for the colleges and fixed

SECY., EDN. AND P. H. DEPT. 1 JUL. 1946 GOVERNMENT OF MADRAS

the strength of each of the colleges at 100 students. Pending construction of buildings it was proposed to open the Vizagapatam college temporarily at Cocanada and the Anantapur college at Guindy. The former was duly opened at Cocanada on 16.7.1945. As regards Anantapur College, affiliation could not be obtained in the current year from the University and so arrangements were made to admit 50 additional students in the Engineering College, Guindy and 15 additional students in the Arthur Hope College of Technology, Coimbatore, with the ~~ultimate~~ object of transferring these students to the Engineering College, Anantapur, when it ~~is~~ was eventually opened.

p 97 CF

pp 31-32 CF

pp 53-54 CF

In the meantime, the D.P.I. was requested to state whether, in view of the fact that the number of students admitted in the Guindy college on account of the Anantapur College, was only 50, the sanction for staff accorded in G.O. No 1163 Education, dated 12.6.1946, ~~in respect of staff~~ required any revision. His reply (extract) is on p. 97 c.f.

Y pp 101-102 CF

It is stated that in addition to the utilization of the Guindy college staff mentioned in para 2 B of the G.O. referred to above, the employment of additional staff as at A. on p. 97 c.f. is absolutely necessary. The additional staff now required falls short of the full complement of the staff sanctioned in para 2 A of the G.O. only by one Instructor -M&S, one upper division clerk and three peons, although the students admitted represent half the total number (100). The D.P.I. has not explained in detail why so much staff is necessary. Probably it has become so owing to the fact that the 50 students, in this case, are dealt with as a separate unit, for ~~the~~ purposes of various items of instruction. The Director has not explained the need for this. For orders whether he should be asked to do so. If, however, this is considered unnecessary, as the staff required ~~may~~ is within the limit already sanctioned for the college, its employment may be accepted.

Y pp 101 CF

A a Y/s: let us have further report. y

The posts not required now (1 Instructor , 1 Upper Division clerk and 3 peons) may be held in abeyance for the present. // The Director has not stated whether the charge allowance sanctioned in the G.O. ~~to the staff~~ in the Guindy College should be ~~continued~~ paid, now that there is no separate college for Anantapur, as such, and only 50 additional students have been admitted into the Guindy College. Apparantly, the charge allowance has also to be paid as the 50 additional students are treated as "separate unit".

Get a clear rept. on this point.

B

The file may be sent to Finance for remarks.

88

p 101 cf (4)

In G.O.No.1163 Edn. dated 12-6-46 the Govt. sanctioned the following staff for the Engineering College, Anantapur at Guindy:-

A.

1. Instructor (M.E.S.)
3. Asst.Instructors
1. Asst.Lecturer (Mathematics)
2. Demonstrators
1 Upper Division Clerk
1 Lower Division clerk
1 Steno-typist
4 peons

B.

1 Principal
2 Asst.Lecturers (Physics and Chemistry)
1 Senior Workshop Instructors
1 Carpentry Instructor
1 Physical Director
1 Sub Asst.Surgeon
1 Compounder
1 Ward attendant

Held by officers of the Engineering college. Vacant from 1-11-46.

The Principal of the College of Eng., Guindy, was appointed to hold full addl. charge of the duties of the post of Principal of the College of Eng., Anantapur, and was permitted to draw a charge allowance equal to 1/5 of his substantive pay. Similarly the Asst.Lecturers etc in the Guindy college were, in addition to their duties, permitted to hold full addl. charge of the posts mentioned under B above and draw 1/5 of their substantive pay.

p 101 cf (4)

2. Subsequently as the number of addl. students admitted in the Guindy college on account of the Anantapur College was only 50, the D.P.I. was asked whether the addl. staff and the other arrangements including the grant of charge allowance sanctioned in G.O.No.1163 Edn. dated 12-6-46, required revision - please see Memo. No.28893A 46-3 dated 4-7-46. In his letter No.501 K2/46 dated 3-9-46, the D.P.I. stated that in addition to utilising the services of the staff mentioned ~~at A~~ in B above, the following addl. staff

(4)

pp 53-54 cf

p 97 cf

was necessary:-

3 Asst.Instructors

1 Asst.Lectuerer in Mathematics

11 Demonstrator in Physics
1 Demonstrator in Chemistry
1 Lower Division clerk

1 Typist

1 Peon

y p 97 cf

The D.P.I. also reported that the Asst.Lecturer in Mathematics and the two Demonstrators had already joined duty and that the Asst.Instructors would be joining duty shortly and that he was permitting the Principal to employ a lower division clerk, a typist and a peon. — do —

3 In Memo.No.28893 A/46-6 Edn. dated 28-10-46, the D.P.I. was asked to explain in detail the necessity for such a large staff of 3 Asst.~~Lecturers~~ Instructors, 1 Asst.Lecturer(Mathematics) and 2 Demonstrators, as no Eng. College for Anantapur as such, had been opened and as only 50 addl. students on account of that college had been admitted into the Guindy college. The Director was also asked whether there was any justification to grant any charge allowance to the staff of the Guindy college. pp 99-100 cf

In connection with the Part II estimates for 1947-8, the D.P.I. proposed the following items of expenditure on account of the Anantapur college. p 5 cf of S.O.No. 1057 Edn. 21.5.47 (W) in DF.

Staff

2 Professors (600-900)

1 Typist

Lands Buildings and Equipment

		Rs.
Lands	...	4,000
Buildings	...	61,20,000
Equipment ~~Buildings~~	...	14,23,600
		75,47,600

— do —

In Memo.No.57331 A/46-7 dated 10-1-47 the D.P.I. was asked to justify more fully the need for employing two Professors in the college. About buildings and equipment a further report was called for from the D.P.I. The D.P.I. has now submitted a report on all the points on which reports were called for. They are examined below:- pp 15-16 cf (W) in DF copy on page pp 115-116 cf

pp 111-142 cf

---

4 Staff

p 123-129 cf

1946-47 In the circumstances explained by the Principal of the Eng. College, Guindy, his action in having employed the addl. staff at Y above may be approved. This staff falls short of the full complement of the staff sanctioned in para 2 A.of G.O.NO.1163 Edn. dated 12-6-46 only by one Instructor, (M.E.S) one upper Division clerk and three peons. p 12 ante (4)

The Principal considers that there is no need for the grant of a charge allowance ~~on~~ to the staff in the Guindy College. The D.P.I. agrees, but considers that the allowance drawn up to the end of October 1946 may be ~~sanctioned~~ ratified. As the position was not quite clear in the beginning, the Director's recommendation may be accepted. para 16, p 121 cf p 117 cf N

5 1947-48 The Principal has proposed the following addl. staff from 1947-48:- p 124 cf

(a)	3 Instructors	(Rs.230-700)
(b)	3 Laboratory Assts	(Rs.180-10-250)
(c)	4 Asst.Instructors	(Rs.180-10-280)
(d)	1 Junior workshop Instructors	(Rs.180-10-250)
(e)	1 Asst.Lecturer in Mathematics	(Rs.120-5-170-7-240) +5 for L.Ts.
(f)	2 Demonstrators	(Rs.80-5-120-10-140)
(g)	1 Upper Division clerk	(Rs.80-110)
(h)	1 Lower Division clerk	(Rs.45-90)
(i)	1 Typist	(Rs.45-90)
(j)	1 Stenographer	(Rs.45-90+25 35 Allowance)
(k)	2 Instrument repairers	(Rs.35-2-55-1-60)
(l)	3 Mechanics	(Rs.40-2-50-1-65) ✓
(m)	3 Attenders	(Rs.24-1-32-1/2-35)
(n)	1 Foreman fitter	45-3-60-2-70 (Rs.45-2-65-1-70)
(o)	1 Foreman Carpenter	— Do — (Rs.45-2-65-1-90)
(p)	4 peons	(Rs.16-25)

(a) above. Many of these posts are included in Group A mentioned at page 11 ante

One Instructor was sanctioned in G.O.No.1163 Edn. dated 12-6-46. In the circumstances ~~by~~ stated by the Principal, two more posts of Instructors may be sanctioned. p 101. (4) paras 13 & 14, p 125 cf

(b), (d), (k), (l), (m), (n), (o)

In the circumstances stated by the Principal, these posts may be sanctioned. pp 126, 128, & 129 cf

14

(c) above

3 Asst.Instructors were sanctioned in G.O.No.1163 Edn. dated 12-6-46. In the circumstances stated, one more Asst.Instructors may be sanctioned.

(4) p101cf

| bg p127cf

(e) & (f) above.

One post of Asst.Lecturer in Mathematics and two posts of Demonstrators have already been sanctioned in G.O.No.1163 Edn. dated 12-6-46. The Director's action in ~~his~~ having utilised ~~the~~ sanction is being approved. No further action is necessary.

(4) p101cf

form 4 on p12 ...

/ bg

//

(g) and (h)

One post of U.D.Clerk and one post of L.D.clerk have already been sanctioned in G.O.No.1163 Edn. dated 12-6-46. The Director may be informed that this sanction may be ~~approved~~ utilised.

(4) p101cf

/ bg

//

(i) and (j) above.

One Steno-typist was sanctioned in G.O.No.1163 Edn. dated 12-6-46. The Director sanctioned ~~to a point~~ the appointment of a typist in 1946-47. The Principal wants a stenographer from 1947-8. A typist's post may be sanctioned now and the D.P.I. may be told that he may utilise the sanction already given for the stenographer's post.

(4) p101cf

p97cf

p128cf

/ bg

//

(p) above

4 peons were sanctioned in G.O.No.1163 Edn. dated 12-6-46. Out of this, one peon has already been employed and it is proposed to ~~[illegible]~~ ratify this. The Director may be authorised to appoint the ~~[illegible]~~ other 3 peons also. The question of fresh sanction does not arise.

(4) p101cf

p129cf

7-6-47

7 JUN 1947
FINANCE DEPARTMENT

34310

Fin. E.

Please see the notes from portion marked X on page 8 above.

The proposal is to sanction for the second year course of the Engineering college Anantapur located at Guindy the following additional staff besides the staff already sanctioned in GO 1163 Edn d 12-6-46:-

page 101cf of GO at (Y)

See pages 13-14 above

✓ 2 Instructors on Rs 230-700 +
✓ 3 Laboratory Assistants on Rs 150-10-250 ✓
✓ 1 Junior workshop Instructor on 150-10-250 ✓
✓ 2 Instrument repairers Rs 35-60 ✓
✓ 3 Mechanics on Rs 40-65 ✓
✓ 3 attenders on 24-35 ✓
✓ 1 foreman fitter on 45-90 ✓
✓ 1 foreman carpenter on Rs 45-90 ✓
✓ 1 Asst Instructor 150-250 ✓
✓ 1 [illegible] post 45-90 + spl pay 10.

The extra cost involved in the additional staff works out to Rs 41,200 p.a.

see flag (M)

2. The need for the additional posts is examined below.

16

~~Instructors~~ one instructor was sanctioned in G.O. 1163 Edn d 12-6-46. The staff sanctioned in that G.O. was just considered adequate for the first two years' courses. The Principal, Engineering College Guindy who is in charge of the Anantapur College points out that there is need for 3 instructors – please see para 14 of his ~~rate~~ reference on pp 125-6 CF. ~~In the interest of~~ These instructors are required to work under the Professors of the Engineering College Guindy and to carry out the planning of the ~~Anantapur~~ EP78 college; besides these will be utilised for work of the Guindy college which is stated as understaffed. The instructors are thus needed not (for) so much for giving instruction to the students but for other purposes connected with the planning of the departments of Civil, Mechanical and Electrical Engineering of the Anantapur college. EP(I) agree to the p[illegible] additional two ~~three~~ posts. Submitted that this Dept may suggest that ~~these~~ for carrying out the object all of the three posts ~~[illegible]~~ need not be posts in the M.E.S. cadre; ~~The DPI may be asked to~~ but that Asst Instructors will do. There is already 1 post of Instructor and perhaps 2 Asst Instructors will do. Instructors ~~[illegible]~~ will be sufficient. The DPI may be asked ~~whether~~ about this suggestion and the demand may for the present be returned.

---

95 91 17

page 101 CF of (Y)

The need for a ~~further~~ fourth Assistant Instructor (3 have been already sanctioned in G.O.1163 Edn. dated 12-6-46) is set out in para 20 of the reference on p.127 CF. The additional post may be agreed to

The other additional posts are required as indicated below:-

Paras 15-17 on p 126 CF

(i) 3 Laboratory Assistants. These are to work in the strength of Materials, Electrical and Mechanical laboratories. The existing laboratory Assistants in the Engineering College are considered inadequate to give the necessary supervision ~~of~~ for the Anantapur College ~~xxxxx~~ students. May be accepted.

(ii) 1 Junior workshop Instructor. Please see para 19 on p.126 C.F. In the circumstances stated therein the proposal to have a separate junior workshop Instructor may be agreed to

See paras 26-30 on pp 128-129 CF

See p 101 CF of (Y)

(iii) 2 Instrument repairers, 3 mechanics, 3 attenders, 1 foreman fitter and foreman carpenter proposed now may for the reasons given in paras 26 to 30 on pp.128-129 C.F. be agreed to. These posts were not originally sanctioned.

(iv) A typist is now needed besides the stenotypist sanctioned already. A stenotypist had already been allowed. The need for a typist in addition is not sufficiently made out. The demand may be ~~vetoed~~ negatived. // If the suggestions of this Department are agreed the extra cost on account of additional posts will be Rs 26,000. In any case the additional cost is above Rs 20,000 per annum.

If the proposals of EP(I) are agreed in full the extra cost is Rs 41,200 p.a.

pages 101-102 CF of (Y)

of para 6, p 13 NF of G.O. (W) in NF

3 In connection with certain ~~other~~ additional posts required for the new colleges Anantapur and Vizagapatam (at Cocanada) this Department held the view that as the additional posts were not considered at the time of sanction accorded in G.O.1163 Edn dated 12-6-46 proposal for these posts should be treated as a Part II scheme. The need for additional posts for Anantapur College then put forward was however not recommended by

A

E.P.H but the additional posts required for the Engineering College vizagaptam at Cocanada were concerned. In a similar way the proposal for additional posts now asked ~~doe~~ for the second year course for Anantapur College which have to be sanctioned in the current year have to be treated as a new service as the cost is orver Rs 20,000 p.a. The proposal has therefore to be referred to the Standing Finance Committee and the Cabinet. The instructions issued by Finance Department in the matter of obtaining a supplementary estimate of expenditure required in 1947-8 has also to be followed. The other proposal of E.P.H in regard to utilisation of sanction accorded in G.O.1163 Edn dated 12-6-46 calls for ~~xxxx~~ no remarks. A report is to be called for in regard to equipment, building required for temporary accommodation of the College and no remarks are called for.

See page 12 proposal (w) ante

(y) See p 11 above & para 4 of EPH note on p 13 above

pp 14-15 above

4 The proposal of E P H at 'N' on p 13 above may also be agreed to.

5 With the above remarks the case may be returned to EPH.

18 JUN 1947
GOVERNMENT OF MADRAS

A draft note for the Standing Fin Committee is placed below.

The linked file which relates to the addl staff required for the Vizagapatam College at Cocanada was circulated with this file. But it has not been seen by H.Ms (Edn) and Finance. It is presumed that the orders ~~at~~ in circulation above apply to that case also. The draft note has been prepared on this ~~presumption~~ basis — vide the last sentence in para 2 on p.7 of the note. Anyhow the case will be circulated to the H.Ms before orders are actually ~~issued. [illegible]~~

A

As the Colleges ~~reopen early in July~~, the addl staff has to be sanctioned very urgently. The Standing Finance Committee is therefore being requested for permission to issue orders without reference to the Cabinet

The draft note may be sent to the Fin dept for acceptance.

It is understood that the next meeting of the Finance Committee will be held on the 19th instant. Ordinarily, a week's notice is necessary for a scheme being included in the agenda. In view of

~~16.6.47~~

14/6/47.

urgency in this case, Finance may be requested to agree to this scheme being considered by the Committee on the 19th. / B

A draft order sanctioning the addl. staff required for the Anantapur College (Guindy) is subd. The ~~file relating to the~~ staff required for the Viz. College (Cocanada) is being dealt with separately. Action will also be taken in due course to get a A supplementary ~~[illegible]~~ estimate of expenditure required in 1947-48.

As regards II on pages 14-15 ante, the D.P.I has since sent a report stating that the Expert Committee has recommended that the Anantapur college may be temporarily located in the Dehydration Factory at Anantapur. The Director has also requested that steps may be taken to make suitable alterations to the factory buildings. That file has been subd. So no action is necessary in this file about buildings, equipments etc.

Finance may see before issue

R. C. No. 501-K2/46.

Station Madras, *Dated the* 16th September 1947

From (Name) Dr.S.R.U.Savoor, M.A.,D.Sc.,I.E.S.,

(Designation) Director of Public Instruction,

Madras.

To The Secretary to the Government of Madras,

Education and Public Health Department.

Fort St. George, Madras.

Sir,

In their Order referred to above, Government have sanctioned the employment of an Assistant Instructor in Mechanical Engineering for the Engineering College, Anantapur for a period of 2 years from the date of employment. In his letter R.C.13-1 A/46 dated 3.8.1947 (copy enclosed) the Principal, College of Engineering, Guindy, has pointed out the difficulty of obtaining mechanical Engineering graduates for the above post and requests that instead of an Assistant Instructor in Mechanical Engineering borne on the cadre of

P.T.O.

the Education Department, an Assistant Instructor in Civil Engineering drawn from the P.W.D. may be sanctioned. As it is reported that an Assistant Instructor in Civil Engineering is urgently required, I have in anticipation of sanction of Government approved the action of the Principal in having requested the Chief Engineer to post a Supervisor with Civil Engineering qualification as Assistant Instructor. I request that my action may kindly be ratified.

R. Narasimha

For Director of Public Instruction.

ks. 17.9. Sd 17/9

Copy of letter R.C.No.13-1A/46 dated 3rd August 1947 of the Principal, College of Engineering, Guindy to the Director of Public Instruction, Madras.

Ref:-Your Proceedings Roc.No.501-K2/46 dated Nil communicating G.O.No. Ms.1528-Edn., dated 14..7..1947. (E)

I have requested for the Anantapur College an Assistant Instructor in Educational Service and his full designation will be Assistant Instructor in Mechanical Engineering. The post of Assistant Instructor in Mechanical Engineering in Guindy College has been vacant since July 1947. Although I have asked and written to a number of Mechanical Engineering Graduates for taking up the post, nobody is willing to take it up. It will not therefore be possible for me to fill up the post of the Assistant Instructor. In Mechanical Engineering of the Anantapur College. I am having difficulty in getting a Mechanical Engineering Laboratory Assistant and a Junior Workshop Instructor sanctioned for the Anantapur College. One post of Mechanical Engineering Laboratory Assistant of the Guindy College is also vacant and I have not been able to fill it up.

I have requested for three Instructors in my letter R.C.No.13-1A/46 dated 25.4.1947. But the Government have only sanctioned one Instructor, and you are proposing to post Sri K.Achutan Nair as Instructor in Mechanical Engineering. I do want an Instructor in Mechanical Engineering; but I want an Instructor in Civil Engineering more than any other Instructor. I would not suggest the withholding of the posting of Sri K.Achthutan Nair with a view to obtain an Instructor in Civil Engineering. The Instructor in Civil Engineering will have to be obtained from the P.W.D. That will take time and I must make immediate arrangements to augment the staff of the Civil Engineering Department since instruction has already started.

In the absence of an Instructor in Civil Engineering and the urgent need for augmenting the staff of the Civil Engineering branch and the difficulty in obtaining an Assistant Instructor in Mechanical Engineering, I have in anticipation of your approval requested the Chief Engineer, P.W.D. to post a Supervisor with Civil Engineering qualifications as Assistant Instructor to the Anantapur College.
I request that my action may please be approved.

I may add that the scale of pay of the Supervisor is lower than that of the Assistant Instructor sanctioned in the G.O. and there will ~~be~~ therefore be a small saving. However the reason for obtaining a Supervisor is accute shortage of staff in Civil Engineering section of Anantapur College. 1A
