of 18.11.46, 14.12.46, & 18.11.46.

Item (5) on
1.1.47

Ms No. 1147 Edn

(P) 4.6.47.

not taken

(1) In the letter of 18.11.46, the D. P. S. has asked for two more mechanics. Three mechanics have been sanctioned in go No. 1939 Edu of 20.11.45. Please say why two more mechanics are necessary especially as there are to be only two courses in the college - civil and Electrical. The Director has proposed that the opening of the Textile and Automobile Eng courses may be postponed pending the construction of permanent buildings for the college.

Item (7) on

1.1.47

not taken

(2) The Director has proposed the employment of 5 more attenders. Three attenders have already been sanctioned in go No. 1939 Edu of 20.11.45. Please explain the need for the additional five attenders.

Item (8)

not taken

(3) The Director has proposed three cleaners. Three cleaners have already been sanctioned in go No. 1939 Edu of 20.11.45. Please explain

the need for three more diagrams.

EDUCATION Department		Received	Registered
From (Name)	SRI D. S. REDDY, M. A. (Oxon.) M.B.E.,	To	
Designation	DIRECTOR OF PUBLIC INSTRUCTION		The Secretary to the Government of Madras, Education and Public Health Department, Fort St. George, Madras.
Station	M A D R A S.		

Enclosures: ROC. No. 7644-K2/46 dated 9th July 1947.

Sir,

A.H. College of Technology, Coimbatore--additional staff.
Ref:-G.O.No.1147-Education dated 4.6.1947. - P/9-DCf

With reference to para 3 of the G.O. referred to above, the Principal, Arthur Hope College of Technology, explains the need for an Instructor in Mechanical Engineering and a Senior Workshop Instructor as follows:-

"The College being in the formative stage the main need is for staff in the mechanical section who can

i. carry out practical instruction classes in the various sections of the workshop-smithy, carpentry, machinshop, Fitting etc. amounting to 22 hours a week;

ii. carry out detailed arrangements of workshop and laboratory layout, erection and installation of equipment and direct and control the skilled and unskilled labour engaged in such work;

iii. fabricate and build up the Experimental apparatus, Measuring devices and Mechanical appliances required in the various laboratories.

The workshop and laboratories have been suffering in the past due to lack of adequate staff to undertake this. The only staff now available is a Junior hand - the Junior workshop Instructor. The provision of adequate technical staff on the mechanical side capable of giving executive instructions, directing and controlling the skilled foremen and labour will be necessary for

- (a) Efficient Instruction work
- (b) To avoid breakages and damages to costly machinery and erection of these be left to inexperienced hands and

(c) Local manufacture of many essential requirements for laboratories and college which are difficult to procure otherwise". In this connection the Principal reports that as a separate course in Mechanical Engineering is not envisaged in the college there is no need for a Professor of mechanical Engineering already sanctioned and that this work can be done by the Instructor in Mechanical Engineering. I therefore recommend that the post of Professor of Mechanical Engineering be the continuance of which was sanctioned in G.O.No.1296-Edn., dated 20.6.1947 may be temporarily kept in abeyance and a post of Instructor be created from the beginning of the current year. The employment of a Senior Workshop Instructor may also be sanctioned.

2. Mechanics.--

The Principal wants 4 mechanics in addition to the three already sanctioned. He states that with the opening of the third year course and separate branches in Civil and

P.T.O.

Electrical Engineering the following additional sections will have to be organised.

1. Strength of materials laboratory
2. Hydraulics laboratory
3. Mechanical Engineering Laboratory
4. Surveying Section
6. Workshop including Smithy, carpentry, fitting, foundry and machine shop.

It is reported that the first three will require a mechanic for each and the workshop four. I however consider that 3 additional mechanics will be sufficient.

3. Attendees:-

The Principal states that 8 attendees in all will be necessary, one for each of the first 4 sections and 4 for the workshop. As there are already three, the additional five may be sanctioned.

4. The Principal considers that the employment of a Junior Instructor in Electrical Engineering may for the present be deferred.

5. I beg to point out that the additional staff recommended in this office letter H.C. 7644-K2/46 dated 18.11.1946 and 14.12.1946 were with reference to the proposals submitted by Dr. Rudra, the then Principal of the college. The present Principal now has submitted the revised proposals referred to above.

6. I request that the staff now recommended may kindly be sanctioned as early as possible.

I have the honour to be,
Sir,
Your most obedient servant,

For Director of Public Instruction.
