Notes of speech of the Sri Hon'ble T.S.Avinashilingam, Minister for Education on the opening of the Second Meeting of the Basic Education Advisory Board.

Dear friends,

Let me welcome you for the Second Meeting of the Basic Education Advisory Board. We have very important matters to discuss in the meeting today. The opening of new Schools in Basic Education as well as new Training Schools are under consideration today. We had sent 12 L.Ts. to Wardha. They are almost from all the linguistic Provinces comprising this Province and we have to plan to utilise them in the best possible manner. The proposals of Govt. have been given to you in the note circulated to you and we shall be glad to have your advice in the matter.

Out of the teachers trained in the Ramakrishna Mission Vidyalaya Gandhi Training School, a belt of about 20 schools is proposed to be taken for Basic Education. The teachers trained in the Vinayasramam School will be employed to the best advantage as soon as their training is over which is expected to be in another few months.

The syllabus both for Basic Schools and the Basic Training Schools are also under consideration in this meeting. The syllabus for the Basic Training Schools~~xxxx~~ that has been submitted to you is the one adopted at the Gandhi Training School. This has been specially drawn up for a brief 9 months course for teachers who have already undergone training for 2 years. But the syllabus for the training School which we have to consider is a syllabus for two years which we have to introduce in our normal Basic Training Schools. The Hindustani Talimai Sangh, after its experience of 8 years in Basic Education has put its suggestions in the publication of a new syllabus for Basic Training Schools. The Govt. will be glad to consider your suggestions in these matters.

In the matter of Basic Education, I would like to impress one matter before you and through you to all those who are interested in Basic Education and that is efficiency. Mahatma Gandhi, who has been the founder and the Originator of this scheme of Basic Education has never been tired of repeating that efficiency in craft as well as in other things is the very essence of Basic Education.

In fact no education is worth the name unless we teach our children to do whatever they may take up efficiently and well. Half heartedness and inefficiency are the very bane of life in whatever direction it may be. If we are to create a new nation and a glorious future for this great country. Efficiency shall be our watchword.

Efficiency in Basic Education will mean learning the craft which is the centre of Basic Education well, it means less waste, it will also mean doing all our work, whether it be in the kitchen or in the [illegible] school room or at ~~the~~ home, doing everything neatly and efficiently. Such a man or woman will for that reason itself be greatly useful to Society and this aspect of doing everything well and efficiently is an outlook to be developed in all our Institutions especially in our Schools for the young wherein are laid the foundations of our future.

I have no doubt that you with your large experience, will help the Government to lay the foundations for such an Education in this Province

Let me welcome you,

Second Meeting of the Advisory Board for Basic Education held on 24th May 1947 (at the Committee Room, Secretariat, Fort St. George).

Sri.D.S.Reddi, Sri.Rao Bahadur V.R.Ranganatha Mudaliar and Dr.Soundaram attended the meeting on special invitation.

1. There was considerable discussion over the quewtion of allotment of the teachers trained in the Sri Ramakrishna Mission Vidyalaya Gandhi Training School for the various schools selected for the introduction of basic education in the belt area. Sri Aryanayakam pointed out that a compact area for introducing basic education should be 30 schools in a rural area as the minimum and that two teachers should be posted in each of the basic schools of whom one must be the Headmaster, the actual introduction of basic education being at the lowest grade. He

suggested

suggested that the Headmaster might be in charge of Grade I. There would thus be 100 % basic education in the I Grade. The number of teachers should be increased from year to year from the bottom so that ultimately all the grades are handled by basic trained teachers. Sri Arunachalam pointed out that the full complement of teachers should be posted to each school so that there might be 100 % basic education in the I Grade and the II and the remaining grades might also take in basic education as much as they could imbibe so as to have a homogeneous atmosphere for the efficient working of the Basic School. Sri Aryanayakam pointed out at this stage that the economic unit is one or two teachers for a school to begin with and that extra teachers should not be wasted in other grades where they might not be useful in making the school a truly 100 % basic school in all grades. He therefore suggested that the services of the remaining teachers available should be utilized for the other schools in the compact area. ~~It~~

A

It was finally resolved that 3 teachers might be appointed to each school bearing in mind the important principle that a basic school should aim at efficiency. If more trained teachers were available, they should be appointed in the new basic schools to be opened. It was also suggested that the Training Schools should render necessary help and advise and supervise the Basic Schools.

B.

2. A. With regard to the opening of new basic training schools, it was decided that the new school proposed to be opened in Tamil Nad near Koilpatti, during 1947-48, should be a co-educational training school utilizing also the services of the three Wardha trained ladies in that school.

C

B. It was also decided that one basic training school should be started for the Kerala Area and another training school for the Kannada area, during 1947-48. The Kannada school should be staffed with Sri Ramakrishna Shetty and the three teachers suggested by him if their services

could

--5--

[illegible] Committee should also evolve a similar scheme for Higher Elementary Grade training and also frame a suitable syllabus for the training of teachers who are already trained.

The Chairman requested the Committee to submit their report before the 15th of July.

5. The Board also resolved that as far as possible, in the earlier stages, all Basic schools should be taken over by Government.

6. The Chairman expressed the view that 10 candidates might be deputed to Wardha for training during 1947-48.

7. With regard to Vinayasrama School, the Board was of opinion that the period of the course should be for one year as originally decided upon by the Sub-Committee unless they are able to finish the course earlier.

Sir,

SUB: BASIC EDUCATION - Training in Basic Education by the Hindustani Talimi Sangh - Recognition as equivalent to L.T. for appointment in High School, Basic Schools etc.

REF: Government Memorandum No. 2079-B2/48-1 Edn., dated 23rd March 1948. p1 ante

I have the honour to state that the training at Wardha is obviously a training devised for teacher of children in the early stages of education, in other words teachers are trained for Basic Schools as is evidenced by the Basic Training School syllabus published by them. The training will not fit a person to be a teacher in a High school though the training may be considered adequate for a training school when this is supplemented to the ordinary B.T. training. In any case the Wardha training can be considered only equivalent to Secondary Training and this has been accepted by the Government in their Memorandum No. 94410-B2/48-1 Education and Public Health dated 5th March 1948. p.37 ante

prc. f. 7 (a)

It is understood that the Hindustani Talimi Sangh is preparing a syllabus for the training of graduates. When that syllabus is ready and training of graduates is done according to that syllabus, the position may be -- reviewed.

Recommendation VII recommends "that in the case of basic teachers, who have not got the Departmental qualifications, viz., Higher Grade Trained Teachers' Certificate or Secondary Grade Trained Teachers' Certificate, t~~he committee recommends~~ that those who hold certificates of the Hindustani Talimi Sangh after training at Tiruchengode, Konatipuram or Mysore may be given trained teachers' grants either as Higher Grade Teachers' Certificate or Secondary Grade teachers' certificate according to their general educational qualifications." These are only a few and in the peculiar circumstances in which we are situated, this recommendation may be accepted and orders issued that the Certificates issued by the Hindustani Talimi Sangh in the training Centres at Tiruchengode and Konatipuram may be recognised as equal to the Higher Grade Teachers' Trained Certificate or Secondary Grade Teachers' trained Certificate according to their general educational qualifications.

The camp at Mysore need not be recognised since it is outside our territorial jurisdiction.

Recommendations 8 and 9 may also be considered.

With reference to H.M's orders above, it is submitted that the draft on page 1 ante indicates how grants should be assessed on behalf of graduate teachers trained at Wardha and employed in Basic schools under private management and how the pay of such teachers should be regulated in basic schools under local bodies. In the case of teachers under local bodies, graduate trained teachers and secondary grade teachers employed in elementary schools are allowed the ~~xx~~ same scale of pay. It is not known whether H.M. intends that graduate teachers, trained at Wardha and employed in Basic schools under local bodies should be allowed the pay admissible to L.T. teachers in high schools, i.e. Rs.75-145.

2. Reference is made to Training schools in H.M's minutes. The Director's enquiry is only in respect of the teachers employed in Basic schools.
