Copy of a letter No. E.A.7962 dated 16th May, 1947 from the Office of the High Commissioner for India, Education Department, London to M.H.Rahman, Esq,, Department of Education, Govt. of India, New Delhi.

Would you ~~kidnly~~ Kindly. refer to your office cable dated the 9th July 1946 F.7-8/46-O.D.2. in so far as it concerns Mr.D.S.J.Rao. I enclose herewith a copy of his letter dated the 27th April, 1947 in which he explains that he will be completing his present course of study at the North Staffordshire Technical College by the end of June this year.

p 3 infra

After the conclusion of his studies at the North Staffordshire Technical College it is regretted that it will not be possible to secure further practical training facilities in this country as such facilities are very rare and are most difficult to obtain.

p 4 infra

A letter dated the 26th March 1947 from the Principal of the Noth Staffordshire Technical College regarding this scholar, copy of which is enclosed herein for your information will explain that Mr. Rao is an acedemic type and feels that he would like to concentrate on laboratory work particularly research work in Ceramics. If the Government of India desire that this scholar should receive further training in this direction, it is recommended that he should be sent to the United States of America for further training as facilities of this nature are obtainable there.

p 4 below

A

I should be grateful if you would kindly refer this case to the Provincial Government and let us know whether it is desired that Mr. Rao should be sent to India after he finishes his course at the North Staffordshire Technical College, or whether he should be sent to the United States of America for further research in Ceramics.

D.S.J.Rao,
The North Staffordshire Technical College,
Stoke-on.Trent.

Dear Sir,

Your reference No. E.A.7962

I may inform you that I would be completing my present course of studies at North Staffordshire Technical College by the end of June this year. As has been explained to you in my letter dated 5th March, 1947, I would like to be sent to any of the American Universities where there are facilities for Research on problems directly related to pottery manufacture. I may further express my desire to work on the problem "The Use of Nepheline Syenite in Pottery Glazes". It is needless to state that this new source of raw meterial has been recently and extensively exploited by ~~the~~ Americans and that India is rich in Nepheline Syenite. I shall be higly grateful to receive your kind consideration of my proposal and request.

Yours faithfully,

D.S.J.Rao.

London W.C.2.

Dear Sir,

Ref. D.S.J.Rao.

Thank you for your letter of March 24th, ref. E.A.7962 concerning the above man, who is a student in the Ceramics Department of this College, and also enclosing a copy of a letter from Mr.Rao to yourself on the subject of his going to U.S.A. this letter does not convey accurately my advice to him. Mr.Rao is an acedemic type and feels he would like to concentrate on laboratory work, particularly research work, in Ceramics. The courses we run here, on the other hand, are designed to train practical men who will ultimately be engaged in pottery manufacture, and I am reluctant to concentrate a man's working time on research problems. It is a procedure which might improve a man's acedemic and scientific standing, but would not be particularly helpful for the development of pottery production in India.

B

C

For that reason, I informed Mr. Rao that if he desired to pursue research work in Ceramics, he should ask you for permission to transfer to U.S.A. where there are ceramic research facilities at Institutions which do not specialise in training for the practical side of the industry in the way we do in this country.

Yours faithfully,

H.W.Webb. Principal.

(i)/p24CF

......

Reference your telegram dated 30th September, 1947 regarding Mr. D.S.J. Rao, Madras Government 1946-47 sponsored scholar.

82934 (i)/p24CF From the enclosures of the post copy of this Ministry's telegram of even number dated 20th September, 1947, the Provincial Government will have seen that the High Commissioner for India in London has arranged for Mr. Rao a course of practical training, with the Elijah Cotton Ltd., Stoke on Trent, United Kingdom, which is indeed a rare oppurtunity for him to complete his training. It may be emphasised that this arrangement is in full conformity with the programme of study chalked out by the Provincial Government for the scholar selected for Ceramics and manufacture of Ceramic Ware, Vide your letter No. 48946.C.2.45.23 Edn. dated 11th March, 1946. The Provincial Government have also stated therein that the total duration of his course in this subject should be two years. The scholar, as the Provincial Government are no doubt aware, has so far completed just one year of study in the United Kingdom. The offer of the High Commissioner for a course of practical training with an established firm is just the opportunity the candidate needs to finish off his study to his own advantage as well to the benefit of the industry in which he is intended to be absorbed on his return.

(not put up
put up in another case)

It may also be pointed out that the cancellation of the proposed arrangement of practical training at this stage will place their Educational Liaison Officers abroad in an embarassing position vis-avis Elijah Cotton Ltd., and jeopardise future facilities for our other scholars in that firm.

P.T.O.

.......2..........

It is hoped that in view of these weighty reasons the Provincial Government will kindly reconsider their decision and wire their concurrence in our proposed to this Ministry immediately.

Please see the letter from the Govt. of India on pages 1-4 C.F. regarding Mr. D.S. Jagannadha Rao, a candidate sponsored in 1946-47 for undergoing advanced studies in Ceramics and manufacture of Ceramic ware. The Dev. Dept. to whom this subject relates, had suggested for the candidate, university course in any of the British Universities followed by practical training at three centres ~~in~~ in Stoke-on-Trent.

Z a p.1 (P) renumed!

Admission was secured for Mr. Jagannadha Rao at North Staffordshire Technical College, Stoke-on-Trent and it was accepted by this Govt. The candidate left for the United Kingdom on 6.10.46. By the end of June 1947 when his course at North Staffordshire Technical College would be completed Mr. Jagannadha Rao ~~who~~ would have had about eight months' training. The normal period of training allowed for each overseas scholar is two years.

The Dev. Dept. may be requested to ~~offer~~ ~~state~~ offer their remarks on the Govt. of ~~India's letter~~. H.C's letter on p 2 C.F.

Mr. D.S.J. Rao - Studies.

Mr. D.S. Jagannadha Rao, a Candidate sponsored in 1946-47 for undergoing advanced studies in Ceramics and manufacture of ceramic ware completed his course by the end of June 47 at North Staffordshire Technical College, Stoke-on-Trent, U.K. At the end of the course, Mr. Jagannadha Rao requested that he might be sent to the U.S.A. where there are ~~problems~~ facilities for research on problems directly related to pottery manufacture. Prof. H.W. Webb, Principal of the North Staffordshire Technical College expressed the view that Mr. Rao was ~~is~~ an academic type and that he could not be given any facilities for research in Ceramics in his College, as the courses that are run in that institution are designed to train practical men who ~~will~~ would ultimately be engaged in pottery manufacture. He also held the view that research work in Ceramics might improve a man's academic and Scientific standing but would not be particularly helpful for the development of pottery production in India. ~~On the~~ In view ~~strength~~ of the advice of Prof. Webb, the Govt. informed the G of I that the request of Mr Rao should not be complied with and that arrangements might be made for the return of the Scholar to India after June 47. — Vide the notes on pp 1-3 NF and the letter on pp 6-7 CF of G.O. The G of I now report that the ~~North Staffordshire Technical College~~ Eligh Cotton Ltd, Stoke-on-Trent, are prepared to accept.

Mr. Jagannadha Rao for one year's practical training and they want a reply by wire whether Mr. Rao may be retained in the U.K. for the training. There does not appear to be any justification to extend the stay on the criterion set out at 'Z' on p 2 above. The proposal should be of advantage both to the Scholar & to the sponsoring Govt. The report of Prof Webb at B on p 4 c.f. of (W) indicates that the candidate is an academic type & presumably practical training will not be of much use to him. I am directed to refer to this office memorandum regarding Mr. D.S.J. Rao, with which three copies of Employment Forms were enclosed. Mr. Rao's scholarship terminates in October 1948 but he will be able to complete his training by the end of May 1948. It is not possible to arrange for a further period of practical training for Mr. Rao, who is himself anxious to return to India. It is therefore recommended that Mr. Rao should be allowed to return to India early in June 1948. Efforts are being made to arrange for his return passage some time about the second week of June 1948. It is requested that the Government's decision may be communicated to this office as early as possible.
