Secretary, E. & P. H.

Now that the Travancore Govt. is taking a very stiff attitude and making attempts to proclaim Independence, it may become necessary for us to define our attitude to them. In these circumstances, I think, it may not be proper for us to admit their students in any of our Colleges.

We must also have a list of Travancore State subjects serving under this Govt. In view of the above, the following steps may be taken:-

(1) orders may be issued to all our Colleges that Travncore State subjects should not be admitted in any of our Colleges;

(2) a list of Travancore State subjects serving in the Education Dept. in the various Schools, Colleges and departments may be taken and submitted.

S. The Minister (Edm) would it be expedient to take action on a Provincial basis without an Mr. India leaf?

(Boor)

A In respect of admissions to colleges, would it be appropriate to take action & propose only in respect of new admissions, allowing those who are in the middle of their course to continue?

While we can take action in respect of late colleges, how can we compel colleges to use the transfers to follow suit without reference to the wishes of the transferors & of the receiving ones?

In last year, by an arrangement with the Travancore Govt, we have certain seats reserved for Travancoreans, & from this time to be made by the Travancore Govt. Would it be correct to take unilateral action & refuse admission without preliminary reference with the Travancore Govt?

After taking a census of the Travancore State subjects in our employ what exactly do we propose to do with them? In the newspapers it was reported that the Govt were asking for such a census but it was not indicated clearly what the object of the census was. If the idea is to get them out of service, has it been decided to be considered also with reference

Sending Travancore State
subject from out of no. Colleges
& universities is obviously a drastic
& extreme step. It is moreover
attended with the various practical
difficulties enumerated by the
Secy F.P.H.

27/6/47

Beyond taking a census of Travancore State
Subjects who are in Madras Govt Service it
appears to be constitutionally appropriate to
await a lead from the Govt of India. Even
if Travancore adheres to its present demand

Recd in P.O. (C-15)

policy of independence and is permitted to do so, such
a step gives a provincial govt as much no cause of action
against it. It is only the new Central Indian govt
that can take exception to it as it will deal with
what is really a foreign affairs subject. Unless a
united line of action is laid down by the Govt it
appears to be premature to take any action. which, but
for the political situation, would not be taken.

We could perhaps require new admissions to govt
colleges but where there is a previous agreement with
Travancore that would, in fairness, have first to be
denounced & in my view no such step should be
taken without a lead from the Govt. As regards
sending out students already admitted the case for
reopening for action at this stage is even stronger.

Certainly, unless after due compliance with rules,
this govt cannot remove from Travancore State
Subjects without executive instruction from the
Foreign Dept of the Govt & perhaps not without
legislation.

Perhaps at this stage any oversteps against
Travancore subjects here may be too drastic. We may
await instructions from the Centre. In the meantime, the statistics
referred to of Travancore subjects in Madras Services may be taken.

In view of the later developments
this may be dropped
