NOTE.—1. Statement A has been prepared as per orders issued in G.O. No. 835, Education, dated 31st May 1941. The closing balance on 31st March 1947 has been valued at the issue rates fixed for 1946-47. As the prices of paper are not firm but likely to vary from time to time the closing balance on 31st March 1947 (Opening balance for 1947-48), will be valued at the rates finally settled and the result of such re-valuation shown as either loss or gain by revaluation as the case may be.

2. Purchase of jail-made articles is obligatory on the part of the consuming departments. The restrictions regarding prices and quality are not applied in the case of such articles.

3. As no imported article was offered at a lower rate than an article manufactured in India, the question of granting preference to the latter did not arise. This was due to War conditions.

4. In other cases where Indian made articles were purchased the rates happened to be the lowest and the quality also compared favourably with foreign articles.
