Sir, Sub: Grant- Equipment - Madras Christian College High
School, Madras - Indent for Educational films

67005

The Correspondent, Madras Christian College High School has applied for grant for the purchase of educational films at an estimated cost of Rs. 925-8-0. The Correspondent states that film strips are required for illustrating class lessons and that the pictures will fit in the syllabus of the high school course in the various subjects. He has got already a film strip projector in the school and requests that these film strips may be approved as their indent for the laboratory. This is one of the best institutions run on modern lines and the school has a good scheme for visual education. It is also reported that the management does not collect special fees for visual education. In the above circumstances I request Government to permit me to admit the expenditure on the purchase of educational films for grant purposes.

2. In this connection I invite the attention of Govt.

Government to my letter ROC.No.7443-E/46 dated 2-7-47

GRANT - Equipment - Madras Christian College High School, Madras - Indent for Educational films.

From the Director of Public Instruction, R.C.No.492-F
of 1947 dated 14--8--47.

The question of introducing visual education in secondary schools is under separate consideration. The Director of Public Instruction has proposed that schools may be permitted to arrange for the exhibition of educational films through private agencies and to meet the charges by levying a small fee from the students. He has also proposed another scheme under which visual education will be provided by Government purchasing the ^(cinematograph, projector, film etc.) necessary equipment for the purpose. It is proposed to consider the latter scheme in connection with the budget for 1948-49.

2. The Correspondent of the Madras Christian College High School, Madras, has applied for a grant for the purchase of educational film strips at an estimated cost of Rs.925--8--0, as they are required for illustrating class ^{lessons} ~~lessons~~ and the pictures will fit in with the syllabuses of the high school course in the various subjects. The school ~~has~~ already possesses a film projector and the proposed film strips will form part of the equipment for the laboratory. The Director recommends the proposal as the institution has got a good scheme for visual education and as it is one of the best institutions run on modern lines. In view of the scheme for the introduction of visual education in schools, the purchase of educational film strips may be treated as an approved item of equipment for ^{secondary} schools and half grant may be made towards the purchase of film strips.

The Director may be permitted to include the item in the indent for the equipment for the school for 1948-49.
