Memorandum No 61717/46 B1-3 Education dated 19-3-1947

Grant Building -St Anthony's High School Tanjore - Construction of an Upper storey - Inclusion in the list of approved works

Read

From the Correspondent St Anthony's High School Tanjore No 1352 dated 1-3-47

From the D.P.I. R.C.Np 10717/46-D2 dated 26-2-47

The Correspondent St Anthony's High School Tanjore is informed that the question of modifying the procedure laid down for dealing with the applications for grants for the construction of buildings for aided educational institutions is under the consideration of Govt and that only after a decision is reached on the question his application can be taken up for consideration.

2. The D.P.I. is informed that the revised procedure for building schemes is applicable to both boys and girls schools and that no new application for grant should be included in his approved list.

Sir, Sub: Grant-Building-Secondary Schools for boys and girls-
extension and additions - inclusion in the approved
list - permission - requested. copy sent
REF: Government Memorandum No.61717/46-B1-3 Edn., dated 19-3-47.

In continuation of my letter Rc.10250-D2/46 dated 19-3-47,
I have the honour to submit herewith a list of building grant schemes
in respect of Secondary schools for Boys and Girls, where additional
blocks and extensions are proposed to be put up. As the managements
can neither refuse admissions nor can make admissions in excess of
the authorised strength, they are compelled to put extensions to the
existing buildings. These extensions are absolutely necessary for the
proper administration of the schools. The necessity for additional
accommodation will be felt more essential with the introduction of
bifurcated courses in Secondary schools. The financial position of
the institutions are not such as would enable them to carry out the
work without a half grant from Government. Hence the managements
look upon Government for aid.

These being in the nature of extensions, cannot be treated
as new buildings which should await the adoption of cheap designs.
They have to be considered in relationship to the existing buildings
and so they form a class ~~of~~ apart.

p.t.o.

2. In the circumstances mentioned above, I request that Government may be pleased to permit me to include in the approved list, all the schemes mentioned in the list attached and also similar schemes for extensions, after getting the plans and estimates scrutinised by the Consulting Architect.

for DIRECTOR OF PUBLIC INSTRUCTION.

Extract of letter Rc. No.11388 D/46 dated the 20th April 1947 from the Director of Public Instruction, Madras to the Secretary to Government, Education and Public Health Department, Madras.

Grant - Building - Aided educational institutions Inclusion in the list of approved works - Modification of the procedure.

...

Ref: Govt. Memo. 61717 B-1/46-2 Education dated 2-12-1947.

I have the honour to make the following observations in regard to the proposals contained in the Government Memorandum cited above:-

(1) Apparently Government are under the impression that under the present rules some districts are favoured or come to be favoured more than the other districts by accident or otherwise and that it is desirable to devise a scheme under which the resources of Government could be spread over as many districts as possible. Secondly, there seems to be a similar suspicion regarding some categories of managements getting more support than the rest. I beg to submit that both these suspicions, if they exist, are not justified. I am enclosing herewith a list of approved schemes and a list of schemes rejected. From these it will be seen that no district has been given any undue share either by accident or otherwise. It is true that in the list of approved schemes, we find a good half relating to Mission managements but it is not their fault or that of the state department that it is so. It is because (i) Missions run a large percentage of girls' schools; (ii) Missions have comparatively larger resources and (iii) there has been till recently no ban on buildings for girls schools as against Boys' schools. Naturally therefore the Missions bulk large.

(2) At the same time, I do not think that the scheme devised by Government need be objected to. I would like to press the adoption of the following principles:-

(a) that it should be possible for the Director to submit schemes once a quarter as they are ready. This is merely intended to expedite disposal of applications. The managements are naturally very keen on pushing forward with their proposals and they depend a great deal on popular enthusiasm to furnish them with funds.

-2-
If for any technical or administrative reasons these schemes are held up for a time, these managements could not discharge their duties satisfactorily.

Education and Public Health (b1) Deptt.

GRANT - BUILDING - Secondary schools for boys and girls- Inclusion of schemes in the list of approved works - Submission of a consolidated list once a quarter

From the D.P.I., Rc. No 10717 . D2/46 dated 19-4-47 and R.C.No.11388 D/46 dated 20-4-1947.

Memorandum No. 61717/46-B1 -6 Education dated 1-10-47.

The Government accept the proposal of the Director of Public Instruction that applications for grants towards the cost of construction of new buildings and of additions and extensions to existing buildings for Secondary Schools for boys and girls and for Training Schools, may be consolidated and submitted to Govt. with his recommendations once a quarter for sanctioning the inclusion in the list of approved works instead of submitting each scheme when it is ready.

2.The D.P.I. is requested to submit now a list of all such schemes which he wishes to put forward for consideration, arranged in the order of priority. The list of schemes relating to Secondary Schools for boys and girls and for Training Schools may be separate and each list may consist of two parts:

Part I- Schemes for additions and extensions to existing buildings;
Part II- Schemes for construction of new buildings.

The Director is requested to include, in the list now called for such of the schemes included in the list forwarded with his letter Rc.No.10717 D2. 46 dated 19th April 1947 that are to be considered now and also other schemes which are ready for consideration in connection with the budget for 1948-49. Information should be furnished in respect of each scheme whether the estimated cost is only approximate or whether it has been fixed by the Consulting Architect to Government after ~~scrutinising~~ scrutiny of the detailed plans and estimates submitted by managements. The Director is requested to treat the reference as specially urgent so that orders may be passed in time for framing the part II Estimates for building grants to aided Estimates for building grants to aided schools for 1948-9.

The D.P.I.

Grants-Buildings-Aided secondary schools-Inclusion in the list of approved works-Orders passed.

From the D.P.I., Rc.No. 11388 D/46 dated 14-10-47.

ORDER.MS.NO. 2267 EDUCATION Dated 21-10-47

The Govt. sanction the inclusion in the list of approved works, ^{of} the schemes for the construction of buildings for the aided secondary schools for girls specified in the annexure to this order. While this approval does not convey any guarantee of grant it will render the institutions eligible for a grant up to one half of the ^{of the schemes} cost/not exceeding Rs.30,000/-under the provisions of the Grant-in-aid code if and when funds become available provided that all the conditions prescribed in the Code are duly complied with.

2. The D.P.I. is informed that the Govt. ^{do not} consider it necessary to permit the inclusion of ^{it} building schemes for secondary schools for boys in the approved list till a final decision is reached on the question of removing the restrictions imposed in regard to building grants for such schools. The inclusion of schemes in the approved list will be restricted to secondary schools for girls and for training schools for boys and girls ^{for the present.}

Grant - Buildings - Aided educational institutions -
Inclusion of schemes in the list of approved works
Modification of the procedure

The procedure hitherto adopted for dealing with applications from managements of aided educational institutions for grants for the construction of buildings was to scrutinise them as and when received and if the schemes were considered suitable from an educational point of view to include them in the list of approved works. The D.P.I. recommended for the consideration of Government each year such new schemes out of the list as he considered deserving of grant for consideration in connection with the next year's budget as a Part II scheme. After the budget was passed orders were issued sanctioning grants for the schemes for which provision had been made in the budget. The grants were disbursed by the D.P.I. when claimed after the completion of the work. It was considered that the funds available for payment of building grants in any one year should be allotted to the various schemes having regard to linguistic areas and other considerations and it was therefore suggested that all building schemes which are accepted from the educational point of view should be forwarded to Government in a consolidated form arranged in the order of preference to enable the Government to distribute the funds available on an equitable basis. The remarks of the D.P.I. on the suggestion will be found on p.10c.f. He considers that the existing procedure of placing schemes on the approved list should be continued and that instead of submitting to Govt. each individual scheme, he may be permitted to submit to Government once a quarter a list of building schemes for which grants have been applied for with his recommendation for inclusion in the approved list so that the applications may be disposed of expeditiously and the managements may push forward their schemes and collect funds, from the public. The inclusion in the approved list implies no sort of liability of Government for making a grant, but only conveys an approval of the scheme from an educational point of view. It will enable managements to make the necessary preliminary arrangements for starting the work as soon as the grant is provided and also proceed with the execution of the work and claim the grant as soon as it is provided for. If the system of placing the schemes on the approved list is given up

Contained in a separate
file

N

K

and the schemes are approved and grants ~~are~~ sanctioned simultaneously, it may take some time for the managements to make necessary preliminary arrangements for starting the work and no appreciable progress could be made in the execution of the work during the year in which the grant is sanctioned. In the circumstances stated by the D.P.I. it is for consideration whether the existing procedure of placing schemes on the approved list may be continued and the D.P.I. may be asked to submit once a quarter all applications for grants which have been scrutinised and are ready whether for boys' Schools or girls' schools. The Director now addresses Government only in respect of schemes relating to secondary schools for boys and training schools- schemes relating to girls schools are approved by the Director. It is for consideration whether applications for building grants for secondary schools for girls may also be required to be submitted to Government.

X X X

3 The Director has forwarded a list of applications received for grants for the construction of additional blocks and extensions to the existing buildings for aided secondary schools for boys and girls to meet the present and prospective demand for increased admissions. He considers these schemes should be given preference to those relating to the construction of new buildings altogether and that they need not wait the adoption of cheap designs. He requests that he may be permitted to include them in the approved list after the plans and estimates are scrutinised by the Consulting Architect. On the basis of the approximate cost, the half grant in respect of the building schemes for boys schools works out to 5.77 lakhs and for girls schools 4-2 lakhs excluding the schemes for which the estimated cost has not been reported. In the present financial stringency it is not possible to include all these schemes in the approved list-some of the schemes included in the list cost more than a lakh and the construction of those buildings should be deferred till the prices of building materials come to normal. The selection of schemes may be made after the procedure to be adopted in dealing with the building grant applications in future are settled.

~~Finance may see with reference to para 2(1) of the note before circulation.~~
S.S.D./4-5-47.

S. A
I agree with the D.P.I. that the present procedure

may continue and the lists be quarterly.

M.V.S. /8/5/47.

B,C,D & E -I agree

2. The case relates to the modification of the existing procedure of considering applications for building grants to aided educational institutions as and when they are received and placing them on the list of approved works. It was suggested that all such applications should be forwarded to Government in a consolidated form once a year arranged in the order of preference to enable them to distribute the funds available on an equitable basis. The remarks of the D.P.I. will be found on page 10 of. In order to expedite the disposal of applications for building grants, the D.P.I. suggests that the existing procedure of placing schemes on the approved list may be continued and that he may be asked to submit the applications to Government for sanctioning the inclusion in the approved list quarterly instead of once a year. The Director's proposal may be approved and he may be asked to submit applications for building grants from all aided institutions including training schools and colleges whether for boys or girls to Government.

X X X

2. Attention is solicited to paragraphs 1 & 3 of the notes on pp 11-12 and 13 ante and the further notes thereon in para 2 on page 17 ante in regard to the submission to Government of the applications for building grants received from managements of aided educational institutions once a quarter for sanctioning their inclusion in the approved list. In order to enable the D.P.I. to suggest the provision to be made in the Part II estimates for 1948-9 for building grants, it seems necessary to pass orders in regard to the inclusion in the list of approved works of the schemes already submitted by the Director and also other schemes that may be ready for consideration now. The list on pp 16-18 of. submitted in April is not exhaustive. Orders may now be issued accepting the D.P.I.'s proposal to submit quarterly all applications for building grants and he may be asked to submit now a fresh list of schemes which he wishes to put forward for consideration in the order of priority. Subject to orders on this point, a draft memo is submitted below. It may also be circulated to H.M.(Education) for

Memo no 61717 B2/46-6 Edu dated 11-10-47.

E.P.H. Deptt.(B1)

Grant - Buildings - Aided Secondary Schools for boys and girls-
Inclusion of schemes in the list of approved works.

From the D.P.I. Rc. No.11388 D/46 dated 14-10-47.

As required in Memo No.61717/46 B1-6 Edn. dated 1-10-47 the D.P.I. has submitted a consolidated list of building schemes for aided secondary schools for boys and girls ^{arranged} in the order of priority for considering whether they may be included in the list of approved works maintained by the Director under rule 53 A. of the Grant in Aid Code.

2.The Director has already submitted proposals for making provision in the budget for 1948-9 for payment of grants for schemes which were included in the approved list prior to the issue of Memo No. 61717/46 B1-3 Edn. dated 19-3-1947. The total outstanding liability on 1-4-48 is estimated at Rs. 3.04 lakhs made up of .89 lakhs relating to part paid schemes and Rs. 2.15 lakhs in respect of new schemes for which no payment has hitherto been made. The Director has suggested that a provision of Rs. 50,000 in respect of part paid schemes and of Rs. 1,20,600 may be made in respect of new schemes providing for part payment to some of the schemes. This will be examined and submitted separately ^{after orders are passed in this file.}

3.The Director has now recommended for inclusion in the list of approved works only 10 schemes relating to secondary schools for boys and 9 schemes relating to secondary schools for girls. If the maximum grant payable for each of these new schemes is limited to Rs. 30,000 the total liability will be 5.7 lakhs and if part payment is made, this will be spread over 2 or 3 years. It is therefore for consideration whether all the 19 schemes may be included in the approved list.

4.The Director doubts whether it is necessary to make any provision in the B.E. for 1948-9 in respect of the schemes now recommended for inclusion in the list of approved works as they can be started only after the detailed plans and estimates have been scrutinised by the connecting Architect and the schemes may ^{in certain cases, the plans and estimates have already been submitted by G.A.} not mature for payment in 1948-9. The Shanti Vijai Girls High School, Ootacamund has already been constructed up to the roof

See remarks under col. 5

27 OCT 1947
GOVERNMENT OF MADRAS

it is clear that the question of removing the restrictions imposed in regard to building grants for secondary schools for boys is under the consideration of Govt and building schemes relating to training schools for both men & women will be included in the list of approved works.

The specific point on which orders of H.M. (Edn) was sought for is whether provision for part payment of grant for the Shanti Vajai Girls High School, Gotsamundamagla made in the B.E. for 1948-9 but no orders have been passed on this point. The Part II scheme file in which provision for this scheme has been proposed will be circulated to H.M. (Edn) in due course. It seems there fore unnecessary to recirculate this file again to H.M. (Edn)

Specific orders of H.M. may be obtained in respect of this scheme in the part II file dealing with part II scheme
