A 2) The period of 2 years of study leave granted in G.O. Ms. No.1156, Edn., dated 11-6-1946 on behalf of Messrs. A.Srinivasan and S.Srinivasan, will expire on 16-11-1947. If the Government could extend their study leave by one or two months more they may be permitted to return to India via United Kingdom and enabled to visit leading institutions, research laboratories and the electrical manufacturing works in the latter country also. As the additional cost involved will be more than compensated by the benefits to be derived by such visits, the suggestion of the Principal, College of Engineering, Guindy, is ~~communicated~~ recommended for the favourable consideration of Government.

The Secretary to Government,

Education and Public Health Department.

kp.9/6.

Copy of the letter ~~No.~~Rc.No. 22-A/46, dated 3rd June 1947 of the Principal, College of Engineering, Guindy, Madras.

Sub:- Deputation of Government Servants for advanced studies overseas.

T I understand from Messrs. A.Srinivasan and S.Srinivasan, members of staff of this college, who have been deputed to U.S.A. for advanced studies shall be submitting their theses for the degree of Master of Science of the Illinois University by June 1947. They would then spend about six months in practical training in factories, if this could be arranged, and then leave for India.

B 2. They have both written to me that they would like to spend a few weeks in England on their way to India and visit leading institutions, research laboratories and electrical manufacturing works. In recommending the grant of their request I would say that they would not be going very much out of their way by returning to India via England and the additional expenditure involved will be more than compensated by the benefit which the college would get from their comparitive knowledge of institutions, research laboratories and electrical manufacturers in U.K. and U.S.A. Stay of two weeks in England would be enough if the Education Department of the High Commissioner for India would be good enough to arrange their programme of visits to various places.

R.C. No. 5241 C.1/46

Station M A D R A S , *Dated the* 19th September 1947.

From (Name) DR. S.R.U. SAVOOR, M.A., D.Sc.(Lond), I.E.S-

(Designation) DIRECTOR OF PUBLIC INSTRUCTION, MADRAS

To The Secretary to the Government of Madras,

EDUCATION AND PUBLIC HEALTH **Department.**

Sir,

REF:- Government Education and Public Health Memo.No.48271 C.2/47-2 Edn. dated 22nd July 1947 and 2nd September 1947.

p 3 ante

With reference to the Government Memos. cited above, I have the honour to state that Messrs. A. Srinivasan and S. Srinivasan may have to be granted an extension of study leave for a period not exceeding 3 months in continuation of the study leave granted to them in G.O.No.MS.1156, Edn dated 11th June 1947. 1946.

p1654 (R)

2. As regards the extra cost involved, I submit below a statement showing the details approximately.

Steamer fare from U.S.A. to the U.K.	£. 35 each
Travelling allowance in the U.K.	£ 30 "
Compensatory allowance (study allowance)	£. 50 "

The steamer fare from the U.K. to India will be about the same as that from the U.S.A. to India. Hence this is not taken as an extra expenditure as any how they will have to bepaid steamer fare from U.S.A. to India.

6

Total Extra cost ... £. 115 for each or £.230 for both.

Besides, the candidates will have to be paid leave salary for 3 months in India which amounts to Rs.840 approximately on the whole.

3. A copy of the letter RC.No.22-A/46 dated 11th Sept.47 from the Principal, College of Engineering, Guindy, is also submitted herewith for information.

R. Naranthe

22/9

Copy of letter RC.No.22-A/46 dated 11th September 47 from the Principal, College of Engineering, Guindy to the Director of Public Instruction, Madras.

Technical Education = Deputation of Government servants overseas = 1945--46 = Messrs. A. Srinivasan and S. Srinivasan.

...

The difference in the cost of passage from U.S.A. to India directly and U.S.A. to India via England will not be appreciable, if any, as many American Ships bound for the East either tough a British Port or a French Port. Thus the Government would not be put to any appreciable expenditure on account of passage through permitting Messrs. A. Srinivasan and S. Srinivasan to return to India via England.

While in England, for say 2 months Messrs. A.Srinivasan and S. Srinivasan will have to visit various places and the travelling expenses on this account would be about £.30 each They will have to be paid compensatory allowance at 16½ shillings a day, and this would amount to £.49-10-0 for each and a total of £.99/- for both.

Thus the additional cost of permitting Messrs. A.Srinivasan and S.Srinivasan to come via England and visit various places there would amount to £.79/10/- for each and £.159/- for both.

25th July, 1947.

Please refer: G.352/45

To: Secretary
Department of Education
Government of India
New Delhi, India.

Attention: Ashfaque Husain, Esq.

Subject: Training in England - Mr. S. Srinivasan.

Dear Sir,

Kindly refer to the case of Mr. S. Srinivasan, one of the Madras Government scholars for 1945/46, now studying at the Illionis Institute of Technology, Chicago, Illionis.

p11 infra

I enclose herewith a copy of Professor Gross' recommendations regarding the above-mentioned subject. We are prepared to recommend that Mr. Srinivasan be permitted to visit the various universities and plants, as suggested in the attached letter, for a period of two months on his return to India after he has completed his programme of work in this country.

If Mr. Srinivasan's sponsoring Government has no objection to his programme of work in England, the decision may please be communicated to this office, to reach here by the end of next month at the latest, otherwise he will be sent back to India as soon as he finishes here.

Yours sincerely,

A. S. Grewal
Deputy Educational Liaison
Officer.

11

ILLINOIS INSTITUTE OF TECHNOLOGY

CHICAGO 16

Department of Electrical Engineering
3300 Federal Street

July 22, 1947.

Mr. A. S. Grewal
Deputy Educational Liaison Officer
The Education Department
Embassy of India
635 F. Street, N.W.
Washington, D.C.

Dear Mr. Grewal:

You know from earlier correspondence that we have tried to arrange summer work for all our graduate students whose particular problems permitted interruption during the summer period between the Spring and Fall Semesters, and we have been quite successful in most cases. Unfortunately, however, we were not able to place Mr. S. Srinivasan but you will recall that he spent the summer, 1946, at the Westinghouse Works in Lima, Ohio so that he too will have had some practical training in this country upon his return to India.

I understand that Mr. S. Srinivasan has written to you about his present work and his future program and I would like to confirm his information. He showed me his letter to you before he miled it.

Mr. S. Srinivasan is, at the present time, engaged in a study which is an outgrowth of the work done for his master's thesis. I expect him to finish that work by the end of August and to have broadened his master's thesis by that time andadded some data which will be of value in a future publication.

Mr. S. Srinivasan has expressed his desire to spend a number of weeks in the United Kingdom in order to visit some educational and industrial institutions there. I believe that it will be a valuable experience which will help him considerably after he gets back of to India. I would suggest visits to some of the universities of Great Britain and their electrical engineering departments, in particular the universities of Birmingham, Manchester, Edinburgh, Glasgow and any other within easy reach on his trip. Further the factories of British Thomson-Houston in Rugby and Metropolitan-Vickers, Ltd. in Manchester.

I would suggest that you kindly approve of this program which, I have no doubt, will greatly benefit Mr. S. Srinivasan and round out his knowledge of education and industry, outside his country of residence. With my best personal regards, I am

Very sincerely yours,

Sd/- Eric T.B. Gross, Professor

Attention: Mr. Ashfaque Husain

Dear Sir:

Reference is invited to the case of Mr. A.Srinivasan, one of the Madras Government, scholars for 1945/46. A copy of the expert views and recommendations by his professor, Mr. Eric T.B.Gross, is enclosed herewith for consideration and decision by the sponsoring authorites.

Inasmuch as Professor Gross' recommendation is in reference to study tours within the United States, the same will be authorised within the approved period of scholarship when the time comes. In regard to Mr. Srinivasan's suggested stay in Great Britain, France and Switzerland, we are prepared to recommend that the necessary facilities may be given to him on his return to India to visit and confer with the various institutions and firms recommended by Professor Gross. Mr. Srinivasan is at present undergoing practical training with Messrs. Allis-Chalmers Manufacturing Company in Pittsburgh, after completing his graduate studies at the Illinois Institute of Technology, Chicago, as explained by Professor Gross in his letter attached herewith.

If there is no objection, the decision of the sponsoring authorities may please be communicated to this Office at an early date.

Yours sincerely,

Sd/- A.S.Grewal

Re: Appaswami Srinivasan

Dear Mr. Grewal:

As you know Mr. A.Srinivasan is at present time on a practical training assignment in the Transformer Works of the Allis-Chalmers Mfg.Co., in Pittsburgh 12, Pa. late this fall, after finishing with his work at Allis-Chalmers', he will start out on his way back ~~hom~~ home via Europe and I would suggest that you grant him permission to visit a number of educational and industrial institutions in the eastern part of this country, in Great Britain and in France, and in Switzerland.

I estimate that the time for visiting as described, will take about six to eight weeks and I have no doubt that Mr. A.Srinivasan will gain valuable knowledge and experience to be very useful in his future work at the University of Madras or in any other capacity which he may occupy in India.

In this country, I would suggest visits to the Laboratories of Cornell University in Ithaca, New York, Syracuse University in Syracuse, New York, College of the City of ~~the~~ New York, New York, N.Y. and the Baldwin Locomotive and Testing Equipment Installations in Philadelphia, Pennsylvania.

In Great Britain, I would suggest the Laboratories of the 'British Electrical and Allied Industries Research Association', in London, the electrical engineering divisions of the Universities in London, Birmingham, Manchester and Glasgow, the General Electric Company Ltd., Wittom Works in Birmingam, British Thomson Houston Co., Ltd., in Rugby, Metropolitan Vickers Electrical Company,Ltd. at Trefford Park in Manchester.

In France I would suggest the Belfort Works of S.A. Alsthom besides some power plants in the Paris area. In Switzerland, I would suggest the Brown-Boveri Research Laboratories and Factories at Baden .

I will be glad to help Mr. A.Srinivasan with letters of introduction and should appreciate it very much if you would let me know whether you approve of these plans so that I can prepare the necessary arrangements.

I am sending a copy of this letter to Mr. A.Srinivasan who discussed his problems and plans in great detail with me, and who asked me to submit a proper proposal to you.

With best personal regards, I am.

Very sincerely yours

Sd/- Eric T.B.Gross,Proffessor.

---

25 OCT 1947

Sir,

I am directed to refer to this Ministry Memorandum of even number, dated the 4th September, 1947 on the above subject, and to state that the Educational Liaison Officer at the Indian Embassy, Washington has since informed the Government of India that Mr. S. Srinivasan has completed his course of study at the Illinois Institute of Technology, Chicago, Illinois. The candidatee has now requested that he may be sent back to India even if permission to stay in England is granted. The Educational Liaison Officer must have arranged to book his passage to India in the last week of September, 1947. He would be forwarding to this Ministry shortly, the Progress Report and other particulars regarding Mr. Srinivasan's work in the U.S.A., on receipt of which, the Provincial Government would be informed.

I have the honour to be,
Sir,

Washington, D.C.

Ref. Santanam Srinivasan
File No. G.352/45

Dear Mr. D'Rozario:-

I understand from your letter of September 10 that you want me to send you a confidential report regarding Mr. Santanam Srinivasan's work, and I am very glad to respond to your request. As his academic advisor, I have closely followed his work and I feel in a position to ~~any~~ evaluate his achievements.

We have been very satisfied with Mr. Srinivasan's work as you will have concluded from the transcript of his academic record as our Institute. I know also that he proved to be quite successful in his practical work which he performed during the summer 1946 at one of the factories of the Westinghouse Electric Corporation in Lima, Ohio. Mr. Srinivasan accepted a teaching assignment in one of our courses in the electric machinery laboratory and he performed his duties during this employment, which covers both semesters of the academic year 1946-47, to our complete satisfaction.

I believe that Mr. Santanam Srinivasan will be useful associate either at a University as an instructor in the field of electric machinery or at an industrial undertaking as electrical engineer in the line of testing, design or development.

.....2

20 35

I believe to express the opinion of all those who have worked with him, either as instructors or associates, if I say to you that we have been very glad to have Mr. S. Srinivasan at our Institute.

Very sincerely yours,

Eric T.B.Gross, Professor

cc W.A.Lewis
E.R.Whitehead.

Sep 22 1947

REPORT ON THE WORK DONE DURING THE STAY IN THE UNITED
STATES OF AMERICA.

I came to the Illinoia Institute of Technology in Chicago in Jauary 1946. As it was in the middle of the semester, I attended the courses, "Problems in A-C Machinery" and "Applied Electronics". I enrolled myself in the Graduate School in the Department of Electrical Engineering in March, 1946. I took courses in Electrica Engineering Physics Mathematics and Machanical Engineering, which are in line with any branch of specialization viz., "Principles, Design and Manufacture of Electrical Machinery". I also took a course in power Systems and gained some experience in the operation of the A-C Network Calculator. The list of the courses, I took and my grades are given in the enclosed transcript

I conducted research and submitted a thesis "Speed Torque Control and Heating of ~~the~~ Wound Rotor Induction Motors with Unbalanced Primary Voltages", I completed all the necessary requirements and received the M.S. degree in Electrical Engineering in June 1947. I am enclosing a copy of the degree certificate.

From June 1947 till the end of August 1947 I was pursuing my research work and collected some information anddata which will enable me to continue the research work in India after my return.

I had some teaching experience in the Illonis Institute of technology as a part-time instructor. I taught for two semesters, i.e., a period of eight months. Electrical Engineering Laboratory courses in d-c machinery for senior electrical engineering students.

I had practical training in my field for a period of three months in the summer of 1946 at the Westinghouse Electric Corporation, Small Motors Division at Lima, Ohio. I worked first in the testing laboratories. There my work was mainly setting up the testing of Standard Type fractional h.p., a-c and D-C motors later, I was conducting tests on a new type on new type of single phase a.c fractional hp motor without a starting winding, that was being developed in the factory. Towards the end of my training period, I was assigned to the design department under Mr. C.G. Veignott and was getting familiar with the design and performance of split-phase capacitor and other types of small rotating machinery. I am enclosing a copy of the dertificates from the company.

I undertook two ~~xxx~~ educational tours one in February 1947. to the Eastren part of the United ~~Pxxxxxxx~~ States and another in June 1947 to the West Coast. I am attaching a report on the tours.

I was elected to membership in Sigma Xi, the honorary Scientific ~~Sxx~~ Society, Eta Kappa, Nu, the honorary association in Electrical Engineering and the American Institute of Electrical Engineers.

Sd/- Santanam Srinivasan.

Chicago- September, 15, 1947.

Seen and approved

REPORT ON THE EDUCATIONAL TOURS:

During the educational tours in February 1947 and June 1947, I visited a number of factories manufacturing electrical apparatus, universities and laboratories. I am listing below the places visited with a brief summary of what was observed and seen at the respective places.

The General Electric Company at Schenectady -

Wiredrawing and the manufacture of large size turbo and waterwheel generators, medium sized a-c and d-c-machines, turbines, cables and insulated wires, and Al-Nicko magnets.

The Westinghouse Electric Corporation at Pittsburgh -

Manufacture of circuit breakers, Unit~~e~~ Substations, condeneer and other type of bushings; air brake switches, relays and other switchgear equipment, large and medium size a-c and d-c machines and turbo-generators.

The Allis-Chalmers Manufacturing Company at Pittsburgh -

Manufacture of air-cooled transformers and different types of air-cooled transformers and of medium sized and large transformers, testing of transformers.

THE LABORATORIES VISITEDWERE:

The Bureau of Standards Laboratory at Washington.
The Research Laboratories of the G.E.Co.
at Schenectady.
The Bell Laboratories in New York.
The Bureau of Reclamation Laboratories at Denver.

THE FOLLOWING ELECTRICAL LABORATORIES OF THE UNIVERSITIES VISITED AND THE PROFESSORS INTERVIEWD IN THE EE DEPARTMENTS REGARDING~~S~~ THE COURSES, NTC:

The Massachusetts Institute of Technology
The Harvard University
The University of California at Berkeley
The Stanford University
The Toronto University
The University of Illinois
Purdue University
Northwestern University

THE FOLLOWING HYDRO-ELECTRIC AND STEAM POWER STATIONSWERE VISITED.

The Power House at Knoxville and Chattanooga of the T.V.A.

The Power House at Boulder Dam

The Steam Turbine Station of the Commonwealth Edison Company in Chicago, Illinois.

Lima, Ohio,
September 23, 1946

Professor Sundaram,
Educational Liaison Officer
Government of India
Washington, D.C.

RE: MR. SANTANAM SRINIVASAN.

Dear Professor Sundaram:

Mr. Srinivasan concluded his temporary employment at the Westinghouse Electric Corp., Small Motor Division, on Friday, September 20, 1946.

He spent the major portion of his time on our Laboratory electrical test floor. He assumed the duties and responsibility of a curve tester on several different lines of apparatus. For a substantial portion of the time the work was on new designs of shaded pole motors, and other special types on which we are in the midst of design development work. In addition he has spent a few days with our Engineering Department, becoming familiar with design calculation practice.

Mr. Srinivasan's performance has been eminently satisfactory on all assignments given him.

Yours very truly,

WESTINGHOUSE ELECTRIC CORP.

Sd. C.F. Herbold, Manager
Industrial Relations Dept.

--

Advanced studies overseas - Officers deputed in 1945-46 - Messrs. A.Srinivasan and S. Srinivasan.

Under the Government of India, Education Dept.'s scheme of sending abroad students at Government expense for advanced courses in subjects related to probable post-war needs, this Government ~~ix~~ deputed in 1945-46 Messrs. A. Srinivasan and S.Srinivasan, Laboratory Assistants, Engineering College, Guindy, for undergoing advanced courses of studies in the U.S.A. They were granted study leave for a period of two years from 17-11-45. The terms allowed to them are indicated at para 1.B of G.O.No.1301 Edn., dated 23-6-47.

Ⓡ G.O.1156 Edn / 11.6.46.

Ⓢ

2. Both the officers would have submitted their theses for M.Sc. by June 1947 after which they would be having about six months practical training and then return to India. They desire to spend a few weeks in England on their way back to India and visit leading institutions, research laboratories and electrical manufacturing works. The Principal, Engineering College, Guindy, and the D.P.I. recommend that the officers may be permitted to return to India via the U.K. As the study leave granted to them will expire on 16-11-47 the Director suggests that their leave may be extended by a month or two.

'T' an p1 cf

p1 cf

3. Under the scheme the duration of a course of study is to be determined in each case by the Government but it will ~~be~~ in most cases be about two years. In the case of certain stipendiaries overseas scholars, the Govt. have granted extensions of period of courses to more than two years . As the D.P.I. states that the additional cost ~~cost~~ involved in the proposal will be more than compensated by the benefits to be derived by accepting it, the Govt. may perhaps permit the officers to return to India after visiting works etc. in England. The additional leave may be sanctioned after knowing the actual extra period required for the candidates to return to India via England. The Government of India may be requested to ask their

para 3 of India's brochure (1945) Ⓔ

M

2/

Liaison Officers abroad to arrange for the candidates's proposed visits in England in consultation with the students themselves.

4 The file may be sent to Finance for remarks.

From the C. of I, Ministry of Edn. No. F.3-13/45-OD IV d 4-9-47

p3cf
p7cf

Pl. see the DPI's reply on pp5-6cf with ref. to the Memo on p3 cf. Pl. see also in this connection, a letter since recd. from the C. of I (p7 cf) re. Mr. S. Srinivasan's visit to the U.K. According to the DPI's report, Messrs A. Srinivasan and S. Srinivasan will have to be granted an extension of Study leave for 3 months. The Cost on account of the proposed tour works out to Rs 3910 approximately for both the Scholars. But it is seen from the letter of the Principal, College of Engineering, Guindy (copy at p 6cf) and from the letter of Prof. Eric T.B. Gross of the Illinois institute of Technology (forwarded with the Dy Edl. Liaison officers letter on p9cf) on p11 cf, that Messrs A. Srinivasan and S. Srinivasan Can possibly visit particular institutions in the U.K. within a period of 2 months. In that case, the Cost will also be a little less than Rs 3910. As the extra Cost involved is not much and as already stated by the DPI that the addl. cost involved in the proposal will be more than compensated by the benefits to be derived by accepting it, the proposal to permit the officers to return to India after visiting works etc in England may be pressed for further consideration by Fin. The extension of study leave by 2 more months may be given to these officers, as a special case by relaxing Rule 2 of F.R. 84.
