G.O.No: 1162 Edn. 6.6.47

Item(i)

In order to meet the great demand for admissions to colleges the University of Madras and the Andhra University at the instance of Govt. permitted the Principals of Colleges last year to admit a fourth batch of students for science subjects wherever possible. The Principals of certain Colleges availed themselves of the permission and admitted in 1946-7 addl. number of students for science classes. The D.P.I. subd. proposals for the employment of extra staff in these colleges necessit

by the admission of fresh batch of students. He also took into account the probable increase in strength in 1947-8. After careful examination the Govt. sanctioned the minimum addl.staff required with the approval of the Standing Finance Committee. As the staff had to be sanctioned very urgently the previous consent of the Legislature could not be obtained. The ultimate cost is about Rs.60,500 per year.

The public of Tellicherry, Malabar Dt., had been pressing for some time past that the Govt. second grade college at the place should be raised to the first grade. The Govt. did not at first agree to the proposal. In view of the fact that there is so much rush for admissions into colleges and in view of the persistant demand from the public of Tellicherry, the Govt. subsequently sanctioned the proposal with the previous approval of the Cabinet.

The proposal involves a non-recurring expenditure of Rs.1,08,000 for construction of buildings, acquisation of land, purchase of books and furniture and a recurring expenditure of Rs.35,000. An addl. fee income of about Rs.9,000/- is expected by raising the college to the first grade.

It is not possible to say how much of the non-recurring expenditure will be incurred in the current year. The plans and estimates for the buildings have been called for and they are still awaited.

As expenditure on account of the two schemes is on a "new service" a token sum of Rs.100 is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant if available or by addl.appropriation at the end of the year.

Govt sanctioned with immediate effect the transfer to them of the management of the Lady Hope Municipal College, Guntur, to be run as a Govt college for women. It has been proposed that an annual contribution of Rs10,000 for a period of five years may be secured from the Municipal Council under section 123 of the Madras Municipalities Act. Opened -

...ollege for Women, Guntur", under "37-Education-b.University - Govt.Arts Colleges" The D.P.I. and the A.G. will be consulted in the matter. Provisionally, the expenditure may there-...e be booked under the new sub head of account suggested by Fin...e and if necessary, a change in the sub head may be made later

approximate non-recurring and recurring expenditure

involved in the proposal is:--

Recurring expenditure - Rs.27,500/- per annum

Non-recurring expenditure-Rs.3 Lakhs.

Item (iii)

In 1946 the Govt. sanctioned the opening of two Eng.Colleges, one at Vizagapatam and the other at Anantapur. The Vizagapatam college is located at Cocanada in the buildings of the combined Military Hospital pending the construction of permanent buildings at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur college, the students admitted into this college were distributed between the college of Engineering Guindy and the Arthur Hope College of Technology Coimbatore. Necessary staff was also sanctioned for both the colleges. The second year course was opened in these new college from 1947-8. and the D.P.I. subd. proposals for the employment of the addl. staff required. After careful examination the Govt. sanctioned the minimum addl.staff with the previous approval of the Standing Finance Committee. As the staff had to be sanctioned very urgently the previous approval of the Legislature could not be obtained. The ultimate addl. expenditure is expected about Rs.45,700 per year.

As the expenditure is on a 'new service' a token sum of Rs.100 is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant if available or by addl.appropriation at the end of the year.

Items (iv) to (vii) In May last the Govt. considered the question of further revision of the scales of pay and scales of grants admissible to teachers in schools under local bodies and under private managements and they sanctioned the following scales of pay and scales of grant:—

Class of teacher	Old scale of pay or grants	Revised scale of pay or grants.
	Rs	Rs
Elementary schools Local boards		
Lower Elementary	20-1-30	23-1-33
Higher Elementary	25-1-40 +5 being for craft	30-1-45.
Secondary grade	35-1½-65	40-1½-55-2-75.

Elementary schools - Private managements and panchayats

P.T.

Class of teachers.	Scale already fixed. Rs.	Scale now fixed Rs.
Lower elementary --		
Untrained ..	8	11
Trained	15	18
Higher elementary--		
Trained ..	20-½-25	25-½-30.
Secondary grade --		
Trained ..	25-1-35	35-1-45
Collegiate grade--

Secondary Schools - Local bodies		
Secondary grade ..	40-½-70+5 for craft training	45-2-85
L.T.'s ..	70-5-140+5 for craft training.	75-5-145.
(1) Physical Training Instructors and Instructress.-		
Grade I-- S.S.L.C., holders with a higher grade certificate in physical education.	45-1½-75	50-2-70-2½-95.
Grade II-- Completed S.S.L.C., with a lower grade certificate in Physical education.	35-1-50	45-2-75
Grade III-- Others ..	30-1-50	40-1-60
(ii) Hindustani teachers:- If Secondary grade trained.	40-1½-70	50-2-90
Others ..	30-1-50	40-1½-70.

In the case of Panchayat and aided ele.schools, the extra * full cost liability to Govt. on account of revision of scales of grants was estimated at Rs.34 lakhs reucrring. In the case of secondary schools under local bodies the revision of scales will entail an * half cost. additional expenditure about a lakh of rupees a year by way of grants.

In regard to secondary schools under private management, the Govt. also decided that grants should be assessed at 2/3 of the net cost instead of 1/2 of the net cost in order to enable managements to adopt for teachers in their schools the scales of pay laid down for teachers in schools under local bodies. The additional liability to Govt. was estimated at Rs. 11 lakhs annually. In the case of ele.schools under local bodies the decision of the Govt. was that the extra expenditure (Rs.6 lakhs) on account of the

further revision of salaries should be met by the local bodies themselves. As the expenditure is on a "new service" a token grant of Rs.100 is included in the supplementary estimate under each of the sub-heads of appropriation concerned. The balance of the expenditure will be met from savings within the grant or by additional appropriation at the end of the year.

Item (viii)

As a preliminary to the introduction of basic educatio the Govt. sanctioned the opening of training schools for training teachers in Basic Education. Two schools were opened last year one at Periyanaickenpalayam, Coimbatore Dt. and the other at Viriyasamudram, Guntur Dt. This year three more schools have been opened, one at Cuddalore, South Arcot Dt., another at Palagad in Malabar Dt. and the third, at Moordhibidiri in South Kanara Dt. The cost on account of the schools is estimated to Rs.101800(Rs.93,800 recurring and Rs 8000 non-recurring).

As the expenditure is on a 'new service' a token sum of Rs.100 has been included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant or by additional appropriation at the end of the year.

Item (i) In order to meet the great demand for admissions into colleges the University of Madras and the Andhra University at the instance of Govt. permitted the Principals of Colleges last year to admit a fourth batch of students for science subjects wherever possible

(6) 8

The Principals of certain Colleges availed themselves of the permission and admitted in 1946-7 addl. number of students for science classes. The D.P.I.subd. proposals for the employment of extra staff in these colleges necessitated by the admission of fresh batch of students. He also took into account the probable increase in strength in 1947-8. After careful examination the Govt. sanctioned the minimum addl.staff required. The ultimate cost is about Rs.60,500 per year. The Cost in 1947-8 is estimated at ~~Rs.~~ Rs. 22,900/-

The public of Tellicherry, Malabar Dt., had been pressing for some time past that the Govt. second grade college at the place should be raised to the first grade. The Govt.did not at first agree to the proposal. In view of the fact that there is so much rush for admissions into colleges and in view of the persistant demand from the public of Tellicherry, the Govt.subsequently sanctioned the proposal.

The proposal involves a non-recurring expenditure of Rs.1,08,000 for construction of buildings, acquisation of land, purchase of books and furniture and a recurring expenditure of Rs.35,000 p.a. An addl. fee income of about Rs.8,000/- is expected by raising the college to the first grade.

It is not possible to say how much of the non-recurring expenditure will be incurred in the current year. The plans and estimates for the buildings have been called for and they are still awaited. As regards recurring expenditure, the cost in 1947-8 is estimated at Rs. 7,300/-

As the expenditure on account of the above two schemes is on a "new service" a token sum of Rs.100 is included in the supplementary estimate The balance of the expenditure will be met from savings within the grant if available, or by addl.appropriation at the end of the year obtaining a supplementary grant in March 1948.

Item (ii)

Government sanctioned with immediate effect the transfer to them of the management of the Lady Hope Municipal College, Guntur to be run as a Govt.College for Women. It has been proposed that an annual contribution of Rs.10,000 for a period of five years may

(1) 9

be recovered from the Municipal Council under section 123 of Madras Dt.Municipalities Act.

The approximate non-recurring and recurring expenditure involved in the proposal is:--

Recurring expenditure - Rs.27,500/- per annum

Non-recurring expenditure - Rs.3 Lakhs.

The expenditure in the Current year is estimated at

Rs. 9900 recurring and

Rs. 8200 Non-recurring.

As the expenditure is on a 'new service', a token sum of Rs.100 is included in the supplementary estimate and the balance of the expenditure in the current year will be met either by re-appropriation or by obtaining addl.appropriation from the Legislature in March 1948.

Item (iii)

In 1946 the Govt. sanctioned the opening of two Eng. Colleges, one at Vizagapatam and the other at Anantapur. The Vizagapatam college is located at Cocanada in the buildings of the combined Military Hospital pending the construction of permanent buildings at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur college, the students admitted into this college were distributed between the college of Engineering Guindy and the Arthur Hope College of Technology Coimbatore. Necessary staff was also sanctioned for both the colleges. The second year course was opened in these new colleges from 1947-8. and the D.P.I. subd. proposals for the employment of the addl. staff required. After careful examination the Govt. sanctioned the minimum addl. staff. The ultimate addl.expenditure is expected to be about Rs.45,700 per year and the cost in 1947-8 is estimated at Rs. 12,000

As the expenditure is on a 'new service' a token sum of Rs.100 is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant if available or by obtaining addl. appropriation ~~(at the end of the year)~~ from the Legislature in March 1948.

(8) 10

Items (iv) to (vii) In May last the Govt. considered the question of further revision of the scales of pay and scales of grants admissible to teachers in schools under local bodies and under private managements and they sanctioned the following scales of pay and scales of grant:-

Class of teacher in Elementary schools Local boards	Old scale of pay or grants Rs.	Revised scale of pay or grants. Rs.
Lower Elementary	20-1-30	23-1-33
Higher Elementary	25-1-40 + 5 being gor craft	30-1-45.
Secondary grade	35-1½-65	40-1½-55-2-75.

Elementary Schools - Private managements and panchayats.

Class of teachers	Scale already fixed Rs.	Scale now fixed Rs.
Lower elementary --		
Untrained ...	8	11
Trained ...	15	18
Higher Elementary --		
Trained ...	20-½-25	25-½-30.
Secondary grade --		
Trained ...	25-1-35	35-1-45
Collegiate grade --		
Trained ...	35	35-1-45.
Secondary Schools - Local bodies		
Secondary grade ...	40-½-70+5 for craft training	45-2-85
L.T.'s ...	70-5-140+5 for craft training.	75-5-145.
(1)Physical Training Instructors and Instructress.-		
Grade I-- S.S.L.C., holders with a higher grade certificate in physical education.	45-1½-75	50-2-70-2½-95
Grade II -- Completed S.S.L.C., with a lower grade certificate in Physical education.	35-1-50	45-2-75
Grade III -- Others ...	30-1-50	40-1-60
(ii) Hindustani teachers:- Secondary grade trained.	40-1½-70	50-2-90
Others ...	30-1-50	40-1½-7[illegible]

In the case of Panchayat and aided ele.schools, the extra liability to Govt. (~~on account~~) on account of revision of scales of grants was estimated at Rs.34 lakhs recurring. In the case of Secondary schools under local bodies the revision of scale s will entail an additional expenditure (~~on account~~) about a lakh of rupees a year by way of grants.

In regard to secondary schools under private management, the Govt. also decided that grants should be assessed at 2/3 of the net cost instead of 1/2 of the net cost in order to enable m nagements to adopt for teachers in their schools the scales of pay laid down for teachers in schools under local bodies. The additional liability to Govt. was estimated at Rs.11 lakhs annually. In the case of ele.schools under local bodies the decision of the Govt. was that the extra expenditure (Rs.6 lakhs) on account of the further revision of salaries should be met by the local bodies themselves. As the expenditure is on a "new service" a token grant of Rs.100 is included in the supplementary estimate under each of the Sub-heads of appropriation concerned. The balance of the expenditure in the current year ~~which is roughly estimated at Rs.~~ will be met from savings within the grant or by obtaining additional appropriation (~~at the end of the year~~) from the Legislature in March 1948.

Item (viii)

As a preliminary to the introduction of basic education the Govt. sanctioned the opening of training schools for training teachers in Basic education. Two schools were opened last year one at Periyanankenpalayam, Coimbatore Dt. and the other at Vinayasramam Guntur Dt. This year three more schools have b en opened, one at ~~Coimbatore~~ Cuddalore, South Arcot Dt., another at Palgat in Malabar Dt. and the third, at Moodibhidiri in South Kanara Dt. The ultimate cost on account of the schools is estimated to Rs.1,01,800 (Rs.93,800 recurring and Rs.8,000 non-recurring) and the cost in 1947-8 is expected to be Rs. ~~40,800~~ 40600 recurring and Rs. ~~8,000~~ 8000 non-recurring.

As the expenditure is on a 'new service' a token sum of Rs.100 is included in the supplementary estimate. The balance of the expenditure in the current year will be met from savings

within the grant or by obtaining an additional appropriation ~~the end of the year~~ from the Legislature in March 1948.

GOVERNMENT OF MADRAS

DEMANDS FOR GRANTS FOR FURTHER EXPENDITURE

AND

DETAILED SUPPLEMENTARY ESTIMATES THEREOF

FOR THE YEAR

1947-1948

As presented to the Legislature on the 16th September 1947

15

18

INTRODUCTORY MEMORANDUM TO THE SUPPLEMENTARY STATEMENT OF DEMANDS FOR GRANTS FOR FURTHER EXPENDITURE IN THE YEAR 1947–8.

Section 81 of the Government of India Act, 1935, requires that if in respect of any financial year further expenditure from the revenues of the Province becomes necessary over and above the expenditure therefor, authorized for that year, a supplementary statement showing the estimated amount of that further expenditure should be laid before the Legislature, and prescribes further that the provisions in relation to the presentation of the annual financial statement and the procedure in respect of it in the Legislature shall have effect in relation to such supplementary statements also.

2. Prior to the 1st April 1937, supplementary demands had to be presented to the Legislature when—

(1) the amount voted in the Budget of a grant was found to be insufficient for the purposes of the year; or

(2) a need arose for expenditure upon some 'new service' not contemplated in the Budget.

In respect of expenditure of the latter class, the practice was to present a demand for a token sum of Rs. 100 if it was found possible to meet the balance of the expenditure by reappropriation from savings within the grant.

3. The Government of India Act, 1935, envisages the presentation of a supplementary statement only when it is anticipated that the total expenditure authorized for the year is likely to be exceeded, and does not specifically require the presentation of a supplementary statement for expenditure on new services not contemplated in the Budget.

The Public Accounts Committee of the Madras Legislative Assembly whose advice was sought has, however, recommended that the procedure of presenting to the Legislature a supplementary statement for expenditure on new services not contemplated in the Budget should be continued.

4. The supplementary statements now presented to the Legislature relate to expenditure on 'new service' schemes sanctioned in the course of the current year and for which there is no provision in the Budget estimates for 1947–8.

Except in extremely urgent cases or where only a small expenditure not exceeding Rs. 10,000 per annum recurring or Rs. 20,000 non-recurring is involved, expenditure on new serevices is not ordinarily incurred before the supplementary demands relating to them have been presented and voted.

D. W. DODWELL,
Financial Secretary.

September 1947.

SUPPLEMENTARY ESTIMATES OF EXPENDITURE FOR THE YEAR 1947-8.

(1) Grant II—Provincial Excise.

Estimate of the amount required for further expenditure.

	Rs.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947-8.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
8. Provincial Excise ..	b. District Executive Establishment.	I. Ordinary Areas— B. Prohibition staff— (1) Pay of Officers	..	100

Explanatory Note.

In order to tackle Prohibition crime efficiently in the Ceded Districts, it was considered necessary to increase the number of Prohibition Guards working under each Sub-Inspector to six and the number working under each Assistant, Deputy and District Prohibition Officer to five. For this purpose, 129 additional Prohibition Guards were sanctioned. The cost comes to Rs. 71,208 per annum recurring. The expenditure likely to be incurred during 1947-8 is Rs. 47,500.

As the expenditure on this scheme is on a "new service," a token sum of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required either by re-appropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(2) Grant IV—Forest.

Estimate of the amount required for further expenditure.

	Rs
Voted	200
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947-8.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
(i) 10. Forest ..	b. Conservancy and Works.	I. Ordinary Areas—(ii) Post-war Reconstruction— C. Extension of Casuarina Plantations.	..	100
(ii) Do. ..	Do.	D. Forest roads in Javadi— 1. Roads and Bridges	..	100
		Total ..	..	200

Explanatory Note.

Item (i).—The Forest Sub-Committee of the Post-war Reconstruction General Committee recommended a total area of 150,000 acres for planting of casuarina on an 8 to 10-year rotation in this Province, 75,000 acres being required for the supply of firewood to the factory designed to produce sulphate of ammonia and another 75,000 acres to supply firewood so that cattle dung which is now used as firewood may be released for use as manure. In accordance with the recommendation, special officers were appointed to investigate the possibilities of large-scale plantation of casuarina in the Province. The Special Officer appointed for the purpose for the Madura, Ramnad and Tinnevelly districts has reported that in the Rameswara Island and in the tract of the main land east of Ramnad town an area of about 9,000 acres belonging to the Raja of Ramnad and zamin ryots and the Rameswaram Panchayat Board is eminently suited for casuarina plantations, that there is no alternative area within an economic distance of Madura town and that the lands may be planted departmentally after acquisition. The plantable area in the lands is estimated to be roughly 7,150 acres. The cost of acquisition of the lands is estimated at Rs. 47 per acre or Rs. 3,36,000 in all. The total expenditure on the scheme for the first ten years if worked departmentally is expected to be Rs. 16,08,000 including the cost of acquisition of land, the cost of planting and maintenance and interest on capital at charge at 4 per cent. After ten years the annual gross revenue is estimated at Rs. 250 per acre or Rs. 1,78,750 in all for 715 acres on a 10-year rotation basis and the annual expenditure is estimated at Rs. 1,62,000. The scheme is thus expected to yield a net revenue of Rs. 17,000 per year after providing for all expenditure including interest on capital and cost of land, at the end of ten years. Besides this, the land will be a tangible asset. The scheme will thus be a remunerative one.

The question whether the scheme may be worked departmentally or whether the lands, after acquisition, may be leased for casuarina cultivation on contract is under consideration of the Government. In the meantime the land has to be acquired at a cost of Rs. 3,36,000 in the current year. A token sum of Rs. 100 is included in the supplementary estimate. The balance will be met from likely savings in the grant to the extent possible and a supplementary grant obtained for the further amount required from the Legislature in March 1948.

Item (ii).—The Mannarghat-Attapady road in the Palghat Forest Division is an unmetalled road constructed by the Forest department. Unless the road is metalled it will degenerate into a rough cart-track which can be used for only five to six months in a year. On the other hand, if it is metalled it can be used all through the year, the road will not degenerate and the expenditure already incurred will not be wasted. The Government have therefore sanctioned in July 1947 the metalling of the road at an estimated cost of Rs. 2,32,000. An expenditure of Rs. 75,000 is likely to be incurred in the current year on this work.

The Government also sanctioned in July 1947 the purchase of two road rollers at a total cost of Rs. 30,000 for use in connexion with the post-war road development schemes of the Forest department. The entire expenditure is likely to be incurred in the current year.

As the expenditure in each case is on a 'new service,' a token grant of Rs. 100 is included in the supplementary estimate.

Action will be taken to provide the balance of the amount required for expenditure on the items in the current year, either by re-appropriation from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(3) Grant VIII—Irrigation.

Estimate of the amount required for further expenditure.

	Rs.
Voted	500
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947-8.

(v) 19. Construction of Irrigation, Navigation, Embankment and Drainage Works—Irrigation Work —A. Financed from Ordinary Revenues —Productive.	a. Works—Major ..	Cheyyar Anicut system—Construction of an anicut across the Cheyyar at the head of Uttiramerur tank supply channel. ..		100
		Total ..	..	500

Explanatory Note.

Item (i).—This is a new work which was sanctioned as a Grow More Food Scheme in March 1947 but for which no provision has been made in the Budget for 1947-8. The sanctioned estimate of expenditure for works alone is Rs. 54,500. The estimated expenditure in 1947-8 is Rs. 20,000. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate and the balance will be met by re-appropriation of funds.

Item (ii).—This is also a new work which has been approved by the Government but orders on which have yet to issue. This is one of the schemes included in the Grow More Food programme for 1947-8 and is estimated to cost Rs. 3 lakhs for works alone. The expenditure in 1947-8 is estimated at Rs. 30,000. As the expenditure is on a 'new service' a token sum of Rs. 100 is included in the supplementary estimate and the balance will be met by re-appropriation of funds.

Item (iii).—Purchase of tools and plant at a cost of Rs. 9 lakhs for use on irrigation works has been sanctioned in the current year. The expenditure in the current year is estimated at Rs. 2 lakhs, and as this is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate and the balance will be met by re-appropriation of funds.

Item (iv).—This is another new work sanctioned in the current year. The sanctioned estimate of expenditure for the work is Rs. 3·65 lakhs. The expenditure in the current year is estimated at Rs. 50,000. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate and the balance will be met by re-appropriation of funds.

Item (v).—This is also a new work sanctioned in the current year under the Grow More Food programme for 1947–8. The estimated amount of expenditure sanctioned is Rs. 3·5 lakhs. The expenditure in 1947–8 is estimated at Rs. 1 lakh. As it is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate and the balance will be met by reappropriation of funds.

(4) Grant IX—Heads of Provinces, Ministers and Headquarters Staff.

Estimate of the amount required for further expenditure.

	Rs.
Voted	200
Total of sums charged	*100*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.

(iii) Do.	k. Public Service Commission.	A. Pay of officers ..	*100*	..
	Total ..		*100*	200

Explanatory Note.

Item (i).—The Government issued orders in July 1947 sanctioning the revision of the pay of personal clerks and the appointment of personal assistants to the Hon'ble Ministers. The extra expenditure involved is Rs. 30,800 per annum ultimately and Rs. 19,800 in 1947–8. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate The balance of the amount required in the current year, viz., Rs. 19,700 will be met from savings within the grant.

Item (ii).—The Government sanctioned the appointment of a temporary Joint Secretary and other staff to cope with the increase of work in the Legal Department for a period of one year from 11th March 1947. The ultimate extra cost is Rs. 24,600 per annum, while the additional expenditure involved is Rs. 24,000 in the current year. As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken in due course to provide the balance of the amount required for expenditure in the current year by re-appropriation from savings within the grant, if possible, or by obtaining a supplementary grant from the Legislature in March 1948.

Item (iii).—The Government sanctioned the appointment of an extra Member of the Madras Public Service Commission and four peons under him for work connected with recruitment of war service candidates for a period of six months from 24th June 1947. The additional expenditure involved is Rs. 14,500. As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required for expenditure in the current year in due course by re-appropriation from savings within the grant.

(5) Grant XI—District Administration and Miscellaneous.

Estimate of the amount required for further expenditure.

	Rs.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
25. General Administration —District Administration and Miscellaneous.	w. Miscellaneous ..	C. Rural Recreation Scheme— (i) Prohibition districts— (1) Pay of officers ..	..	100

Explanatory Note.

The following schemes were introduced during the course of the current year :—

(i) *Staff for Prohibition ameliorative work.*—For ameliorative work in the eight districts to which Prohibition will be extended from 1st October 1947, the Government have sanctioned staff and other items of expenditure on the same scale as in the districts in which Prohibition is now in force. The cost comes to Rs. 6,90,000 per annum recurring and Rs. 32,000 non-recurring. The expenditure likely to be incurred in 1947–8 is Rs. 3,19,500 (Rs. 2,87,500 recurring and Rs. 32,000 non-recurring). A lump-sum provision of Rs. 2,65,700 has been made for the purpose in the Budget Estimate for 1947–8. Excluding this, the additional amount required is Rs. 53,800.

(ii) *Propaganda work.*—The Government have sanctioned for propaganda connected with Prohibition the employment of a photographer and the preparation of Prohibition slides. The cost is Rs. 5,900 recurring per annum and Rs. 500 non-recurring. The expenditure likely to be incurred during 1947–8 is Rs. 3,450 or Rs. 3,500 roundly.

As the expenditure on each of the two schemes is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required for expenditure in the current year either by re-appropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(6) Grant XIII—Jails.

Estimate of the amount required for further expenditure.

	Rs.
Voted	300
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
(i) 28. Jails and Convict Settlements.	a. Jails ..	B. Presidency Jails—2. Pay of establishments and allowances. ..	..	100
(ii) Do.	Do. ..	G. Certified schools—1. Pay of officers	..	100
(iii) Do.	Do. ..	G. Certified schools—5. Grants to private Certified Schools and towards the establishment of Detension Homes. ..	..	100
			..	300

Explanatory Note.

Item (i).—In March 1947, the Inspector-General of Prisons proposed the revision of the pay (i) of warder staff and petty officers so as to be on par with the pay of the constabulary and (ii) of special petty officers because the scales of pay of constables and II grade warders and petty officers were more or less the same prior to 1st April 1946, that the duties devolving on the warder staff were not in any way less responsible and onerous than those of constables, that their hours of duty commence from 5–30 in the morning and end at 6-30 p.m. or 7 p.m. and again a few of them have to come for night duty in turn and that the warders of certain jails refused to take their pay on the ground that the revised scales sanctioned in February 1947 were inadequate. The Government therefore sanctioned the following revised scales of pay to the Jail subordinates mentioned below :—

Serial number and posts. (1)	Scale sanctioned in February 1947. (2) Rs.	Revised scale sanctioned. (3) Rs.
1 Special petty officers in Borstal and Certified schools, I grade.	35—1—40	40—1—50
2 Special petty officers in Borstal and Certified schools, II grade, while undergoing probation—		
First year	25	To start at the stage of Rs. 29 in the scale of Rs. 25—½ (A) —35—1—40 admissible to warders, II grade.
Next 4 years	26	
Next 5 years	27	
Next 7 years	29	
From the 18th year onwards	31	
3 Warders in Central, District and Special Jails and Special Sub-Jails and petty officers other than those included in category (6) in Borstal and Certified schools, I grade.	27—1—35	35—1—40 (E.B.)—1—45
4 Warders in Central, District and Special Jails and Special Sub-Jails and petty officers other than those included in category (6) in Borstal and Certified Schools, II grade, while undergoing probation—		
First year	20	25—½ (A)—35—1—40
Next 4 years	21	
Next 5 years	22	
Next 7 years	24	
From the 18th year onwards	26	

The extra cost involved is Rs. 1,17,400 per annum roundly. It is not possible to estimate the extra cost to be incurred in 1947-8, as it will take some time to arrive at a decision on the question of refixing the pay of the existing incumbents in the revised scales of pay. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. The balance of the amount required to meet the expenditure in the current year will be met either by re-appropriation of funds or by obtaining a supplementary grant from the Legislature with reference to the savings under the grant which will be known only in February 1948.

Item (ii).—(*a*) It was brought to the notice of the Government that there was a strong public feeling that the work of institutions connected with the reformation of juvenile delinquents such as Certified Schools, Children's Aid Society, Society for the Protection of Children, Boys' Club, Home for Defective Children, etc., should not be administered by officials of the Jail department and that these institutions which are reformative in character, should be separated from the Jail department which deals with penal institutions and that their association with the Jail department was likely to defeat the very purpose of their creation. The Government therefore decided that institutions connected with the reformation of juvenile delinquents which were under the management of the Inspector-General of Prisons, who was also the Chief Inspector of Certified Schools, should be separated, from the Jail department and placed under separate management. They accordingly sanctioned on 5th March 1947 the creation of a separate department under a Chief Inspector of Certified Schools who would be under the direct administrative control of the Government. They also sanctioned for the Chief Inspector a pay of Rs. 500 per mensem with a house allowance of Rs. 100 per mensem and appointed an officer on contract for a period of five years. They also sanctioned the employment, temporarily for one year, of the necessary staff for the new office.

The extra cost involved in the scheme is Rs. 20,600 per annum recurring and Rs. 2,000 non-recurring. The cost during 1947-8 is Rs. 20,600 recurring and Rs. 2,000 non-recurring.

(*b*) Major J. Ford Thomson, who retired from the Indian Medical Service on 15th August 1947, is interested in the care of boys and has also studied Child Psychology. With the permission of the Hon'ble Minister for Agriculture he was for some time visiting the Senior Certified School, Chingleput, every Sunday and conducting experiments in Child Psychology and character training on an honorary basis. After conducting experiments in the school for a fortnight, he submitted a report to the Government in which he made various suggestions for re-organizing the present methods of dealing with juvenile delinquency in the Senior Certified School and in other similar institutions. The scheme drawn up by him included the opening of a teaching establishment at Chingleput for the training of teachers in Child Psychology. As it was considered that it would not be possible for him to carry out the programme drawn out in his report on a part-time basis, it was decided that the services of the officer should be obtained on a full-time basis. The Government have accordingly created the post of 'Adviser in Child Psychology to the Government of Madras' and have appointed Major J. Ford Thomson, I.M.S. (Retired) to the post on contract for a period of one year from the 1st September 1947.

The cost involved in the proposal is Rs. 27,400 per annum recurring and Rs. 8,500 non-recurring (inclusive of Rs. 7,500 repayable car advance). The cost involved during 1947-8 is Rs. 15,980 recurring and Rs. 7,500 non-recurring (repayable car advance).

As the expenditure in each of the two cases is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by re-appropriation of funds from possible savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (iii).—In March 1946, the Madras Society for the Protection of Children represented to Government that the rate of grant paid by them towards the maintenance of pupils in the Certified School under the Society was inadequate on account of the high cost of food and clothing and requested that it might be increased with retrospective effect. The Chief Inspector of Certified Schools recommended the revision of the maintenance grant with effect from the 1st April 1946. In the meanwhile, the Government took up for consideration a proposal to take over the Certified School from the Society and run it as a Government Certified School. Before a decision could be taken on the above proposal, the Society made representations to the Government that the salaries of the staff had not been paid for want of funds and asked for an immediate 100 per cent increase of the maintenance grant paid to the Society (i.e., Rs. 20 per child per mensem) with retrospective effect. It was considered that till the Government were able to find accommodation to remove the pupils from the Certified School under the Society, the Government should pay the Society at least as much as is being spent on boys in Government Certified Schools. The Chief Inspector also reported that the condition of boys in the Society's Home was disgraceful and that the children looked underfed. In the circumstances, it was considered necessary to issue orders immediately revising the maintenance grant paid to the Society. Orders were accordingly issued raising the maintenance grant from Rs. 10 to Rs. 18 per mensem for each pupil with effect from the 1st April 1946.

The extra cost involved is Rs. 14,400 per annum roundly and Rs. 28,800 during 1947-8 (which includes arrear payments from 1st April 1946). As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by re-appropriation of funds from possible savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(7) Grant XIV—Police.

Estimate of the amount required for further expenditure.

	Rs.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947-8. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
29. Police ..	c. District Force.	Executive A. District Police—I. Ordinary areas—3. Pay of Police Force	..	100

Explanatory Note.

The following two schemes involving expenditure on "new service" were sanctioned by the Government:—

(i) There were serious clashes between the Malabar Special Police and the communists in North Malabar in December 1946 and subsequently. It was reported that the taluk of Chirakkal in North Malabar was most inadequately policed to deal with the situation created by the activities of the communists. Two new police stations were therefore opened at Karivallur and Kankileri and the two outposts at Peringom and Irukkur were converted into police stations. These changes involved the appointment of a temporary additional staff of 4 Sub-Inspectors of Police, 6 head constables and 78 constables. The estimated recurring extra cost on account of the staff is Rs. 54,300 per annum ultimately and Rs. 47,500 in 1947-8.

(ii) In February 1947, the Inspector-General of Police and the Commissioner of Police made proposals to revise the pay of police subordinates. The proposals were considered by the Government and orders were issued revising the scales of pay and uniform allowance of all police subordinates including those in the Armed Reserve, C. I. D., Railway Police, Malabar Special Police and the Madras City Police with effect from the 1st April 1947. This revision involves a recurring extra expenditure of Rs. 31,52,700 per annum ultimately and of Rs. 28,90,000 in 1947-8.

As the expenditure on each of the above two items is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by re-appropriation from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(8) Grant XV—Education.

Estimate of the amount required for further expenditure.

under Grant XIV - Police and of Rs 130500 for annum retrievably and Rs 119740 in 1947-8 under Grant XXXII - Civil Defence on account of Dn Police.

Item (i).—In order to meet the great demand for admissions into colleges, the University of Madras and the Andhra University at the instance of Government permitted the Principals of colleges last year to admit a fourth batch of students for science subjects wherever possible. The Principals of certain colleges availed themselves of the permission and admitted in 1946–7 additional number of students for science classes. The Director of Public Instruction submitted proposals for the employment of extra staff in these colleges necessitated by the admission of fresh batch of students. He also took into account the probable increase in strength in 1947–8. After careful examination the Government sanctioned the minimum additional staff required. The ultimate cost is about Rs. 60,500 per year. The cost in 1947–8 is estimated at Rs. 22,900.

The public of Tellicherry, Malabar district, had been pressing for sometime past that the Government second grade college at the place should be raised to the first grade. The Government did not at first agree to the proposal. In view of the fact that there is so much rush for admissions into colleges and in view of the persistent demand from the public of Tellicherry, the Government subsequently sanctioned the proposal.

The proposal involves a non-recurring expenditure of Rs. 1,08,000 for construction of buildings, acquisition of land, purchase of books and furniture and a recurring expenditure of Rs. 35,000 per annum. An additional fee income of about Rs. 8,000 is expected by raising the college to the first grade.

It is not possible to say how much of the non-recurring expenditure will be incurred in the current year. The plans and estimates for the buildings have been called for and they are still awaited. As regards recurring expenditure, the cost in 1947–8 is estimated at Rs. 7,300.

As the expenditure on account of the above two schemes is 'on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The balance of the expenditure in the current year will be met from savings within the grant if available, or by obtaining a supplementary grant in March 1948.

Item (ii).—Government sanctioned with immediate effect the transfer to them of the management of the Lady Hope Municipal College, Guntur, to be run as a Government College for Women. It has been proposed that an annual contribution of Rs. 10,000 for a period of five years may be recovered from the municipal council under section 123 of the Madras District Municipalities Act.

The approximate non-recurring and recurring expenditure involved in the proposal is as follows :—

Ultimate Recurring expenditure—Rs. 27,500 per annum.
Ultimate Non-recurring expenditure—Rs. 3 lakhs.
The expenditure in the current year is estimated at Rs. 9,900 recurring and Rs. 8,200 non-recurring.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate and the balance of the expenditure in the current year will be met either by reappropriation or by obtaining additional appropriation from the Legislature in March 1948.

Item (iii).—In 1946, the Government sanctioned the opening of two Engineering Colleges, one at Vizagapatam and the other at Anantapur. The Vizagapatam College is located at Cocanada in the buildings of the combined Military Hospital pending the construction of permanent buildings at Vizagapatam. As the Madras University did not grant affiliation for the Anantapur College, the students admitted into this college were distributed between the College of Engineering, Guindy, and the Arthur Hope College of Technology, Coimbatore. Necessary staff was also sanctioned for both the colleges. The second year course was opened in these new colleges from 1947–8, and the Director of Public Instruction submitted proposals for the employment of the additional staff required. After careful examination, the Government sanctioned the minimum additional staff. The ultimate additional expenditure is expected at about Rs. 45,700 per year and the cost in 1947–8 is estimated at Rs. 12,000.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant if available or by obtaining additional appropriation from the Legislature in March 1948.

Items (iv) *to* (vii).—In May last, the Government considered the question of further revision of the scales of pay and scales of grants admissible to teachers in schools under local bodies and under private managements and they sanctioned the following scales of pay and scales of grant :—

Class of teacher.	Old scale of pay or grants.	Revised scale of pay or grants.
	RS.	RS.
Elementary schools under Local Bodies—		
Lower elementary	20—1—30.	23—1—33.
Higher elementary	25—1—40 + 5 for craft training.	30—1—45.
Secondary grade	35—1½—65.	40—1½—55—2—75.

Elementary schools—Private managements and panchayats—

Class of teachers.	Scale already fixed.	Scale now fixed.
	RS.	RS.
Lower elementary—		
Untrained	8	11
Trained	15	18
Higher elementary—		
Trained	20—½—25	25—½—30
Secondary grade—		
Trained	25—1—35	35—1—45
Collegiate grade—		
Trained	35	35—1—45

Class of teachers.	Scale already fixed.	Scale now fixed.
	RS.	RS.
Secondary schools—Local bodies—		
Secondary grade	40—½—70+5 for craft training.	45—2—85
L.T.'s	70—5—140+5 for craft training.	75—5—145
(i) Physical training instructors and instructresses—		
Grade I—		
S.S.L.C. holders with a higher grade certificate in physical education ..	45—1½—75	50—2—70—2½—95
Grade II—		
Completed S.S.L.C. with a lower grade certificate in physical education	35—1—50	45—2—75
Grade III—		
Others	30—1—50	40—1—60
(ii) Hindustani teachers—		
Secondary grade trained	40—1½—70	50—2—90
Others	30—1—50	40—1½—70

In the case of panchayat and aided elementary schools, the extra liability to Government on account of revision of scales of grants was estimated at Rs. 34 lakhs recurring. In the case of secondary schools under local bodies the revision of scales will entail an additional expenditure of rupees two lakhs a year. Of this an expenditure of rupees one lakh a year will be met from Provincial funds by way of grants. The remaining expenditure will be met by local bodies.

In regard to secondary schools under private management, the Government also decided that grants should be assessed at 2/3 of the net cost instead of ½ of the net cost in order to enable managements to adopt for teachers in their schools the scales of pay laid down for teachers in schools under local bodies. The additional liability to Government was estimated at Rs. 11 lakhs annually. In the case of elementary schools under local bodies the decision of the Government was that the extra expenditure (Rs. 6 lakhs) on account of the further revision of salaries should be met by the local bodies themselves. As the expenditure is on a "new service", a token grant of Rs. 100 is included in the supplementary estimate under each of the sub-heads of appropriation concerned. The balance of the expenditure in the current year which is not possible to estimate at present will be met from savings within the grant or by obtaining additional appro priation from the Legislature in March 1948.

Item (viii).—As a preliminary to the introduction of basic education, the Government sanctioned the opening of training schools for training teachers in basic education. Two schools were opened last year, one at Periyanayakanpalayam, Coimbatore district and the other at Vinayasramam, Guntur district. This year three more schools have been opened, one at Cuddalore, South Arcot district, another at Palghat in Malabar district and the third at Moodibhidiri in South Kanara district. The ultimate cost on account of the schools is estimated to Rs. 1,01,800 (Rs. 93,800 recurring and Rs. 8,000 non-recurring) and the cost in 1947–8 is expected to be Rs. 40,600 recurring and Rs. 8,000 non-recurring.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The balance of the expenditure in the current year will be met from savings within the grant or by obtaining an additional appropriation from the Legislature in March 1948.

(9) Grant XVI—Medical.

Estimate of the amount required for further expenditure.

	RS.
Voted	200
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				RS.
(i) 38. Medical.	b. Hospitals and Dispensaries.	A. Presidency Hospitals (excluding the Hospital of Indian Medicine)— 6. Medicines and Hospital necessaries.	..	100
(ii) Do.	Do.	B. Mufassal Hospitals and Dispensaries— I. Ordinary Areas— 2. Pay of Establishments ..	..	100
		Total ..	..	200

Explanatory Note.

Item (i).—(*a*) The Government have sanctioned the replacement of a Pandex 100 M. A. X-Ray unit in the Barnard Institute of Radiology, Government General Hospital, Madras, by a completely new fully rectified 200 M. A. unit at a cost of Rs. 25,000 after obtaining a rebate of Rs. 6,500 for the existing unit which had frequent breakdowns.

(*b*) The Government have sanctioned the purchase of two additional washing machines and an additional ironing machine for the steam laundry of the Government General

Hospital, Madras, at a cost of Rs. 25,000 to cope with the increased work. They have also sanctioned the following expenditure in connection with the running of the plants :—

Six dhobies on Rs. 15–20 plus presidency allowance of Rs. 2–8–0 and dearness allowance of Rs. 16 per mensem each.

Other expenses—Rs. 1,500.

The ultimate expenditure involved is Rs. 3,900 recurring and Rs. 25,000 non-recurring. The cost in 1947–8 is Rs. 1,950 recurring and Rs. 25,000 non-recurring.

As the expenditure on each of the two schemes is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. The balance of expenditure in the current year will be met by reappropriation from savings anticipated within the grant.

Item (ii).—According to the post-war plan of the Government, it was originally proposed that 450 public health units and 45 group centres and 270 combined medical and public health primary centres should be started during the first quinquennium of the post-war period. But in view of the present need for economy it has been decided to reduce the combined medical and public health primary centres from 270 to 150 and the group centres from 45 to 25 with no separate public health units. These centres will be opened at the rate of 30 combined centres and 5 group centres a year. The following staff will be employed in each of the primary centres and taluk group centres :—

Primary centres.

Medical staff.	Public Health staff.
One Civil Assistant Surgeon.	One Health Inspector.
One Compounder.	One Health visitor.
One Midwife.	Two Midwives.
One Nursing orderly.	One Peon for each Midwife.
One Toti.	

Taluk group centres.

One Second-class Health Officer.
One Woman Medical Officer.
One Peon for the Woman Medical Officer.

The ultimate and immediate cost involved in the employment of the necessary staff, excluding construction of buildings for housing the combined medical and public health centres and the staff employed thereon is as follows :—

	Ultimate cost.		Cost in 1947–8	
	Recurring.	Non-recurring.	Recurring.	Non-recurring.
	(1)	(2)	(3)	(4)
	RS.	RS.	RS.	RS.
38. Medical	14,46,900	37,500	99,400	7,500
39. Public Health	10,02,500	75,000	69,000	15,000
Total ..	24,49,400	1,12,500	1,68,400	22,500

As regards the housing of the combined medical and public health centres and the staff employed therein, it is estimated that the total cost of constructing buildings for the purpose including the provision of water-supply, etc., works out roughly to Rs. 1,81,200. The cost of acquisition of land required for these buildings is estimated at Rs. 18,800 bringing the total cost of the construction of buildings including the acquisition of lands to 2 lakhs of rupees under the scheme for the provision of combined medical and public health primary centres. Similarly the cost of building for 25 taluk centres works out to Rs. 9·25 lakhs. In view, however, of the difficulty of constructing these buildings immediately, it has been decided to make a start with these centres, by renting private buildings. The cost of renting these buildings is not known now.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Explanatory Note.

Item (i).—The employment of an Assistant Accounts Officer and staff has been sanctioned for the internal audit of the accounts of departmental schemes, other than State Trading Schemes, for ensuring proper accounting in the various agricultural depots and stations at a cost of Rs. 34,200 per annum. The estimated expenditure in 1947–8 is Rs. 17,100. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (ii).—The employment of an additional accounting staff for the District Agricultural offices has been sanctioned at a cost of Rs. 37,200 per annum to cope with the increase of work consequent on the introduction of the comprehensive scheme for multiplication and distribution of improved seeds. The estimated expenditure in 1947–8 is Rs. 18,600. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (iii).—(*a*) In connection with the Grow More Food campaign, sanction has been accorded for the purchase of 100 Conventry cub Diesel Oil Engines from Messrs. Parry & Co. for sale to ryots without loss to the Government at a cost of Rs. 2,07,000. The whole of this expenditure will be incurred in the current year.

(*b*) Sanction has been accorded for the purchase of machine tools at a cost of Rs. 2,40,000 which are required for the setting up of two tractor workshops for maintenance and servicing of Agricultural machinery. The whole of this expenditure will be incurred in the current year.

As the expenditure on each of the above two items is on a "new service," a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (iv).—Sanction has been accorded for the employment of a teaching Assistant in Mycology and other subordinate staff for the Mycology section of the Agricultural College, Bapatla, consequent on the opening of the third year course, at a cost of Rs. 11,700 per annum. The estimated expenditure for 1947–8 is Rs. 5,850.

Sanction has also been accorded for the employment of Gazetted Lecturers in Agricultural Economics and Mycology with certain other staff in the Agricultural College, Bapatla, at a cost of Rs. 21,716 per annum, due to the opening of Agricultural Economics and Mycology sections for third year class, and to the increase of work in other sections. The estimated expenditure for 1947–8 is Rs. 15,800.

As the above expenditure is on a "new service," a token grant of Rs. 100 is included in the supplementary estimate.

Item (v).—With a view to meeting the demand for trained personnel to work in schemes connected with horticultural development in this Province, the Government have sanctioned a scheme to institute a diploma course at the Fruit Station at Kodur to train 40 Agricultural and Botany graduates at the rate of 20 a year in two years and to train 50 fieldmen at the rate of 25 a year in two years at an estimated cost of Rs. 1,57,103. The cost in the current year is estimated at Rs. 26,000. As the expenditure is on a "new service," a token grant of Rs. 100 is included in the supplementary estimate.

Item (vi).—An expenditure of Rs. 35,000 for three years has been sanctioned for the scheme to investigate the blast and foot-rot diseases of rice with a view to devising methods of control in order to reduce the losses in yield. A part of the expenditure is to be met by the Indian Council of Agricultural Research. The cost in 1947–8 is estimated at Rs. 13,400. As the expenditure is on a "new service," a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (vii).—Sanction has been accorded to an expenditure of Rs. 24,570 for two years to conduct trials on black soils of Bellary, Alur and Adoni for using the results obtained in Dry Farming Research. The cost in 1947–8 is estimated at Rs. 13,600. As the expenditure is on a "new service," a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (viii).—The Government have sanctioned a scheme at a cost of Rs. 70,300 for two years, for the establishment of five exploratory stations at Cuddalore, Vizagapatam, Ramnad, Nandyal and Salem with a view to ascertaining the quality and yield of cigarette tobacco which the soil and the climate of the areas can produce in connection with the All India Research work on cigarette tobacco. The expenditure in the current year is estimated at Rs 500. As the expenditure is on a "new service," a token appropriation of Rs. 100 is included in the supplementary estimate.

The balance of the expenditure in the current year on the above items will be met from savings, if available, or by obtaining a supplementary grant from the Legislature in March 1948.

(11) Grant XIX—Veterinary.

Estimate of the amount required for further expenditure.

	Rs.
Voted	500
Total of sums charged	*Nil.*

Summary.

(v) Do.	Do. ..	F. Other charges—2. Contributions	..	100
		Total ..	..	500

Explanatory Note.

Item (i).—The Government sanctioned in March 1947 the deputation of two Veterinary Assistant Surgeons to undergo the advanced course in Animal Husbandry in the Indian Veterinary Research Institute, Izatnagar, for a period of 8 months. The expenditure involved is estimated at Rs. 1,200 both ultimately and in 1947–8 and covers the tuition fees, travelling allowance, compensatory allowance, etc., for the two officers. As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate.

Item (ii).—The number of admissions to the B.V. Sc. degree course in the Madras Veterinary College was increased from 80 to 100 from July 1947. The Director of Veterinary Services proposed that certain additions and alterations should be carried out very urgently to the Madras Veterinary College buildings to accommodate the increased number of students, at a total cost of Rs. 21,675 and that sanction might also be accorded to an expenditure of Rs. 12,000 for the purchase of scientific apparatus and materials, etc., for the College. As sanction had already been accorded to an expenditure of Rs. 11,875 for carrying out certain alterations to the Veterinary College buildings, the balance to be sanctioned for this purpose was only Rs. 9,800. In view of the urgency of the proposal, the Government sanctioned the balance of Rs. 9,800 for additions and alterations to buildings under "50. Civil Works", and Rs. 12,000 for apparatus and materials under "41. Veterinary". As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate.

Item (iii).—The Director, Indian Veterinary Research Institute, Mukteswar, proposes to constitute two units called the "Emergency Unit" and "Field Research Unit" to assist the provinces in investigating sudden outbreaks of animal diseases and in conducting field investigation. The sanction of the Government of India for these units is awaited. The Emergency Unit is to be provided with a specially equipped motor laboratory at a cost of Rs. 17,150 non-recurring and Rs. 4,200 recurring and this Government have agreed to provide the laboratory. The Director has proposed that the laboratory can be sanctioned in advance and that it can be used by the Assistant Disease Investigation Officers and the Veterinary Investigation Officer. The expenditure on the Motor Laboratory includes the cost of a motor van, internal fittings, apparatus and chemicals, pay of driver and cleaner, petrol, etc. The expenditure in 1947–8 is estimated at Rs. 2,000 recurring and Rs. 17,150 non-recurring. As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate.

Item (iv).—A scheme for the improvement of livestock known as the "premium scheme" is in force in this Province. Breeding bulls owned by private persons which are approved by the Veterinary Department are admitted to this scheme. The owners of these bulls have to satisfy certain prescribed conditions regarding diet, number of services performed, etc. They are then paid a premium towards the cost of maintenance of the bulls and the services performed.

In view of the increase in the cost of maintaining a breeding bull, the Government sanctioned in December 1945 the following enhanced rates of premia to be paid to owners of bulls admitted into the Premium Scheme :—

First year	Rs. 160 per annum.	(Rs. 70 for services and Rs. 90 for maintenance.)
Second and subsequent years ..	Rs. 150 per annum.	(Rs. 60 for services and Rs. 90 for maintenance.)

In the case of Ongole bulls and buffalo bulls, the amount allowed for maintenance will be increased further by Rs. 10 per annum.

The Director of Veterinary Services has stated that in view of the increasingly high cost of cattle feed and high rate of wages to bull attendants, the cost of maintaining a breeding bull works out to Rs. 360 per annum. In order to encourage owners to retain suitable male stock for breeding, he has proposed that the premium may be raised to Rs. 200 per annum (Rs. 140 for proper maintenance of bulls and Rs. 60 for services performed by the bull) and that in the case of Ongole and Murrah buffalo bulls Rs. 20 more be paid for their maintenance. The extra cost involved in the proposal is estimated at Rs. 37,500 per annum. The recurring cost during 1947–8 will be about Rs. 15,000. The proposal has been treated as a "new service" and a token sum of Rs. 100 is included in the supplementary estimate.

Item (v).—The Government have sanctioned in July 1947 a scheme for the formation of a co-operative cattle breeding society at Macheri, Salem district, where there are adequate grazing facilities. The scheme is designed to provide the required number of stud bulls for the ryots through a co-operative society. The society will purchase and distribute twelve stud bulls in the first instance for serving the cows of its members. The ultimate expenditure involved in the scheme is estimated at Rs. 3,150 non-recurring towards the subsidy for the purchase of breeding bulls and grant for the purchase of breeding bulls and grant for the purchase of a cycle, and Rs. 2,728 recurring towards pay and allowances of a Stockmen Compounder, contingencies and premia for twelve breeding bulls. The expenditure in the current year is estimated at Rs. 2,043 recurring and Rs. 3,150 non-recurring. As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate.

The amount required to meet the expenditure in the current year on all the above items will be met by reappropriation to the extent possible from savings likely to accrue under the grant and a supplementary grant will be obtained from the Legislature for the balance in March 1948.

(12) Grant XX—Co-operation.

Estimate of the amount required for further expenditure.

	Rs.
Voted	200
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.

(ii) Do. ..	c. Grant-in-aid ..	I. Ordinary areas—Grants-in-aid	..	100
		Total ..	..	200

Explanatory Note.

Item (i).—(1) With a view to providing employment for the tappers thrown out of employment due to the introduction of prohibition in the districts of Salem, Coimbatore, North Arcot and Chittoor, the Government have sanctioned a special staff of 13 Senior Inspectors of Co-operative Societies, 3 Junior Inspectors and 13 peons for the organization of co-operative societies for the manufacture of palmyra jaggery. The ultimate cost of the staff works out to Rs. 33,757 per annum. The estimated expenditure during 1947–8 is Rs. 22,131.

(2) The Government have sanctioned the recruitment and training of 600 Junior Inspectors of Co-operative Societies to meet the acute shortage of staff in the Co-operative department. The candidates will be trained for a period of six months and will be paid at the rate of Rs. 65 per mensum during the period of training. The expenditure works out to Rs. 2,34,000 both ultimately and in 1947–8.

(3) With a view to relieving the shortage of housing accommodation in the City of Madras a Co-operative House Construction Society has been started in the City for the construction of dwelling houses for its members. As the early stages will involve much spade work before the society can commence to earn, the appointment of a Deputy Registrar of Co-operative Societies at the cost of the Government for a period of one year has been sanctioned to work under the Madras Co-operative House Construction Society. The ultimate cost of the staff works out to Rs. 6,592 per annum. The estimated expenditure during 1947–8 is Rs. 2,880.

(4) In December 1946, the Government directed that the existing weavers' co-operative societies should be expanded and new ones organized as quickly as possible so as to cover all the cotton handlooms in the Province which are now outside the co-operative fold and the Registrar of Co-operative Societies was asked to take steps to implement these orders. In order to enable the Registrar of Co-operative Societies to cope with the additional work involved in organizing new weavers' societies, the Government sanctioned in March 1947 the employment of 2 Deputy Registrars of Co-operative Societies, 25 Co-operative Sub-Registrars, 91 Senior Inspectors, 8 Junior Inspectors, 3 Typists and 30 peons for a period of one year subject to the condition that they should be appointed only as and when necessary. The ultimate cost of the staff works out to Rs. 3,69,260. The estimated expenditure during 1947–8 is Rs. 3,16,570.

(5) As the producers-*cum*-consumers co-operative societies sanctioned in November 1946 for the Northern Circar districts were quite new to procurement work and as the heavy financial transactions of the societies required close scrutiny and check by experienced co-operative staff, the Government sanctioned in June 1947 the employment from the date of appointment up to 31st August 1947, of 20 Senior Inspectors of Co-operative Societies. Though the procurement agency of these societies was suspended in April 1947, the staff of 20 Senior Inspectors was found quite necessary to audit the accounts of these societies and also to collect necessary information required by the Committee appointed to examine the future of these societies. The cost of employment of the above staff works out to Rs. 26,200 per annum recurring ultimately and Rs. 23,700 for the current year.

(6) The Government sanctioned in December 1946 a special scheme for the entrustment of the entire procurement of paddy and millets in the Vizagapatam district to the Vizianagram Central Co-operative Stores for the year 1946–7. For the efficient supervision and management of this scheme, the Government have sanctioned in April 1947 the employment of 3 Co-operative Sub-Registrars, and 9 Senior Inspectors for a period of 6 months from the date of appointment and it has been ordered that necessary contribution under Fundamental Rule 127 should be recovered from the Vizianagram Central Co-operative Stores.

The Government have also sanctioned simultaneously the employment at Government cost for a period of 6 months from the date of appointment, of 1 Co-operative Sub-Registrar to assist the Deputy Registrar of Co-operative Societies, Vizagapatam and one Junior Inspector clerk to cope with the increase of work in the Deputy Registrar's office, Vizagapatam.

The estimated cost of the above staff is Rs. 21,400 per annum recurring and Rs. 14,600 in 1947–8.

As the expenditure on each of the above schemes is on a 'new service,' a token sum of Rs. 100 is included in the supplementary estimate on account of the above two schemes. The additional funds required in the current year will be met by re-appropriation of funds, if possible, from savings within the grant and, if not, necessary supplementary grant will be obtained from the Legislature in March 1948.

Item (ii).—The Government sanctioned the grant of a subsidy of Rs. 1,500 to each of the 8 Land Reclamation Co-operative Societies in the Cauvery-Mettur Project Area, Tanjore district, to meet 50 per cent of the cost of construction of godowns, as it was considered that the provision of godowns will facilitate the recovery of loans advanced to the ryots by the society. The total expenditure on the scheme which will be incurred during the current year is estimated at Rs. 12,000.

As the expenditure is on a 'new service,' and as it may be possible to meet the extra cost in the current year either in part or in whole, from savings likely to accrue within the grant, a token appropriation of Rs. 100 is included in the supplementary estimate. A supplementary grant to the extent necessary will be obtained from the Legislature in March 1948.

(13) Grant XXI—Industries.

Estimate of the amount required for further expenditure.

(viii) Do.	c. Grants-in-aid. ..	Grants to Industrial and Commercial Museums	..	100
		Total ..	..	800

Explanatory Note.

Item (i).—With a view to effecting further improvements to the Sound Engineering section in the Government School of Technology, Madras, the Director of Industries and Commerce recommended the purchase of additional equipment required for the use of the first batch of students whose third and final year courses begin in 1947. The proposal was approved by the Government in June 1947. It involves a total expenditure of Rs. 1,25,000, and the whole of it will be incurred in the current year. As the expenditure was treated as on a 'new service,'

and as the possibility or otherwise of meeting it from savings within the grant will be known only in February 1948, a token appropriation of Rs. 100 is included in the supplementary estimate.

Items (ii) *to* (iv) *and item* (vii).—With a view to ensuring that the rates of wages paid to the Industrial workers in Government undertakings under the Director of Industries and Commerce should compare favourably with those paid by private undertakings, the Director of Industries and Commerce was asked to take up the question of revision of wages of industrial workers in institutions under his control and his proposal in this regard was approved by the Government in April 1947. The proposal involves a total expenditure of Rs. 10,000 per annum and Rs. 7,790 in 1947–8. As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate under each of the sub-heads of account concerned.

Item (v).—In April 1947, Government approved the proposal of the Director of Industries and Commerce to depute Sri A. Ramanna Pantulu, an Industrial Chemist to the Indian Institute of Science, Bangalore, for a period of two weeks to study the process followed there in regard to the production of soya bean milk. The expenditure involved in the proposal is about Rs. 150. As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (vi).—As it was found necessary to exercise proper control over certain mills for maintaining supplies of cotton cloth and yarn, six Authorized Controllers (3 gazetted and 3 non-gazetted) were appointed with a staff of 6 lower division clerks and 12 peons. The ultimate cost of the scheme is Rs. 31,000 per annum. The expenditure likely to be incurred in the current year is Rs. 15,400. As the above expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (viii).—In March 1947, the Government sanctioned a grant not exceeding Rs. 500 for each museum, other than the Central Industrial Museum, for the purchase of additional furniture. Sanction was also accorded to the grant of Rs. 2,500 for each of the twenty mufassal museums for use as rolling capital for the sales emporia. The Government also permitted the employment of one salesman, one attendant and one night watchman and granted a rent not exceeding Rs. 50 per mensem to house the museum in the case of the mufassal museums. A non-recurring grant of Rs. 10,000 was sanctioned to the Central Industrial Museum, Madras. The total ultimate expenditure involved is Rs. 1,16,300 (Rs. 46,300 recurring per annum and Rs. 70,000 non-recurring) inclusive of a grant of Rs. 2,500 for each mufassal museum for use as rolling capital of the sales emporia. The estimated expenditure in 1947–8 is Rs. 34,600 under recurring and Rs. 70,000 under non-recurring. As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate.

The balance of the amounts required for expenditure in the current year on all the above items will be met either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(14) Grant XXII—Cinchona and Fisheries.

Estimate of the amount required for further expenditure.

	Rs.
Voted	200
Total of sum charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted

				Rs.
(i) 43. Industries.	d. Cinchona plantations. ..	B. Quinine Factory—4. Other charges	..	100
(ii) Do.	e. Fisheries ..	S. Postwar Reconstruction— (i) Rural Fishery Demonstration— 1. Pay of establishments and other charges.	..	100
		Total ..	..	200

Explanatory Note.

In November 1946, the Director, Cinchona department, submitted proposals for increasing the rates of wages and cost of living allowance of the unskilled labourers employed in the Government Cinchona Plantations on the Nilgiris, Anamalais and in the Government Quinine Factory at Naduvattam. The total recurring expenditure involved is Rs. 2,31,900 per annum. The revised rates were given retrospective effect from 1st October 1946. The approximate expenditure in 1947–8 is estimated to be Rs. 3,47,850. Part of the expenditure is debitable to "72. Capital Outlay on Industrial Development—a. Cinchona" under Grant XXXIV. As the expenditure is on a "new service" a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (ii).—In June 1947, Government accorded sanction for the establishment of eight Rural Fishery Demonstration Units for a period of two years in addition to the existing eight Units already sanctioned in 1944. The total estimated cost on account of the additional Units is Rs. 1,00,800 recurring per annum and Rs. 8,000 non-recurring. The Government of India have agreed to meet half the expenditure on account of the scheme. The expenditure during the current year is estimated at Rs. 43,800 recurring and Rs. 8,000 non-recurring. As the expenditure is on a "new service," a token appropriation of Rs. 100 is included in the Supplementary Estimate. Action will be taken to provide the balance of the amount required by re-appropriation from savings within the grant.

(15) Grant XXIII—Miscellaneous Departments.

Estimate of the amount required for further expenditure.

(ii) Do.	b. Inspector of factories.	A. Pay of officers	..	100
		Total ..	..	200

Explanatory Note.

Item (i).—The following five "new service" schemes were introduced during the course of the current year :—

(1) *Grant of scholarships to Harijan College students during* 1946-7.—It was decided in March 1947 that all Harijan students and a few convert women students who were studying in the colleges of the Province during 1946-7 should be given residential scholarships. The Commissioner of Labour was authorized to give scholarships to 110 students with reference to this decision. As the amounts of these scholarships could not be drawn and disbursed before 31st March 1947 they were drawn and disbursed only during the current year. The Commissioner of Labour has reported that the actual expenditure incurred in sanctioning these scholarships is Rs. 17,570 (Rs. 14,198 for Harijans plus Rs. 3,372 for women converts) and he reports that an equal amount is required for the renewal of these scholarships during 1947-8. The additional expenditure to Government on account of this scheme is estimated at Rs. 17,570 per annum.

(2) *Appointment of additional teachers in certain schools in the South Arcot district.*—Due to the increase in the strength and average attendance in certain labour schools in the South Arcot district it was found necessary to sanction the employment of 45 additional teachers in the higher elementary grade. The ultimate expenditure involved in the scheme is Rs. 39,240 per annum. The additional expenditure in the current year is estimated at Rs. 18,630.

(3) *Conversion of the Higher Elementary School, Masulipatam, into a Middle School.*—Sanction was accorded to the conversion of standards IV to VIII of the Higher Elementary School at Masulipatam into a Middle School with classes IV and V and Forms I to III. The employment of a B.A., B.Ed., Headmaster, two secondary grade teachers and one pandit, the conversion of the post of Physical Training Instructor into that of a Y.M.C.A. trained Physical Instructor and the retrenchment of one higher elementary grade teacher and one lower elementary grade teacher in the school, were also sanctioned. The net extra provision required in the current year is Rs. 2,331 and the ultimate cost is estimated at Rs. 4,540 per annum.

(4) *Increase in the number of boarders in the Labour Department hostels at Salem, Calicut and Masulipatam.*—Sanction was accorded to increase the number of boarders in the Labour Department hostels at Salem, Calicut and Masulipatam, by 6, 10 and 35, respectively, with effect from the current school year. The immediate and ultimate extra cost is Rs. 7,600 per annum.

(5) *Taking over the management of the Aided Adi-Dravida Elementary School at Endal village, South Arcot district.*—The Manager of the Aided Elementary School at Endal village, Kallakurichi taluk, South Arcot district, and the Harijan residents of the village represented to Government that the management was unable to run the school any longer and the District Educational Officer, South Arcot, recommended that the school should be taken over by the Labour Department in the interests of the education of the Harijans of the place. The Government accepted this recommendation and directed that the management of the school be taken over by the Labour Department with effect from the school year 1947-8. The ultimate cost of the scheme is Rs. 3,000 per annum recurring at Rs. 100 non-recurring and the cost in the current year is Rs. 2,466 recurring and Rs. 100 non-recurring.

A token sum of Rs. 100 is included in the supplementary estimate on account of all the five schemes. The additional funds required in the current year will be met by reappropriation, if possible, from savings within the grant and if not, necessary supplementary grant will be obtained from the Legislature in March 1948.

Item (ii).—In view of the considerable increase in the work connected with the administration of the factories and allied Acts during recent years, and of the growing volume and complication of labour legislation, two Assistant Inspectresses of Factories and eleven Inspectors of Factories, with necessary office staff were sanctioned with effect from the 1st April 1947. The ultimate cost of the scheme worked out to Rs. 1,70,500 per annum recurring and Rs. 10,000 non-recurring. The Commissioner of Labour has reported that the cost in the current year is Rs. 85,500 including Rs. 10,000 non-recurring.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. A supplementary grant for the additional funds required in the current year will be obtained from the Legislature in March 1948 after allowing for possible savings, if any, within the grant.

		(*b*) Road from miles 9/6 to 13/0 on the bank of Kistna Western Main canal from the irrigation branch of the P.W.D. to the Highways Department.		
		Total ..		2,400

Explanatory Note.

Item (i).—In view of the acute shortage of housing accommodation in the City, the Commissioner of Police proposed the acquisition of the premises 'Lutteral's Gardens' in Kilpauk for housing Armed Reserves in the City. The cost of acquisition of the building under Land Acquisition Act is Rs. 3·13 lakhs. The Government have sanctioned the acquisition. As expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (ii).—In the schemes approved for the Colonization of Wynaad in Malabar district and Araku Valley in the Vizagapatam Agency, provision has been made for the construction of temporary buildings for the accommodation of Government staff and offices of the various departments. Temporary buildings were sanctioned because permanent buildings would have cost more. Most of the buildings required in Araku have been put up and some have been constructed in the Wynaad. But majority of officers in Wynaad are dispersed all over the surrounding regions for want of accommodation in the colonization area. This has resulted in lack of co-ordination, untold privation to the staff and slow progress. It has also been found that temporary buildings are incapable of standing the inclement weather of the hills. On the reports of some of the Heads of Departments engaged in the Wynaad Colonization Scheme, the Government have decided to construct permanent buildings at minimum cost and have called for revised plans and estimates for the purpose. But the construction of permanent buildings will take considerable time. It has therefore been suggested that some Nissen huts should be acquired for the use of the Government staff at Wynaad and Araku. The Director-General of Disposals reported some time ago that 96 hospital Nissen huts were available for sale at the Royal Naval Depot at Avadi and the Government decided to purchase 24 of them at a total cost of Rs. 1,29,600 including transport and erection charges for use in Wynaad and Araku Valley. But the Director-General subsequently reported that the larger huts were not available and on further representation, he has offered 24 smaller Nissen huts of the dimension of 16′ × 36-3″ long with ends which are located at Avadi for sale and the Government have sanctioned the purchase of these 24 huts at a total cost of Rs. 28,800 and the whole expenditure will be incurred in the current year.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The balance required for expenditure in the current year will be met by reappropriation from savings within the grant.

Item (iii).—As the Post-war Road Programme was under revision a lump sum provision of Rs. 101·05 lakhs was made in the current year's budget under the above minor head for expenditure on the post-war road development works to be taken up in the current year, and it was decided that individual works should be sanctioned as soon as plans and estimates were received from the Chief Engineer (Highways). Accordingly, estimates are being sanctioned as and when proposals are received. Token grants are now applied for in respect of the works mentioned above, as the expenditure on each of them is on a "new service". Item Nos. 1 to 18 have already been sanctioned in anticipation of the approval of the Legislature in view of their urgency and in order to take advantage of the proper season for the commencement of the works. The last two items will be sanctioned after the token grants have been voted by the Legislature.

The details of the various works are as follows :—

Item 1—*Metalling miles* 5/0 *to* 8/5 *of Tiruvottiyur-Ponneri-Panjetti road.*—The road which is an important major district road is earthen between miles 5/0 to 8/0 and gravelled between miles 8/0 and 8/5 and it is impassable during the rainy season. Hence an estimate amounting to Rs. 98,000 has been sanctioned for laying laterite metalling to the stretches. The estimated expenditure in the current year is Rs. 34,000.

Items 2 *to* 14— *Widening of certain roads.*—The works relate to widening of roads to minimum standard widths and are given very high priority in the post-war road programme. The amounts of estimate for each item as sanctioned and the anticipated expenditure in the current year are given below :—

			Total estimated expenditure.	Estimate expenditure in 1947-8.
			Rs.	Rs.
Item 2—Widening to standard width		Cape Comorin-Bombay road (Kallakka-Mudabidri road from M. 0/3 to 18/8).	37,940	22,800
Item 3	Do.	Cape Comorin-Bombay road (Mudabidri-Mudaradi road from M. 22/7 to 50/1).	47,120	25,300
Item 4	Do.	Mysore-Mangalore road from M. 16/4 to 56/3.	32,050	19,200
Item 5	Do.	Halkot-Nagodi Frontier road from M. 13/4 to 32/7.	31,380	18,800
Item 6	Do.	Nellore-Bombay road from M. 13/1 to 42/0.	62,100	37,300
Item 7	Do.	Ootacamund-Avalanche road from M. 0/0 to 13/5.	1,14,500	14,300
Item 8	Do.	Ootacamund-Kullacambi road from M. 0/0 to 9/5.	1,04,000	13,000
Item 9	Do.	Perambalur-Ariyalur - Tanjore-Manamadura from road M. 77/1 to 108/6.	30,850	20,600
Item 10	Do.	Pondicherry-Salem road from M. 65/2 to 93/8.	35,700	24,000
Item 11	Do.	Calicut-Nilambur-Gudalur road from M. 57/0 to 61/0.	57,000	38,000
Item 12	Do.	Calicut-Nilambur-Gudalur road from M. 61/0 to 64/2.	50,500	6,300
Item 13	Do.	Nedlikotha-Devala road from M. 0/0 to 10/5.	88,000	11,000
Item 14	Do.	Kotagiri-Mettupalaiyam road from M. 0/0 to 10/3.	1,48,000	18,500

Items 15 *and* 16.—*Improvements to Coonoor-Kotugiri road and its branch road to Wellington and providing black-top surfacing to Kodaikanal ghat road between miles* 19/2 *to* 29/2.—The Chief Engineer reported that it was very difficult to maintain these roads as water bound macadam as they were subject to heavy rains. Hence estimates amounting to Rs. 1,93,000 and Rs. 96,900 respectively have been sanctioned for providing black-top surfacing to the roads. The estimated expenditure on the works in the current year is Rs. 50,000 and Rs. 60,000 respectively.

Item 17—*Metalling the road on the bank of Kistna Western Main Canal in Guntur district from mile* 9/6 *to* 13/0.—The stretch of the road is earthen. The road is intended to serve many villages for the transport of their produce to the market. In the present condition of the road, the villagers are put to much hardship in carrying the produce over the road especially in rainy season and hence an estimate amounting to Rs. 70,000 was sanctioned in July 1947 for metalling the stretch of road. The estimated expenditure in the current year is Rs. 50,000.

Item 18—*Formation of a road from Vellur to Karivellur in Malabar district* (5½ *miles*).—To provide a direct route from Malabar to South Kanara, an estimate for Rs. 2,04,000 has been sanctioned for forming the missing link of road 5½ miles in length between Vellur and Karivellur in Malabar district. The work is also required in the interests of Law and Order. The estimated expenditure on the work in the current year is Rs. 1,24,000.

Item 19—*Construction of a bridge at miles* 84/4 *of Pondicherry-Salem road.*—The Morayar river crosses the Pondicherry-Salem road which is a major district road at *mile* 84/4. During monsoon, the water in the stream is observed to rise about 7 feet, holding up traffic of all kinds for days together. It is proposed to sanction an estimate for Rs. 40,500 for the construction of a bridge at the crossing. The estimated expenditure in the current year is Rs. 15,000.

Item 20—*Remodelling the skew bridge at mile* 27/5 *of Vizagapatam-Anantagiri road.*—The arches of the existing bridge have cracked all along and its reconstruction is urgently necessary. It is proposed to sanction an estimate for Rs. 56,000 for this work. The estimated expenditure in the current year is Rs. 31,000.

Item (iv).—The Government have approved an expenditure of Rs. 2,40,000 in July 1947 towards protective works for the prevention of erosion on the Beach Road in Vizagapatam from the Alosius High School in the south up to the Indian Battery Area to the northern end. The Municipal Council, Vizagapatam, is to bear one-fourth of the cost (i.e., Rs. 60,000). The amount required for expenditure during the current year is Rs. 1,73,000. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in this case either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (v).—Under the present policy of the Government main lines of road communications including the portions of such roads within municipalities should be maintained by Government and roads of local importance left to the care of local bodies. The Chief Engineer (Highways) considers that the roads included in Nos. 1 and 3 mentioned above under this item are important through roads serving delta areas for the transport of foodstuffs, etc. to markets. The roads

included in No. 2 form portions of important through roads the other portions of which have already been transferred from the control of the Chingleput District Board to Government. The recurring expenditure on maintenance and non-recurring expenditure on improvement to the roads are noted below :—

	Annual recurring expenditure.	Non-recurring expenditure.
	RS.	RS.
Item 1	12,200	Nil.
Item 2	20,000	1,55,000
Item 3	7,000	1,34,000

Proposals for improvements to the roads will be considered separately in accordance with the general order of priority assigned for such works in the post-war programme. It is now proposed to transfer the roads to the Government control for maintenance. Orders in regard to Nos. 1 and 2 will be issued after the Legislature has voted the necessary supplementary estimate of expenditure. As the maintenance expenditure involved in the case of No. 3 is small, being less than Rs. 10,000, orders relating to its transfer to Government control have been issued in anticipation of the sanction of the Legislature to a supplementary estimate of expenditure.

As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

(17) Grant XXV—Civil Works—Establishment and Tools and Plant.

		Total		600

Explanatory Note.

Item (i).—The Government sanctioned the employment for a period of one year the following additional staff in the Technical Section of the office of the Chief Engineer (Highways) for checking bridge designs and estimates :—

One Assistant Engineer, three supervisors, one draftsman, I grade, one draftsman, III grade, one typist, two tracers, two peons and one lower division clerk.

The recurring expenditure is estimated at Rs. 23,300 ultimately and Rs. 12,500 in 1947-8. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (ii).—For the work connected with the central compilation and internal audit of accounts and payment of wages in the Highways Department, the Government sanctioned the employment of the following staff under the Accounts Officer :—

Three S.A.S. Accountants, twenty-one upper division clerks, one lower division clerk, one attender and two peons. The creation and retention for a period of six months of eight training posts of Divisional Accountants was also sanctioned. The recurring cost of the scheme is Rs. 94,100 ultimately and Rs. 54,800 for 1947-8. As the expenditure is on a "new service", a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (iii).—(*a*) For work in connexion with the improvements to the Great Southern Trunk Road from mile 7/5 to 19/1, the Government have sanctioned the formation of a Special Division

and the employment therein of the following staff for a period of one year from the date of appointment :—

One Divisional Engineer, one Assistant Engineer, four supervisors, one divisional accountant, one head clerk, two upper division clerks, four lower division clerks, one draftsman, II grade, two draftsmen, III grade, one tracer, one typist and nine peons.

The Chief Engineer has been permitted to employ immediately one Divisional Engineer, one Assistant Engineer, one upper division clerk, two lower division clerks and five peons out of the staff sanctioned above for attending to preliminary work until orders sanctioning the estimate for the work are issued, and to employ the rest of the staff as and when required, after the estimate for the work is sanctioned.

As only a part of the staff has to be employed immediately and the rest as and when required, the recurring expenditure in 1947-8 cannot be estimated. The cost of the entire staff works out to Rs. 46,000 per annum ultimately. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

(*b*) There have been persistent complaints that South Kanara is being neglected in the matter of irrigation and so the Government have sanctioned in June 1947, a special division for a period not exceeding one year to attend to irrigation schemes there. The extra cost on account of the staff is estimated at Rs. 53,400 per annum ultimately and Rs. 17,800 in 1947-8. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (iv).—Under the reorganization of the Highways Department, the Government have sanctioned the formation of an additional subdivision and two additional sections in each of the following districts :—

Vizagapatam, West Godavari, Guntur, Nellore, South Arcot, Salem, Trichinopoly and Tinnevelly.

The cost of the scheme for 1947-8 is estimated at Rs. 83,800 recurring ultimately and Rs. 54,800 in 1947-8. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (v).—The Government have sanctioned the purchase of the following plant, machinery, etc. :—

(1) 15 Nos. "Calender Hamilton Type Girders" out of the surplus stores available for disposal at Avadi, for use as centerings for large bridges at an estimated cost of Rs. 4,60,000. An indent has been placed on the Director-General of Disposals, New Delhi. The expenditur to be incurred in the current year is estimated at Rs. 4,60,000.

(2) 2 Nos. Pegson portable cold mixing plant at a cost of Rs. 13,075 each, from Messrs Garlick and Company, Bombay, for use in the Highways Department. It is proposed to purchase one of the two cold mixing plants sanctioned and utilize the sanction for the remaining one for the purchase of a hot mix plant. The expenditure in the current year is estimated at Rs. 27,000.

(3) Pump light units, pump ultra light portable units, suction hose, nozzle spray, etc., at an estimated cost of Rs. 23,000 for use in the Highways Department. All the parts of sea transport stores have been purchased for Rs. 21,695 and taken over.

(4) 6 Nos. spraying equipment to six of the bitumen boilers at a cost of Rs. 1,385 each and 4 Nos. Heatmasters boilers with sprayers at a cost of Rs. 3,850 each for use in the Highways Department. The expenditure likely to be incurred in the current year is Rs. 23,700.

As the expenditure on each of the above items is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (vi).—For the work connected with the construction of the Ramapadasagar Project, the Government have sanctioned the purchase of three 475 KW and two 415 KW electrical generator sets from the United States of America at an estimated cost of 3 lakhs dollars. As the expenditure is on a 'new service' involving large expenditure a token appropriation of Rs. 100 is included in the supplementary estimate.

The expenditure in the current year on the above items will be met by reappropriation of savings within the grant, if possible, or a supplementary grant for the required amount will be obtained from the Legislature in March 1948.

				RS.
50. Civil Works.	g. Grants-in-aid ..	G. Central Road Fund Account—Communications.	..	100

Explanatory Note.

The Government of India have sanctioned a grant of Rs. 21,000 for the scheme of improving the "missing link from Kollur to Velatur by providing quarry rubbish" out of the allocation to this Province from the Central Road Fund. The Guntur District Board which carries out the

scheme has applied for a grant of Rs. 19,200 for expenditure on the scheme in the current year. The Government have accordingly sanctioned a sum of Rs. 19,200 to the District Board. The balance will be given when it is actually required.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The balance of the expenditure in the current year will be met from savings within the grant.

(19) Grant XXVII—Electricity.

(ii) 52. A. Other Revenue Expenditure connected with Electricity Schemes.	a. Establishment charges—(i) Excluding Post-war Reconstruction.	1 Pay of officers ..	..	100
		Total ..	..	200

Explanatory Note.

Item (i).—In April 1947 the Government sanctioned the employment from the date of appointment till the 31st August 1947 of certain additional staff in the office of the Chief Engineer (Electricity) and the creation of a Special Superintending Engineer's Office with necessary staff for the work connected with the taking over of the Madras Electric Supply undertaking. In June 1947, certain additional technical and ministerial staff was sanctioned for the office of the Superintending Engineer (Special). The employment of two store-keepers, I Grade, till the 31st August 1947 was also sanctioned for verification of stores in connection with the taking over of the undertaking.

As a consequence of the decision to take over the Madras Electric Supply undertaking, the Government accepted the suggestion that for some time it was desirable and necessary to retain the services of some of the officers and almost all the entire staff under the Madras Electric Supply Corporation. Accordingly, the Government sanctioned the employment in the Electricity Department for a period of one year from the 20th August 1947 of 1,132 Indian personnel and 6 European officers out of the 1,139 Indian personnel and the 11 European officers employed under the Madras Electric Supply Corporation. The staff so taken over will enjoy under Government almost the same privileges regarding emoluments, amenities, etc., which they had under the Company. On this account, however, they are not entitled to claim the same benefits if and when Government offer to take them in service for working the undertaking after the expiry of one year.

The ultimate cost in respect of the above sanctions is Rs. 13,49,100. The expenditure expected in 1947-8 is Rs. 7,04,600. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (ii)—(*a*) The Government have sanctioned the creation of a temporary post of Special Officer, Hydro-Electric Surveys, of the grade of a Superintending Engineer on Rs. 1,250 per mensem and the employment of necessary staff under the Special Officer, for a period of one year from the date of employment. The above sanction has been accorded in order—

(i) to make a systematic study of all the known water power sites in the Province and to draw up a list of the sites worthy of development, ranking them in the order of their importance and economic possibility;

(ii) to make a careful study of the contour maps of the hilly districts for possible new sites and of the sites previously found uneconomical so that some of them may be found feasible of development in certain circumstances; and

(iii) to examine the data so far gathered on rainfall and run off in certain river basins and to draw up a programme of fresh hydro-metric work at promising sites.

The ultimate cost in respect of the above sanction is Rs. 22,300 per annum. The expenditure expected during the current year is Rs. 14,900.

(*b*) In 1944, the Government accepted the proposal to depute a suitably qualified senior Accounts Officer to study the accounts system of the Department and to make recommendations for the reorganization of the Accounts Branch. In 1945, Sri B. S. Murthi, one of the Chief Accountants of the Department, was deputed for training abroad and the Chief Engineer (Electricity) proposed that he might undertake the reorganization of the Accounts Branch of the Department on return from training in the United States of America on the commercial and

administrative side of Electric Supply Industry. Sri Murthi returned from America on the 18th May 1947. The Chief Engineer for Electricity recommended the creation of a post of Chief Controller of Accounts and the appointment of Sri Murthi to that post. The Government sanctioned the post of Chief Controller of Accounts and the employment of necessary staff under him for a period of six months in the first instance, on the following grounds:—

(i) the need for a special Central Control Officer to take charge of the Accounts Branch of the Department is greater now than ever in the past;

(ii) the construction work undertaken by the department at present is far larger in volume than that undertaken in any previous year;

(iii) the capital expenditure of the Electricity Department and also its revenue have considerably increased. The accounting of all the expenditure and revenue should be placed on a sound basis without further delay; and

(iv) the system of Cost Accounts is not serving the purpose it was intended to serve and has to be reviewed so that correct statistics are available for the preparation of estimates of schemes. The accounting system should be modernized to make precise data regarding cost of power production readily available for efficient control of the public utilities.

The ultimate cost of the above sanction is Rs. 21,300 per annum and the estimated expenditure in 1947-8 is Rs. 8,700.

As the expenditure in both the above cases is on a 'new service,' a token sum of Rs. 100 is included in the supplementary estimate.

The expenditure in the current year on all the above items will be met from savings within the grant, if possible, or a supplementary grant will be obtained from the Legislature in March 1948.

(20) Grant XXXI—Miscellaneous.

Estimate of the amount required for further expenditure.

	Rs.

		(1) 2. Pay of establishments. ..	..	100
		(2) 3. Other charges	..	100
		Total ..	..	600

Explanatory Note.

Item (i).—Under the Madras Maintenance of Public Order Act, 1947, about 240 persons were detained in jail. Family allowances ranging from Rs. 25 per mensem to a maximum of Rs. 150 per mensem were granted to most of them for the period of their detention in jail. All the detenus were released on the eve of Independence Day. The expenditure on account of family allowances incurred till then is about Rs. 29,500. Some applications for family allowance are still pending disposal and a sum of about Rs. 1,600 may be required to meet them. There is also a proposal to grant some of the detenus insurance premia in respect of their insurance policies and a sum of Rs. 400 may be required on that account if it is finally decided to sanction the grant. On the whole a sum of Rs. 31,500 approximately will be required for expenditure in the current year.

As the expenditure is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate. The balance will be met from the savings available under the grant.

Item (ii).—In August 1942 the Government took possession of the premises known as Congress House in Teynampet belonging to the Tamil Nad Congress Committee under the provisions of the Indian Criminal Law Amendment Act, 1908. The premises were restored to the Tamil Nad Congress Committee in August 1945. The President, Tamil Nad Congress Committee, has claimed an amount of Rs. 80,300 for damage to the building, rent for the occupation of the building and loss of certain articles, etc., while the premises were under police custody. The Government have examined the claim and recognize no legal liability to pay it. They have however decided to grant an *ex-gratia* payment of Rs. 5,000 to the Tamil Nad Congress Committee.

The expenditure is on a 'new service' and a token appropriation of Rs. 100 is included in the supplementary estimate. The balance will be met from savings available under the grant.

Item (iii) (*a*).—In April 1947, the Central Road Traffic Board proposed that the drivers and conductors employed in the Government Bus Service should be paid batta and special allowance to compensate them for the extra expenditure they have had to incur by way of tiffin, etc , owing to the unusual hours they work. The proposal was also urged on the ground that similar allowances were being paid to the men employed in private concerns in Madras City. After a comparison of the emoluments drawn by the drivers and conductors employed in the State Transport Service with those employed in private concerns the Government decided—

(i) that the drivers and conductors in the State Transport Service should, in lieu of the fixed rates of pay allowed to them, viz., Rs. 42 per mensem and Rs. 29 per mensem, be allowed to draw pay in time scales Rs. 40—1—50 and Rs. 30—1—40 respectively ; and

(ii) that the drivers and conductors may be allowed batta at the rate of 8 annas and 6 annas respectively for each shift.

In August 1947, the Transport Commissioner recommended that the sanction for payment of batta to drivers and conductors accorded in July 1947 may be allowed with retrospective effect from the dates of employment of the men concerned and that the Checking Inspectors and Timekeepers employed in the State Transport Service, who are also placed in a similar position, should be paid batta with retrospective effect at the rate allowed for conductors, namely, 6 annas per shift. The Government accepted the recommendation of the Transport Commissioner and issued orders accordingly. The estimated recurring expenditure on account of the above sanctions is Rs. 24,400 per annum and the expenditure in 1947–8 will be about Rs. 24,400.

(*b*) The Adjudicator appointed in connexion with the dispute between the workers and managements of motor transport services and motor transport workshops in the Province made certain recommendations in regard to the interim relief payable to the workers. The recomendations of the Adjudicator were accepted by the Government in May 1947. In July 1947, the Central Road Traffic Board brought to the notice of the Government that there was discontent among the workers employed in the State Transport Service and the Government Automobile Workshop on account of non-payment of interim relief at the rates recommended by the Adjudicator. The Government, after careful consideration, decided to pay to the workers of the State Transport Service, the Automobile Workshop and the Civil Supplies Transport Unit, a temporary extra pay with effect from 1st April 1947 at the same rates of interim relief recommended by the Arbitrator. The estimated expenditure involved in the proposals so far as the Bus Service and the Automobile Workshop were concerned is Rs. 16,400 per annum and Rs. 15,000 in 1947–8.

(*c*) In June 1947, the Central Road Traffic Board brought to the notice of the Government that the traffic staff sanctioned for the Government Bus Service, Madras City, in connexion with the running of 30 buses was quite inadequate and that the experience showed that more staff would be necessary if the service should be maintained efficiently. The Board accordingly asked for employment of additional staff which would cost Rs. 70,000 per annum recurring. The Government after careful consideration decided that it would be sufficient if only the following staff was sanctioned :—

14 Drivers.	13 Timekeepers.	13 Cleaners.
14 Conductors.	10 Checking Inspectors.	2 Foremen.
2 Watchmen.	1 Scavenger.	

The estimated expenditure on account of the employment of the staff is Rs. 43,400 per annum and Rs. 21,700 in 1947–8.

(*d*) In connexion with the scheme of nationalization of the passenger bus services in Madras City the Government have sanctioned the employment of the following gazetted and traffic staff :—

Designation.	Scale of pay.	Number of posts.
	RS.	
Gazetted staff—		
Assistant Transport Commissioner	500—50/2—800	1
Transport Officer	500—50/2—800	1
Deputy Transport Officers	260—30/2—380—40/2—500.	3
Workshop Manager	260—30/2—380—40/2—500.	1
Traffic staff—		
Chief Inspectors	50—5—90	9
Checking Inspectors	35—1—45	120
Timekeepers	35—1—45	120
Drivers	40—1—50	825
Conductors	30—1—40	780
Cleaners	20—1—25	54

The question of employing the ministerial and technical staff and the accounts and audit staff in connexion with the scheme is still under the consideration of the Government. The estimated cost on account of the entire staff is Rs. 19·73 lakhs per annum and the cost in 1947–8 of the staff so far sanctioned is Rs. 6·08 lakhs.

As the expenditure on all the above items is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (iv).—The Government have constituted a committee to examine and suggest measures for solving the problem of housing in the Province with Sri L. Venkatakrishnan, Retired Chief Engineer as the Chairman and a Deputy Registrar of Co-operative Societies as a full time Secretary of the Committee. A staff of a co-operative Sub-Registrar, two senior nspectors, one lower division clerk, one steno typist, one typist and five peons has been anctioned to work under the Secretary. The post of the Secretary and the staff have been anctioned for the present for a period of three months and are functioning from 10th June 1947.

The posts are likely to be extended by about three months. The ultimate cost per annum of the staff is estimated at Rs. 17,200. The cost per 6 months for which they are likely to be employed, is estimated at Rs. 8,600. The Government have also directed the appointment of Housing Committees in all the municipalities and Major Panchayats where there is a shortage of housing accommodation to select sites for starting Co-operative Housing Schemes. The non-official members of the Provincial Housing Committee other than Members of the Legsilature will be eligible for travelling allowance, etc., at the rates admissible to the members of first class committees. The non-official members of the Mufassal Committees, other than members of the Legislature, will be eligible for travelling allowance admissible to members of second-class committees. The members of Legislature who are appointed to the Provincial Housing Committee and the Housing Committees in the districts will be eligible for the travelling allowance admissible to them for their official tours. A rough estimate of the expenditure likely to be incurred on the grant of travelling allowance to the members of the committees is Rs. 4,400 per annum and Rs. 2,200 in the current year. As the expenditure is on a "New Service", a token appropriation of Rs. 100 is included in the supplementary estimate.

On the basis of the actual expenditure incurred, the additional appropriation required in the current year will be provided either by re-appropriation of funds from savings within the grant or by obtaining a supplementary grant from the legislature in March 1948.

Item (v) (1).—In November 1946, the Government sanctioned a scheme for the organization of the Provincial Co-operative Credit Societies in the surplus delta districts of East Godavari, West Godavari, Kistna and Guntur for procurement and distribution of food grains. In order to complete the organization of the societies, the collection of share capital and also for the effective supervision of the work of these societies, sanction was accorded in May 1947 for the employment of Special Taluk Supply Officers of the grade of Tahsildars, Assistant Taluk Supply Officers of Deputy Tahsildars' grade with necessary office and menial staff upto 30th June 1947 from the date of appointment. The cost of the above staff works out to Rs. 1,02,200 non-recurring (roundly) ultimately and Rs. 47,400 in 1947–8.

As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Necessary action will be taken to provide the balance of the amount required to meet the expenditure in the current year by reappropriation from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

Item (iv)—(2) Hitherto the services of the municipal and panchayat staff including teachers were utilized for the work connected with writing up and distribution of ration cards in the Province. They were not paid any extra remuneration for the work. The Government received representations from the municipal and educational authorities that this work seriously interfered with the normal duties of the municipal and panchayat staff and teachers and that this staff should not be utilized for work connected with rationing. Certain associations of teachers also protested against the orders of the Government to utilize the services of municipal and panchayat staff including teachers for rationing work. The Government examined the matter in consultation with the Board of Revenne (Civil Supplies) and ordered that in future the municipal and panchayat staff including teachers should not be utilized for rationing work. They also sanctioned the employment of section writers for work connected with the preparation of ration cards. The proposal is a 'new service'. The estimated expenditure in 1947–8 is Rs. 66,800 and the ultimate recurring cost per year is Rs. 77,800. It is anticipated that the expenditure in 1947–8 can be met from savings within the grant. A token appropriation of Rs 100 is therefore included in the supplementary estimate.

Explanatory Note.

In February 1947 the Inspector-General of Police and the Commissioner of Police made proposals to revise the pay of police subordinates. The proposals were considered by the Government and orders were issued revising the scales of pay of all subordinates including those in the Armed Reserve, C.I.D., Railway Police, Malabar Special Police and the Madras City Police with effect from 1st April 1947. This revision involves a recurring extra expenditure of Rs. 1,30,500 per annum ultimately and of Rs. 1,19,740 in 1947–8.

As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year either by reappropriation from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

		Total	..	1,000

Explanatory Note.

Item (i).—(*a*) In June 1947, the Government sanctioned the acquisition of 4·56 acres of land near the Coimbatore Receiving Station at an estimated cost of Rs. 1,34,246 for the construction of additional staff quarters and Central office for the Electricity department. It was considered that, if the plot was not acquired, the Electricity department would be cramped later for want of sufficient accommodation as the railways were contemplating the acquisition of the land. The land is under occupation by the Military department and it is not known when it will be available to the Electricity department. It is expected that the expenditure, if any, incurred on the acquisition during the current year could be met by reappropriation within the existing grant. As the expenditure is on a "new service", a token sum of Rs. 100 is included in the supplementary estimate.

(*b*) In January 1947 the Government sanctioned an estimate for Rs. 7·54 lakhs for providing primary fire protection for the generating stations at Pykara, Mettur and Papanasam and the receiving stations at Coimbatore, Madura and Trichinopoly. The property to be protected by the installation is valued at about Rs. 100 lakhs. The existing fire services were considered ineffective against oil fires. The scheme sanctioned by the Government provides for the installation of the "mulsifyre" system of fire protection for the generating stations at Pykara, Mettur and Papanasam and the receiving stations at Coimbatore and Madura and the "Foam generating type" at Trichinopoly. This system of fire protection is of the fixed automatic type, the nozzles functioning automatically when a predetermined temperature limit is reached in the vicinity. It is not possible to forecast now what amount of expenditure will be incurred during 1947-8. It is expected that the expenditure could be met by reappropriation within the existing grant. As the expenditure relating to each of the three schemes is on a "new service", a token sum of Rs. 100 for each is included in the supplementary estimate.

Item (ii).—(*a*) The Government sanctioned a scheme in March 1947 for the extension of supply of electricity for a load of 510 H.P. for agricultural purposes at Sankarnagar and five other villages under the Papanasam Hydro-Electric System. The estimated cost of the scheme is Rs. 2,11,100 of which an expenditure of Rs. 50,000 is likely to be incurred in 1947-8. The scheme is remunerative with a return of 10 per cent which is the minimum return prescribed for extensions undertaken by the Government Electricity Department.

(*b*) The Government sanctioned a scheme in July 1947 for the extension of supply of electricity for a load of 1,100 H.P. for agricultural and industrial purposes at Chinnamaniachi and eight other villages in the Papanasam Hydro-Electric System. The total estimated cost of the scheme is Rs. 3,18,900 of which an expenditure of Rs. 5,000 is likely to be incurred in 1947-8. The scheme is remunerative with a return of 12½ per cent which is more than the minimum return prescribed for extensions undertaken by the Government Electricity department. As the expenditure on both the schemes is on a 'new service" a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken in due course to provide the balance of the amount required for expenditure in the current year by reappropriation from the blanket provision or savings within the grant.

Item (iii).—(*a*) The Government have sanctioned an estimate for Rs. 39·8 lakhs, rising to Rs. 41 lakhs in eight years for the construction of additional lines and sub-stations in the Mettur Hydro-Electric System to improve the present supply conditions and to serve new special loads anticipated in the Trichinopoly-Dalmianagar areas. This is a post-war development scheme. As the existing 66,000 volts double circuit line between Erode and Trichinopoly is overloaded, a third circuit for operation at 110,000 volts is to be constructed. A new sub-station at Dalmianagar is to be established and additional plant installed at Trichinopoly and Erode sub-stations. With these extensions, it will be possible to meet the anticipated further demands for power of the South Indian Railway, the cement factory and the electric licensee in Trichinopoly area. The average annual revenue expected during the 8 year period is 12·7 per cent of the capital outlay as against the prescribed minimum return of 10 per cent fixed for extensions. The scheme is thus remunerative. It is not possible to forecast now what amount of expenditure will be incurred during 1947-8, on this work. The expenditure can be met by reappropriation within the existing grant. As it is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

(*b*) The Government have also sanctioned an estimate for Rs. 24·86 lakhs initially, rising to Rs. 29·5 lakhs within eight years, for a 66/110 K. V. extension scheme in Salem district, Mettur Hydro-Electric System. The Erode-Salem Section of the future Erode-Panruti 110 K. V. transmission line will be constructed and an extra High Tension sub-station at Salem established. Additional feeder lines will be put up and the distribution net work expanded to cover further areas. This scheme will improve the present supply conditions and adequately meet the anticipated loads arising from agricultural, industrial and rural developments in Salem area. The scheme is a post-war development scheme. It is expected to yield a return of 12·5 per cent (as against the prescribed minimum return of 10 per cent fixed for extensions) and is remunerative. It is not possible to forecast now what amount of expenditure will be incurred on the scheme during 1947-8. The expenditureis expected to be met by reappropriation within the existing grant. As it is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (iv).—In May 1947 the formation of a fourth Construction Circle in the Electricity department till the 31st March 1948 with headquarters at Madras was sanctioned by the Government to be in charge of the Transmission line construction works. The construction programme now undertaken by the Electricity department is very heavy and exceeds that handled by the department at any time before. Most of the schemes are to be financed by loan and are *inter alia* in the interests of the Grow More Food Campaign. The additional Circle was sanctioned having regard to the unwieldy nature of the works of the then existing three Circles and with a view to organize the works in such way to be avoid undue delay. The expenditure on the Circle is debitable to all the schemes proportionate to the work done in each system. The ultimates cost involved is Rs. 18,508 and the estimated expenditure during 1947-8 is Rs. 15,867 and it if

expected that this expenditure could be met by reappropriation within the existing grant. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (v).—The Government have sanctioned an estimate of Rs. 26·4 lakhs for the advance construction instead of in 1951–53 of the Madura-Tirumangalam-Rajapalayam-Tenkasi 66 K.V. line with telephones and three sub-stations on this line in the Papanasam Hydro-Thermal Electric System. The scheme forms part of the second stage development of the Papanasam Project. The scheme is intended to meet the large demand for power that has arisen in the Tenkasi, Rajapalayam and Tirumangalam areas especially for agricultural and industrial requirements. With the advance construction of the line and the three sub-stations, the net return anticipated from the Papanasam second stage development scheme is 4·18 per cent (against the minimum return of 4 per cent prescribed for productive schemes). It is not possible to forecast now the expenditure that will be incurred during 1947–8 on this advance construction. The expenditure during 1947–8 is expected to be met by reappropriation within the existing grant. As it is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (vi).—The Government have sanctioned an estimate for Rs. 4·92 lakhs initially, rising to Rs. 9·75 lakhs in ten years for the Hindupur Electric Distribution scheme. Under this scheme, the existing Hindupur municipal electrical undertaking which is supplying electric power from an oil engine power house, will be acquired by the Government Electricity department and hydro-electric power will be purchased in bulk from the Mysore Government and distributed by the Electricity department. The net return on the capital outlay is estimated at Rs. 3·44 per cent as against the present criterion of productivity of 4 per cent fixed for new schemes. The ultimate cost of the scheme is estimated at Rs. 9,75,000. It has not been possible to estimate the expenditure to be incurred in 1947–8. As the expenditure is likely to be met by reappropriation, and as it is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

(24) Grant XXXVII—Other Provincial Works outside the Revenue Account.

Estimate of the amount required for further expenditure.

	Rs.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947–8. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
82. Capital Account of other Provincial Works outside the Revenue Account.	a. Original Works—Bus Service.	1. Cost of buses		100

Explanatory Note.

The scheme approved by the Government of Madras for the nationalization of the passenger bus services in Madras City provides for the following :—

(1) that the ultimate requirement of the passenger bus services in Madras City be fixed at 300 buses, of which 40 should be retained as spares for use in emergencies when there are breakdowns in the regular service ; that the Transport Commissioner be authorized to purchase not only the road-worthy vehicles available with the existing operators but also new vehicles, both petrol and diesel, provided that the total number of vehicles so purchased does not exceed 300 including the 30 State buses already on the roads and that the cost of purchasing new vehicles should not exceed Rs. 17,000 each in the case of petrol buses and Rs. 34,000 each in the case of diesel omnibuses,

(2) that in the interests of effieciency the fleet of 300 buses be divided into three units of 100 each and that a depot be established for each unit with its own bus sheds, office buildings, stores and facilities for daily servicing,

(3) that the accommodation, sheds and other equipment available with the existing operators and which they may be willing to hand over to the Government be taken over at prices not exceeding that recommended by the Valuation Committee specially constituted for the purpose,

(4) that the Government Automobile Workshop, which was until recently in charge of the Civil Supplies Department, be taken over and treated as part of the Government Bus Service, that due credit be taken for charges recoverable for any services rendered by the workshop in respect of the vehicles belonging to other departments of Government and that the vehicles in the Civil Supplies department are given preference for repairs in the workshop to the vehicles of other Government departments,

(5) that as, after nationalization, passenger bus services in Madras City will not be owned solely by the Government, the Government Bus Service and the Government Automobile workshop be re-named as Madras Bus Service and Madras Automobile Workshop,

(6) that the scale below be adopted in regard to the supply of the following :—

	Not exceeding.
Petrol	1 gallon for every 10 miles.
Lubricating oil	1 do. 500 ,,
Gear oil	1 do. 1,500 ,,
Grease	1 lb. for every 500 miles.
Fuel for diesel omnibuses	Anna 1 per mile.
Spare parts	Rs. 100 per mensem for each old bus and Rs. 50 per mensem for each new bus.
Tyres and tubes	Two sets for each old bus per annum and one set for each new bus per annum.
Batteries	Two for each old bus per annum and one for each new bus per annum.
Acid, distilled water and electrical charges.	Rs. 100 per annum per bus.
Uniform for drivers, conductors, checking inspectors and time-keepers.	Three sets a year at a cost not exceeding Rs. 100 per head.
Uniform for workshop personnel including cleaners.	Two sets a year not exceeding Rs. 50 each, and

(7) that a depreciation reserve account be opened to which contribution on account of the following shall be credited :—

	Capital cost. PER CENT.
Replacement of petrol bus	25
Replacement of diesel omnibus	16-2/3
Renewal of tools and plant	10
Permanent superstructure (buildings)	4

The following statement shows the capital cost, working expenses, running cost, receipts and the net profit involved in the scheme. The scheme is intended to be brought into force in Madras City with effect from 1st October 1947 or as soon as possible thereafter.

Capital Cost.

	Rs.	Rs.
Cost of 300 vehicles		50,00,000
Cost of buildings in the Government Automobile Workshop	1,25,000	1,75,000
Improvement required for the buildings	50,000	
Cost of equipment now available in the Government Automobile Workshop	50,000	1,50,000
Cost of additional equipment that may be required.	1,00,000	
Cost of acquisition of 10 acres of land for location of three depots at Rs. 54,000 per acre.		5,40,000
Cost of construction of buildings, sheds, ramps, overhead water-tanks and electric installation required for three depots at 2 lakhs for each.		6,00,000
Cost of purchase of tools and plant required for three depots ..		1,33,000
Cost of buildings to serve as recreation clubs for workers at three depots and at the Central Workshop.		40,000
		66,38,000 or 67 lakhs.

A. Receipts.

Sale proceeds of tickets for 260 buses on an average earning of Rs. 90 each per day.	85,41,000
Special trips..	1,00,000
Sale of aged vehicles	42,000
Sale of useless rubber materials, scraps from empty tins	15,000
Advertisements	12,000
	87,10,000

B. Working Expenses.

Cost of Headquarters Administrative establishment	59,880
Cost of Headquarters Audit establishment	16,560
Cost of Administrative establishments of the transport officer ..	61,104
Cost of Depot establishments and traffic and technical staff ..	17,80,452
Cost of Central Workshop establishment..	55,332
	19,73,328

C. Running Cost.

	RS.
Cost of petrol at Rs. 1-10-6 excluding commission for running 215 petrol buses each covering 125 miles per day on an average.	16,24,700
Cost of fuel for running 45 diesel buses at Re. 0-1-0 per mile ..	1,28,320
Cost of lubricating oil on the basis of 500 miles per gallon at Rs. 6 per gallon.	1,42,350
Cost of gear oil on the basis of 1,600 miles per gallon at Rs. 5-4-0 per gallon.	41,518
Grease at Re. 0-12-0 per lb. on the basis of 1 lb. for every 500 miles ..	18,535
Gear parts at Rs. 100 per month for 190 buses to be acquired and at Rs. 50 per bus per month for 110 new buses.	2,94,000
Tyres and tubes	10,26,000
Batteries at the rate of 2 for each old bus and at the rate of 1 for each new one at Rs. 75 each.	22,500
Cost of acid, distilled water and electrical charges at Rs. 100 per bus per annum	30,000
Quarterly Provincial tax at Rs. 1,600 per bus per annum	4,80,000
Half-yearly fitness certificate fee of Rs. 10, i.e., Rs. 20 per bus per annum.	6,000
Uniform for drivers, conductors, checking inspectors and time-keepers at Rs. 100 each for three sets in the year and two sets at a cost of Rs. 50 for each of the technical personnel, i.e., mechanics, electricians and cleaners.	2,14,500
~~Contribution towards Workmen Bonus Fund at one month's pay of traffic crew and workshop personnel.~~	..
~~Contribution towards Workers' Welfare Fund at the rate of Rs. 3,000 per depot and also for the Central Workshop.~~	..
Repairs and local taxes for permanent superstructures at 2½ per cent of the capital cost.	15,625
Stationery, printing and furniture	45,000
Water and telephone charges, kerosene, waste and other unforeseen items, and electricity.	25,000
Batta for drivers and conductors at the rate of Rs. 2 per bus per day for 260 route buses.	1,89,800
	43,03,848

D. Indirect charges.

Contribution to Depreciation Reserve Fund for 300 buses at 25 per cent on petrol buses and at 12½ per cent on diesel oil buses.	11,08,000
Contribution to Depreciation Reserve Fund for permanent superstructure at 4½ per cent of the capital cost.	32,600
~~Contribution to Depreciation Reserve Fund for vehicles other than buses at 10 per cent of the capital cost.~~	..
~~Contribution for improvement to buses~~	..
Contribution to Depreciation Reserve Fund on equipment such as tools and plant at 10 per cent on the capital investment.	28,293
Contribution to the Motor Transport Reserve Fund (to be established for meeting expenditure on repairs due to accidents) on the basis of premia payable for a comprehensive policy for all the 300 vehicles (Two hundred and fifty buses at Rs. 375 each and 30 buses at Rs. 545 each.)	1,21,000
~~Interest on the capital outlay of Rs. 56 lakhs~~	..
Leave and pensionary charges on staff other than work-charged establishment.	30,000
Payment of compensation	2,800
Loss of revenue due to possible strike	3,31,500
	16,54,193

E. Summary.

	RS.
Total Receipts	87,10,000
Total Expenditure (B, C and D.)	79,31,369
Net profit	7,78,631 or 7·8 lakhs.

The ultimate capital outlay is estimated at Rs. 67 lakhs and the entire expenditure is expected to be incurred in 1947-8.

As the expenditure on the above scheme is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate. Action will be taken to provide the balance of the amount required in the current year by obtaining a supplementary grant from the Legislature in March 1948.

(25) GRANT XXXIX—CAPITAL OUTLAY ON PROVINCIAL SCHEMES OF STATE TRADING.

Estimate of the amount required for further expenditure.

	RS.
Voted	100
Total of sums charged	*Nil.*

Summary.

		Total ..	..	500
		Deduct—Amount financed from ordinary revenues.	..	— 400
		Net ..	..	100

Explanatory Note.

Item (i)—(1). There was some accumulation of rice in the Circars impeding procurement. The Railways could not provide all the transport required In order therefore to speed up movements of rice from the northern surplus districts besides making the usual monthly despatches by rail, two ships "S.S. Jalamani" and "S.S. Itria" were arranged in February 1947 to carry 10,300 tons of rice from Cocanada and Masulipatam to Malabar district where stocks were low and needed urgent replenishment. The extra transport charges involved in the arrangement are roughly estimated at Rs. 4,78,500. Towards this extra cost, an expenditure of Rs. 62,116-10 0 was incurred in the course of the financial year 1946-7. The expenditure of the balance of Rs. 4,16,383-6-0 is expected to be incurred in the course of the current financial year.

(2) In view of the low stock position in Malabar district, about 6,000 tons of rice were transferred to the district from South Kanara district during December 1946 and January 1947. The rice was originally ordered to be released in Malabar district at the rate applicable to the corresponding variety of Tadepalligudem rice in that district. Later, the Government in order to minimize the loss ordered that the rice should be released at the rate applicable to the corresponding variety of locally procured rice in Malabar district. The extra cost involved in the transfer of the rice from South Kanara district to Malabar district and the sale of a portion of the rice at the price of Tadepalligudem rice in the district and the remaining portion at the price of locally procured rice in the district is Rs. 65,000. The entire expenditure is expected to be incurred during the current financial year.

(3) Owing to the unsatisfactory stock position in Malabar district and shortage of rail wagons, 7,000 tons of paddy and rice were moved from Madras Port to Malabar by sea during February 1945. In 1944-5, the Government sanctioned a subsidy of Rs. 2,75,000 to meet the extra cost in the movement. While the paddy and rice was in transit between Cochin and Calicut by country craft, 2,363 bags of rice were jettisoned in sea on account of inclement weather. The value of the bags jettisoned is Rs. 50,000. The ultimate expenditure involved is Rs. 3,25,000 (Rs. 2,75,000 plus Rs. 50,000). The entire expenditure is expected to be incurred during the current financial year.

As the expenditure involved in the three schemes is on a 'new service,' a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (ii).—The Government of India allotted to this Province in September last 9,000 tons and 16,000 tons of imported barley for the months of October and November 1946 respectively. By the end of November 4,890 tons of barley were received. Considering the general improvement in the cereal position in this Province and the fact that the barley received was not pearl barley but the barley in the husk, this Government requested the Government of India not to send any more barley. The Central Government agreed to this and no further barley was received subsequently.

As regards the disposal of barley received, instructions were issued by the Board of Revenue (Civil Supplies) in Novemb r last that the barley should be converted into flour and sold in the ration shops at the same price as that of maida which was then subsidized. It was at that time estimated that the subsidy involved in selling the flour at the concessional rate would come to about Rs. 4,65,000. Since the subsidized sale of maida has been discontinued and in order to ensure speedy sale of barley and its flour at reasonable prices, the Board has instructed the Collectors to sell barley and its flour at the same price at which maize and its flour are sold, viz., Rs. 5 and Rs. 8-8-0 per imperial maund respectively. As barley is an unfamiliar foodgrain, its sale had to be subsidized. As about 2,350 tons of whole barley which remained unsold in several districts were exported to the United Provinces where there was demand for the barley, only about 2,540 tons of barley were left to be disposed of in this Province at subsidized rates. The

Government have approved the action of the Board of Revenue (Civil Supplies) in having permitted the subsidized sale of barley and its flour in anticipation of the sanction of the Government. The loss to Government on account of subsidized sale is now estimated to be approximately Rs. 1,75,700. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (iii).—With a view to make up for the reduction of the rice ration to 8 oz. the Government have sanctioned a scheme to make potatoes available in all ration shops in the statutorily rationed areas of the Province at subsidized rates. The expenditure has been estimated tentatively at Rs. 3·55 lakhs (non-recurring) including the cost of the staff sanctioned on the Nilgiris for work connected with the scheme (viz. Rs. ·07 lakh). As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (iv).—A scheme for the payment of "Civil Supplies" bonus to seed farm ryots at the rate of Rs. 2 per imperial maund of paddy delivered up to 31st October 1946 and Re. 1 per imperial maund of paddy delivered from the 1st to the 30th November 1946 in addition to the usual seed farm premium was sanctioned in July 1947. The extra expenditure involved is Rs. 6,300 during 1946–7 and Rs. 33,600 during 1947–8. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (v).—Employment of an additional staff of one Accountant on Rs. 80—110 per mensem and 36 lower division clerks on Rs 45—90 per mensem each in the offices of the District Agricultural Officers to cope with the increase of work consequent on the introduction of the scheme for the total procurement of groundnut cake by the Agricultural department was sanctioned in July 1947 for a period of one year from the date of employment. The extra cost involved is Rs. 40,608 per annum ultimately and Rs. 17,900 during 1947-8. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

In all the above cases action will be taken to provide the amount required in the current year either by reappropriation of funds from savings within the grant or by obtaining a supplementary grant from the Legislature in March 1948.

As the net expenditure on all the State Trading Schemes is debitable finally to the head '63. Extraordinary Charges' in the Revenue Account, a *minus* appropriation of Rs. 400 is also included in the supplementary estimate.

(26) Grant XLI—Loans and Advances bearing interest.

Estimate of the amount required for further expenditure.

	Rs.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1947-8.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
Loans and advances bearing interest.	f. Miscellaneous loans and advances.	B. Loans to Co-operative Societies and Land Mortgage Banks Loans to the Madras Provincial Co-operative Bank.	..	100

Explanatory Note.

Co-operative organizations like co-operative wholesale stores, marketing societies, etc., were entrusted with schemes of procurement in the districts on a far larger scale than at any time in the past. The District Central Banks which were the financing agencies of these institutions were thus called upon to finance these organizations on an unusually large scale. They exhausted all their resources and depended for funds solely upon the Provincial Bank. Thus the Provincial Bank had to face an unprecedent demand for credit from the Central Banks. The Provincial Bank was permitted to utilize a portion of its reserve fund in its own business and also to lower its standard of fluid resources in order to enable it to utilize its existing resources in its business. In spite of these attempts the Provincial Bank could not meet all the immediate demand for credit from the Central Banks. The Bank was also not able to get loans from the Imperial Bank on the security of the Central Land Mortgage Bank's debentures. Hence the Provincial Bank approached the Government for a loan of Rs. 2 crores. In view of the extreme importance of ensuring the maximum procurement of foodgrains in order to keep the food situation of the Province in hand, the Government sanctioned to the Madras Provincial Co-operative Bank loans to the extent of Rs. 2 crores bearing interest at $2\frac{3}{4}$ per cent per annum for disbursement as loans to District Co-operative Central Banks for financing the procurement operations undertaken by co-operative institution. The advances are repayable before the 30th September 1947. As loans for a similar purpose were not granted previously the disbursement was treated as a 'new service'. A token sum of Rs. 100 is therefore included in the supplementary estimate. The balance will be met by reappropriation to the extent possible from savings likely to accrue under the grant and a supplementary grant will be obtained from the Legislature in March 1948 for the net additional amount required.

SPECIAL

Finance (B.G.) Department

U.O.Note No. 36888 B.G-5 dated 26th August 1947.

Sub: Supplementary Statements of expenditure for 1947-8 for token sums - Presentation to the Legislature at its next session.

68734

Ref: Finance U.O.Note No. 36888 B.G-1 dated 7-7-1947.

...

In continuation of para 2 of the U.O.Note cited, Departments of the Secretariat are informed that it is proposed to present the first batch of the demands for supplementary Grants for 1947-8 to the Legislature on the 16th September 1947, and that clean copies of the explanatory notes on the demands should reach the Finance Department not later than the 2nd September 1947, in order to enable it to consolidate the demands and to obtain the approval of the Cabinet and print the notices and explanatory memoranda to be sent to the Legislature in time. This date should be strictly observed. It will not be possible for the Finance Department to include in the demands to be presented to the Legislature cases for which explanatory notes are received after the date mentioned above.

T.N.S.Raghavan,
Additional Secretary to Government.

(iv) 37 Education	(p) General-Inspection A-Men's Branch. II ordinary areas. I	2 Pay of establishments 3 Allowances. 4 Contingencies.	..	100

Item (i): In order to meet the great demand for admissions to colleges, a fourth batch of students was admitted last year in certain colleges for science classes. These increased admissions necessitated the employment of additional staff and Government sanctioned some staff for the purpose. But the Madras University informed the D.P.I. that the additional staff sanctioned by the Government was inadequate and wanted that more staff should be appointed, if the increased strength permitted in 1946-47 was to be continued in 1947-48 also. The Government accordingly sanctioned the employment of the additional staff required by the University. The ultimate cost on account of the staff is about Rs. 78,700/-per year. The cost in 1947-48 is estimated at Rs. 14,240/-

As expenditure is on a " new service", a token sum of Rs. 100/- is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant, if available or by obtaining additional appropriation from the Legislature in March 1948.

Item (ii): The Government have decided that the L.C.E. course in the Govt.Engg. College, Guindy and the Polytechnics should be abolished from July 1948 and that an Overseers' course of two years duration be started instead. The Overseers' course is to be started immediately in the Engineering College, Guindy and certain additional staff have been sanctioned for the College for the course. The ultimate cost is about Rs. 20,000/- The cost in 1947-48 is estimated at Rs. 3100/-. As the expenditure is on a"new service", a token sum of Rs. 100/- is included in the supplementary estimate. The balance of the expenditure will be met from savings within the grant, if available, or by obtaining additional appropriation from the Legislature in March 1948.

Item (iii): The Government decided to depute eight officers to Wardha for training in the principles of Basic education. These officers will be allowed travelling allowance for their journeys to and from Wardha in accordance with the Madras Travelling Allowance Rules. A contribution of Rs. 270 per officer is payable to the Hindustani Talimi Sangh towards the cost of training. Boarding and lodging charges are also incurred from Provincial funds at Rs. 30 a month per officer. Each Officer will also be given an allowance of Rs. 30 for warm clothing. The total expenditure has been estimated Rs. 8100 including the pay of substitutes for the officers.

The Government decided to open two stores, one at Periyanaickenpalayam and another at Vinayasramam for the supply of the equipment required for Basic schools. Two store-keepers in the scale of Rs. 45-90 have been sanctioned for the stores. The articles of equipment will be stocked in the stores and distributed to the several Basic education institutions which require them. A non-recurring expenditure of Rs. 20,000 on the purchase of equipment has also been sanctioned. As the expenditure is on a 'new service' a token sum of Rs.100 is included in the supplementary estimate. The balance of the expenditure will be met out of savings within the available grants or by obtaining additional appropriation from the Legislature in March '48.

Item IV: The Government have sanctioned post of Junior Deputy Inspector of schools in the scale of Rs. 60-120 to supervise the work of Basic schools in the Coimbatore District. The Deputy Inspector will look after the needs of the Basic schools and to make suggestions

for their improvement to the D.P.I.

A Basic Education Officer has also been sanctioned for the Andhra District in the scale of pay of Rs. 165-245. The officer will formulate proposals for introduction of Basic education in the Andhra Districts. Basic Education Officer at Headquarters in the D.P.I's office will be responsible generally for introducing of Basic education throughtout the Province. As the expenditure on each of the above items is on a ' new service' a token sum of Rs. 100 in respect of them is included in the supplementary estimate. The balance of the expenditure will be met from the savings within the grant, if available or by obtaining an additional appropriation from the Legislature in March 1948.

Please furnish information re the number of students admitted into Govt. Colleges in 1945-46, 1946-47 and 1947-48. The matter may be treated as opening urgent

3/12/47.

A/ACII

POST COPY OF TELEPHONE MESSAGE DATED 5-12-1947.

From The Director of Public Instruction, Madras.

To The Assistant Secretary to Government, Education and Public Health Department.

Sub: No. of students admitted in Government Colleges.

I presume that the particulars are required only in respect of Government Arts Colleges. The number of students admitted in these colleges in 1947-48 was 4160. As regards 1945-46 and 1946-47 there is no information as to the number actually admitted but the number of students in the Junior classes in these colleges on 31-3-1946 and 31-3-1947 is furnished hereunder.

1945-46	...	2851
1946-47	...	3457

It is not likely that there will much disparity between the two figures.

U.O.Note No.60906 B.G./47-3, dated 17th October 1947.

Finance(B.G.) Department.

Subject: Supplementary Statements of expenditure for 1947-8 for token sums - Second batch - Presentation to the Legislature at its next session.

According to the instructions in paragraph 3 of Finance U.O.Note No.21735-B.G-1, dated 19th May 1947, supplementary statements of expenditure for token sums have to be presented to the Legislature in respect of new schemes of expenditure treated as 'new services' which have already been introduced, or which have to be introduced only after obtaining the approval of the Legislature, in the current year. It is proposed to present, if possible the second batch of these statements during the current session of the Legislative Assembly. Departments of the Secretariat are, therefore, requested to forward to the Finance Department final copies of explanatory notes on the supplementary statements relating to such schemes (after acceptance of the draft notes by the Finance Department) as early as possible as and when they are ready. They are requested to take special care to see that each explanatory note explains clearly the full financial implications and the ultimate cost involved in the scheme.

The latest date by which the clean copies should reach the Finance Department will be intimated after the dates for the presentation of the supplementary statements to the Legislative Assembly and the Council have been finally fixed.

Lodged.

D.W.Dodwell,
Secretary to Government.

EDUCATION AND PUBLIC HEALTH DEPT.

Demands for Grants for further Expenditure 47-48.

SRI P. VENKATESWARLU, M.L.A.

DEMAND NO. XV.

To reduce the allotment of Rs. 400/-
for EDUCATION by Re.1/-

(to discuss the development of Arts Colleges)

Press communique at (A)

The basis for this policy is indicated in the 2nd paragraph of the communique.

M.

The policy of the Govt at present is not to open or give special encouragement for the opening of institutions for University education or to make or help to make provision for increasing the number of students who want admission to University courses of studies in mere Arts or Science courses as distinguished from Professional courses; an exception is made in the case of educationally backward areas or communities. Since on account of the rush for admission into colleges in the last two years, the Govt sanctioned the admission of increased number of Students in all Govt. colleges with the consent of the University and also sanctioned the necessary additional Staff; they also raised the Tellicherry college into the first grade from the current year.

There are various proposals to open new courses in certain colleges and also to open a second grade college at Gudalur from next year. The new courses proposed to be opened in certain colleges are as follows:-

1) Govt. college, Coimbatore — Opening of Group IV B
Economics & Politics
in B.A. classes

2) Q.M.C. — B.A. (Mathematics)
B.A. Urdu — Psychology
B.A. — Tamil

A 'temporary' Assistant - Tamil Asst. A/2 - in the Dept. Much relaxation being indicated here.
M.

3) Victoria College, Palghat - Botany Main & Building
Zoology (Main) & Geology (Main)
and Out-building
for BSc courses.

There is also a proposal to construct permanent buildings for the Rajahmundry Arts College

The Govt. are sanctioning additional staff and equipment to colleges whenever necessary.
