Sir,

I am directed to say that the Government of India have had under consideration for some time the question of having the candidates selected this year under the scheme of this Department for the award of Overseas Scholarships (Central), medically examined by a competent Medical Board or Boards prior to their departure from India as cases have occurred in the past where they had to recall certain of their scholars to India on Medical reasons.

As the Government of India have no Standing Medical Board and as the selected candidates are scattered all over India, it has been suggested that the candidates should, if possible, be examined by the Standing or ad hoc medical Boards in their respective Provinces.

(P)

The Provincial Governments have been requested to intimate this Department urgently, if there be no objection, whether it would be possible for them to arrange for such an examination in May

or early June and if so what probable date or dates will be convenient for the Board to meet. The Board will be required to record their opinion on the sample form attached.

The Provincial Government will no doubt agree with the desirability of such a medical examination in respect of all their sponsored scholars selected for the award of Provincial Overseas Scholarships for advanced studies abroad in 1947-48 prior to their departure from India.

I am, therefore, to request that similar action may kindly be taken in respect of all the Provincial Government sponsored scholars referred to above and the medical examination be arranged at about the same time if possible.

I have the honour to be,
Sir,
Your most obedient servant,

for Secretary.

In respect of the scholars to be selected for Central Scholarships in 1947-48, this Government have agreed to arrange for their medical examination by the weekly Medical Board. Similar arrangements may be made for the Provincial scholars to be selected in 1947-48.

2. Thirtyfive candidates (of whom some will be Provincial Governments servants) are proposed to be selected for overseas studies in 1947-48 under the scholarships scheme (Provincial). In addition, the xxx Government in the Education and Development Departments will select certain departmental officers for overseas studies. Final selections have not been completed. When the selections are over, the names and addresses of all scholars selected may be sent to the Surgeon General for arranging the necessary medical examination, by the weekly Medical Board.

A

3. Devt. may see. They may be requested to send to this Department the names and addresses of officers selected by them in 1947-48 for studies abroad. As Finance have already agreed to the proposal of this Department that no fee be levied for the medical examination of all candidates who are selected for the award of overseas scholarships, irrespective of the fact whether they are Madras Govt. servants or not, that Dept. need not see the case.
