Dear Mr.Avinasilingam Chettiar,

Re:Dr.Alagappa Chettiar College Trust.

The above Trust has applied for acquisition of an area of land in Karaikudi. The application has been scrutinised by the Collector of Ramnad and the Revenue Divisional Officer,Devakotai, and it is being sent by the Collector today or tomorrow to the Revenue Board with his recommendation. The Collector has recommended that this application should be treated under the Urgency Clause. I had a talk today with the Joint Secretary to the Board of Revenue. From my conversation with him I understood that it will be necessary for the Government (Education Department):

(a) to order to treat the application under the Urgency Clause and

(b) to sanction the contribution of a pie for purposes of declaring it as a public trust.

I shall be grateful if the Secretary to Government in the Education Department could be requested to write to the Joint Secretary Revenue Board to deal with this application in the manner explained above. As cement and other materials have been ordered and they are about to arrive, I shall be grateful if Government could treat my application in the manner requested and give the necessary directions t the Revenue Board.

Thanking you,

Yours sincerely,
Rm. Alagappach

The University of Madras.

Sir,

Dr.Alagappa Chettiar College was opened on the 8th of August and formally inaugurated by the Hon'ble Minister of Education, Sri Avinasilingam Chettiar on the 10th August '47. The Government of Madras were pleased to place the Municipal buildings at Karaikudi at the disposal of the College at a nominal rent, and it is hoped and believed that the present Council will hand over the building and the compound to the Trust either as a gift or at a nominal price.

2. The College has been granted temporary affiliation in the Intermediate, B.A. and B.Com.Courses by the University of Madras and permanent affiliation has been applied for the academic year 1948 in the various Science courses both in Intermediate and B.Sc. The present strength of the College is about 170 and it is expected that after the affiliation is granted the strength may swell up to about 600 in 1948 June and about 1000 in 1949.

3. An endowment of nearly Rs.20 Lakhs has been made and a few of the properties have already been transferred to the Trust which was registered on 29th October 1947. The net income from the endowment at present yields a sum in the neighbourhood of Rs.1,50,000/- per annum.

about 350 students and science laboratory and lecture halls for the general students of Intermediate and B.Sc. before 1948 June. The Buildings will be extended in the academic year 1948 so as to accommodate the new strength in that year. The present estimate for these buildings comes to nearly about Rs.7 lakhs excluding Rs.1 Lakxh for scientific equipment.

5. Buildings materials - cement to the extent of 2000tons steel for 100 tons and timber for 150 tons - have been sanctioned and allotted by the various authorities. The Cochin Maharajah has kindly agreed to supply the timber at practically 60% of the cost price. A copy of the Trust is herewith enclosed which will speak for itself.

6. There is in contemplation a great future programme of the institution not merely in Science and Arts but also in other branches. The Trust, as has already been stated, already possesses finances to an extent of Rs.20 Lakhs exclusive of the grant which the institution will undoubtedly get from the Government both for building as well as equipment. It is not proposed to await these grants from the Government and then start the operations. With the finances at the disposal of the Trust, the present programme is being undertaken, and as and when they Government decides to give the allotments of grant, they will be availed of.

7. As the Chettinad area often presents difficulties with regard to purchase of land after the specific need for it has arisen, the Trustees feel it necessary that it will be in the interest of the institution to seek the help of the Government in acquiring as big an acreage as possible. Otherwise, the Trust may at a later period feel embarrassed by the fancy prices

(14)

prices that will undoubtedly be asked for by the land-owners.

8. The land now sought to be acquired (for which a land-plan and schedule are enclosed) is eminently suited for the requirements of the College, inasmuch as the land is fairly away from the town and yet within the Municipality. It has got a very nice frontage on one side, it being bounded by the railway lines. The soil, water facility and other factors are very favourable according to engineers' report obtained. The land is also not used for any other purpose by its present owners (a few temple Devasthanams and the Sivaganga Samasthanam). In fact the land is an aerid tract and there are only shrubs and not even trees. There are no buildings, temples, mosques, religious buildings or tombs, in the entire extent for proposed to be acquired.

9. On behalf of the Trust, I undertake:

i. to use the land for the purpose for which the land is now proposed to be acquired and for no other purpose without the sanction of the Govt.,

ii. to carry out the purpose within two years,

iii. to restore the land to the Government if they so direct on payment of the compensation awarded less 15% solatium awarded for compulsory acquisition or the value of the land at the time of the restoration whichever may be less in the event of the College Trust not carrying out the purpose for which the land is acquired within the specified period, or usuing the land without the sanction of the Government, at any time for any purpose other than that for which it is acquired.

iv. to pay enhanced compensation together with any incidental charges if any that may be awarded by the Civil Court or appeal therefrom in the event of a reference to the Civil Court.

v. to pay damages if any, that may be caused in the event of the acquisition being withdrawn and

vi. to meet the entire cost of any special staff (to

(together with leave [illegible] and other icnidental leave ~~and~~ ~~xxxxxxxxxxx~~ ~~xxxxxx~~ ~~xxxxxx~~ and charges) if employed for the purpose of the acquisition.

10. There is not much time left between now and 1948 June, and buildings to the extent of Rs.6 to 7 lakhs have got to be completed within these 8 months. The Founder-President of the Trust is the Chairman of Modern Housing Construction & Properties Ltd., Madras - one of the biggest construction companies in Madras and it has on its staff very competent engineers - some of them retired Superintendent Engineers of the Government of Madras - and the necessary skilled staff. Lorries in respect of this work are being allotted by the Government of Madras. Under the circumstances it is prayed that the Urgency Clause and the provisions thereunder may be applied to the case and the land handed over to the Trust by the end of this month.

11. It may not be out of place to bring to the notice of the Government that the Founder of the Trust has, during the past few years, been actively engaged in promoting educational institutions - the Madras, Annamalai and Travancore Universities and has contributed liberally in the neighbourhood of Rs.15 ~~lx~~ to 16 lakhs. It will be a matter for gratitude if the Government could appreciate the urgency of our request and kindly arrange to place the Trust in possession of the site by the end of this month.

Thanking you,

The Hon'ble Minister for Revenue,
Fort St.George,
Madras.

Dear Sir,

Re: Acquisition of land for Dr.Alagappa Chettiar College at Karaikudi-673.98 acres-Suevey Nos. 512,513 and 533 &c.

I have pleasure in enclosing a copy of the Trust Deed as well as a copy of the application made to the Collector of Ramnad for requesting the Government to acquire the above mentioned area for the purpose of the College and further to treat the application under the Urgency Clause.

2. I am happy to inform you that the application has been fully considered by the Revenue Divisional Officer, Devakottai, as well as the Collector of Ramnad at Madura, and it has come with their full recommendation to the Revenue Board that the request of the College Trust be granted.

3. While I am grateful for the expeditious way in which the application has been considered by the local authorities, I am to bring to your notice ~~that I am told~~ that the Board is keeping the paper pending GOR further investigation as to whether the area covered by the request for acquisition does or does not come under the Town Planning. On enquiry from Karaikudi today, I am told that the area does come under the Town Planning. But the consideration is purely theoretical as there is not any likelihood of that development maturing in the near, or even in the near distant future. I have also been assured

by the Municipal Chairman, Sri Chockalingam Chettiae, that he is confident of even persuading the Municipality to pass a Resolution excluding the area from the Town Planning. The Government will kindly appreciate that the acquisition of the site for the College will bring more amenities and give an added importance to the town than a mere development under the Town Planning S cheme which, by the way, is only a theoretical possibility with the present-day resources. As it is, the Town Planning Area, excluding the present site available for development of the Karaikudi Municipality, is vast enough, and does not have any reasonable chances of development for another decade or so.

4. Hence, it is my prayer that the K araikudi Municipality, not being prejudicially affected by the grant of this land to the College, the acquisition could safely be sanctioned under the Urgency Clause forthwith, and that the Government will be giving a great help to the institution by placing this land at its disposal immediately. As time is of the essence (buildings worth Rs.8 to 10 lakhs having to be completed within about 8 months, i.e.,before 1948 June) I request that the Government be pleased to notify the acquisition proceedings in the Gazette and also apply the Urgency Clause.

5. I trust the Government will appreciate that at a time when the Government finds itself unable, due to various reasons, to extend its financial help to educational institutions in the matter of building grant, I have come forward to mobilise and place the bulk of my resources at the disposal of the College to be put up - a First Grade ~~College with Arts and Science courses~~

College with Arts and Science courses for nearly six to seven hundred students with proper hostel accommodation. Objections which would normally be valid will have to be kindly toned down by the Government in view of the great need for higher education, particularly in Science courses, and decisions come to in a liberal spirit will be very much appreciated by the entire country. I beg to be excused for placing my views so frankly, and I pray that the Hon'ble Minister be pleased to pass the necessary orders and issue directions to have the notification published in the Gazette within the next few days.

Board of Revenue, Madras
Dated the 14th November 1947.

My dear Subramaniam,

Subject.- Land Acquisition - (Ramnad) - Dr.Alagappa Chettiar College at Karaikkudi.

Refce.- Your D.O. No.88420-G3/47-1 dated 13-11-1947 to Mr. Mani.

I am to state that the proposal for the acquisition of 663.87 acres in Karaikkudi Municipality for the construction of College buildings and hostel etc. was received from the Collector of Ramnad on 8-11-1947. As the area is within Municipal limits, and as there is a Town Planning Scheme for the development of Karaikkudi town, the Director of Town Planning, Madras, has been asked in Board's Reference dated 10-11-1947 to state whether there will be sufficient land left out, for the normal expansion and other needs of the Municipality, after the acquisition is sanctioned. His report is awaited and he has been asked to send his report before the end of this week. The Board's report will be sent immediately after the Director's reply is received.

Yours sincerely,

Sir,

Sub:--Land Acquisition(Ramnad)--Tiruppattur Taluk--
Karaikudi Municipality--site for the construction
of Dr.Alagappa Chettiar's College-buildings--Draft
Notification under Sec.4(1) and Draft Declaration
under Sec.6 submitted.

The correspondent of the Dr.Alagappa Chettiar's College Trust,Karaikudi has applied for the acquisition of T.S.Nos. 512, 513, 514, 516, 518, 519, 520, 523, 524, 529 to 531, 536 537, 542 to 544, 549 to 551 and 556 to 558 of Karaikudi Municipality for the construction of College hostel etc.buildings. I enclose a copy of his application together with copies of the trust deed, remarks of the Vice-Chancellor of the Madras University and letter No.A.5950 dated 5--11--47 from the Registrar of the University. The lands proposed for acquisition lie in the Revenue Villages of Karaikudi, Mathur and Iluppakudi of Tiruppattur Taluk and have been surveyed under the Town Survey system.

2. T.S.Nos.519, 543, 550, 557 and 558 proposed for acquisition are classed in Accounts as channel porambokes. Steps will be taken to hand over if possible these sites to the correspondent without detriment to the purpose for which they were originally set apart after an enquiry under Sec.20A of the E.L.Act. The rest of the fields are either ryoti or ryotwari or Inam dry as shown in the schedule to the notifications. The lands coming under ryotwari dry are all railway relinquished lands for which ryotwari pattas have been issued after their sale. All these are entire fields except S.No.512 S.No.512/2 is a Zamin dry, both the warams of which belong to the Zamindar of Sivaganga.

3. The Revenue Divisional Officer Devakottai, the land Acquisition Officer, has inspected the sites personally and is of opinion that it is eminently suited for the purpose. The lands are now lying waste and it is mostly shrub jungle with only bushes growing thereon. There are no buildings, tombs or grave yards on the lands proposed for acquisition. No objections are likely to be received.

4. The College Trust has got sufficient funds for the undertaking. Dr.Rm.Alagappa Chettiar has requested that the sites may be handed over before the end of this month to enable him to construct the buildings before the next June 1948(academical year). The application shows in sufficient detail the need for such an extensive site for the college. I agree with him that for a College of the type proposed on modern lines the extent are really necessary. He has already made necessary arrangements for the materials required for the construction. The Land Acquisition Officer after considering the above facts and the main purpose of the acquisition (viz Education) recommends that the lands may be acquired under the emergency provisions. I agree with him and request that the Draft Notification under Sec.4(i) of the Act and Draft Declaration under Sec.6 of the Act(enclosed in duplicate) may be approved and caused to be published in the successive issues of the official gazette. In view of the urgency the clause relating to the enquiry under Sec.5A has been deleted in the Draft Notification under Sec.4(1).

-2-

I request that a small contribution may also be made from Government funds to regularize the acquisition proceedings. I shall take steps to alienate the lands(after possession is taken over), to the College Trust upon the conditions already agreed upon and other conditions which the Board or Government may impose upon.

Copy to the Revenue Divisional Officer, Devakottai who is requested to watch the publication of the notifications in the Gazette and take possession of the lands after the expiration of the period after service of the notices under Sec. 9 of the Act.

The Sub-Division records valuation report shall be expedited The Revenue Divisional Officer has not shown the names of the Revenue Villages in the notification which necessitated the preparation of the notification afresh in office.

He will please see that the sites are handed over to the College Trust as early as possible after observing the formalities required by the rules.

Copy to the Tahsildar Tiruppattur for necessary action. As the RevenueDivisional Officer does not require any special staff, He will please bestow his personal attention and see that no avoidable delay occurs at any stage.

Through

The University of Madras.

Sir,

Dr.Alagappa Chettiar College was opened on the 8th of August and formally inaugurated by the Honourable Minister of Education Sri Avinasilingam Chettiar, on the 10th August 1947. The Government of Madras were pleased to place the Municipal buildings at Karaikudi at the disposal of the college at a nominal rent, and it is hoped and believed that the present Council will hand over the building and the compound to the Trust either as a gift or at a nominal price.

2. The College has been granted temporary affiliation in the Intermediate,B.A.,and B.Com.Courses by the University of Madras and permanent affiliation has been applied for for the academic year 1948 in the various Science courses both in Intermediate and B.Sc. The present strength of the College is about 170 and it is expected that after the affiliation is granted the strength may swell up to about 600 in 1948 June and about 1000 in 1949.

3. An endowment of nearly Rs.20 lakhs has been made, and a few of the properties have already been transferred to the Trust which was registered on 29th October 1947. The net income from the Endowment at present yields a sum of in the neighbourhood of Rs.1,50,000 per annum.

4. It is proposed to construct a hostel building for about 350 students, and science laboratory and lecture halls for the general students of Intermediate and B.Sc. before 1948 June. The buildings will be extended in the academic year 1949 so as to accommodate the new strength in that year. The present estimate for these buildings comes to nearly about Rs.7 lakhs excluding Rs.1 lakh for scientific equipment.

(26)

5. Building materials - cement to the extent of 2000 tons, steel for 100 tons and timber for 150 tons - have been sanctioned and allotted by the various authorities. The Cochin Maharajah has kindly agreed to supply the timber at practically 60% of the cost price. A copy of the Trust is herewith enclosed which will speak for itself.

6. There is in contemplation a great future programme of the institution not merely in Science and Arts but also in other branches. The Trust, as has already been stated, already possesses finances to an extent of Rs.20 lakhs exclusive of the grant which the institution will undoubtedly get from the Government both for building as well as equipment. It is not proposed to await these grants from the Government and then start the operations. With the finances at the disposal of the Trust, the present programme is being undertaken, and as and when the Government decides to give the allotments of grant, they will be availed of.

7. As the Chettinad area often presents difficulties with regard to purchase of land after the specific need for it has arisen, the Trustees feel it necessary that it will be in the interest of the institution to seek the help of the Government in acquiring as big an acreage as possible. Otherwise, the Trust may at a later period feel embarrassed by the fancy prices that will undoubtedly be asked for by the land-lords.

8. The land now sought to be acquired (for which a land-plan and schedule are enclosed) is eminently suited for the requirements of the College, inasmuch as the land is fairly away from the town and yet within the Municipality. It has got a very nice frontage on one side, it being bounded by the railway line. The soil, water facility and other factors are very favourable according to engineers' report obtained. The land is also not used for any other purpose by its present ~~land~~-owners (a few temple Devasthanams and the Sivaganga Samasthanam). In fact the land is an aerid tract and there are only shrubs and not even trees. There are no buildings, temples, mosques, religious

buildings or tombs, in the entire extent now proposed to be acquired.

9. On behalf of the Trust, I undertake:

(1) to use the land for the purpose for which the land is now proposed to be acquired and for no other purpose without the sanction of the Government

(2) to carry out the purpose within two years

(3) to restore the land to the Government if they so direct on payment of the compensation awarded less 15% solatium awarded for compulsory acquisition or the value of the land at the time of the restoration, whichever may be less, in the event of the College Trust not carrying out the purpose for which the land is acquired within the specified period, or using the land without the sanction of the Government at any time for any purpose other than that for which it is acquired.

(4) to pay enhanced compensation together with any incidental charges if any that may be awarded by the Civil Court or appeal therefrom in the event of a reference to the Civil Court

(5) to pay damages if any that may be caused in the event of the acquisition being withdrawn, and

(6) to meet the entire cost of any special staff (together with leave and pensionary contribution and other incidental charges) if employed for the purpose of the acquisition.

10. There is not much time left between now and 1948 June, and buildings to the extent of Rs.6 to 7 lakhs have got to be completed within these 8 months. The Founder-President of the Trust is the Chairman of Modern Housing Construction & Properties,Ltd.,Madras - one of the biggest construction companies in Madras and it has on its staff very competent engineers - some of them retired Superintending Engineers of the Government of Madras - and the necessary skilled staff. Lorries in respect of this work are being allotted by the Government of Madras. Under the circumstances, it is prayed that the Urgency Clause and the provisions thereunder may be applied to the case and the land handed over to the Trust by the end of this month.

11. It may not be out of place to bring to the notice of the Government that the Founder of the Trust has, during the past few years, been actively engaged in promoting educational institutions - the Madras, Annamalai and Travancore Universities and has contributed liberally in the neighbourhood of Rs.15 to 16 lakhs.

It will be a matter for gratitude if the Government could appreciate the urgency of our request and kindly arrange to place the Trust in possession of the site by the end of this month.

Thanking you,

I remain,
Sir,
Yours faithfully,

REFERENCE:

Submitted to Government.

2. The Correspondent of Dr. Alagappa Chettiar's College Trust, Karaikudi, has applied to the Collector of Ramnad for the acquisition of 663.87 acres of land situated within the Karaikudi Municipal limits for the purpose of constructing lecture halls, science laboratory, hostel for students, etc. The Registrar, University of Madras, and the Vice Chancellor of the University of Madras have both recommended the application for acquisition. The Collector of Ramnad has submitted proposals for the acquisition and has also recommended that the urgency clause may be applied in this case as Dr. Alagappa Chettiar has requested that the sites may be handed over before the end of this month to enable him to construct the buildings before June, 1948 when the next academic year will commence.

3. The Rev.Divl.Officer ~~has~~ is reported to have inspected the site personally. The lands are now lying waste and there are no buildings, tombs, grave yards or other structures on them. It is stated by the Collector that no objections are likely to be received to the acquisition.

4. In as much as there is a Town Planning Scheme for Karaikudi Municipality, the Board addressed the Director of Town Planning as to whether the lands remaining after the proposed acquisition would be sufficient for the expansion of the Municipality. A copy of the report of the Director of Town Planning is enclosed. It is seen from the report that the area proposed to be acquired is intended to be developed into a park belt preceded by a fairly wide belt of industrial area in addition to residential and recreational purposes. Considering however the present application, the Director of Town Planning has stated

that the portion of land of about 400 acres in extent (shown by a thick red boundary line in the Blue print copy of the lay-out plan T.B/DTP. No. 76/37-38) may be acquired for the Alagappa Chettiar College.

5. The Board understands that some of the other big Educational institutions in the Presidency do not have such a vast extent as that proposed to be acquired for the Alagappa Chettiar College. The Board has ascertained that the Madras Christian College at Tambaram stands on a plot of about 400 acres in extent while the extent of the Annamalai University at Chidambaram and the Engineering College at Guindy is respectively about 310 acres and about 209 acres. In these circumstances the Board doubts whether such a large extent as 663.87 acres is really necessary for the purposes of Dr. Alagappa Chettiar's College. More-over the Correspondent of the College has not furnished detailed particulars of the extent of land required for each purpose such as construction of buildings, playgrounds, etc. As pointed out by the Director of Town Planning any proposals such as the one now made should be made with the approval of the Municipal Council before it can be put through. The Collector to whom a reference was made, says that the Municipal Council has been requested to send a resolution agreeing to exclude the area from the Town Planning Scheme. Further it does not appear from the Collector's report that detailed local enquiries have been made of the leading citizens of Karaikudi to find out their views in the matter. If, for instance, there is a reasonable possibility of large scale industrial enterprise being started in Karaikudi one would suppose that the area abutting the railway line would be ideally suited to lay railway sidings, construct godowns, etc., for Industrial purposes. In the present proposals, the entire area abutting railway line would be included in the land proposed for acquisition. The Board also observes that the area proposed for acquisition is rather irregular in shape. After considering the matter in detail, the Board is inclined to the view that further enquiry is needed before a final opinion can be expressed as to what extent would really be necessary for the purposes of Dr. Alagappa Chettiar's College and which exactly would be the plot most suited for the purpose, taking into account the needs of industry etc. The railway authorities also will have to be consulted as to whether they have any objection for the proposed acquisition.

6. On the material at present available, the Board is inclined to think that an extent of about 300 acres would be sufficient for the purpose. The boundary line might be along the railway line and along the line marked L E K D in the Blue print prepared by the Town Planning Expert. But even in respect of this extent, 4(1) notification cannot be straightaway published as sub-division work and peg-marking on the ground will be necessary before the notification can be prepared. Considering that the process of constructing buildings cannot be regarded as such an urgent matter as to brook not even a few days delay, the Board is also inclined to the view that this is a case where the public interest do not require dispensing with the enquiry under Sec.5(A) of the Land Acquisition Act. The Board solicits the orders of the Government on these points. The draft 4 (1) notification prepared by the Collector is also enclosed, and if the Government take the view that the entire extent should be acquired and that the urgency clause should also be applied, the notification may be published straightaway after getting the views of the Karaikudi Municipality and the Railway authorities.

7. The enclosure received with the Govt. D.O. is herewith resubmitted.

The lands proposed for acquisition for Dr. Alagappa Chettiar's College comprising of T.S. Nos.512, 513,514,516,519,520,523,524,529 to 531,536,537,542 to 544, 548 to 551 and 556 to 558 of Karaikudi Municipality shown dotted red in the plan enclosed, fall within the Railway Station Area Town Planning Scheme, Part II, called for by Govt. under Section 12 of the Town Planning Act, 1920 in G.O. 1536, P.H., dated 20-7-1932. The scheme is at present in the stage of preparation with the Municipal Council, Karaikudi. A tentative layout plan in T.P./D.T.P. No. 76/37-38 for the development of the area under the scheme and its surroundings has been furnished to the Municipality. The layout takes into consideration the fuller development of the town and is made in such a way that it co-ordinates the developments under the Railway station Area Town Planning Scheme Part IV which has already been sanctioned by Govt. and is in the process of execution and also other private developments in the vicinity. In the larger interests of the town, the lands abutting the Railway Line, all along the curve between the Municipal limits and the Railway station are proposed to be developed into a part belt preceeded by a fairly wide belt of industrial area and the rest of the area is to be developed for residences, public building purposes, recreation spaces, shopping etc.

A portion of the above layout area which is land belonging to the Sivaganga Estate has already been developed and hence it is very essential that the general pattern of development is preserved in the interests of the planning of the Town.

This Department cannot ascertain to any degree of accuracy whether the lands remaining after acquisition for the college would be sufficient for the municipality. The present Town of Karaikudi is very congested and is very much in need of extension areas. Although development has been drastically held up due to conditions arising out of the war, there is every reason to believe that there will be great demand for land as soon as condition improve. Land will be required not only for residential accommodation but also for factories and industrial premises, recreation, education and health institutions and the like requirements. In view of the fact that Karaikudi is fast increasing in importance and in population, it will be necessary to conserve as much land as possible for the future developments and also for other institutions which are likely to come into the Town as well as for industries.

It therefore appears to be sufficient to allot for the college an area east of the north to south 66 ft. Road proposed in the layout plan (blue print copy enclosed) marked A B C D upto the limits of railway. This area would be about 400 acres in extent and may be deemed to be adequate for the purposes of the College. Such a proposal would no doubt deprive the Town of a vast provision of industrial areas. But suitable areas for this purpose may be found elsewhere in the town or in the vicinity.

It may be noticed that provision has been made for a road of 100 ft. in the east - west direction through the centre of the layout and that this road after it passes the round-about in the college area at point E cuts across to the railway lines at point F. This road forms an important link with the Kandanur Panchayat and connects up with the existing Cart track leading from it. It is very essential

82

to retain this road in any proposal that may be made for the development of the area. It would also be necessary to make the north to south road A B C D to a width of 100 ft. running along the western boundary of the College area.

It is also pointed out that as the Town Planning Scheme is only under preparation, under Sec.17 of the T.P.Act, the municipal council is the final authority for the grant or refusal of permissions for developments and hence the above proposals should meet with the approval of the Municipal Councilhaf before it can be put through. It is therefore suggested that the approval of the municipal council to the proposal is obtained before hand. The Municipal Council may in approving the above proposals insist under Sec.175 of the Dt.Municipalites Act that the College Trust shall, prior to developing the area submit for the approval of Director of Town Planning a detailed plan of development of the area and make adequate provisions for securing a proper access to the site from an existing public or private street. The Trust may also be called upon to acquire and form the two roads A B C D and B E F.

The portion of land that may be acquired for the College Trust is marked by a thick red boundary in the blue print copy of the layout plan T.P./D.T.P. No. 76/37-438 enclosed herewith. The blue print sketch sent with your letter is returned.

The extent of the land required for constructing Dr Alagappa chettiars college at Karaikudi is 663.87 acres. It is reported that the Madras University and the Collector of Ramnad have recommended the application for acquisition. The Collr has also recommended the application of the urgency clause, as the Correspondent of the College requires the land before the end of this month for purposes of construction. The land is a waste

P79 cf

-do-

land containing no buildings, tombs, trees or other constructions on them. There seems to be no objection to apply the urgency clause but the BD of Revenue considers that this is a case where the public interest do not require dispensing with the enquiry under sec. 5(A) of the Land Acquisition Act. The BD is therefore in favour of applying the urgency clause to the present case of acquisition.

The land in question is included in the T.P. scheme of the Karaikudi Municipality. The T.P. has no objection to the proposal. The BD considers that the Municipal Council should be consulted. The Collector is reported to have promised to obtain the views of the Municipal and send it to the Board. The BD is also of the view that further enquiry is needed before a final opinion is expressed as to what extent would really be necessary for the purposes of the College and what exactly would be the plot most suited for the purpose. The BD states that the Railway authorities should also be consulted in the matter. The BD is apparently of the view that the extent of land applied is too much for the purposes of the college. The BD however states that if the Govt take the view that the entire extent asked for should be acquired and the urgency clause should also be applied, the Notification may be published straightaway after getting the views of the Karaikudi Municipality and the Railway authorities.

(56)

It is for orders whether

(1) the detailed further enquiry as suggested by the BD of Revenue should be made,

or (2) whether the proposal may be considered straightaway.

and (3) if the proposal is to be considered, whether the whole extent of land asked for may be acquired or only convenient plot (about 400 acres) after peg marking and subdivision work are done will be considered sufficient for the purpose,

(4), whether the urgency clause may be applied,

and (5) if so the Municipal Council and the Railway authorities should be consulted before taking action for acquisition after applying the urgency clause.

The remarks of DT and Revenue may be invited before circulation.

X

The points for consideration in this file are

(1) whether the lands required for Dr. Alagappa Chettiar's College, Karaidudi should be acquired;

(2) what is the total extent required for the college;

(3) whether the urgency clause of the land acquisition act should be applied for and

(4) whether the municipal council and S.I.Ry. authorities

should

should be consulted in the matter.

(1) above: The necessity for the acquisition of the land has been conceded by all. The University, the Revenue authorities have recommended the acquisition. The Board of Revenue and D.T.P. have no objection. Hence the necessity for the acquisition of land may be agreed to.

(2) above: The extent required by Dr. Alagappa Chettiar's College Trust is 663.87 acres. The D.T.P. recommends on page 81 C.F. that an extent of 400 acres will be sufficient for the purpose. The Board of Revenue is inclined to think that 300 acres will be sufficient. The correspondent of the college in para 7 of his letter (on pages 4-5 C.F.) has stated that his application for 663.87 acres was due to the fact that chettinad areas often presents difficulties with regard to purchase of land after the specific need for it has arisen and therefore as big an acreage as possible should be acquired even now. Otherwise, the trust will feel embarassed by the fancy prices that will undoubtedly be asked by land owners. It is evident from this statement that an extent of 663.87 is not required for college purposes either now or in the near future. As stated by the Board of Revenue in para 5 of his letter the Christian College at Tambaram owns only ~~a~~ 400 acres of land and the College of Engineering Guindy 209 acres and the Annamalai University 310 acres.

In the circumstances it is for consideration whether that the entire extent of 663.87 applied for acquisition will be viewed with favour or whether the extent will be limited to 300 acres as recommended by the Board. If the latter case, 4(1) notification for acquisition of 663.87 acres already received will have to be revised.

(3) above: The Board considers that this is a case which does not demand the application of the urgency clause of the land acquisition act. It may however be stated there is no serious objection to the application of the clause specially in view of the fact that the lands in question are lying waste with no buildings, tombs etc.

(4) above: The Collector has already addressed the municipal council in the matter and the Commissioner has promised to obtain a resolution of municipal council excluding the area in question from the limits of Town-planning scheme. In the circumstances the

The Director of T.P. while not averse to the needs of the College of Engineering and the T.P. needs being met by reserving an extent of 400 acres. The Christian College has 400 acres. but may therefore accept the recommendation of the Board to allow the acquisition of about 400 acres as marked by him on the plan. But then the other authority requiring the land for the proposed Bhuvanagiri Reservoir may object to the proposal.

P 8367

municipal council need not consulted by Government. As regards the consultation of Railway authorities P.W.D. may see for remarks if any.

May be sent to Revenue, L.A., P.W.D. for remarks before circulation.

Doc 17.11.47 S

If the notification above, that only about 400 acres need be acquired, is accepted, a revised notification, as indicated at para 4(1), needs be issued, particularly as there will be hearing, particularly as there will be hearing under Sec. 6 and the final notification of the D.D. under Sec. 6 and the publication in Newspaper is necessary to the effect (in Sec. 5A enquiry being postponed to the disposal of the) . The Collector will therefore have to be asked to send up revised 4(1) Notification & D.D.

If however, the Municipal Council raises no objection to the acquisition of the entire area after the area will be fixed, Objection; for, we need not, in that case, sanction the proposals as sent up by the Collector straightaway; but then, we will have to wait for the opinion of the Municipal Council.

I am still more inclined to consult the Railway; if there is no rule or convention by which they are to be consulted in cases like this, they need not, I think, be consulted.

2/. The points for consideration in this file are dealt with in the E & P.H Deptt's typed note ~~on pp 4-4 ante~~ and E & P.H Secretary's note on pp 7-9 ante. The E & P.H have agreed to the necessity for the acquisition of land in this case. As regards the ~~the~~ extent of land required for the purpose, it is for E & P.H to consider.

3/. From para 3 of the Collector's letter on p 42 c. it will be seen that the lands are waste, that they do not contain any buildings, tombs or grave-yards and that no objections are likely to be received. For the reasons stated in para 6 of the Board's ref ce on p 8 o c. the Board considers that the present case does not demand the application of the urgency clause of the L.A. This file relates to the acquisition of land for Dr. Alagappa Chettiar's College, Karaikudi. The points for decision are mentioned on p 8 ante. The typed note on p. 7 ante.

This Deptt may agree with Secy, E & P.H that if the Mlet has no objection to the acquisition of the entire ~~extent~~ area asked for, the Govt need not object either. Reference to the previous papers may be made. This file has been sent to this Deptt. with reference to the point whether the S. I. Rly. admin. should be consulted in respect of the lands proposed to be acquired for Dr. Alagappa Chettiar's College, Karaikudi. It will be seen from the ~~K. page~~ this report on p. 42 c. that ~~some~~ the lands proposed to be acquired are railway relinquishment lands for which registered patta have been issued. This Deptt. has no information whether the lands or part of them, proposed for acquisition will be required for by the Rly. admin. The future construction of the Karaikudi-Arantangi line has been included in the Govt. of India's revised programme of new constructions. It is observed from the plan that the lands to be acquired for the College ~~site~~ is to the west of the Karaikudi ~~station~~. As the Karaikudi-Arantangi line will be on the eastern side of the Karaikudi station, it is unlikely that these lands will be required by the Railway admin. In this view the S.I.R. admin. need not be consulted in regard to the proposal.
