I have the honour to state that the present Inspectress V Circle, Coimbatore, was not in favour of the acquisition of the land and buildings adjacent to the school, already approved in G.O.No.Ms.252 P.W. dated 28-1-47, and she submitted certain other proposals for the acquisition of some other land for constructing new buildings for both the school and hostel. After a careful consideration I have decided to stick on to the original proposal and have issued instructions to the Inspectress to contact the Collector and the P.W.D. and see that the acquisition of the land etc. already approved is expedited. It may be possible to complete the acquisition proceedings and take possession of the land during 48-49.

BUILDINGS - Government Secondary and Training School for Women, Namakkal - Construction of buildings.

From the Director of Public Instruction, Roc.No.3079-G/46 dated the 3rd September 1947.

In connection with the budget for 1947-48, the Director of Public Instruction submitted proposals for the acquisition of certain private lands and for the construction of new buildings for the Government Secondary and Training School for Women, Namakkal, at an estimated cost of Rs.84,000/-. The acquisition of the lands was only sanctioned in view of the financial stringency and in view of the fact that the acquisition proceedings might take some time to be completed, and the Director was asked to submit proposals for the construction of buildings on the site in time for consideration of Government in connection with the budget from for 1948-49. The Director has now renewed the proposal and reports that the estimates prepared in 1946 requires no revision at present. He recommends that necessary provision may be made in the Budget Estimate for 1948-49. His recommendation may be accepted in this department and the proposal may be put forward as a Part II Scheme for 1948-49.

referred to in the Finance note on page 2 ante, all buildings should be deferred for the present in view of the financial stringency unless they are immediately required. The existing accommodation in the Government Secondary and Training School for Women, Namakkal, is quite unsuitable and inadequate. The Director of Public Instruction pointed out last year itself that the existing buildings were not in a ~~position~~ state of good repairs; that the Executive Engineer concerned did not recommend any alterations to them and that it was therefore necessary to demolish the existing buildings and construct a fresh one.

2. The Director reports that the present Inspectress of Girls' Schools, Coimbatore, is not in favour of the acquisition of the lands and buildings adjacent to the school (already approved in G.O.No. 252 P.W. dated the 28th January 1947) and that she submitted certain other proposals for the acquisition of some other land for the construction of buildings for the school and hostel. The acquisition of land required to put up the buildings was sanctioned in January 1947. Practically no steps have been taken so far towards the acquisition as such. The D.P.I. hopes that it will be possible to complete the acquisition proceedings and take possession of the land during 1948-49. He does not say when i.e. in what month it will be possible; perhaps he is not able to say. Anyhow the provision if any made for the construction of the buildings in the B.E. for 1948-49 will not be spent unless the acquisition proceedings are speeded up. In the circumstances it is for consideration whether the proposal for construction may be deferred i.e. the provision required for the construction may be considere

Buildings. Govt. Secondary & Trg. School for Women, Namakkal.

(R)

In G.O. 252 P.W. dated 28-1-47, the Govt. approved an expenditure of Rs. 1500/- on the acquisition of some land for the ~~Govt.~~ construction of buildings for the Govt. Secondary and Trg. School for Women, Namakkal. The acquisition proceedings have not been completed. But on the assumption that the proceedings will be completed within this year, the D.P.I. has proposed that a provision of Rs. 50000/- be made in the budget for 1949-50 for the construction of certain buildings on the land in question. The nature of the additional accommodation proposed to be provided and the urgent necessity for providing it are explained at R/16 cf.

2/. The Director has not forwarded the plans and estimates though this was ~~sp~~ called for in the memo at p3 cf. ~~However~~ He may be asked to send them up again. The draft below is for approval.

3/. Fin. have advised that building schemes should not be taken up unless they are imperatively essential. It does not appear that the present scheme can be said to be immediately essential.

for the proper running of the school. If it is, the Director, it is submitted, should have taken special steps to have the land required for the construction of the buildings acquired expeditiously, if necessary under the emergency provisions of the ~~Land~~ Land Acquisition Act. The fact that this has not been done, shows that the work is not particularly urgent. The question of taking it up may be considered ~~after getting D.P.I.'s ...~~ when the Director reports that the land has actually ~~actually~~ been handed over. ~~actually~~. For orders.

3/. After issue of the draft put up below, the file may be sent to P.W.D. & Fin. for remarks.
