R.C.No. 1445 B2/47 dated 4th November 1947.

Sir,

* SUB:- Elementary Education - General - Schools under Public Management - Admission of Scheduled Class pupils - Report on - Submission of.

REF:- G.O.No.329, Home (Edn.), dated 17-3-1919.

I have the honour to submit herewith my report for 1946-47 on the admission of pupils belonging to the Scheduled Classes in the Elementary Schools under Public Management not specially intended for them. The statistical particulars received from the District Educational Officers and Inspectresses of Girls' Schools are submitted in the enclosed statement.

SCHOOLS:- The total No. of Elementary schools under Public Management not specially intended for the Scheduled Class was 16637 during the year under report as against 16908 during 1945-46. The decrease is due to the amalgamation of several schools and closure of uneconomic schools.

The tabular statement below furnishes figures for the admission of Scheduled Class pupils in Elementary schools under Public Management not specially intended for them in 1945-46 and 1946-47.

	1945-46	1946-47	1945-46	1946-47
	Plains.		Agency.	
(a) Total No. of schools under Public Management not specially intended for Scheduled Class pupils	16,753	16,463	155	174
(b) No. of schools accessible to Scheduled Class Pupils	16,743	16,461	150	174
(c) No. of schools in which in Scheduled Class pupils were freely admitted.	12,212	12,210	118	122
(d) No. of schools held in inaccessible buildings.	--	--	--	--
(e) No. of Scheduled Class Pupils admitted in the schools not specially intended for them	100,533	124,031	575	792

No school is held in an inaccessible building. The percentage of schools in the plains accessible to the Scheduled Class pupils during the year under report was 99.9 as last year.

The percentage of the number of schools in which Scheduled Class pupils were freely admitted to the No. of Schools accessible to them increased from 72.9 in 1945-46 to 74.1 in 1946-47.

There is a large disparity between the number of schools accessible to the Scheduled Class pupils and the number of schools in which they were admitted freely, in the districts of East and West Godavari, Guntur North and South, Kistna, Nellore, Chittoor, Bellary, Kurnool, Cuddapah, Anantapur, Chingleput, North Arcot, Coimbatore, North and South Malabar, South Kanara, Tanjore and South Arcot. The No. of schools in which Scheduled Class pupils were freely admitted increased in some districts. The disparity between the No. of schools accessible to the Scheduled Class pupils and the number of schools in which they were freely admitted was mainly due to the following reasons:-

- (1) Proximity of schools intended for scheduled castes.
- (2) Non-existence of Scheduled Class pupils in the school zones
- (3) Existence of some schools specially intended for Muslims where URDU is the medium of Instruction.

PUPILS:- The No. of pupils belonging to the Scheduled Castes admitted into schools not specially intended for them was 1,24,031 in the plains and 792 in the agency areas during the year under report as against 1,00,933 in the plains and 575 in the agency areas in the year 1945-46. Thus there has been a considerable increase in the total number of scheduled caste children freely admitted into schools which are not intended for them.

Poverty and famine which made pupils go to work in preference to Education and migration to ghats along with their parents in search of labour and field work in some districts are some of the causes hampering the free admission and Attendance of Scheduled caste pupils in schools.

TEACHERS:- The number of Scheduled Class Teachers employed in schools not specially intended for Scheduled Class pupils increased from 1477 in 1945-46 to 1704 in 1946-47.

Thus there has been an increase by 227 during the year under report.
