Sub: Legislative Assembly Question - Rush for admission into higher ele. schools and high schools - Recognition of new schools.

Ref: Memorandum No. 42173-B1/46-1 Wdn., dated 2-8-1946.

The suggested answers are as follows:-

I. Whether Govt. are aware of the great ~~need~~ rush for admissions in high schools of this Province? There has been an increased demand for school places in the high schools.

II. What steps they have taken to meet the rush?

1. Under the grant-in-aid code, the schools were required to provide class room space at 11 sq. feet per pupil. This has been recently reduced to 10 sq. ft. so that 45 pupils could be admitted for every 40 in the past.
2. Inspecting officers have been authorized to permit admissions upto 5 more.
3. 127 schools have been permitted to open one or more of the higher forms or classes.

The class room space per pupil has been reduced ~~to 10 sq. ft.~~ to allow 5 more admissions to each class.

III. How many new schools have asked for recognition?

126 applications to open new schools were received.

IV. How many have been given recognition?

98 schools have been permitted to be opened in 1946-47 and 4 in 1947-48.

Remarks:- 21 schools were refused permission for one or more of the following reasons - lack of funds, suitable accommodation, needs in the locality. Two cases are still pending for want of complete reports from the managements, inspite of inspecting officers' reminders. One application was withdrawn.

The above reply is in regard to high and middle schools only. As regards higher ele. schools, there is no difficulty about admissions in these schools. Higher ele. schools are permitted to be opened wherever necessary as the ultimate object of the department is to develop all ele. schools into higher ele. schools. If government require details as per question, they will be called for from the inspecting officers and submitted.
