MEMORANDUM.

SUBJECT: ADVANCED STUDIES OVERSEAS IN RESPECT OF
MR. C. RANGANATHA REDDY 1945 SCHOLAR.

The undersigned is directed to refer to the previous correspondence on the above subject and to state that the High Commissioner for India, London informs that Mr. Reddy joined the Leeds University on his arrival in the United Kingdom, but had to discontinue on account of lack of accommodation. For the last few months, he has been receiving practical training in Fuels at the Power-Gas Corporation Ltd., Parkfield Works, Stockton-on Tees. He has also been attending lectures in Chemical Engineering.

2. The Government of Madras would have observed from this Department endorsement of even number, dated the 20th March, 1947 that the scholar is to study Chemical Engineering - Wood and Lignite Distillation at the Montana State College from June, 1947 to the end of 1948. The Provincial Government will be informed after Mr. Reddy has sailed to the United States of America from the United Kingdom.

MEMORANDUM

SUBJECT: ADVANCED STUDIES COURSES IN RESPECT OF
MR. C. RAMANATHA REDDY 1945 SCHOLAR.

The undersigned is directed to refer to the previous correspondence on the above subject and to state that the High Commissioner for India, London informs that Mr. Reddy joined the University on his arrival in the United Kingdom but had to discontinue on account of lack of accommodation. For the last few months, he has been receiving practical training in trials at the Power Gas Corporation Ltd., Parkfield Works, Stockton-on-Tees. He has also been attending lectures in Chemical Engineering.

2. The Government of Madras would have observed this department endorsement of even number, dated the 20th March, 1947 that the scholar is to study Chemical Engineering - Wood and Lignite Distillation at the Montana State College from June, 1947 to the end of 1948. The Provincial Government will be informed after Mr. Reddy has sailed to the United States of America from the United Kingdom.

For Secretary,
M. H. K. K. K.

To The Secretary to the Government of Madras,
Education and Public Health Department,
MADRAS.

From

C. R. Reddy M. Sc. (Tech),
Technical Department,

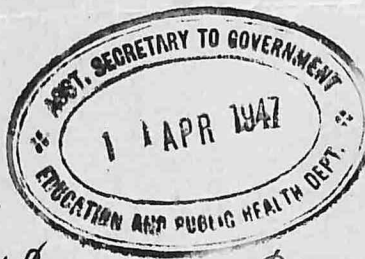

Power Gas Corporation,
Stockton - Co. Tees.

To

The Secretary,

Education department,

Government of Madras,
Madras.

Dear Sir,

Ref. Madras government of Scholar.

I am one of the government of Madras Scholar, who has been sent to this country in Jan. 1946 for the study of "Distillation of Wood and Lignite" though it has been specifically mentioned in my original application form for sending me to U.S.A. It was only after arriving in this country the mistake was realized. As an attempt I had to take of "distillation of coal", the subject being closely allied to wood distillation which is not all done in the country. Unfortunately as there was no previous admission secured at Leeds University, my work in the department had to be stopped after continuing for months.

(12)

20
six months and this was referred to you and finally approval was granted for my change to U.S.A. under the circumstances, provided admission is secured. ~~During~~ ^{the interval} Meanwhile for the last four months, I have been engaged in practical training for manufacture of Industrial gases including producer gas and water gas. Because of my previous work at the University of Leeds, my professor has consented to permit me for ^{continuing} ~~continuing~~ the work, which was left unfinished before joining the factory. As this permission was secured a few days back and in the mean time the long awaited admission in U.S.A. has been secured, it has now been referred to you whether I should conclude my work in gas manufacture or break my present programme, ^{in the factory} and take up the offer in U.S.A.

In this connection, I beg to report that it will be of much use to conclude my present theoretical and practical training in Gas Manufacture, which will be finished by the end of June 1948, so

(3)

that my stay in this country ^{so far} ~~may~~ be made use of. On the other hand, I strongly feel that leaving for U.S.A at this stage, I shall be neither getting practical or theoretical training completely. I should however mention that "distillation of wood" is much more important to Madras

rather than coal. All the same, very little much allied, it will be a good training, if I could be allowed to make use of the present offer in U.S.A - Sept. 1948, instead of 1947, when I can also be able to finish my work in one year. On the other hand, even if I leave immediately for U.S.A, I have to spend necessarily two years, besides my training in England so far being not much helpful; being incomplete.

Under these circumstances, I request you to permit me to postpone my admission in U.S.A ^{to next year}, I shall be

24

(15)

much obliged, if reply is immediately
cabled to the High Commissioner for India,
London
as the office for admission at Leeds
University does not stand for a long
time, as there is great local rush
for admission and this happens to be
a special favour for the professor,
because of my previous association.

Thanking you,

Yours obediently,
C R Reddy

Cant. London.

✓ Copy to the Secretary to the Government of Madras, Education and Public Health Department, Madras, with reference to his telegram dated 12th May, 1947.

Copy by Air Mail. to M.S.Sundaram, Esq., M.A., B.Litt (Oxon), Educational Liaison Officer, Indian Embassy, 635 F.St., Washington, D.C. with reference to his cable No. 726/W dated 14th February, 1947 and this Department endorsements and cable of even No. dated 26th February, 1947, 13th March, 1947 and 20th March, 1947 respectively.

It has subsequently been decided that Mr. C. Ranganatha Reddi, the 1945 Madras Scholar, should not proceed to the United States of America in June 1947 to avail of the admission secured in the Montana State College. He will continue his studies in the Leeds University till June 1948, after which he will be sent to the United States of America for undergoing practical training in Chemical Engineering - Wood and Lignite Distillation for a period of six months only.

By order,

M. H. Lehman

Edn. & P.H. Department (C2).

From the Government of India, Department of Education,
No.F.3-11/45-ODIV dated 26-2-47.

Overseas Scholarships - 1945-46. -
Sri C.Ranganatha Reddy.

Sri C.Ranganatha Reddy was selected in 1945-46 for the award of an overseas scholarship in "Wood and lignite distillation of products". The Development Department to whom the subject relates had suggested any one of the three countries, namely U.S.A., U.K. and Canada, for the candidate's venue of study. Sri Reddy was sent to the United Kingdom. It happened that "Wood and lignite distillation of products" was a subject not offered in any institution in the U.K. and the candidate was provisionally admitted into Leeds University, U.K., for a course in "Coal Carbonisation". The Leeds University admitted the candidate only for a period of six months and after the expiry of this period could not keep the student on for want of accommodation. Therefore in September 1946 the Government of India desired to know if the candidate might be sent to the U.S.A. where facilities for "Wood and lignite distillation of products" were available, or whether he might be allowed to continue "Coal Carbonisation" in any other institution in U.K. itself. India were told that Sri Reddy might proceed to the U.S.A. if admission was possible to secure for the October 1946 session, and if not, he might continue to study "Coal Carbonisation" in U.K. In October 1946 the Central Govt. wrote saying that Sri Reddy's admission for "Coal Carbonisation" was being tried in the Sheffield University, U.K., and that if admission was not possible there, he might have to be sent to the U.S.A.

2. Now the Government of India have telegraphed stating that admission has been secured for Sri Reddy in the U.S.A. for Wood and lignite distillation for the summer quarter beginning from the 9th June 1947 and have asked whether he should be allowed to proceed to the U.S.A. or he should be made to continue his studies in the U.K.

3. Sri Reddy left for the U.K. about the end of December 1945 and already one year has elapsed since the

The normal period of studies allowed for each student is two years. It is not clear how long Sri Reddy would be required to stay in U.S.A. if he should undergo the course in Wood and lignite distillation. Generally a period of two years is necessary for a student to take his M.Sc. degree. In that case, the total period of stay abroad of Sri Reddy would come to about three years.

4. But as the candidate was selected for undergoing studies in Wood and lignite distillation and not for undergoing courses in Coal carboniaation which he is at present doing in U.K. and as extensions of the study period for more than two years have been allowed in certain cases (vide para 1 on page 4 n.f. of linked file) it seems the candidate may be allowed to go to the U.S.A.

5. Devt. and Finance may see for remarks.

DEVOTED

Please see the telegram

in the CF and notes from file above.

In the circumstances stated by the letter

on pp 1-2 above, this draft may agree

to M above and pass on the file

to Finance

will be and whether a six months' course from

June 1947 till the end of 1947 will be adequate to supplement

the training the candidate already had had in the U.K. The marginal

remark of Dr Secy EPH Dept at B on 6/3/47 in his l.f. would

seem to indicate that the course of training in Coal Carbonisation

is 'not' very different from the subject for which the candidate was

selected. If this were so, the need for a further stay in U.S.A. is not apparent.

After orders are passed, the case may be passed on to the

As the candidate was originally selected for undergoing training in "Wood & Lignite Distillation", this dept may agree to M above & the file passed on to Fin.

Finance (E.III) ****

SRI. C.Ranganatha Reddi was selected in 1945-6 for award of an overseas scholarship in "Wood and Lignite" distillation of Products", and was sent to United Kingdom. As the subject which the student chose was not taught in any of the institutions in U.K., he was admitted provisionally into Leeds University for 'Coal Carbonisation' course. The G of I subsequently raised the point whether Sri. REDDI might proceed to U.S.A if it was possible to secure admission in October 1946 course. This Government agreed to the above. - see telegram on pages 21-22 C.F. in L.F.

The G of I have now stated that admission has been secured for Sri. REDDI in U.S.A. for "Wood and Lignite" distillation for summer quarter beginning from the 9th June 1947 and have asked whether he should be allowed to proceed to U.S.A ..

3 As Sri. REDDI has left for the U.K. in 1945 and the course in U.S.A. will take 2 years, the total course of study will be three years on the whole, as against the normal period of two years. For the reasons at "M" on page 2 above this department may agree to allow the candidate to go to U.S.A. - vide at page 4 N.F. in L.F. (The cost of course of each candidate should equally be borne by this Government and the Government of India).

11.20.34 - From the Govt, Dept of Edn, Telegram of 13.3.47. p 9-11 of

Please see the telegram from the G.O. on #9-11 of
re: 1945 Scholar C. Ranganatha Reddi. The G.O. now
reports that the ~~the G.O. has arranged~~ ^{Leeds} University in
the U.K. is willing to accept the scholar for research in
fields in October 1947 and enquire whether this Govt.
decision that the scholar should be sent to U.S.A. for
June 1947 stands. They suggest that the scholar
may be sent to America and require confirmation
of this Govt's agreement to their suggestion.

2. It has been decided in the notes on pp 1-3 ante that the ~~candidate~~ ^{candidate} should go to U.S.A. for the study of the particular subject for which he was originally selected. Dev who are concerned with this — p 2 ante
Candidate have agreed to this. Research in fuel oils which — p 9 of
& now offered by the Leeds University may not be the same thing as 'wood and lignite distillation of products'. — p 1 ante
The course is to be begun in October 1947 whereas that
in the U.S.A. ^{earlier} begins in June 1947. For the above reasons

This Govt may stick to their previous decision communicated
 to the G. of S. in the Telegram of the 11th instant - thereby
 agreeing to the suggestion of the G. of S. at 'A' on p 11 of

p 7 of
 W

3 A draft Telegram to the Govt is submitted.
It does not appear necessary to consult Secy & Co again / We may see
after some time.

picf

From the Govt. of India, Dept. of Edn, No.
F.3-11/45-OD IV dated 28.4.47.

Overseas Scholarships - 1945-46.
Sri C. Ranganatha Reddy - Course
of Studies.

Please see the notes on pages 1-3 n.f.

and the telegram on p 7 cf and the letter
on pages 19-25 cf of G.O. 657 Edn dt
2.4.47.

The High Commissioner for India states that
Sri C. Ranganatha Reddy prefers to complete
his studies in Leeds University before
proceeding to the U.S.A. and ~~has~~ ask
for this Govt's decision in the matter. No remarks
are offered either by the Govt. of India or the Govt. of U.S.A. about the ~~admission~~ ^{request} of the candidate.

The normal period of training
allowed in the case of overseas scholars
is two years.

For Sri C. Ranganatha
Reddy the Govt. have agreed to an
extension of study period and have allowed
three years - one year in the U.K.
and 2 years in the U.S.A.

In his letter on pages 19-25 cf/ (d), Sri
C.R. Reddy states that if he is allowed
to stay on in the U.K. till ~~the end of~~ ^{Sept. 1948}

June 1948 to finish his training at the
Leeds University and then proceed to the
U.S.A. for the Sept 1948 session, he would
be able to complete his course in the U.S.A.

within a year from Sept 1948, instead of
~~the scholar undertaking by him to the Govt. of India or to Govt. of U.S.A. for~~
~~two years.~~ ^{the present proposal}

would thus involve no extension of
period of training, but ^{would} only amount
to this :- Instead of the candidate
having to spend one year in the U.K.
and two years in the U.S.A., he will

To W. S. Previous note of this kept at P. 2 ^{above} and the pink
of E + H
~~the note above may be removed and the pink may be~~
~~removed to P. 2.~~ In the light of the observation of E + H. on p 3 above

12
this dept need not press the earlier view set
out at 'P' on p 2 above. It is not however desirable, generally,
to let the candidate decide the period of his stay
on his place of training after he has been selected for
training overseas

The case may be passed on to Fin. Dept.
