15/1

Dear Sir,

I thank you for your kind communication referred to above, wherein you have stated that the Govt. of India have been requested to be Edn arrange for my admission to the Edinburg University, United Kingdom.

However on subsequent enquiries, I learn that owing to the non-availability of a seat for me in the October sessions, an

attempt is now being made by the Govt. of India, with the concurrence of the Provincial Government, to secure for me admission into any of the Universities in the United Kingdom at least from the January sessions onwards.

3. While I am very grateful to Government for the trouble they are taking to procure for me a seat in a British University at the earliest opportunity, I may be permitted to point out that I would very much prefer a seat in the Edinburgh University alone, as originally planned, in preference to any other University. This University offers a Diploma Course in Technical Chemistry (with special supplementary courses in Oil Technology, Textiles and so on, as the case may be), which appears particularly suitable for me from all points of view, and which I would like to undergo in preference to purely research work. Such a course is not offered, as far as I am aware by most other Universities in the U.K. This

being the case, I am quite willing to wait up to next October if admission could be procured for me for the course referred to above.

4. In the event of it being not possible to procure for me such a seat at the Edinburgh University, an attempt may kindly be made to arrange for my admission for a more or less similar course at any other University or institution known to Government whether in the U.K. or in the U.S.A. - in preference to purely research courses for which I am not particularly inclined at the present moment. A special course in Oil Technology, if available, would be most advantageous.

Thanking you. I remain,

Yours faithfully,
H. Menzies

1. Please see the notes on pages 53-54

n.f. of G.O. No 1904 Edn., dated 3.10.46.

The Govt. of India were informed that the Govt. were agreeable to the High Commr. for India in London arranging Mr. F. G. T. Menezes's admission as a Research student in a suitable institution in the U.K. from the beginning of Jan'y 1947. Jan'y is already over but there is no information from the Govt. of India regarding the candidate's admission. Presumably it has not so far been possible to secure his admission.

2. In his letter on pages 1-3 cf,

Mr. Menezes states that he is not particularly inclined to do "research" work. He states he would like to undergo a "Diploma" course in Oil Technology and desires admission to be secured at the Edinburgh University as originally proposed by the Devt. Dept. Their return from admission is not possible in the Edinburgh University. He requests that admission for a more or less similar course in Oil Technology may be arranged either in U.K. or in U.S.A. He also suggests that a Special Course in Oil Technology, if available, would be most suitable.

Jan 26 P3/5

14/5/46

3. Mr. Menezes has been selected for "Applied Chemistry - Oil Technology and Hydrogenation" and is intended to be absorbed, after training, in the "Industries".

4. If admission as at 'X' above has not already been arranged, it seems

the Govt. of India may be requested to arrange for Mr. Menezes's admission as stated in paragraph 2 on p 1 ante, in view of the fact that in the "A return" it has not been specifically mentioned whether the Candidate should do research work alone or Ph.D. degree, or ^{whether} the Candidate should undergo a general postgraduate course in Oil Technology which would enable him to get a diploma.

S. Dext. may see for remarks.

P.S. 1/10
 B

The Edinburgh University are prepared to consider
 Mr. F.G.T. Menezes's application for admission if he could work on "Mineral
 oils", instead of on "Vegetable oils". In their 'A' return the Develop-
 ment Department had suggested admission for Mr. Menezes in the Edinburgh
 University "for practical course with part-time training in theory -
 2 years" in Applied Chemistry - Oil Technology and Hydrogenation. No
 specific mention was made whether the training should be in "Mineral Oils"
 or "Vegetable oils". It therefore seems that there will be no objection
 to Mr. Menezes doing work at the University on 'Mineral Oils'.

The Government of India may be informed that
 this Government agree to Mr. Menezes being admitted into the Edinburgh
 University for work on mineral oils. Development may see for remarks.

12/6/47

Please see the Memorandum from the
 Govt of India p.p 1-3 in the e.f. and the notes of the
 E.P.H. dept. above. The subject chosen for the candidate by this
 Govt. distinctly relates to work on "Vegetable oils"
 and not on "mineral oils". It does not appear
 that the offer of Edinburgh University
 will meet the case. Perhaps this may be
 cleared before a reply is sent to India. Subject to
 orders a draft order on p. 1 of e.f. is submitted

Vide B above

for approval.

16/6/47

16-6-47

[Issued as Encl No 55881 27/47-1 d 16.6.47. to D29c]
[From the D29c No 1523-C3/47 d 11.7.47]
To U.S.

Please see the notes on p 1 above
And the views of D29c at 'B' on p 7 of.
In the light of D29c's opinion at 'B' on p 7 of,
it is for consideration whether the Dept will agree
with the remarks of E29H at 'A' on p 11 above.
The alternative course is to request India to arrange
for the training of the candidate in 'Vegetable' in
other countries, say U.S.A., if not in U.K.

As regards the D29c's remarks at 'A'
on p 7 of, it does not appear that the Dept
can 'subscribe' to it as the choice of the
subject is to be guided by the requirements of
the Province and not by the wishes of the
candidate - for a decision.

The case may be passed on to E29H.
Dept. of Agr. Adv. are passed on the above notes.
