Government Memorandum No. 1098-Al dated 7-1-1946.

.....

There are fourteen villages in the area of the Kolli Hills and their total population according to the statistics of 1941 is 18,323 (9,227 males and 9,096 females). The total number of schoolage children is 2,577 (1,292 boys and 1,285 girls). There were thirteen schools in the whole area out of which nine had to be closed as they did not thrive well as the hill tribes were not interested in the education of their children. Of the existing four schools one is managed by the District Board, Salem, and the other three; by the strict Baptist Mission. The number of pupils under instruction in all the schools put together is at present only

the Director-General of Stores against the order for 1937-38 per S.S. Treuenfels dated 11-3-1938 which arrived in April 1938.

The Agent for Government Consignments, Madras, has since obtained on my behalf a refund of Rs. 15,426-10-0 on that shipment after re-assessment at 25% ad valorem. He has also informed me that the amount will be adjusted as usual in due course. So the additional appropriation applied for under this head of account will not be required. The original sanctioned estimate of Rs. 10,000/- will be sufficient.

136. Even these schools are reported to be not progressing well. The villages are scattered through out the area. Teachers are unwilling to accept appointment on the hills on account of the unhealthy nature of the locality. The apathy of the tribes for education and the unwillingness on the part of the teachers to serve on the hills necessitate that a scheme of education on special lines should be evolved The following scheme is submitted for the approval of Government.

2 Kind attention is invited to annexure I to this letter showing the names of villages, population etc. Six out of fourteen villages with a population of more than 500 have no schools. It is reported that some tangible work is reported to have been done by the Strict Baptist Mission for the hill tribes. The mission may, therefore, be encouraged to open three schools in any three of the villages. In the rest of the 6 centres the Board may be asked to open new schools in consultation with the departmental officers. Altogether, six new schools are recommended to be opened 3 under Mission management and 3 under the District Board, Salem.

3 **Accommodation:** It will not be possible to secure rented accommodation on the hills for the location of the schools. It is, therefore, suggested that a scheme of constructing school houses may be considered. For this pupose tiled sheds are necessary as thatched sheds do not last long. Accommodation for teachers will also have to be provided for, as it may not be possible to get teachers to work on the hills without providing quarters for them. If Government agree to my proposal, the cost of the scheme will be ascertained and reported.

4 **Teachers:-** I recommend that, in addition to the scales of pay now given by the Board to the different grades of teachers those employed in the schools on the hills should be given fifty percent more than on the plains; and in the case of aided schools, the asssment should be 50% higher than that given in ordinary schools. In special areas like Wynad, fifty percent increase in the assessment of grant has been approved by Government. The Kolli hills, being a special area may also be given the concession. This will be a definite inducement to teachers who would otherwise not be anxious to go to the hills subjecting themselves to very many inconveniences.

5 A special recurring subsidy of Rs.5,344/- vide annexure II for the opening and maintenance of three board schools will have to be given by Government to the District Board. As the Board is going to be asked to shoulder their special responsibility for the improvement of Malayalaees education, it seems reasonable that the recurring expenditure should be borne by Government in full.

6 The recurring cost of scheme in respect of aided schools works out to Rs.2,664/- as shown in annexure II. As regards this expenditure on teaching grant, no special allotment is necessary as the expenditure can be met out of the ordinary allotment under Teaching grant for each year.

7 **Equipment.** To begin with, an subsidy of Rs.150/- for each school is considered necessary and is recommended but if there is strength enough for two teachers, the amount may be enhanced to Rs.250/- per school.

Scholarships:

As special encouragement will be necessary to attract pupils to the new schools, it is recommended that scholarships as detailed below may be approved by Government.

1. Re.1/- for every boy reading in Classes III to V
2. Rs.1/8 " Girls " "
3. Any pupil from these hill tribes reading in any Higher Elementary or secondary school on the hills or on the plains may be given
   a. full fee concession
   b. Scholarship of Rs.8/- p.m. if he or she is in a Boarding school
   c. Ordinary scholarship of Rs.2/- in standards VI. Rs.2/8 in standard VII and Rs.3/- in standard VIII.

It is not at present possible to estimate the cost under this head as data for working out the cost are not readily available.

8 **Books and Slates:** To encourage the Malayalee pupils to go to school and to make them profit by the instruction given to them, it is considered very essential to supply them with books and slates. Government have permitted local bodies to provide books and slates to scheduled class pupils reading in Local Board schools. In the case of Kolli Hills, the concession may be shown to all pupils irrespective of the fact whether the pupils are reading in Board or aided Elementary schools. The managements may be given an annual grant or subsidy as the case may be at the rate of As.8/- per pupil in each of standards I and II and Re.1/- in each of the standards III to V. The expenditure on this account in the Board and aided schools may be met in full by Government. The cost under this item will depend upon enrolment.

Provision of midday meals.

This is an important bait for attracting pupils to school and this measure should not be left unexploited. Midday meals may be provided for at the rate of Re.0-1-9 per day per pupil. The District Board may be asked to make the necessary arrangements for the Board Schools and the private management for the aided schools. If Government accept this proposal, the cost of the scheme for midday meals will be worked out.

Training of teachers.

10 In order to carry out a satisfactory campaign against illiteracy amoung Malayalees on the Kolli Hills it is essential that there should be a large percentage of teachers from the hill tribes. With a view to encourage Malayalee men and women to come for training I recommend that candidates from the hill tribes coming for training may be given 50% increase in the stipends now available for secondary and Higher grade training. The additional expenditure may be met out of the normal allotment under stipends.

compiled from figs on p197

In December 1945, a deputation of the Salem Dt. Bd. waited upon the Govt. and made the following representation:-

> "In the matter of edn., the Salem Dt. is a very backward area, the percentage of literacy being exceedingly low. On the Kolli Hills, there are only 4 schools for an area of 192 sq. miles and a population of 20,000 people. The Salem Dt.Bd. is maintaining one ele. school at Asakadu while the Strict Baptist Mission has 3 schools in charge of Rev. H.A. Huckett, a member of our Dt. Bd., these schools being situated at Valavanthi, Ariyur and Valapur resply. The Mission has done some tangible work under the good influence and sincere interest of the Missionary Rev. Brand who dedicated his life to this work and laid his mortal frame there itself and his work is now being continued by Rev. H.A. Huckett. Some more schools will have to be opened in other areas by giving special grants and extra facilities of books, slates, clothing and midday meals to poor children in order to attract them to school."

The then Govt. considered that educational work should be taken upon the area and the D.P.I. was asked to send proposals in the matter. The Dir. reported, in reply, as follows:-

> "There are 14 villages in the area of the Kolli Hills and their total population accg. to the statistics of 194 is 18,323 (9,227 males and 9,096 females). The total no. of school-age children is 2,577 (1,292 boys and 1,285 girls). Th

were 13 schools in the whole area out of which 9 had to be closed as they did not thrive well as the hill tribes were not interested in the edn. of their children. Of the existing 4 schools, 1 is managed by the Dt.Bd., Salem, and the other 3 by the Strict Baptist Mission. The no. of pupils under instruction in all the schools put together is at present only 136. Even these schools are reported to be not progressing well. The villages are scattered throughout the area. Teachers are unwilling to accept appointment on the hills on account of the unhealthy nature of the locality. The apathy of the tribes for edn. and the unwillingness on the part of the teachers to serve on the hills necessitate that a scheme of edn. on special lines should be evolved."

The Dir. proposed that six schools might be opened for the pupils - three under the management of the Dt.Bd. and three under private management, that the pupils attending the schools might be given free midday meals and also supplied with books and slates and that scholarships might be awarded to them.

3. H.M.(Edn.) minuted that "these poor children and ~~their~~ the community have not been cared for till now and we must make at least a beginning". H.M.(Rev.) on behalf of H.P.M. minuted that the proposal should be deferred.

4. The addl. provision on account of the proposal ~~ix~~ if approved will be as shown in the summary at the top.

It is understood that the Government have ordered in the Government order cited above, that the payment of special pay of Rs.12-8-0 per mensem only to the teachers working in the schools opened under the said Government order, and the rate ofRs.12-8-0 P.M. is the maximum. But it appears, while appointing teachers to the said schools in 1947 the special pay has been fixed at 50% of the basic pay of the teachers. Presumably this has been arrived at taking into consideration of the fact that the special pay was half the pay referred to in the Government order and it has been allowed accordingly.

Upto this date, the board has been paying a special pay of 50% of the basic pay from the date of opening i.e. from 1947. This procedure is in vogue for the past 9 years. It may also benot possible torecover the excess amount paid for all the previous years from the teachers.

I therefore request the Government may be pleased to rectify the rate of special pay adopted and to waive the excess payment so far made.

Sir,

Education- Elementary- Board elementaryschools opened under G.O.870 Edn. dated 29-4-47 on Kolli Hills Salem Dt. payment of special pay to the attendars working in the school rectification -sanction-requested.

(A)

As per G.O. 870 Education dated 29-4-47 attenders were employed in schools on Kolli Hills on a pay of Rs.12-16 with Dearness allowance plus a special pay of 50% of the basic pay.

Now the Audit has raised objection that the payment of special pay to these attenders is irregular in as much as the Government have not specifically granted the drawal of special pay on behalf of these attenders. When it was pointed out that the Government in their memorandum No.18480 C-53-2 Edn. dated 30-4-1953 have extended the concession given to the teaching staff in the elementary schools on Kolli Hills to the attenders employed in these schools, the auditors view that Government memo contemplates the payment of house rent allowance alone.

The view taken by the Audit does not appear to be correct as it may not be the intention of the Government to deprive the attenders alone from enjoying the concessions enjoyed by the teachers working on these hill stations.

I, therefore, request that the Government may be pleased to issue specific orders for the payment of special pay to these attendars as in the case of teaching staff and extend all the concessions allowed to the teachers to these attenders also.

In this connection, I also invite kind reference to this office letter Roc.E6-1513-56 dated 29-3-57 and request that the cases of attenders also may be considered along with that of the teachers.

Submitted with a copy of letter No.L.Dis.67872/57 B3 dated 16.5.58 from the Inspector of Municipal Councils and LocalBoards Madras.

In the District Board, Elementary schools on Kolli hills, Salem District, opened with reference to G.O.No.870 Edn. dated 29.4.1947 one attender in each of the schools for securing enrolment of pupils on a pay of Rs.12-16 with Dearness Allowance has been appointed.

With reference to Government Memo No.18480-C/53-2 Edn. dated 30.4.53 these attenders are eligible for the House Rent Allowance sanctioned to the teaching staff of these schools in G.O.(Ms.)No.2986 Edn. dated 23.12.52. The teaching staff in these schools are also paid a special pay of 50% of their basic pay with reference to G.O.No.870 Edn. dated 29.4.47. But there is no specific orders of Government whether this concession given to the teaching staff be extended to the attenders working in these schools. The Audit has, therefore objected to the payment of special pay to the attenders by the District Board, Salem in the absence of specific orders of Government in the matter.

The peons employed in the Government Elementary schools on Kolli hills are paid hill allowance at the rates sanctioned in the Madras Mannual of special Pay and allowances. It is, therefore, desirable that the attenders working in the Board Elementary schools on Kolli hills are also paid the allowance.

II. PROVISION OF EDUCATIONAL FACILITIES IN THE KOLLI HILLS AREA.

In the matter of education, the Salem District is a very backward area, the percentage of literacy being exceedingly low. On the Kolli Hills, there are only four schools for an area of 192 square miles and a population of 20,000 people. The Salem District Board is maintaining one elementary school at Asakadu while the Strict Baptist Mission has three schools in charge of Rev.H.A.Huckett, a member of our District Board, These schools being situated at Valavanthi, Ariyur and Valapur respectively. The Strict Baptist Mission has done some tangible work under the good influence and sincere interest of the Missionary Rev. Brand who dedicated his life to this work and laid his mortal frame there itself and his work is now being continued by Rev.H.A.Huckett. Some more schools will have to be opened in other areas by giving special grants and extra facilities of books, slates, clothing and mid-day meals to poor children in order to attract them to schools.

p.7-9 cf

The D.P.I. has submitted proposals for the education of the malayalees on the Kolli Hills. According to him there are about 18,000 malayalees on the hills; ~~and~~ the number of children of school age is about 2,600. ~~He~~ the Director has made the following recommendations for the ~~improvement of the condition~~ education of malayalee children on the hills:-

p7cf

p8cf

- (i) opening of 6 schools on the hills - [3 under the management of the Dt.Bd. and 3 under private agencies]
- (ii) Spl. scholarships for malayalee children;

p9cf

- (iii) Supply of books and slates to malayalee children reading in schools.
- (iv) Provision of midday meals for these children;
- (v) Training of teachers.

x p 45-48 cf

G.O. 626 Ed. 24.4.45

The recommendations follow generally those made in connection with the scheme for the education of Maravars in Tinnevelly Dt. approved last year and call~~ed~~ for the following remarks:

p8cf

I Opening of schools: The Director says that a full subsidy to cover the cost of the three schools to be opened by the Dt.Bd~~s~~. should be given from Provincial Funds. In the case of Maravar schools opened last year only a subsidy to cover the half the cost was sanctioned. The Bd. was asked to meet the other half from the Elementary Education Fund. It is for consideration ~~for the~~ whether a similar procedure may not be followed in the present case. The Director has proposed that teachers to be employed in board schools ~~from~~ on Kolli Hills should be paid 50 per cent over & above the pay admissible to them in the time scales. In the case of Maravars a special pay of Rs.5 per teacher alone was sanctioned. The Director considers that a liberal concession is necy. in the present case. His proposal may be accepted. As regards the three schools to be opened by private agencies the Director recommends the payment of grants at 50 per cent over the ordy. rates. His recommendation may be accepted as a similar enhancement has been sanctioned in the case of Maravar schools

equipment for the six schools. Presumably the subsidy or grant payable is to cover the full cost. The Director has also proposed the provision of quarters for teachers in schools on the hills. His recommendations generally follow those made in the case of Maravars. ~~N~~ These may be accepted.

D

p 9 y

II **Scholarships:** The rates of scholarships and free concessions provided generally conform to those adopted in the case of Maravar children. The new feature is that the Director has proposed the concession to all Malayalee children in higher elementary and middle schools while in the case of Maravar children the concessions are made available only for a limited number of children. The Director's proposals may be accepted.

E

p 47 y Ⓠ

III **Supply of books and slates:** The proposal of the Dir. that Malayalee children should be provided with books and slates may be accepted. He recommends ~~that~~ the payment of grant~~s~~ or a subsidy from Provincial funds towards the expre. involved. In the case of Maravar children reading in Board schools the supply of books and slates has been ordered to be made by the Dt.Bd. from the Elementary Education Fund and no special subsidy was paid for the purpose. The same procedure may be followed in this case also. The payment of a grant towards the supply of books and slates in schools under private agencies may be accepted.

IV **Provision of midday meals:** The Director has as usual proposed the supply of midday meals to malayalee children in schools ~~as~~ and has recommended ~~and~~ the payment of a subsidy or grant from Provincial funds towards the cost of the scheme. As the supply of meals is intended to bring~~ing~~ more children to schools and to spread elementary education on the hills the proposal may be accepted.

Finance (Exp.B).

At the instance of the Dt.Board, Salem, E.P.H. called for proposals from the D.P.I for improving the educational facilities provided for the Malayalee children in the Kolli hills area in the Salem Dt. The D.P.I. has accordingly submitted a scheme on the lines of the one sanctioned in G.O.626 Edn dated 24-4-45 for providing educational facilities to Maravar children in the Tinnevelly dt. The recommendations made by the D.P.I. are:-

(1) that six new schools should be opened in the area - three under the management of the Strict Baptist Mission which is already running 3 schools and three under the Dt.Board, Salem, involving payment of subsidies from Provincial funds;

(2) that buildings should be provided for the schools to be opened and that the teachers should be provided with quarters;

(3) that the teachers should be paid, in addition to the ~~scales of~~ pay now given by the Dt.Board to the different grades of teachers on the plains, 50% extra;

(4) that a subsidy of Rs 150 should be given for each school for equipment, the amount being enhanced to Rs 250 per school if there be strength enough for two teachers,

6

(5) that scholarships should be given to the pupils reading in the schools;

(6) that the pupils in all the schools may be supplied with books and slates;

(7) that midday meals may be provided to all the pupils; and

(8) that candidates from the Malayalee hill tribes coming up for training may be given 50% increase in the stipends now available for secondary and higher grade training.

2. E.P.H. have examined the recommendations of the D.P.I in ~~para 2 of~~ their note on pp.3-5 above. Their proposals may generally be agreed to in Finance except in regard to the following items:-

(a) Item (2) in para 1 above.

E.P.H. propose that a subsidy or grant to cover the full cost of provision of buildings for schools and quarters for teachers may be paid from provincial funds. The amount of expenditure involved is not known. E.P.H. propose to obtain an estimate of the cost involved in these proposals. It may be noted that in the matter of provision of quarters to teachers, payment of a subsidy was restricted to the schools under ~~the~~ management Mission, in the case relating to the provision of educational facilities to Maravar children. The procedure adopted in the case of Maravar schools may be followed in the present case also, both in regard to school buildings and quarters for teachers.

5.6.46.
6.6.46.

(b) Item (3) in para 1 above.

Although a special pay of Rs 5 only for each teacher in the Dt.Board's schools was sanctioned in connection with the provision of educational facilities to the Maravar children, E.P.H. propose to allow a 50% increase in the present case, The scale of pay of a higher Elementary grade teacher under the District Board is Rs 20-30. A Government servant ~~on~~ in this ~~pay~~ scale serving in the locality (Kolli Hills) will get a special pay (unhealthy locality) of only Rs 5 p.m. As a definite inducement is stated to be required for teachers who would otherwise not be anxious to go to the hills, it may be ~~admitted that the teachers should be allowed a~~ necessary to make a substantial addition to the~~ir~~ ~~pay~~ pay of the teachers (Rs 10 to 15 p.m). The 50% increase proposed by E.P.H seems however ~~to be~~ too high. Finance may suggest

that a fixed special pay of Rs 8 p.m. for each teacher may be paid.

Fees grants may also be regulated accordingly
5.6.46.
88
6.6.

(c) E.P.H. propose to call for a complete estimate of the cost involved in the D.P.I's proposals. On receipt of the details from the D.P.I, the proposals may be examined further.

3. In view of the large commitments involved in regard to food subsidies and for new schemes already sanctioned in the current year, it seems desirable not to undertake further commitments in the current year. Finance may suggest that the proposal might be brought forward as a Part II scheme for 1947-8.

In May last the D.P.I. submitted certain proposals for p.7-9c.f. ~~the~~ improvement of the conditions of the Malayalee children on the Kolli hills. The proposals were discussed on general lines in the notes on pages 3-5 ante. The Director was asked p.15.c.f. to furnish an estimate of the extra cost involved. His reply is on pages 17-19 c.f.

2. The question for consideration is whether these proposals should be examined as a Part II scheme for 1947-48.

The total ~~extra~~ cost of providing educational facilities for the Malayalee children at Kolli hills has been estimated at Rs. 43000. [Recurring : -- 20037 / Non-recurring. :-- 22500.]

p. 17.c.f.

The proposals do not satisfy the criteria laid down by the Finance department for Part II schemes. In the circumstances it is for orders whether the D.P.I.'s proposals should be further examined. It may be noted ~~especially, in view of the fact~~ that the scheme aims at providing educational facilities to a backward class ~~communities such as Malayalee children on the Kolli hills~~
