Government of Madras,
Madras.

A) At it exam
By A
21.1.48

Sir,

I beg to submit this application of mine for financial help to enable my son M. Krishnamurthi M.Sc. who is now prosecuting higher studies in Electronics in the University College, Southampton, England to complete his studies.

I am giving below the relevant information regarding him.

(A) His Academic Career.

University	Exam passed	Subjects taken	Class	Year
Andhra.	Matriculation.			1938
Andhra.	Intermediate.	Mathematics, Physics and Chemistry in Part III.	1st.	1940
"	B.Sc. Honours.	Physics Main, Mathematics & Chemistry subsidiary.	1st.	1943
"	M.Sc.	Thesis on Ultrasonic Velocities in aqueous solutions.	By Research.	1944

(B) Research.

In September 1944, he was appointed by the Department of Industries of the Government of Madras as a research assistant to report on the possibility of an electrical and radio servicing instrument industry in this province. He designed, constructed and supplied cheaply several types of Radio Servicing Instruments to the Provincial Broadcasting Department in whose Radio Laboratories he conducted the research under the direction of the Radio Engineer to the Government of Madras. He has also designed and made the various parts of the moving coil electrical instruments using Indian materials as far as possible, like magnetic steel etc. His report has been submitted to the Government.

(C) Subsequent employment.

From April 1947 till he left for England, he worked in the electronical section of the Radio and Electricals Ltd, Madras as assistant Engineer in charge of its testing laboratory and of its design section.

(d) Higher studies in England.

On the basis of his previous record of work with which Professor A.M. Taylor, Head of the Department of Physics in University College Southampton, England was impressed he secured a seat in the post-graduate diploma course in Electronics. This is a course which when completed will give him the needed theoretical and practical training in the making and manufacture of Radios and carrying on further research in radio Engineering on which he was engaged as referred to already in (B) above.

2

3

The course he is undergoing is of one year's duration, commencing from October 1947.

The expenses he has to incur amount to Rs.7000/- and it is beyond my means to meet them. A situation has arisen in which without Governmental help it will be impossible for him to complete his studies.

The studies in which he is engaged will be of great value in the process of industrialisation in which our country is now engaged.

Government has been rendering financial help to ^{young} ~~youth~~ men who have proceeded abroad to prosecute higher technological studies.

In this connection I may be permitted to point out that it was as Government Scholarship holder that he carried on his research in the Provincial Broadcasting Department. The higher studies he is now prosecuting are a continuation of this research work.

In view of all these circumstances I request the Government to be pleased to give a grant to meet the expenses of his studies in England.

M. Venkatarangaya

Mr. Venkatacharya

Development Department (DI)

27/2/48
The file relates to the request of Sri M. Venkatarangiah for granting financial help to his son Mr. M. Krishnamurthy, to prosecute his studies in the U.K. This Department is concerned only with the deputation of Government Servants for technical studies abroad and the E.&P.H. Department is concerned with the award of overseas scholarships to the private students. The E.&P.H. Department say that the selection of candidates is made by a committee in the first instance and then the names are approved by this Government as well as by the Government of India as they also share 50% of the cost. They also state that the selection of candidates for the year 1947-48 is over and it is not likely that the Government of India will continue the scheme in the year 1948-49. In the circumstances they observe that there is no case for granting any financial help to Mr. M. Krishnamurthy to prosecute his studies under the overseas scholarship scheme. The Finance Department also agree to the views of E.&P.H. Department. It does not therefore seem that the Government can grant the request of Sri Venkatarangiah to sanction financial help to his son in this case.

The file may be circulated to H.M. (Ind) H.M. (Edn) and H.M. (Fin) for orders whether the request at B'm 34 may be negatived in the circumstances explained above.

The notes and the orders in circulation from p 4 ante may be perused. It may be noted that the scholar Mr. M. Krishnamurthi has also made an applx.

to the C.G.D. in this regard and the matter is under consideration of that Court. It is not yet known whether the C.G.D. have sanctioned any grant to the Scholar. It may perhaps be profitable to await the decision of the C.G.D. in the matter as in case the C.G.D. sanction a full grant of Rs 7000 which is required for the Scholar's further studies, it may not be necessary for this Court to render any financial aid to the Scholar. But if the intention is that a grant of Rs 2000 should be sanctioned ^{in respect of which the C.G.D. may decide} whatever may be the decision of the C.G.D. in the matter, it is submitted with ref. to P's Fin. note on p 6 ante that it is not possible to follow the new service procedure in this case as the matter is very urgent. The course for which financial assistance is reqd for the Scholar has already commenced from October 1947 and its duration is one year.

H.M.(Fin) Returned the file to me and asked me to examine the point whether circulation to H.Pr. is really necessary in this case, and whether the case would not fall under Section III.A. of 'y' in which case circulation to H.Pr. would not be necessary. At the instance of H.M.(Fin), the Deputy Secretary, Finance came and discussed the case with me and he has now agreed that the procedure under Section II(iii) of 'y' is not necessary in this case, and that, as held by H.M.(Fin), the case will fall under Section III.A. at 'y'. Please see the routine note at 'Y' which he has furnished. He has pointed out also that under III.A. a summarising note, be sent to all the other H.Ms., and the matter would have to go before the Legislature in due course. This will be duly done. As it is now seen that circulation to H.Pr. is unnecessary I have struck out "H.Pr." in the marking.

Routine

Secy E.P.H. asked me whether X or p 9 is correct.

It is not correct as the expenditure is less than Rs 20,000/- non-recurring. This would not in any case go before the S.F.C.

III A of (V) is the governing provision i.e. the scheme may be sanctioned after approval by H.M.s. concerned & H.M. (Fin) H.R. need not see.

A summarising note explaining the nature of the scheme & its expenditure involved has however to be sent to all the other H.M.s., however small the amount to be spent may be. Also the matter has to go before the Legislature in due course.

Summarising Note.

Sub: Special grant to Sri M. Krishnamurthi for advanced studies in the United Kingdom.

Professor M. Venkatarangiah, retired Professor of Politics, Andhra University, submitted an application for financial help to enable his son Sri M. Krishnamurthi, to complete his studies in Electronics in the University College, Southampton, England. After taking the M.Sc. degree Sri Krishnamurthi was a research student for sometime in 1944 in the Provincial Broadcasting Departments under this Government. He proceeded to England for higher studies in October 1947. The course he is undergoing is for one year. He is stated to be a brilliant ^{student} ~~He~~ He has to spend in England much more than he expected. It was considered that he deserved financial help and that a grant of Rs. 2,000 should be paid to him. As it was pointed out that the financial assistance should be made urgently if it was to be of use to the candidate it was decided to sanction the grant immediately without following the 'new service' procedure. Accordingly orders for the payment of the grant were issued with the concurrence of the Hon'ble Ministers for Education, Industries and Finance.

A copy of the note may be circulated to all the other Hon'ble Ministers and the Hon'ble Premier and the Chief Secretary.

Explanation note

Prof. M. Venkatarangaraj, retired professor of Physics, Andhra University, submitted an application for financial help to enable his son Sri M. Krishnamurthy, to complete his studies in Electronics in the University College, Southampton, England. After taking the M.Sc degree Sri Krishnamurthy was a research student for sometime in 1946 in the Prod. Broadcasting Dept. under this Grant. He proceeded to England for higher studies in Dec 47. The course he is undergoing is for 1 year. He is stated to be a brilliant student and as he has to spend in England much more than he expected it was contide that he should financial help. Accordingly a grant of Rs 2000 has been paid to him.

As the expec is on a 'New Source' a total sum of Rs 100 is included in the supplementary estimate. [This balance will not be for raising within the grant, if possible, available, as by other further supplementary grants in March 1949]
